JOURNAL
OF THE
LEGISLATIVE COUNCIL
OF THE
PROVINCE OF NEW YORK.

TWENTY-THIRD ASSEMBLY FIRST SESSION

At a Session of the Council & General Assembly begun at the City Hall of the City of New York, on Tuesday the eighth day of November, 1743.

His Excellency the Governour having been pleased to dissolve the late General Assembly on the 27th of September last & to order Writts to be issued the same day for electing Members to serve in a new one returnable this day

The Council met accordingly

PRESENT — *The Honble* CADWALLADER COLDEN, Esq^r, Speaker,

ARCHIBALD KENNEDY,
JAMES DE LANCEY,
HENRY LANE,
DANIEL HORSMANDEN, Esq^{rs}.

His Excellency having been informed that a Majority of the Representatives were met in the Assembly Chamber

His Excellency the Honourable George Clinton Esq^r came to the Council Chamber and sent a Message by the Deputy Clerck of the Council to the Assembly Chamber to require the Immediate attendance of the Members who are qualified

The said members thereupon attended accordingly

His Excellency then ordered them to return to the Assembly Chamber & Choose a Speaker and present him Immediately for his approbation

The Members thereupon left the Council Chamber & soon after returned and presented Adolph Philipse Esq^r for their Speaker to his Excellency for his approbation

Which Choice his Excellency was pleased to approve of

Then the said Adolph Philipse Esq^r the Speaker after a short apology for himself desired his Excellency in Behalf of the House That their words and actions might constantly have a favourable construction That the members might from time to time have free access to his

Excellency and that they and their servants might be privileged and protected as usuall which his Excellency was pleased to grant

His Excellency then made a Speech to the Council and General Assembly and delivered one Copy thereof to the Speaker of the Council and another Copy thereof to the Speaker of the General Assembly

After which His Excellency left the Council Chamber & y^e members returned to y^e House

The Speaker resumed the Chair

Ordered, that His Excellencies Speech be read

Which being read accordingly It was further

Ord^d, that the Same be entred in the Minutes and is in the words following

Gentlemen,

"It wou'd have been very agreeable to me to have embarked for my Government soon after his Majesty was graciously pleased to honour me with his Royall Commission, but the Affairs of this province as well as my own rendered that Impracticable

"I am now come amongst you Gentlemen with such favourable Impressions of the people you represent, that it shall be my Chief Study, by every proper method to deserve your Good-Will and meritt your esteem as it shall be my constant endeavour to discharge the Trust reposed in me by a steady adherence to the principles of Justice and a due regard to the Establish'd rights & privileges of the peoples, Consistent with the known Prerogative of the Crown: and I am persuaded from your Loyalty to his Majesty, whose natural affection Extends to the Remotest of his Subjects, and his glorious zeal in maintaining the Liberties of Europe, have justly rendered him the Darling of his own people, and gained him the Immortal Title of the Deliverer of others, and likewise from your wanted Regard to the Honour & Reputation of the Province; that you will not fail of answering his Royal Expectations and my reasonable hopes in Granting a Revenue for the suport of his Government, in as ample a manner and for a term as long as has heretofore usually been given under any of my predecessors, Governors in Chief of this province

"The short time I have been with you has not permitted me minutely to Examine into the State of your fortifications, the security & well maintaining of which has (since my arrival) been strongly recommended to me by his Majesty; and I cannot doubt but the present critical juncture of the affairs of Europe, will induce you to exert your utmost care in points of so great and general Importance, And as you are indebted to the bountifull care of his Majesty for a late large supply of warlike stores, it will be incumbent upon you to shew your thankfulness by making immediate provision for the purchase of such others, as in the Judgment of our Superiors ought to be had at the proper Charge and Expence of the province

I understand and am thoroughly convinced of the great consequence it is to the British Interest on this Continent in General, as well as to this Province in particular, to secure the friendship and dependance of the Six Nations of Indians, and to cement if possible into a firm union with each other all those who are in alliance with any other of his Majesties Provinces You will therefore find me heartily disposed with your assistance to put my Intentions on this Head in Execution as soon as the Season for a general Treaty will permit

The opinion I entertain of his Majestyes Subjects in this province forbids me to think they will suffer the usual place of their Governours residence, to lye longer in the Ruins to which the late unhappy Fire has reduced it I cannot but sensibly feel the Inconveniencies that from hence arise to me and my family. If therefore some regard to them, Joined to that which the dignity of the Government requires at your hands can prevail on you to take this matter into your immediate consideration, it will redound very much to your Honour and my Ease

Having taken notice before my departure from England, that this Province contrary to the custom of most others in America, is intirely uprovided with any agents for negotiating the publick affairs of the Colony at the Court of Great Britain I cannot on this occasion omit mentioning to you the necessity there is of an appointment of some proper persons for this End, and of Establishing such a reasonable allowance for their Service, as may induce them to exert themselves with Vigilance & Care in whatever may contribute to y^e welfare or affect the publick Interest of the province

I desire you Gentlemen to be assured Nothing in my power shall be wanting to demonstrate my real regard and attachment to the Interest of this Colony; I will endeavour to convince you of the sincerity of my Intentions by the uprightness of my actions; and shall always be well pleased with my administration when I know it stands approved by the general voice of the people

GEO CLINTON

Ordered, that His Excellency's Speech be forthwith printed

The Hon^{ble} James De Lancey Esq^r moved that an Humble address be presented to his Excellency to congratulate him on his safe arrival with his family into this province

To Express the gratefull sence we have of his Majestyes affection to his people & his zeal for the Liberty of Europe in Exposing his Sacred person to the greatest Dangers

To return his Excellency our Thanks for the favourable sentiments he has been pleased to express concerning the people of this province & to assure him that we will chearfully contribute every thing in our power that may best conduce to the Honor of His Government, the ease of his administration and the welfare of the people

Resolved, that an Humble Address be presented accordingly

Ordered, that the Hon^{ble} Cadwallader Colden, James De Lancey & Daniel Horsmanden Esq^r be a Committee to draw up the said address

Then the Council adjourned till to morrow morning 10 of the clock

Wednesday, Nov^r 9th, 1743.

The Council met according to adjournment

PRESENT — *The Hon^{ble}* CADW^r COLDEN, Esq^r, Speaker,

Then the Speaker with the Council went up to his Excellencies to present their address & being returned

The Speaker resumed the Chair

The Hon^{ble} Cadwallader Colden Esq^r reported to the Council that Having attended his Excellency with their Address he was pleased to return a very favourable answer to it, which he reported in his place

Ordered, that the said Address and Answer be entred in the Minutes and are in the words following

To His Excellency The Honourable GEORGE CLINTON Esq^r Captain General and Governour in Chief of the Province of New York and Territories thereon depending in America and vice Admiral of the same &c

The Humble ADDRESS of his Majestyes Council for the Province of New York

May it please your Excellency

Wee his Majestyes most dutifull and Loyal subjects the members of the Council for this Province Joyfully congratulate your Excellency's safe arrival in your Government with your Lady and Family

We, and we are perswaded the people of this Province are most sensibly affected by the numerous manifest Proofs His Majesty has given of his affection to his People and of his zeal for the Liberty of mankind lately most evidently demonstrated in his Exposing his sacred person to the greatest Dangers in defence of the Liberty of Europe and we are satisfied the people of this province take his Majestyes appointing your Excellency Gov^r in Chief as an Instance of his Royal Favour to them. Your Excellencies immediate descent from that Antient Noble Family which has distinguished itself through many generations by their Loyalty, Courage, Probity and benevolence, together with your Excellencies past life in the service of your King and Country, shew his Majestyes gracious Intention in sending your Excellency to govern us

It is with the highest satisfaction we observe the favourable sentiments your Excellency has been pleased to express concerning the people of this Province; we look upon it as a happy Presage of that Harmony and good agreement which we trust will subsist between the several Branches of the Legislature

As we cannot doubt of the uprightness of your Excellencies declaration in the assurances you have been pleased to give us of your steady adherence to the principles of Justice and of your regard to y^e Rights and priviledges of the people so neither can we doubt but that they will make such dutiful returns as his Majestyes most gracious favours to them require and your Excellency's personal merit deserves

We do assure your Excellency that the matters you have recommended to us for the safety and prosperity of the Colony shall be the subject of our most serious consideration and as you will endeavour to make us a happy and Flourishing people so we of his Majestyes Council will on our part contribute everything in our power which may best conduce to the Honour of your Government the Ease of your administration and the welfare of the people.

By order of the Council

CADW^r COLDEN Speaker

His Excellencies Answer to y^e s^d Address

Gentlemen,

I return you my Thanks for the Joy you Express on my safe arrival with my family into this Government

The grateful sence you have of his Majestyes affection to his people and his zeal for the Libertyes of Europe in exposing his most sacred person to the greatest Dangers cannot fail of recommending you to his Favour and is highly acceptable to me

You may rely on the assurances I have given, as I cannot have a greater pleasure than to see the people of this province flourishing & happy during my administration.

Assembly Chamber Dec^r 16. 1743

"REASONS to be offered by the Committee of this House to the Committee of the Council
"upon the Subject matter of their fourth & fifth Amendm^t to the Bill Intituled, An Act for
"the better regulating the Militia why this House cannot agree to the said two Amendments

"As to the *fourth*

"For that we do not find that in any of the Militia Acts which have been passed by the
"Lieut^t Governour the Council and the Generall Assembly such exception has been made in
"behalf of the City of New York and therefore we conceive the present Legislature ought to
"make no such exception

As to the *Fifth*

"For that we do not find that such Exceptions have been made in any of the Acts above
"mentioned but that on the Contrary in An Act passed in the year 1741 the same provision

"was made as in the present Bill and therefore are of opinion that the said Legislature ought to acquiesce with the present Bill in the Case mentioned in the said Amendment

Ordered, that the Honble James De Lancey & Daniel Horsmanden Esq^r do prepare a Draught of the Reasons of the Council to be offered in support of the aforementioned fourth & fifth amendm^t against to morrow morning

The Council adjourned till to morrow morning nine of the clock

Saturday, Dec^r 17th, 1743.

The Council met according to adjournment

PRESENT — *The Honble* ARCHIBALD KENNEDY, Esq^r, Speaker,

JAMES DE LANCEY,
PHILIP CORTLANDT,
HENRY LANE,
Da^r HORSMANDEN, Esq^r.

The Speaker assumed the Chair

The Honble James De Lancey Esq^r laid before the Council a Draught of the Reasons to be offered in support of the fourth and fifth amendments made by the Council to the Bill Entitled, An Act for the better regulating the Militia which having been read were approved of and ordered to be given at y^e Conference to be held for that purpose

Ordered, that the Honble James De Lancey & Da^r Horsmanden Esq^r be managers for the Council at that Conference

Ordered, that the Honble Henry Lane Esq^r do go to the General Assembly and acquaint them that the Council desire a present conference at the Court House in the City Hall on the subject matter of the last Conference and have appointed the Honble James De Lancey and Daniel Horsmanden Esq^r to be managers for the Council at that Conference

REASONS to be offered by the Honble James De Lancey & Daniel Horsmanden Esq^r Managers appointed in behalf of the Council to the Committee of the Assembly at a Conference upon the subject matter of the last Conference in support of the Councils fourth & fifth amendments to the Bill Entitled, An Act for the Better regulating the Militia

The fourth amendment is in the clause whereby all persons residing in the City of New York shall be and are obliged upon due warning to watch in their respective Towns under the like Fines as are inflicted on enlisted persons

The amendment of the Council is That Ministers of the Gospell, Doctors of Physick & Surgeons only shall be excepted

The Reason of the Assembly against y^e amendm^t is "For that they do not find in any of the Militia Acts which have been passed by the Lieut^t Governour the Council and the General Assembly such Exception has been made in behalf of the City of New York and therefore conceive that the present Legislature ought to make no such Exception

To which the Council answer

1st That if the amendment be in itself reasonable it's having been omitted in any Act passed by the Lieut^t Governour, the Council & Assembly can be no good cause for it's being left out of this Bill

2^{dly} With respect to Ministers of the Gospel who are the persons first exempted by the Amendment There has and ought alwayes to be a Regard paid to their character & calling and by the Laws of all Civilized Nations they have been exempted from such like Dutyes, That upon the Regard shewn them by persons of Distinction more especially by the branches of the Legislature much of the Respect due to them from the people under their care may depend But if any part of y^e Legislature should neglect them it cannot be known how much that may lessen them in the minds of the people and how much this may tend to the prejudice of Religion in General

And Lastly in the clause preceeding this the Council find that Ministers of the Gospell, Doctors of Physick & Surgeons are by the Assembly themselves Excepted in the City and County of Albany and we are much at a loss to conceive what good reason can be given why the same Indulgence should not be shewn to the Ministers of the Gospell in New York. That the Council know no cause why such invidious distinction should be made between the Ministers of the Gospel of the City & County of Albany and the City of New York so as to exempt the former from Military Watch and subject the latter thereto

With respect to Doctors & Surgeons the other persons exempted by the Amendment, as the Assembly themselves have thought it reasonable in the same preceeding Clause to exempt persons of those professions in the City and County of Albany So we conceive it alike

reasonable that those of the same profession in the City of New York should be also exempted as we do not see any difference in the two Cases.

As to the fifth Amendment

The Amendment of the Council is as follows

" Provided always that nothing in this Act shall Extend or be construed to Extend to the members of his Majesties Council, the Clerk of the Council or his Deputy or their Domestick

" Servants any thing in this Act contained to the Contrary notwithstanding

The Reason of the Assembly against the Amendment is

" For that they do not find that such exceptions have been made in any of the Acts above mentioned but that on the Contrary in An Act passed in the year 1741 the same provision was made as in the present Bill And therefore are of Opinion that the said Legislature ought to acquiesce in y^e present Bill in the Case mentioned in the said Amendm^t

In support of their Amendment the Council first say

They suppose the Assembly must be under some mistake, For that the Council (not relying altogether on their memories) have caused search to be made in the Secretaries office and do find That in An Act to continue An Act Entitled, An Act to Regulate the Militia of this Colony with a further addition thereto passed by the Lieut^t Governor the Council & General Assembly to which the Lieut^t Governour assented the 27th of Nov^r 1741 The Gentlemen of his Majestyes Council and the Clerk of the Council are expresly excepted by two clauses in page the 2^d

2^dy And the Council also find that the same exemption hath been further approved by the Lieut^t Governor the Council & Assembly by An Act passed the 29th October 1742

And altho the Assembly do say That they conceive the present Legislature ought to make no such exception And that they are of opinion the said Legislature ought to acquiesce with y^e present Bill, the Council do not presume to say that the Assembly ought to agree to their Amendments much less that the Legislature ought lest such a manner of Expression should seem to prescribe to the other Branches of the Legislature & derogate from that Independency which ought to be preserved Entire But as the Council do not at present think it necessary to descend into other Reasons which naturally occur upon this Occasion they hope what has been already offered will be sufficient to Induce the Assembly to agree to their Amendm^ts

Ordered, that the Bill Entitled, An Act to prolong the Currency of Bills of Credit Emitted by Virtue of An Act Entitled, An Act for Emitting Bills of Credit for the payment of the Debts and for the better Support of the Government of this Colony and other the purposes therein mentioned be now read the third time

Then the said Bill was read the third time and

On the Question being put

Resolved, that the said Bill do pass

Ordered that the Bill Entitled, An Act for paym^t of the Salaries, Services and Contingencies therein mentioned untill the first of Sept^r 1744 out of y^e Fonds appropriated for the Support of this Government be now read the third time

Then the said Bill was read the time &

On the Question being put

Resolved, that the said Bill do pass

Ordered, that the H^{on}ble Philip Cortlandt Esq^r do acquaint the General Assembly that the Council have passed the said Bills without any amendment

The Council adjourned during pleasure

The Speaker resumed the Chair

The H^{on}ble James De Lancey Esq^r reported that the H^{on}ble Daniel Horsmanden Esq^r & himself had met Col^l Moore, M^r Richard, M^r Van Horne & M^r Jones Managers for the General Assembly at a Conference & had delivered them the Reasons of the Council in support of the fourth & fifth Amendments made to the Bill Entitled, An Act for the better regulating the Militia

A Message from the Assembly by Col^l Moore & M^r Richard acquainting them that the Reasons given by the Council in support of their fourth & fifth Amendments to the Bill Entitled, An Act for the better regulating the Militia are not satisfactory to that House and therefore desiring a free conference on the subject matter of the said Amendments and that they would be pleased to appoint a Time & place for that purpose

Resolved, that the Conference desired be immediately in the Court House in the City Hall and that the H^{on}ble James De Lancey & Dan^l Horsmanden Esq^{rs} be Managers for the Council at that Conference

Ordered, that the H^{on}ble Henry Lane Esq^r do acquaint the General Assembly therewith

Then the Council adjourned during pleasure

The Speaker resumed the Chair

The H^{on}ble James De Lancey Esq^r reported to the Council that M^r Horsmanden & himself had met the General Assembly at a free conference and were of opinion that the Reasons given by the Council in Support of their fourth & fifth amendments remain unanswered

Resolved unanimously, that the Council do adhere to their s^d amendments

Ordered, that the Honble Daniel Horsmanden Esq^r do acquaint the General Assembly therewith

A Message from the General Assembly by Col^l Moore & M^r Richard to acquaint the Council that that House agrees to all the amendments made by the Council to the Bill Entitled, An Act for the better regulating the Militia and desiring that the said Bill may be amended accordingly Then the said Bill was amended & read

His Excellency the Honble George Clinton Esq^r being come to the Council Chamber

The Honble Philip Livingston Esq^r one of the members of his Majestyes Council for this province took the oaths appointed to be taken instead of the oaths of Allegiance & Supremacy and took & subscribed the Test and also took the oath of a privy Councillor and then took his place in the Council

His Excellency sent a Message by the Deputy Clerk of the Council to the General Assembly requiring their Immediate attendance in the Council Chamber

The Assembly attending accordingly with their Speaker

His Excellency made a Speech to the Council & General Assembly and delivered one copy thereof to the Speaker of the Council and another to the Speaker of the General Assembly

His Excellency left the Council Chamber

The Speaker resumed the Chair

Ordered, that his Excellencies Speech be read. Which being read it was

Ordered, to be Entred in the Minutes and is as followeth

Gentlemen,

As the season of the year did not permit you to provide for all those things recommended to you in my Speech at the opening of the last meeting particularly as to y^e supplying the Magazines of the respective Garrisons with Gun powder, the rebuilding the House in the Fort and the appointing Agents for the Colony at the Court of Great Britain, I therefore recommend them to your consideration; not doubting but they will have their due weight in your deliberations

I have received two Letters from M^r Stone, Secretary to the Lords Justices, with their Excellency's directions that I should Employ the most Effectual means, for putting this Colony into the best posture of Defence that shall be possible, and to be constantly upon my guard against any surprize from any Quarter whatsoever: And by a ship lately arrived here, advice has been brought that y^e French had been preparing to make an Invasion on his Majestys Kingdoms in favour of a popish pretender, and that there has been an Engagem^t in the Mediterranean between part of his Majesty's Fleet under the command of Admiral Mathews and the combined Fleets of Spain and France which events may probably bring on a French Warr: And therefore it behoves us to put ourselves in such a condition, that we may be able to repell the Attempts which may be made upon any part of this Country and in order to do that it will be proper to consider what may be wanting to compleat the Fortifications in this City, and the County of Albany, that those Frontier places may not be exposed to the Insults of an Enemy

Gentlemen,

You cannot but be sensible of y^e great Importance of Oswego not only for carrying on an advantageous Trade with the remote Indians but also for preserving the Six Nations in their Fidelity & keeping them steady to the British Interest; therefore I persuade myself you will do whatever shall be necessary for the additional strength of that place, and make a provision for carrying up the Cannon and a supply of Gunpowder early this Spring to that and the other out Garrisons

The ill consequences I apprehend to the whole province if that Garrison of Oswego should fall into the Enemy's Hands induced me for it's support to order some persons to be sent thither to reside there this last winter. I expect you will provide for that Expence, and for the support of such an additional number of men, as may be found needful to send thither

It has been represented to me that the Allowance made to the Commissioners for Indian Affairs, is not sufficient to defray the necessary disbursements which that service will require,

Especially in case of War with y^e French I must therefore recommend it to you to make such farther addition as the nature of that service does demand

By the Accounts received from y^e West Indies, the small pox rages in several of the Islands there; I have taken all the precautions in my power to guard against its being brought in hither, and I think it would be expedient to pass a Law as soon as may be to prevent the bringing in that or any other infectious Distemper with such penalties as will render it effectual for that purpose

Gentlemen,

These things which I have recommended to you are such as concern the Honour the Interest and safety of this province and if there be any other which can contribute to the welfare of the people under my Government I shall chearfully concur in every measure that can promote an end I have so much at Heart

G CLINTON

Which being read accordingly it was further

Ordered, that the same be Entred in the Minutes and is in the words following

Gentlemen,

At your last meeting, from the authentick Intelligence I had concerning the French War you had my Recommendation to make provision for several matters, which I then conceiv'd to be of great Importance. though hitherto it has not had intire Effect

His most sacred Majesty in Just Resentment of the many repeated Indignities offered to his Crown and Kingdoms by the French King, by his Notorious Violation and Breach of the most

solemn Treaties, his open Hostilities lately committed against the British Fleet in the Mediterranean, and the daring affront offered by the Reception of the son of the Pretender in the French Dominions and the preparations made for an Invasion of his Majesty's Kingdoms in favour of a popish Pretender, found himself indispensably obliged to take up Arms, in concert with his Allies, to support the Ballance and Liberties of Europe by putting a cheque to the Ambitious views of that aspiring Monarch, to reduce all the powers of Europe under his Influence and Tyranny, not doubting of the Blessing of Almighty God on so righteous a Cause

It is therefore incumbent on us to use the greatest Diligence and Dispatch to put this province into the best posture of Defence, to repel any attempts which may be made against us, and not only so, but to exert ourselves in such a manner as we may be able upon occasion to attack & Distress our Enemies

The compleating the several Fortifications in this City, Albany, Oswego, and the other Garrisons should now be attended to without the least Delay wherein I cannot but observe there has hitherto been made but too slow a progress: As to what I think farther necessary to be done for the security and Defence of this City and other parts of the province, I shall lay the particulars thereof before you

According to my former Resolution I have sent up the Cannon and Ammunition to Oswego and a reinforcement of Soldiers, as also a detachment to Saragtoga, all which are arrived; and upon the Representation of the officer at Oswego whilst I was at Albany I then ordered such things as were immediately necessary for the security and Defence of that place, and likewise directed an Interpreter to be sent there, and six Indians to serve as scouts to watch and give Intelligence of the motions of the Enemy, and upon information since I arrived here, have further directed two Indians of each of the Six Nations to be retained by us in our pay, to Reside at Oswego, in order to assist in the Defence of it, in case it should be attacked. I found it requisite also to advance fifty pounds to the officer there to lay out, occasionally for presents to the Indians, or other incidental services, as shall be judged expedient from time to time, and the same officer has acquainted me that he has already expended several sums on such like occasions which I have promised him to recommend to you to reimburse; for which & all other monies advanced upon the Credit, and for the Honour and service of the publick upon any Emergency, I cannot doubt but you will readily make provision, when the accounts are laid before you

The great Importance of that place has been often enlarged upon, so as to render a Repetition needless, I cannot however omit taking Notice, that upon the preservation of that Fortress the Fidelity of the Six Nations to the British Interest does in a great measure depend

I have lately had an Interview with those Indians at Albany, and have renewed the Treaties and Strengthened the Alliance with them, they expressed their hearty attachment to the British Interest in the Strongest Terms, tho' I found them rather inclinable not to intermeddle with the war, unless provoked thereto by an Attempt of the French from Canada upon any of our possessions

There met me upon this occasion Commissioners from the province of the Massachusetts Bay and the Colony of Connecticut fully impowered to treat with those Nations by my permission to revive the Ancient Amity and alliance between them and those Governments, in which I was glad of the Opportunity of giving them the full Liberty, conceiving it must redound to the advantage of the Common Cause of his Majesty's respective Colonies in North America, and of course tend towards an Hearty union of the several Governments in their respective Councils and actions upon the present Important Occasion

It highly concerns the Interest of this Government in particular as well as the British Interest upon the Continent in General, to preserve the Six Nations and all other Indians in Alliance with us and them, steady in their Engagements: for if by the Artifices and Intrigues of a Subtle Enemy they should at length through any Improvidence of ours, be seduced from their fidelity to His Majesty we may easily see how fatal and Destructive such an Event would prove

The Commissioners from the Massachusetts Government had full powers likewise for Entering into a strict union and Alliance with us and all the Colonies on the main to concert and agree with them upon proper measures for their Joynt Conduct in the War, as well Offensively as Defensively against the Common Enemies, for our mutual advantage. I earnestly recommend it to you to provide Supplies the better to enable me to Commission proper persons with like powers for this laudable End, that thereby such measures may be engaged in, touching the conduct of the war in these parts, that his Majesty's American Subjects may not only be safe in their possessions, but become a Terror to his Enemies

Gentlemen,

It may be proper for you to Consider that while his Majesty's Station Ship is Refitting, our Coast and Trade is unguarded, in this Case the Examples of the Neighbouring Governments may at this Conjunction well be thought worthy your Imitation, the fitting out Vessels well manned and Armed in order to prevent or Defeat any Efforts of a rapacious Enemy, 'till the Man of War can be Compleated for service and other ships arrive from Great Britain (which I

have represented to the Lords of the Admiralty to be requisite) may well compensate any expence the province can be put to on that account

Nor is the appointment of an Agent at the Court of Great Britain to negotiate the Affairs of the province with a Salary adequate to that service, of Small Importance I have before recommended it, and as a matter I think still of greater Concernment at this time, I cannot but repeat it.

Gentlemen,

These several services must unavoidably be attended with Extraordinary Expence, but think seriously how fatal the consequences may be to our Civil and Religious Liberties, should we by any Backwardness or Defect in making suitable provision for defraying the Charges necessary to these Ends, and to answer all other Incidents and contingencies of the Government supinely suffer any part of this province to fall into the Enemy's Hands.

If therefore the Honour of his most sacred Majesty and the British subjects the preservation of your Liberties and properties and all that is dear and sacred to you may be thought the most prevailing motives for exerting your vigour at this time of common Danger; I entreat you calmly and deliberately to think on these things and I persuade my self I may confidently rely on your raising such supplies, as will Effectually answer the present Emergencies and enable me to support the Honour & Dignity of this Government, and pursue every method for its safety, to which you will always find me attentive with the sincerest Regard

G. CLINTON.

The Speaker assumed the Chair

His Excellency communicated to the Council by John Catherwood Esq^r his private secretary a Message he was then sending to the General Assembly which being read was

Ordered to be Entred in the minutes and is as followeth

Gentlemen,

In my Speech delivered to you on the 18th Instant I spoke in General how much it importd us at this Critical conjuncture to use the utmost Diligence and dispatch for putting this province into the best posture of Defence, and recommended to you to make a provision suitable to that End, and as to what I had already ordered or should think further necessary to be done immediately for our security, I told you I would lay the particulars before you, and accordingly they are contained in the following Articles

1st As to my Directions already given concerning the Fortifications in this City I have ordered the Brass Cannon on the Flag Mount in Fort George to be repaired and rendered fit for service

Ninety five shot boxes (one for each Gun) four more Centinel Boxes a new Flag Staff, and a Plat Form on the South East Bastion in Fort George to be forthwith made

Leaden Aprons to be made for y^e Cannon on Copsey Battery & a Fence from y^e East to y^e West side thereof

Eight cannon to be remov'd to M^r Rutgers's Wharf on the North River and eight to Burnets Key on the East River for Sand Batteries in case of an Invasion

2^{dy} Concerning what I judge further necessary to be done towards compleating the fortifications of this City The Magazine in Fort George under the South East Bastion to be sufficiently repaired for the Reception & Safe Custody of Gunpowder

A greater Quantity of Gunpowder to be forthwith provided that all the Garrisons may have a sufficiency The rest of the Barracks in Fort George should be rebuilt for the accomodation of the two Independent companies which cannot be lodged there without them

A Banquette or Foot Bank should be raised along the inside of the parapet on Copsey and the Flat Rock Batteries to a proper Height for y^e musqueteers to fire over.

The Berm on Copsey Battery to be filled up with sod work, to prevent the Enemy's landing there

To take away every other Gun on Copsey and fill up each other Embrasure with sod work

Tomkins and Leaden Aprons should be made for all the Cannon

Provision should be made for sorting all y^e Cannon shot and placing them on Boxes next to y^e proper Guns

Matrosses with proper Officers should be provided for, to be kept in Constant exercise

3^{dy} As to what I have directed concerning y^e Fortifications in the County of Albany & respecting y^e Indians in order to secure their dependance on the British Interest, upon y^e Representation of y^e Officer at Oswego to the Com^r of Indian Affairs at Albany communicated to me there & upon y^e Report & Examination of some Traders I then ordered that y^e port Holes of the new wall should be immediately altered in such manner as that y^e Cannon might be traversed, and likewise that y^e platform should be repaired

That the Officer should make use of the Timber of the Traders Houses to make Ramparts and piles to place against the wall to strengthen and secure it

I have ordered the Commissioners of Indian Affairs immediately to send up into the Sennekas Country an Armourer and Smith with two or three other men with them to reside there upon the complaint of the Sachims of that Nation that they were in great want of them to assist in removing their Castles near to the Cayongas for their greater strength and security according to my recommendation to them for that purpose

4^{thly} Concerning what is further necessary to be done for the security of the County of Albany

A Strong ffort to be built in a proper situation near Crown point, and a sufficient Garrison kept there to maintain it, and as from thence the French can make Inroads into this Country and the neighbouring Governments to the Eastward, this should be done at our joint Expence

A Strong ffort should likewise be built at Tierondequat or some other proper place in the Sennekas County, and a Strong Garrison kept in it to maintain it in order, to preserve the Sennekas and other Indians in their fidelity to his Majesty, and as all his Majesties Governments on the Continent are in some degree concerned in this material article, this ought to be done at the joint Expence of all Interested

Upon our making proper provision I will commissionate fit persons to treat with the neighbouring Governments touching these Articles and such others as shall be Judged Expedient from time to time for our mutual defence and the Annoyance of his Majesties Euemys

His Excellency communicated to the Council by John Catherwood Esq^r his private Secretary a Message he was then sending to the Gen^l Assembly which being read was

Ordered to be Entered in the minutes and is as follows

Gentlemen,

Since my last message to the House on the 21 Instant several other particulars have occurred to me which in my opinion the publick security requires to be provided for at this time

It is absolutely necessary there should be a Battery of Six Guns at Red Hook on Nassau Island which would effectually prevent the Enemys Vessels lying there to Bombard this City or their landing any Force or Artillery on Nutten Island in case of any such attack upon us, this Battery might be easily supplied and maintained by the Force of the Country

It would likewise be proper to Raise another Battery on the Front of the great Dock of this City in order to flank the east side of Copsey Battery as the flat-Rock Battery does to the Westward

I omitted to acquaint you in my last that I had ordered the Commissioners of Indian Affairs at Albany to agree with ten men and an officer upon the most Reasonable Terms they cou'd to serve as outscouts towards Crown point, to be immediately employed on that occasion, to watch and give Intelligence of the motions of the Enemy from that Quarter, who were agreed with and sent out accordingly and are since returned I doubt not you will provide for that service also when the accounts are laid before you

And further it is necessary that you provide for the support of such a number of men and officers as may be sufficient to be kept constantly in pay in that employ in the County of Albany during the Warr

The Commissioners of Indian Affairs have recommended the number to be thirty nine men and two Officers for this purpose and Ten Indians to be retained in aid of them who will be able to penetrate further into the Enemys Country than the other Scouts with this advantage that they may not only be secure in their persons but unsuspected.

I have been acquainted that in the former Warr with France some Companys of y^e Militia detached from other Countys were sent up to Albany to Continue there in the pay of the Country to assist in the Defence of that County the Commissioners of Indian Affairs have recommended it to me as a matter requisite to be done at this time

The Allowance to the Commissioners of Indian Affairs ought now of necessity to be enlarged as it must be expected that many incidental services will arise to the publick in the time of Warr as well from Indians as others which from the nature of them will demand Gratuities which the present Annual provision for negotiating Indian Affairs is too Scanty to admit of, as I have heretofore intimated to you

His Excellency by John Catherwood Esq his private Secretary communicated to y^e Council a Message he had sent yesterday to y^e Assembly which being Read was

Ordered to be Entred in the Minutes and is as followeth

Gentlemen,

From the Examination herewith laid before you it must be inferred that the Province has Suffered considerable Damage this Summer, by y^e precipitate Retreat of our Indian Traders from Oswego, upon Notice of the French Warr. most of them you will find left the place immediately upon the alarm, sold what they could of their goods to those few of their Brethren that had the Sense Courage and Resolution to stay behind and brought the Remainder back with them: You will Judge what a Baulk and Discouragement this Instance of pusillanimity has occasioned to those numbers of Indians of y^e far Nations who have rarely come to trade with us but perhaps finding the French had no goods to Supply them at Niagara, resolved to proceed to Oswego, where some of them found the place basely deserted by most of our People and no Goods to Exchange for their Furs upon Information whereof many other Indian Canoes were turned back before they reached that place

How mean an opinion must the Savages entertain of us, when they find our people are so easily frightened, as it were with a shadow, and that the great gains which are constantly reaped by this advantageous Traffick are not sufficient to Excite a Resolution in our Traders to stand to y^e Defence of this Fortress, the loss of which would determine that trade, and it is to be feared the Indians too in Favour of our natural Enemies y^e French. How fatal such an Event would prove to this Colony in particular and the British Interest upon y^e continent in General may be easily foreseen

The pernicious consequences which must inevitably flow from this sort of Demeanour I perswade myself you will think deserving your serious attention, and that you will put y^e most profitable Branch of our Trade into such a method for y^e future as may encourage and invite the most distant nations to come yearly to reside at that mart; when by the wisdom and Justice of the Legislature matters are so regulated for the future, that y^e Indians may be assured that not only their occasions will always be plentifully supplied there with goods, the best in their kind, but also at y^e most reasonable Rates, touching which last Article the Six Nations have made frequent complaints By these measures we shall establish such a credit amongst our own, and the remotest Indians, that it will not be in the Power of the French to Rival us in that point

I cannot but with y^e greatest earnestness recommend it to you to make provision for y^e maintenance of such prisoners of Warr as have already been or shall hereafter be brought into this port It is utterly improper they should contrary to all precedent be suffered to go about at large viewing our situation and Fortifications a practice not suffered by any other Country in time of the profoundest peace and if they are not to be supported by the publick it must be expected that our privateers will upon any Capture for y^e future discharge themselves of the Incumbrance, by putting them on shore in some of their own Dominions, which likewise Contrary to all good policy will be a strengthening of the Enemy, by setting those hands at liberty to annoy us, which were once in our power effectually to have restrained, and besides that Compassion which is due to our fellow Subjects, who may have y^e misfortune to fall into the Enemy's Hands, should induce us to secure those enemies who come within our power in order to exchange for our Countrey men, who otherwise must languish in prison in the Enemy's Hands If you provide for their subsistence I will take care to distribute them in the best manner I can

By the Letter lately received from y^e Comissioners of Indian Affairs (herewith also laid before you) you will see what further Information I have received concerning y^e French Designs ag^t that Important place of Oswego

His Excellency sent to the Council by John Catherwood Esq^r his private Secretary a Letter from the Commissioners for Indian Affairs to his Excellency dated the 27th of August last for their consideration and the said Letter being read was

Ordered to be Entred in the minutes and is as follows

Albany 27th of August 1744

May it please your Excellency

Since our last of the 13 Inst we received your Excellencys favours of 9 & 15th Instant in the first of which your Excellency orders us to provide Cap^t Butler with the necessary Accommodations for his voyage to Oswego which we have done, and he is accordingly gone up from hence the 21 Instant: Your Excelly cautions us to keep Cap^t Butlers going to Oswego as secret as possible, but it was publick in this place before our Letters were opened: We have sent Mr Butler's son as your Excellency desired with his Father to Oswego as Interpreter upon the credit of the Government

In your Excellys favour of 15 inst your Excelly informs us that the two officers here had complained that the Forts here and at Sarachotogo wanted repairs and your Excellency is pleased to order us that they be immediately made proper and well secured for the Accommodation of his Majesty's Troops We take leave humbly to inform your Excellency that the repairing Forts & Barracks has always been done by persons especially appointed thereto, and not by the Commissioners of Indian Affairs, otherwise we would with much pleasure execute yo^r Exceys commands herein

We have also received your Exceys further favours of 21st inst wherein your Exey orders us that an Interpreter and the whole compliment of Indians your Exey has ordered be forthwith sent to Oswego We have done all we cou'd do to get Indians to go up, to which it seems few are inclined. Mr Blecker the Interpreter has been up to the Senecas Country the uppermost of the Six Nations, and has used his utmost endeavour to prevail on two of each Nation to go up to Oswego, and by our last account from hence, five only were arrived, and we believe more will shortly go, but think that the full compliment will not go up, and if they should we are still of opinion that they wou'd be of little service, unless a number of the Militia with ammunition and provision be sent there very speedily, without which we look upon that Place to be inevitably lost. We lately sent two Mohawks to Canada for Intelligence who returned the 24 inst, and inform us that the Caghaweges, Schawedides & Onogonges have at the Instance of the Governour of Canada taken up the Hatchet against the Enemies of the French, and that a great number of Indians were at Montreal singing and dancing as they usually do when they go to warr, and that they judge by the posture of the Indians there, that they will shortly go afighting. Our Indians also inform us that by what they can learn at Canada from some of the Indians there, they believe that the French will shortly attack Oswego

JOSEPH MURRAY, Esq^{rs}.

The Speaker assumed the Chair

His Excellency communicated to the Council by Jn^o Catherwood Esq^r his private secretary a Message he had received from the General Assembly which was read &

Ordered to be Entred in y^e Minutes & is as follows

The House (according to order) took into consideration "His Excellencys Message of yesterday and do remember that in the Speech he was pleas'd to make at the beginning of this meeting it was proposed to concert measures about the conduct of the war with Commissioners from the Province of the Massachusetts Bay

"It may likewise be remembered that in expectation of their soon being here (as it was generally given out) the House did not enter upon Publick Affairs so early nor with that Dispatch as it would otherwise have done

"It may be also remembered that the House has however made such provision for the service and security of the Colony and come to such Resolutions concerning other events that may happen, as has been allowed to be as much as could be done at present

"And upon the whole the House is unanimously of opinion that it would be imprudent in them to engage in any scheme before a plan of it was imparted to them from which they might form a Judgment of the thing and how far the Colony might be able assist in Execution thereof

"*Ordered*, that Col Morris and Col Philipse wait on his Excellency with the above opinion of this House on his last Message

The Council taking into consideration the printed Votes and proceedings of the Assembly on the 5 Instant and likewise their answer of the 19 Instant to his Exceys Message to them which his Excellency was pleased to communicate to the Council this day and observing several

mistakes and misrepresentations contained in the said printed Votes on which they conceived the said answer to his Excellency's Message was erroneously grounded

Ordered, that the Hon^{ble} Daniel Horsmanden Esq^r do acquaint the General Assembly that the Council do desire a conference with y^m to morrow morning at 11 o'clock in the Court Room &c upon the subject matter of the printed Votes and proceedings of that House on the 5th Instant with respect to some mistakes which the Council conceive to be therein committed touching the representation of the proceedings at the conference between the Council and General Assembly held that day and that they have appointed the Hon^{ble} James De Lancey and Joseph Murray Esq^s to be Managers on behalf of the Council at the said conference, and that they desire the General Assembly would appoint Managers to meet the Managers of the Council at the time and place aforesaid

Ordered, that the Hon^{ble} James De Lancey and Joseph Murray Esq^s do prepare a Draught of reasons to be offered at the said Conference

A Message from the Assembly by M^r Livingston and M^r Winne to acquaint the Council that the Assembly agree to the amendments made to the Bill Entituled, An Act for Securing his Majesties Governm^t of New York and desire the Bill may be amended accordingly

Then the said Bill was accordingly amended

A Message from the Assembly by M^r Pierson and M^r Cornell with the Bill Entituled, An Act to prevent the destruction of Sheep by Dogs and y^e Councils amendments thereto and acquaint them that the Assembly have agreed to the said amendments and desire the said Bill may be amended accordingly

Then the said Bill was accordingly amended

The Council resolved themselves into a Committee to consider of the Bill Entituled, An Act for paying out of the funds appropriated for Support of this Government the Salaries and Services therein mentioned

The Committee having duly weighed and considered of the said Bill and being ready to make their report thereon when the Council would be pleased to receive the same

The Speaker resumed the Chair

Ordered, that the said Report be now made

The Hon^{ble} Daniel Horsmanden Esq^r Chairman of the Committee to whom the said Bill was referred in his place reported that the Committee had gone through the said Bill and had directed him to report it without any Amendment

On y^e Question being put

Resolved, that the said Bill do pass

Ordered, that the Hon^{ble} James De Lancey Esq^r do acquaint the Assembly that the Council have passed the said Bill without any amendment

Then the Council adjourned till 3 of the clock Post Merid

The Council met according to adjournm^t

PRESENT as before

The Hon^{ble} James De Lancey and Joseph Murray Esq^s laid before the Council a Draught of Reasons to be offered at the Conference with the General Assembly according to the order of this morning which having been read were approved of and

Ordered, to be entred in the Minutes and are as follow

REASONS to be offered by the Managers for the Council at the Conference

The Council having perused the report of the free conference between the Council and Assembly printed in your votes and proceedings on the 5th Instant found themselves under a necessity of having a conference with you, in order to rectify some mistakes in the penning of those minutes.

First, it is therein incerted, "that your House being returned from the said free conference (i: e. "from the second meeting in the afternoon) the Speaker resumed the Chair and reported that "Coll Morris having acquainted the Council with the Reasons why the House conceived that a "ffort at the place mentioned by them would be far from Answering the end they had proposed "by it and that those reasons seemd satisfactory to the Council

On this part of the report the Council observe that they in no wise expressed that seeming satisfaction, nor did they think the Arguments offered by the Assembly against building a fort at y^e place recommended by the Council, could be judged to countervail the Reasons they had assigned for it. The Reasons given by the Council in the morning of that day's conference, for building a fort at the particular place by them mentioned, were in substance as follows

That Place is a Pass of great consequence, which 'tis necessary to keep open to preserve a communication between Albany and Oswego and other places of Importance, for sending & receiving Intelligence, and to secure the march and retreat of florees, on any emergency, that

might require it in this time of warr, and that if a ffort be not built there, that pass may be in danger of falling into the Enemy's hands. These Reasons were particularly and largely urged and explained by the Council, besides some others then offered by them, which they conceive to be of great weight, though prudence forbids the publishing them on this occasion

In answer to which the Managers for y^e Assembly in the afternoon of that days Conference Said,

"That their House had come to a Resolution and it was their unanimous opinion, that " if a ffort was erected at the place recommended by the Council, it would in no wise answer " the end they proposed by it;" to the purpose as it appears in the printed minutes of proceeding page 38. 39 and assigned their reasons for that opinion in substance as follows

For that people might march from Albany to y^e places mentioned in y^e Conference without going through that pass, and that an Eschort of 25 men would on all occasions serve the purposes proposed by the Council for building that ffort

Whereupon the Council observe; That as it was not denied the place proposed is now y^e common pass from Albany to the places mentioned by the Council, and that every other way must lead a greater circuit, and is more difficult for travelling, (which is likewise notorious) the Council leaves it to be Judged, whither the answers of the Assembly to y^e Reasons offered by the Council on this head could seem to be satisfactory to them

Tis true the Council gave no reply to this answer of the Assembly in the afternoon, because they were told in express terms that the Assembly had before hand come to a Resolution on this point, and after it had been taken notice of as Extriordinary, that the Assembly (whilst the Conference was kept open for further debate) should have prejudged the matter by coming to a Resolution upon it before the Conference was at an end; This Expression was endeavoured to be paliated by saying it was the unanimous opinion of the Assembly, and therefore the Council think themselves well Justified in their forbearance to urge a point further at that time upon which they were told the Assembly had already determined, or which was against their unanimous opinion, the doing of which the Council could not but Judge to be in vain, however reasonable y^e thing it self might appear to be; and when the disputing the Assemblys reasons on that Head would probably have tended to no other purpose than to retard or prev^t other Resolutions of your House, which the Council thought necessary to be taken without delay

In the second place the Council observe that in the said printed minutes of proceedings it is inserted "That the Council did allow no more could be expected to be done at present upon this occasion" i. e. as the Council must suppose the said printed minutes were intended to insinuate that the Council did allow no more could be expected to be done at that time by the Assembly with respect to all those matters which were the subjects of debate in that Conference

Whereas the Council were far from making any such general concessions or allowance

The Council observe that the report made to your House upon your return from the Conference in y^e afternoon, according to the said printed minutes consisted of three particulars, besides the first article concerning the building a ffort already spoken to, the two first relating to Oswego, the third and last touching the Councils proposals for both Houses joining in an Address to his Excellency, Entered in these words " And Lastly that if y^e Council thought proper to address " his Exc^y on those two Heads, the House would join therein" And then concludes with the following words " And that the Council did allow no more could be expected to be done at " present upon this occasion i. e. than what the Assembly had agreed to, which general assertion, as the Council conceive does conclude to every topick which was the subj^t of the debates at that Conference, and if it were intended so to be understood, the Council must insist twas founded on misapprehension or mistake, had the report concluded the first & second of these three particulars with the general assertion that concludes the third " That the Council did allow no " more could be expected to be done at present upon this occasion, i. e. with respect to those two particulars concerning Oswego, then the Representation had been proper and Just, for it must and ought, and cannot but be remembered, That as relative and pertinent to the affair of Oswego and y^e building a Fort at the pass mentioned in the Conference, the Council did strenuously urge the Assembly to come to a Resolution to make provision for defraying the Expence of Commissioners to be appointed by his Exc^y to treat with others already appointed by the neighbouring Governments, touching the conduct of the war in these parts against the subjects of the french King, pursuant to his Excellencys Recommendation in his speech at the opening of this Session, and that the same might be incerted in the Address then proposed to be joined in, for y^e reasons offered by the Council which were in substance as follow

That such a Resolution in the Assembly would in all probability have the following good effects

1st As to the Indians. As those people know the strength of our Colonys to be far Superior to the french our near neighbours and that these Colonys uniting in a common defence, and entering into measures for a joint conduct of the War in these parts, as well offensively as defensively such a conjunction would be the most likely means of securing the Six Nations of Indians in their fidelity to his Britanick Majesty, and prevent their being seduced by the french

2^{dly} As to the french in these parts on this Continent. That such an Union and concert of measures upon the present conjuncture, might also be a means of deterring the french (who

twas likely would soon be informed of such an event) from making any attacks upon our Settlements and moreover that twas most probable when the rest of the Colonys should be informed that such commissioners were appointed by this Govern^t for these ends, they might be induced to follow so laudable Examples, and join with us in the Support of the before mentioned important Fortress, and assist us with a proportion of men and money for y^e purpose

To all which no other answer could be obtained from the Assembly than that they waited to see the Commissioners from Boston at this place

To which y^e Council replied in substance That the Expectation of seeing Commissioners from Boston at this place, was so far from being a good reason for the Assemblys delay of resolving upon so material a point that twas most likely the reason that retarded the Journey of those Commissioners hither was that they did not hear that the Assembly had as yet come to a Resolution to make a provision for this purpose according to his Excellencys Recommendation, and that this was the very reason that hindred these commissioners from coming hither, appeared to the House soon after, by a paragraph of a letter from one of them to a Member of your House, which was communicated to you so that from the time of this notice, at least, the Expectation of seeing those Commissioners here, must have ceased, nor can y^e Council conceive any just colour or pretence for y^e making use of this expectation as a reason for delaying any other publick business (which bore no relation to this point) antecedent to this notice, and assigning it as the cause of protracting this Session to so great a length, this is what y^e Council could never have imagined to have been really the case, nor that it could have been made use of as such, had not his Excellency been pleased to lay before the Council your answer to his Excellencys Message of the 18th Instant reiterating his Recommendation for your making provision for this material article; His Excellency might well be surprized and utterly at a loss to know the meaning that your House should exact in so elevated a Style the general Assent to Facts to which his Exc^y and the Council were utter strangers His Excellency could not know but your opinion might be grounded upon some transactions between the two Houses which had not yet fallen under his notice, and therefore was pleased to refer it to y^e Council if perchance they might be able to unfold the mystery

And as this answer to y^e Governours Message does in y^e Judgment of the Council relate to y^e last mentioned point proposed by the Council at y^e last conference, and does plainly allude to and is founded upon y^e same mistakes apparent in the before mentioned printed minutes of the proceedings, the Council conceive they very properly animadvert upon it in their debates at this time, as Relative to the subject matter of that conference And the Council will not doubt but the Assembly will do Justice to his Excellency as well as the Council and themselves in Rectifying the said printed minutes of proceedings

A Message from his Excellency by the Deputy Clerk of the Council acquainting them that his Exc^y being Indisposed with the Gout required their attendance at his Residence at Greenwich

The Council adjourned to his Excellencys at Greenwich where being met

His Excellency in presence of the Council and General Assembly gave his assent to the following Bills viz^t

An Act for the better regulating the Militia of this Colony

An Act to continue An Act Entituled, An Act for mending and keeping in repair the publick wells and pumps in the City of New York

His Excellency being come to the Council Chamber attended as usual sent a Message by the Deputy Clerk of the Council to the General Assembly requiring their immediate attendance at the Council Chamber

The General Assembly attending accordingly with their Speaker

His Excellency made a Speech to the Council and General Assembly and delivered one copy thereof to the Speaker of the Council and another to the Speaker of the General Assembly

After which his Excellency left the Council Chamber

The Speaker resumed the Chair

Ordered, that his Excellency's Speech be read. Which being read was
Ordered to be entred in the minutes & is as follows

Gentlemen of the Council, and the General Assembly,

At this critical Conjunction, I flatter myself, you are met with warm Dispositions, to exert your most vigorous Endeavours, in promoting his Majesty's Service, and the true Interest of your Country.

From the Attempts made by the French, last Summer, upon Annapolis-Royal, the Province of the Massachusetts-Bay, animated with a becoming Resentment of the Indignity, have been meditating a Design against the French Settlements, to prevent the like Invasions for the future, upon that, or any other of his Majesty's Colonies in those Parts; and after a minute Examination and Enquiry into the Strength of their Forces and Fortifications, by Persons well acquainted with them, both in Peace and War, the Legislature of that Province, came to a Resolution to make an Attack upon them, with such Land and naval Force, as they can raise amongst themselves, such of his Majesty's Ships of War, as may be had, and such Ships and Land Forces, as they depend upon having added to their Strength, by Assistance from the neighbouring Governments, to act in Concert with them.

Upon this Head, Governor Shirley, sent two of the Commissioners for that Province hither, and wrote to me in the most pressing Terms, to recommend it to you in the strongest Manner, to contribute a proportional Strength, of Land and naval Force, to join them upon this important Enterprize, not doubting but we should be sensible how much the Success of it, would redound to his Majesty's Service, the Interest of the British Dominions in general, as well as the Northern Colonies in particular.

For my Part, being convinced, how manifestly this Expedition, is calculated for the Honour of his Majesty, and the Interest of his Subjects, I did upon the Occasion, what has been requested, and could be expected from me immediately, and what I thought behoved me to do, with the utmost Dispatch, upon the publick Faith; I have sent away ten Pieces of Field Ordnance to Boston, with their Implements, without which all other Preparations must have been frustrated; and I do most earnestly recommend it to you, to use all Diligence, in taking proper Measures, that this Province may bear its full Proportion in Concert with their Neighbours, in carrying on this important Enterprize; as the Consequence of our Success in it, would in all humane Probability, be of infinite Advantage to this Province.

Gentlemen of the General Assembly,

There were some Particulars I recommended to you, at your last Meeting, which had not so much of your Attention, as the Importance of them should have seemed to require.

It may be very uncertain, what Time our station Ship will be returned hither, from the West-Indies, or what Condition it may be in for Service when it is; and till it is arrived and re-fitted, our Coast and Trade must be without the necessary Protection: It would therefore, surely much become us, to have a Province Vessel of sufficient Force, at all Times during the War, not only to guard ourselves, but upon Occasion, to send to the Assistance of our Neighbours, from whom we might with Reason, expect the like good Office: To our Discredit, other Colonies, which are none of them better able to Support that Expence, and perhaps have less at Risque, have not grudged the Cost of taking that prudent Measure, in providing for their own Security; I cannot but think it an Article, worthy your immediate Care.

The Necessity of an Agent at the Court of Great-Britain, may now be more apparent to you, from a late Instance in a Clause in a Bill, said to have been brought into Parliament, concerning the Paper Currency in these Colonies, of which however, you had not, nor indeed could you expect, any direct Notice or Information; for Want of such an Officer, how can the Affairs of this Government be properly negotiated? This I have several Times recommended to you, but hitherto without Effect.

The frequent Representations made to me, by the Commissioners of Indian Affairs, of the absolute Necessity there is for building two more Forts upon our Frontiers, in proper and convenient Places to be assigned, prevail with me, to renew my Instances with you, to come to speedy Resolutions, to make effectual Provision for that Service, that they may be erected with the utmost Dispatch.

The Advantages of Course arising, from the Building such Fortresses, are the great Protection they must afford to our Out-Settlements, would in great Measure pacify and quiet those People in their Possessions; it would draw more Christians to reside in greater Bodies amongst the Indians upon our Frontiers, and thereby add Strength to them, and ourselves; and it would be the most likely means that can be thought on, effectually to retain the Six Nations, in their Fidelity to the British Interest; on the contrary, for Want of such a Countenance, the Indians grow cool and indifferent towards us, as we seem remiss and careless of their Security: And if we are longer without such Places of Refuge, for a Retreat in Case of any Incursions into the Country by the French, or their Indians, many Christian Families, will be obliged to desert their Possessions, abandon the Profits of many Years hard Labour, and be forced to Beggary and Want; a most deplorable Case, and must draw after it a Train of Evils, which may be almost as easily prevented as foreseen; how expedient it is to have such Fortifications, may more evidently appear by the Commissioners Letters, which I shall lay before you.

During the War with the French, it will be proper to have more frequent Interviews with the Indians, and that you make Provision for that Purpose.

Provision should likewise be made for the Charges of sending up the fifty Men of the Militia, to Oswego, their Victualling and Subsistence, for the Time past, and to come; for it is necessary they should be continued, or relieved by a like, or perhaps a greater Number; Also, Care should be taken to defray the Expence of sending thither, a Reinforcement of the King's Troops last Fall, and their Victualling, and for the Reparations and Improvements made at that Fortress, according to my Directions, last Summer; concerning all which, particular Accounts shall be laid before you.

It is of very great Concernment to the publick Affairs of this Province, that a liberal Sum should be set apart to answer all Contingences and extraordinary Services of the Government at all Times; but it is most essentially necessary during the War; and therefore, I cannot but repeat my former Recommendations of this Particular, with still greater Earnestness.

I sent away the French Prisoners to St. Domingo, with Flags of Truce, as soon as I could get Vessels to take them off; the Accounts of the Money expended on that Occasion, and for their Maintainance whilst here, shall be laid before you; by which you will find, that what was provided at last Meeting, for the Support of the Prisoners, is near exhausted; it is necessary a further Supply should now be raised, to answer the like Occasions, as it may be expected, that more will daily be brought into this Port, upon future Captures to be condemned here.

I must renew my Recommendation also, for your raising Supplies, effectually to enable me to appoint Commissioners for this Province, to treat with those of the Massachusetts, and other neighbouring Governments (who have or shall appoint such) touching our joint Conduct in the Prosecution of the War against the French, in these Parts, as well offensively, as defensively; the Advantages that must most probably arise from a good Understanding, Harmony, and Union of Councils, between his Majesty's respective Colonies on this Continent, in Maintainance of the common Cause, are too obvious to need a particular Enumeration, were it prudent upon the present Occasion to point them out; could the House have been convinced of the Expediency of such a Measure, and made suitable Provision to that End, at their last Meeting, 'tis scarce to be doubted, but other Colonies would have followed the Example, and been sensible how just and equitable it is for them to bear a proportional Share of that Burthen which this Province, does alone sustain, by renewing of Treaties with the Six Nations, and maintaining and erecting Forts upon our Frontiers (which at the same Time, should be considered as a Barrier to their own Countries) and of such others as are at this Time thought proper and necessary to be erected, although we may be said to be more immediately concerned in such a Defence and Security, in order to prevent the Enemy from having that Intercourse with those Indians, in their own Countries, which we find by Experience, they too frequently have, as well in Peace as War, and as a Means to deter them from making any Attacks upon our Out-Settlements; but as the Case is at present, it most highly behoves us, at all Adventures, to provide immediately for our own Security, before it is too late.

However, I cannot but observe to you, how agreeable it seems to be to the Intentions of his Majesty, as well as his royal Predecessors, that the several Colonies upon this Continent, should, upon all Occasions, unite their Force and Councils in the common Cause; which I collect from several royal Instructions to me, directing the Quota or Proportion of the respective Governments; as well of Money as Men, to be provided upon Emergencies at all Times, and to be employed conjunctly in the Maintainance and Defence of each other, as Occasion may require; which Instructions have been given and continued down as standing Rules to the Governors for the Time being, of this, and no doubt of all the other Colonies, from the late glorious Revolution; and not only so, but consonant to these established Directions, his Majesty's Pleasure was signified to me, upon the Commencement of the War with France (as I have before in Part intimated to you) that I should immediately put the Province into a Posture of Defence, and have the Forces here in such a Condition, as to be able, not only to repel the French Forces if they should attack us, but likewise, if it should become necessary, to attack them.

Attempts, as I observed before, have already been made by the French upon Annapolis, which probably would have fatally succeeded, had not Succours been seasonably sent to their Assistance from Time to Time, by the Government of the Massachusetts-Bay, as they could raise them; and it might be expected, the Efforts of the Enemy would be renewed the ensuing Summer, were not the present Armament set on Foot; and though Nova-Scotia, New-Hampshire, and the Massachusetts Colonies are the nearest Neighbours to the French Settlements, yet what fatal Consequences must ensue to this Province, in particular, should those Countries be reduced to the Obedience of the French! Must not we of course, expect to become a Prey likewise?

Gentlemen,

The many weighty Affairs now laid before you, which require immediate Supplies, have obliged me to have this Session thus early; I have done my Duty in pointing them out to you, and recommending them to your serious Consideration; do you your's, by making such ample Provision for them, and with such Cheerfulness and Dispatch, as may effectually recommend you to his Majesty's Grace and Favour, and secure to you the good Opinion and Esteem, of the People you represent.

Gentlemen of the Council, and the General Assembly,

What further I have to recommend to you at this Time, is, Unanimity and Dispatch ; let your Duty to his Majesty and Zeal for his Service, and the Interest and Security of your Country, become eminently conspicuous by your Actions, in the Conduct of the important Business before you.

G. CLINTON.

To His Excellency The Honorable GEORGE CLINTON Esq^r Captain General and Governour in Chief of the province of New York and the Territoryes thereon depending in America Vice Admiral of the same and Vice Admiral of the White Squadron of his Majesty's Fleet

The Humble ADDRESS of his Majesty's Council for the province of New York

May it please your Excellency,

We his Majesty's most dutiful & loyal subjects, the members of the Council for the province of New York beg leave to return our thanks for your Excell^{ty}s speech

'Tis with the most grateful sense we observe your Excellency's care for the welfare & security of this province ; and we assure your Excellency, that we are met with warm dispositions to promote his Majesty's Honour and the true Interests of the Country

We are sensible of the Importance of the Expedition proposed by the Government of the Massachusetts Bay and how manifestly it is calculated for the Honour of his Majesty and the Interest of the British Dominions and as we cannot but highly applaud the becoming zeal and vigour with which it has been undertaken by that Government, so we will cheerfully concur in all proper measures for promoting that important Enterprise, Especially as the consequence of our success in it, must in all human probability be of infinite advantage to this and all the other Northern Colonys

And we further assure your Excellency that our proceedings in the several particulars you have been pleased to recommend to us, shall be conducted with that unanimity and Dispatch, which our Duty to his Majesty and zeal for his service, and the Interest & security of the Country require

By order of the Council

ARCHIBALD KENNEDY Speaker

To which his Excellency was pleased to return the following answer

Gentlemen,

I thank you for this Address and the sentiments you have of my care for the welfare & security of the province

I cannot doubt of your steady Resolutions for forwarding his Majesty's service and the prosperity of his subjects within my Government

Ordered, that the said Bill be read the 3^d time

His Excellency communicated to the Council (by John Catherwood Esq^r his private Secr^y) a Message he had sent yesterday to the Gen^l Assembly which is as follows.

Gentlemen,

“ Since the Adjournment of your House, I have received authentick Advice of the Arrival of
“ a considerable *French* Armament at *Martinique*, viz. Seven Sail of Ships of War; two of 74
“ Guns; two of 64; two of 56, and a Frigate of 36 Guns, with upwards of twenty Sail of
“ Transports, and three Thousand six Hundred Troops, with Intent to make Attempts upon some
“ of the *British* Dominions in *South-America*; but as a Report of the present Expedition against
“ *Cape-Breton*, is generally spread in the *West-Indies*, it's very probable the Commander in Chief
“ of those Forces has, e'er now, got Intelligence of that Design; and it may be reasonably
“ apprehended, he will thereby be diverted from his original Intention into these Parts.

“ When you have duly considered what are most likely to be the Consequences of such an
“ Event, I hope you will be animated to a Conduct suitable to the Importance of such an
“ Expedition; not only by making sufficient Provision for uniting with your Neighbours in the
“ common Cause in general, (that we may with the better Grace, call in their Aid, should there
“ be occasion) but also, particularly for putting this Province into the best Posture of Defence;
“ and that this City may, with all possible Dispatch, be at least as well fortified as at any Time
“ heretofore, by setting Stockadoes around it, and erecting Block Houses, and Batteries, at proper
“ and convenient Distances, along the Wharfs on each River, that we may thereby be enabled
“ to give the Enemy so warm a Reception, in case they should attack us, as may render their
“ Efforts vain and ineffectual.

JAMES DE LANCEY,
DANIEL HORSMANDEN,
JOHN MOORE, Esq^{rs}.

The Speaker assumed the Chair

The Hono^{ble} John Moore Esq^r Reported from the Committees appointed by the Council and the General Assembly to consider of and to make proper Estimates of such other Fortifications as they should judge necessary to be erected and of such matters & things to be made and done for the further security of the Colony as recommended by his Excellencys Message of the 17th of April & to take to their assistance such other persons as they should judge proper to consult in regard to the Fortifications, That both Committees had met at the time and place appointed and were then of opinion that as there was a considerable French Armament at Martineco it would be most proper First to take the Defence of this City under consideration, and after having taken a full view of such places as were conceived proper and consulted the Mayor & Aldermen and some other Gentlemen of the City and taken the assistance of two persons who were said to have some skill, both with respect to its defence towards the Water as well as the Land, and being of opinion that it is more probable that the City may be assaulted by the Enemy's

ships than be attacked by a Land Force and therefore conceiving it most necessary to proceed in the first place against any Naval Armament by erecting Batterys in such places as are judged most proper for that purpose The Committee were of opinion

1st That a Battery of eight Guns should be immediately erected at Dominis Hook with a large Block House to cover the men & their arms

2^d That plans should be made whereby to erect a Battery of Eight Guns on Captain Rutgers Wharf when there shall be occasion

3^d That plans should be made whereby to erect a Battery of Eight Guns on Burnets Key upon occasion

4th That it is absolutely necessary for the safety & Defence of the City towards the Harbour to have a Battery of twenty Guns erected at the East End of this City

5th That Gins should be made for every Battery several span carriages & long Trail Carriages for twelve field pieces &c

As to the Battery of twenty Guns two places have been proposed The one on a Wharf to be made out into the River adjoining to Lowrey's, which Wharf the Committees were of opinion could not be made this year

The other place proposed is on Mr Harmanus Rutgers's Hill and in case it should be erected on this last the Committees were of opinion it will be necessary to have two Blockhouses to guard it and to have a Battery of six Guns to be erected upon occasion behind Pecks, according to a plan to be made for that purpose

6th With respect to the Estimate of the Expence, the Committees were of opinion that the erecting the twenty Gun Battery on a wharf to be made adjoining to Lowreys besides the delay would make the charge of the above Articles amount to about £4500 or £5000 and that if the Battery were to be erected on Rutgers's Hill the Amount of the Expence of the above Articles is Estimated at about £3000

The two persons whose Assistance the Committees have taken are Messieurs Hoyer and Clement who have attended the Committees from time to time each of whom have prepared plans which will be laid before you

These Things are what the Commēes are of opinion ought to be done with all possible dispatch They therefore thought it expedient to Report them as soon as they had gone through them

And as to such other Fortifications necessary to be erected and such other Matters and Things to be made and done for the further security of the Colony, the Committees will consider of them when they shall have leave to sit again

By order of the Committees

JOHN MOORE Chairman

A Message from the General Assembly by Mr Clarkson and Mr Richard with the Bill Entitled, An Act to revive An Act intitled, An Act to oblige all persons that shall come to Inhabit or reside in the City of New York in order to expose any Goods Wares or Merchandizes to sale at any time after the annual Assessment made for the Tax for the maintainance of the Minister and Poor of the said City to pay their due proportions toward the same Desiring the concurrence of the Council thereto

His Excellency then required the General Assembly to return to the Council Chamber after the Acts should be published

Then the said Acts were published with the usual solemnity

After which His Excellency the Govern^r, the Council and the General Assembly being returned to the Council Chamber

His Excellency was pleased to DISSOLVE the General Assembly by the following Speech

Gentlemen of the General Assembly.

In my Speech to you at the Opening of this Session, I recommended to you many Particulars, which I thought, of absolute Necessity to be immediately provided for; and have since, by several Messages and Papers, sent you, from Time to Time, as Occasion offered, renewed my Instances as to several of them, in order to excite you to a Conduct, worthy of their Importance; and since it seems by the Minutes of your Proceedings, as if you were coming to a Conclusion, and that you have done the utmost, that there is any Probability you will do; I can no longer forbear expressing my Sentiments of your Conduct.

After the disrespect shewn, by omitting to give an Answer to my Speech, I was apprehensive, I could expect but little Regard to be paid to what I had said; though I proposed nothing but what immediately related to his Majesty's Service, and the Interest and Security of the Province.

The Protection of our Frontiers, in the County of Albany, was what I could not doubt, every one had much at Heart, that had considered the Consequence of them, and would be of Opinion, that suitable Provision ought of Necessity to be made to that End, with the utmost Dispatch; therefore, not so much regarding the Ceremony (however requisite and decent) as Matters more substantial, I have withheld from you, nothing which might enlighten you in that Respect, especially touching the late Commotions amongst our Indians, and the Intrigues of the Enemy carrying on amongst them.

I have signified to you, over and over again, that it is proper in Time of War, that I should have more frequent Interviews with the Six Nations (which even in Time of Peace, have been usual every other Year) in Order to renew the Treaties with them; and there is no other Way of doing it to Purpose (as I can conceive) than by making them Presents, and such at this Time, as may be sufficient to allay their present Disquietudes, and preserve them in good Temper, firm and steady to the British Interest; what Regard has been paid to my Importunities on this Head, may be collected, from not making Provision for it, nor are (it seems) the erecting Forts or Block-Houses, or the Maintenance of Scouts to watch the Motions of the Enemy in those Parts, Matters of Weight in your Estimation; and therefore, through your Carelessness and Improvidence, we must hazard the Seduction of the Six Nations, and our Northern Frontiers, for the present, remain naked and open to the Incursions and Insults of our declared Enemies, and their Indians; our Christian Out-Settlers, must either desert their Plantations, and retire to beggary and want, or continue daily exposed to their merciless Barbarity; a most cruel Necessity; this I have intimated to you, was most likely to be the Consequence, if proper and seasonable Care were not taken to prevent it.

That many of the Christians, settled towards our Frontiers Northward from Albany, have been much alarmed at the late suspicious Behaviour of our Indians, and are very apprehensive of great Danger in their present Situation, appears by a Petition to me, signed by great Numbers of them; which (by advice of his Majesty's Council) I laid before you the 10th Instant; and with what Contempt you treated the earnest Entreaties of the Petitioners, and how indecent your Conduct was towards me upon that Occasion, every one may judge, from your returning it by your Clerk to my Secretary, without further Ceremony, and your resolving to take no Notice of it, in the Minutes of that Day.

For my Part, I could almost, at this critical Conjunction, have forborne (as I have on other Occasions) shewing my Resentment of the personal Incivilities you have offered me (if they rested there) could I, from your general Behaviour, have entertained the least Hopes of awakening you to a due Sense of your Duty to his Majesty, or the People you represent: But upon looking back into your Proceedings, I find you have treated his Majesty's Orders to me, signified by Letters from his Grace the Duke of Newcastle, not only with as much Indifference (for they produced no proper Effect from you) but have misrepresented the Contents of them; for so far is that Letter from containing Orders to Commodore Warren, that after taking Notice in general, of the Nature of the Service that Gentleman is upon, his Majesty's Pleasure is thereby signified to me, "that if Mr. Warren shall apply to me for Assistance, either of Men, Provisions or Shipping, that I should be aiding and assisting to him in the most effectual Manner," and that you might enable me at all Events, to answer his Majesty's Commands in that Case, was the very reason (as any one might conclude) that induced me to lay that Letter before you: But, as if you was conscious, your Conduct is deserving of Reprach, you either wholly suppress, or misrepresent, what are Ingredients in your Proceedings; which your Constituents have a Right, not only to be informed of but to remark upon.

And (declining to be more explicit, upon Matters of greater Concernment) you have neglected to make Provision, for the Maintainance of such Prisoners of War as may, from Time to Time, be brought into this Port, or for the transporting them hence; when at this very Time, there is a Number of them in the Harbour, which will fall upon our Hands, should the Vessel lately brought in, be condemned as Prize.

Nor have you provided for the re-imbursing Money, advanced upon the Faith and Credit of the Government, for Repairs done at the Garrison of Oswego, upon the breaking out of the French War, pursuant to my Directions, given last Summer, by Advice of his Majesty's Council, which I recommended to you, to be provided for the last Fall; nor the Paying what is due, for furnishing Lieut. Butler with Necessaries for his Passage to Oswego, last Fall, by Direction of the Commissioners for Indian Affairs, pursuant to my Orders, given likewise by the Advice of the Council; concerning both which Articles, Accounts have long since been laid before you; but you have ventured to take upon you the Assignment of the Places, for erecting Batteries within this City; to direct the Number of Guns to be placed upon them, and to order the Issuing out the Gun-powder, provided for the Use of the Publick, without consulting me in either Respect; which in Effect, is assuming the Administration of the Government, and wresting his Majesty's Authority out of the Hands of his Governor. Thus from an invincible Untowardness on the one Hand, and an inordinate Thirst of Power on the other; you are become, as it were, a dead Weight against the other Branches of the Legislature

You have protracted this Session to a most unreasonable Length, for any Thing that is done, for the Advancement of his Majesty's Honour and Service, or the Credit, Interest or Security of the Province, or People you represent.

I am therefore constrained, to put an End to this Session, by your Dissolution; and you are accordingly DISSOLVED.

G. CLINTON

New York 14th May 1745

His Excellency then delivered a Copy of his said Speech to the Speaker of the Council and afterwards returned to his House attended as usual

TWENTY-FOURTH ASSEMBLY FIRST SESSION.

At a Session of the Council and General Assembly began at the City Hall, of the City of New York, on Tuesday, the twenty fifth day of June, An^o Dni, 1745.

His Excellency the Governour having been pleased to dissolve the late General Assembly on the fourteenth day of May last and to order Writts to be issued the same day for Electing Members to serve in a new one returnable this day

The Council met accordingly

PRESENT — *The Hon^{ble}* ARCHIBALD KENNEDY, Esq^r, Speaker,

JAMES DE LANCEY,
PHILIP CORTLANDT,
DANIEL HORSMANDEN,
JOSEPH MURRAY,
JOHN MOORE, Esq^{rs}.

His Excellency the Governour being acquainted that a Majority of the Representatives were met in the Assembly Chamber, came to the Council Chamber and sent a Message by the Deputy Clerk of the Council to the Assembly Chamber requiring the immediate attendance of the members who were Qualified.

The said Members thereupon attended accordingly

His Excellency then ordered them to return to the Assembly Chamber and choose a Speaker and present him immediately for his approbⁿ

The members thereupon left the Council Chamber and soon after returned and presented David Jones Esq^r for their Speaker to his Excellency for his Approbation

Which choice his Excellency was pleased to approve

Then the said David Jones Esq^r the Speaker after a short apology for himself desired his Excellency in behalf of the whole House, that their Words & Actions might have a favourable Construction, That the members might from time to time have free Access to his Excellency and that they and their Servants might be priviledged and protected as usual

Which his Excellency was pleased to Grant

His Excellency then made a Speech to the Council and General Assembly and delivered one Copy thereof to the Speaker of the Council and another Copy thereof to the Speaker of the General Assembly

After which his Excellency returned to his House attended as usual And the Representatives withdrew

The Speaker assumed the Chair

Ordered, that his Excellencys Speech be read

Which being read accordingly it was further

Ordered, that the same be Entered in the Minutes and is in the words following :

Gentlemen of the Council, and the General Assembly,

Soon after my Arrival here, his Majesty's Pleasure was signified to me, "that I should employ the most effectual Means for putting this Province into the best Posture of Defence that should be possible, and be constantly upon my guard against any Surprize from any Quarter whatever;" and upon the Commencement of the French War, I received his Majesty's Commands, "that I should immediately put the Province into a Posture of Defence, and have the Forces here, in such a Condition as to be able, not only to repel the French Forces, if they should attack us, but likewise, if it should become necessary, to attack them."

In order to put the Province into a proper Posture of Defence, it is necessary that such other Fortifications be erected about this City, with all possible Dispatch, as may be sufficient to enable us to repel any Force that may attack us on this Quarter: For this Purpose, a strong Battery of twenty Guns, at the East End of the Town, in the Harbour, and some other Batteries in other Parts of the City, should be forth with erected; of which, I will direct Plans to be laid before you. 'Tis worth considering, whether, as Matters are now circumstanced, this City may not probably share a considerable Part of the War.

All due Attention should be given with Regard to the effectual Security of our Northern Frontiers: To answer this End, two strong Forts should be built in our Indian Countries, in convenient Places to be assigned; a sufficient Number of Out-Scouts should be constantly kept on foot, to watch and give Intelligence of the Motions of the Enemy; and above all, there

should be the utmost Care, and the most prudent Steps taken, to put our Indians into perfect good Temper, that they may preserve their Dependence on the British Interest, and confirm them in their Fidelity to his Majesty; which, through the Artifices and Intrigues of a subtle Enemy, 'tis to be suspected is, at this Time, some what shaken. My Duty to his Majesty, and Regard for the People under my Government, oblige me to press these Things most earnestly upon you.

As an Expedition has been set on Foot by the Government of the Massachusetts-Bay, against Cape-Breton, and is now carrying on, in Conjunction with a Proportion of Men and Shipping from the neighbouring Colonies, with the entire Approbation of his Majesty, and under the Countenance and Protection of his Royal Fleet; I have received a Letter from his Grace the Duke of Newcastle, dated in January last, wherein it is intimated, "that his Majesty having thought it necessary for the Security of the Colonies in North-America, and particularly of the Province of Nova-Scotia, (which had been [then] already invaded by the French, and upon which there was Reason to apprehend that they would early in the Spring, renew their Attempts, by the Attack of Annapolis-Royal,) to employ such a Strength of Ships of War in those Seas, under the Command of Commodore Warren, as might be sufficient to protect the said Province, and the other neighbouring Colonies in North-America, and the Trade and Fishery of his Majesty's Subjects in those Parts; and might also, as Occasion should offer, attack and distress the Enemy in their Settlements, and annoy their Fishery and Commerce. His Grace had his Majesty's Commands, to signify to me his Pleasure, that if Mr. Warren should apply to me for Assistance, either of Men, Provisions, or Shipping, to enable him to proceed either to the Relief and Succour of Annapolis Royal, or of any other of his Majesty's Forts or Settlements, or for making any Attempts upon the Enemy; I should, in all such Cases, be aiding and assisting to him, in the most effectual Manner."

Governor Shirley, upon communicating to me in January last, a Scheme for the Attack of the Town and Fortress of Louisbourg, wrote to me in the most pressing Terms, to use my best Endeavours that this Province should furnish their full Quota, or Proportion of Men and Shipping, to join them in this important Enterprize, not doubting but we should be sensible how agreeable such a Conduct would be to the Intention of the royal Instructions concerning such like Cases, and how much the Success of this Expedition would advance his Majesty's Service, the Interest of the British Dominions in general, and of all the Northern Colonies in particular.

How far divine Providence has already favoured this Undertaking, we may judge from the Success of it hitherto; the New-England Forces, immediately after landing upon the Island, having taken Possession of the most considerable Battery; which, at their Approach, was deserted by the Enemy with Precipitation; and one of their sixty four Gun Ships, with Succour, bound for the Port of Louisbourg, having been taken by some of his Majesty's Fleet, and all Communication with the Town cut off, both by Sea and Land. These are such Earnests, as give us Encouragement to hope for a speedy Reduction of that Place; but more especially, if we should afford them that Aid and Assistance which may most reasonably be expected from us; and since Matters are brought to this Crisis, I now persuade myself, we shall not longer sit still as unconcerned Spectators, nor be content that the neighbouring Colonies alone, recommend themselves to the Favour of their royal Master, by a vigorous Prosecution of a Matter of so great Consequence to us, and which his Majesty has thought fit to espouse; nor let them, unassisted by us, reap the Glory of a Conquest so considerable, and it be said, they have in vain solicited us to become Partakers with them.

I have very lately received Letters from Mr. Shirley, and Mr. Warren, on this Head, in pursuance of that from his Grace the Duke of Newcastle, last mentioned, wherein they are very importunate with me in their Application, for the Assistance of this Government, in the immediate raising some Troops for supporting this Expedition, and such a number of Seamen, in order to man the French Ship, (intended also to be employed in this Service) and such Quantity of Provisions, as we can procure, to be sent them to Cape-Breton, with the greatest Dispatch, that they may be enabled to withstand any Force the Enemy may send to the Relief of that Garrison.

These are Matters of such high Concernment to us, that I cannot but recommend them with the utmost Earnestness and I rely upon your Immediate Concurrence in such Measures as may answer his Majesty's just Expectations, signified by the royal Orders now laid before you. I am determined nothing shall be wanting in either Respect, on my Part, for advancing his Majesty's Service, and the Credit and Interest of the Province.

But, Gentlemen of the General Assembly, without your effectual Aid, all my Purposes can avail but little, and therefore I doubt not, but the same dutiful Dispositions which have at all Times distinguished the People of this Province, for their Loyalty to the Crown, will prompt you to use all proper and necessary Means, to raise such Supplies as may be amply sufficient to answer the present Exigencies.

I have some Accompts and Particulars, of Disbursements, for the public Service, to lay before you; for the Discharge whereof, 'tis proper and just, Provision should be made.

" *Gentlemen,*

" I am sensible the Season of the Year requires your Attendance upon your private Affairs; dispatch therefore in the weighty Business before you, becomes still the more necessary, that you may soon have a Recess, and not be long detained here to your greater Inconvenience.

" *Gentlemen of the Council and General Assembly,*

" What I have now recommended, requires a more than ordinary Attention; and considering the great Importance of it, 'tis incumbent on every one who has the publick Weal sincerely at Heart, the more earnestly to endeavour to cultivate that Harmony and good Understanding, which ought to subsist between the several Branches of the Legislature; and as the Eyes of our Neighbours are intent upon us, impatiently awaiting the Result of your Deliberations, I flatter myself, the issue of this Session, will redound to the Advantage of the common Cause; his Majesty's Service in general, and the Honour, Credit, and lasting Interest of the Province " in particular."

G. CLINTON.

City of New York 25th June 1745

Ordered, that the said speech be printed

Then the Honoble James De Lancey Esq^r moved that an humble Address be presented to his Excellency returning his Excellency the Thanks of the Council for his speech and assuring his Excellency that it is with the greatest pleasure the Council observe his Excellencys concern for the putting this City and the other Frontiers into a proper posture of Defence, That they are sensible how much the success of the Expedition against Cape Breton would advance his Majestys service, the Interest of the British Dominions in General and of the Northern Colonies in particular, and will chearfully concur in any measures that may be proposed, for giving such aid and assistance, for the Reduction of that Place, as a matter of so great consequence requires. To His Excellency the Honourable GEORGE CLINTON Esq^r Captain General and Governor in Chief in and over the Province of New York and the Territories thereon depending in America Vice Admiral of the same and Vice Admiral of the White Squadron of his Majestys fleet &c

The Humble ADDRESS of his Majesty's Council for the Province of New York

May it please your Excellency.

We his Majesty's most dutifull and Loyal Subjects The members of his Majesty's Council for the Province of New York, return our hearty Thanks for your Excellency's Speech. 'Tis with the greatest pleasure we observe the concern you have pleased to Express for the security of the Province, the putting this City, and the other Frontiers into such a posture of Defence, as may enable us, to repel any attempts, that may be made against us, for the effecting whereof nothing shall be wanting on our parts.

We are very sensible how much the success of the Expedition against Cape Breton would advance his Majesty's service, the Interest of the British Dominions in general and of all the Northern Colonies in particular, and we assure your Excellency we shall cheerfully concur in any measures that may be proposed for giving such aid and assistance for the Reduction of that Place, as a matter of so great consequence requires of us

We are well acquainted with the Intrigues the French have always busied themselves in, amongst our Indians, as well in peace as warr, and are perfectly satisfied your Excellency will take the most prudent steps in your Power, to guard against the artifices of the Enemy and preserve the dependance of the Six Nations upon the British Interest and confirm them in their Fidelity to his Majesty

We shall on this important occasion, as well as all others, endeavour to cultivate that Harmony and good understanding which ought to subsist between the several Branches of the Legislature, and doubt not but the like good Dispositions will bring this Sessions to an happy Issue, so as to redound to the advantage of the common cause, His Majesty's service and the Honour, Credit and lasting Interest of this Province

The Clerk of the Council laid a copy of the Message sent by his Excellency to the General Assembly before the Council which was read &

Ordered to be entered & is as follows viz^t

Gentlemen,

Soon after your Adjournment, I sent his Majesty's Troops from hence, to Albany, for the Defence of that City, conceiving it in Danger of falling into the hands of the Enemy, from the late attempts they have made upon our Frontiers; and since I have received Letters from the Colonel of the Militia Regiment of that County, and the Commissioners of Indian Affairs, (which I shall order to be laid before you) recommending the immediate Re-building the Fort at Saraghtoga, for the Reasons therein set forth; which his Majesty's Council thought of such Weight, that by their Advice, I have sent up Directions to have it re-built accordingly, for the Expence whereof, I doubt not, you will now make provision, and for the Pay of such additional Forces as shall be advised to send up, for the Protection of the Frontiers; as also, for giving a proper Encouragement, for our People to take Pains, to engage the Indians heartily in the War, pursuant to the Orders I have sent them.

The Fort intended to be built at the Carrying-Place, ought to be large and strong, of Stone Work; and though a Building of that Sort, will require an extraordinary Expence, yet that should be looked upon as inconsiderable, when laid in the Ballance with the great Service; a regular well built Fort will be of at all Times hereafter, but especially during the War.

The absolute Necessity of concerting Measures, jointly with the neighbouring Governments, touching the Prosecution of the War, is now most manifest; I have so often pressed it upon you, to make Provision to this End, that I cannot further inforce my Recommendation, than by repeating it, and offering to your Consideration, a Letter just received from Lieut. Governor Phips, renewing the Overtures frequently made to me, by the Massachusetts Government on that Head, as a Matter of the utmost Consequence, for the Preservation of his Majesty's Subjects, and Colonies in North-America.

The Militia Act, requires some material amendments; the Penalties should be enlarged, to compel due Obedience to military Orders, and as there are many Persons within this Province, who claim an Exemption from military Service at this Time of War, under Colour of Commissions at large, without being confined to any particular Corps; a Clause should be provided, to invalidate such Commissions, and subject all such Persons (who are not excepted by the Act) to do private Duty.

Gentlemen,

There have been several Things laid before you, concerning the Service and Honour of this Province, which seem hitherto to have escaped your Attention; you may easily discover them by a Review of your Proceedings, and I am sorry they have not been thought worthy of your Notice.

As we have a subtle and active Enemy to deal with, one of our Frontier Settlements already destroyed, whereby many unhappy People were murdered, and others led Captives to Canada; I have great Reason to apprehend, the French have a very formidable Army in our Neighbourhood, with a Design to make Incursions into the Heart of the Province; therefore I persuade myself, from the last Resolution you come to, you'll make Use of the Means in your Power, to strengthen the Hands of the Government, and provide for every Thing necessary, not only that we may be enabled effectually to preserve his Majesty's Colony, under my Care, and your own Fortunes, but also make the Enemy sensible of the Effects of our just Resentment

The present Circumstances of Affairs appear to me in such Light, that they require your most vigorous and speedy Resolutions, for the mutual Protection of this, and the neighbouring Colonies, agreeable to his Majesty's royal Orders and Instructions communicated to you.

G. CLINTON.

To His Excellency the Hon^{ble} GEORGE CLINTON Esq^r Captain General & Governor in Chief of the province of *New York* and the Territorys thereon depending in *America* Vice Admiral of the same & Vice Admiral of the Red Squadron of his Majesty's Fleet

The Humble REPRESENTATION of his Majesty's Council of the said province

May it please your Excellency

The Council having lately had under their consideration, a Bill brought up to them from the House of Representatives Entitled, An Act for emitting Bills of Credit to the value of ten thousand pounds for the uses therein mentioned & for raising & collecting the sum of ten thousand pounds for sinking & cancelling the said Bills; many difficulties & objections arose thereupon, and in order to remove them, the Council on the 21st Instant sent a Message to the House of Representatives, to desire a Conference with them upon the subject matter of the said Bill; whereto the House returned for answer "That the said Bill being a money Bill the House " could not consent to any conference with the Council upon the subject matter of the said " Bill"

This being the case the Council found themselves under a necessity of rejecting the said Bill, and have unanimously rejected it accordingly for the following among many other Reasons

First, The Council observed a principal Defect in this Bill; The money proposed to be levied by it, was not granted to his Majesty, or to be issued by Warrants in Council, as it ought to have been, & has been usually done

2^{dly} The Council observe in general that sundry matters were contained in this Bill that have no necessary or proper connection with a Bill for raising & levying money, to which the Council had exceptions, some whereof they propose to point out to your Excellency hereafter; not but that the Council conceive they have an equal Right with the House of Representatives, to exercise their Judgments upon Money Bills, even when abstracted from all foreign matter; and the Council conceive they have most cogent reasons for the exercise of that Right upon this Bill: For

3^{dly} The Inequality of the Quota's rated by this Bill, are notoriously apparent, and the Council would willingly have been informed upon what grounds & Reasons, and by what measure the House had so apportioned them, that the Council might the better have been enabled to judge of the Equity & Justice of them, for as no reasons were assigned by the Bill, for their manifest Disproportion, till the Council were better informed, they could not but look upon them as unequal & partial. The Council have been at the pains to look into the Taxations of former times, so far back as the year 1699; and it appears from the printed Acts, and by an Extract from the Treasurers accounts (which we beg leave to lay before your Excellency herewith) that from that year to this time the City and County of New York was rated at sometimes about a Fifth, sometimes about a Fourth, but never so much as one third of the whole Tax, two Instances excepted, First, upon the particular occasion of raising a small sum, for soliciting the salt Act; Which as the Council have been credibly informed, was looked upon by the House at that time, to be a more immediate advantage to the Inhabitants of that City: and Secondly When a Tax was imposed for levying Money in the year 1744, the House was induced, as the Council then understood, to raise the proportion of the said City, as great part of the money was to be employed in fortifying that City, and expended there For which Reasons the Council did not then object to that Bill; which Rate however, even with these considerations did not appear altogether satisfactory: But as no such or any other Reasons appeared upon the present Bill, wherein the City & County of New York were rated at seven sixteenths & an half of the whole Tax The Council could not in Justice agree to it. The Council are fully perswaded that no one can be of opinion that the Real & personal Estates of the Inhabitants of the City & County of New York do amount to near one third of the value of the Real & personal Estates of the whole province, and yet even upon the supposition that New York was to be rated at one third, its Quota as proposed by this Bill, beyond one third would exceed the entire Quotas of Queens, Suffolk and Richmond Countys together, by upwards of thirty pounds, and yet Queens County has been rated a Fifth, never less than a Tenth, excepting in those two years of 1729 & 1744; Whereas by this Bill that County is rated under one Eighteenth Suffolk County has been rated near a fifth, never under a fifteenth, but in those two years, and by this Bill, less than a nineteenth; Richmond County has been rated at a Fifteenth, never under a Twenty fifth Excepting in those two years & in 1699, and is now rated under one thirty Eighth

As to Albany the Council observe, that altho' upwards of Eight of the Ten thousand pounds, proposed to be raised by this Bill, was to be applied for the Defence and Security of that City & County, and expended there, That the County is large & extensive, containing a wealthy City & a large thriving Town, with the whole benefit of the Furr Trade, yet as it is a Frontier, has already felt & is exposed to the Insults & attacks of the Enemy, therefore the Council are of opinion, all due consideration ought to be had, of its advantages & disadvantages with regard to a Taxation

The Council are of opinion, that when any parts of the province are unusually rated, the Reasons for enlarging or diminishing such rate, ought to be set forth in the Bill, that the Council may judge of the Reasonableness of them

The Council have not entered minutely into the Consideration of the respective Quotas rated by this Bill upon the Several other Countys; but the allotment for New York did, in their opinion, far exceed the bounds of Equity

The Council cannot but be of opinion, that the House having denied a Conference upon this Bill, was highly unreasonable, if they thought they were capable of giving satisfaction as to these particulars, without which, the House might well imagine, the Fate of this Bill must necessarily be determined by a Rejection

However the Council beg leave to observe to your Excellency, that could the House have satisfied the Council concerning these matters, as the Bill was framed 'twas impossible it could have its intended effect, nor could the money have been issued For

4^{thly} The Oaths framed by the Bill to have been administred to the persons proposed to be entrusted with the numbering & signing the Bills for the £10.000 paper currency to be emitted, were penned in such manner, that no conscientious person could take them, or if taken, would it have been practicable to comply with the terms of them; so the money could not have been issued, and consequently the main End of the Bill must have been frustrated, had it even proceeded so far as to have been enacted into a Law

The Clause inflicting a penalty on persons altering or counterfeiting any of the paper money out of the Colony, is to the Council unintelligible, the Indictment to be by any Grand Jury in the Colony & yet the petty Jury to come from the Body of the City & County of New York: nor do the Council understand what is meant by Foreign Issues, as expressed in the Bill

5^{thly} The Council observe to your Excellency, that by this Bill, the House took upon themselves, not only to nominate the persons to receive & apply the money, proposed to be issued, but others to appoint the places where the Blockhouses should be built, upon the Frontiers in Albany, and both (as the Council understand) without your Excellency's approbation, which the Council look upon as interfering with the Executive part of the Government, and were it any wise necessary, that such persons should be named in the Bill, and had the House your Excellency's consent to do, yet the Council apprehend, they had good reason to expect the House would have advised with them thereon; but if (as the House would have it) it is to be a Rule, that money Bills must not be conferred upon, nor amended by the Council, then it will follow, that whatever Defects and Inconsistencys the Council discover in such a Bill, or whatever foreign matter the House thinks proper to tack to it which would be justly liable to exception (even if contained in a sepearte Bill) because it is by them called a money Bill, all must be submitted to by the Council, or it must share the same Fate with the present Bill & the publick service be defeated.

These, Sir, are but a small number of the many Exceptions to which the Council conceived this Bill was liable; to particularize them all, would be taking up too much of your Excellency's time, and mispending their own, However they flatter themselves that such as they have pointed out, will be sufficient to show that they had good reasons to reject such a Bill

By order of the Council

PHILIP LIVINGSTON Speaker

The Hon^{ble} John Rutherford Esq^r moved that as he dissented to the said Bill he desired his Reasons for so doing might be Entered in the minutes Which Reasons being read were

Ordered, to be entered accordingly, and all the rest of the Council Resolved that their Reasons for assenting to the said Bill should be entered likewise & published and are as follow

REASONS offered by the Hon^{ble} John Rutherford Esq^r against passing the Bill for raising £13000 &c"

I can see no occasion at present for this way of raising money Which tis agreed on all Hands should only be done in cases of necessity, but no such necessity appearing to me at present I think my self obliged to shew my Dissent thereto Especially as I find this is all the money proposed to be issued or raised at this time Which will be so far from being sufficient to put our Frontiers in a good state of Defence, that 'twill scarce be of more Real Service as now to be employed than if no money at all had been raised The End for which the money is to be raised & employed will not be answered, particularly what is to be laid out in the County of Albany, which is the greatest part of it, for the Frontiers there are so extensive that these trifling Blockhouses will be at too great distances from each other to prevent scalping partys, and no Force any where strong enough to give the Militia time to come together for the Defence of the

Country, and his Majesty's three Independent Companies being divided into four different Forts or I should call them rather very inconvenient Barracks extremely ill provided either for defence or Accommodation and at great distances from one another can be of no great service to the publick and should be still more divided as seems expected by this Bill not only the Town of Albany but the whole Country will be in my opinion entirely exposed to any trifling Incursion of the Canadians & Indians in alliance with them I can't conceive upon what pretext the Assembly take upon themselves the Executive part of the Government by nominating persons in the Bill not only to receive & apply the money to be issued but also to appoint places for Blockhouses and by meddling in the management of the Militia, which manner of proceeding encroaches so much upon the Royal prerogative and the power & authority of the Commander in Chief of this province as manifestly in my humble opinion tends to a subversion of our happy Constitution besides confining his Excellency to detach the men wanted to defend these Blockhouses out of the Albany Militia will instead of securing & defending that County lay the greatest hardship upon & distress the people wearied out as they are with the watching & Detachments already made from them, that 'twill be a great means to make most of the people desert the County Whereas had these detachments been ordered to have been made from any of the Countys at a distance from the Frontiers the people detached would have left their Familys in safety and increased the number of Men upon the Frontiers, but those detached from Albany adds nothing to our Numbers on the Frontiers and must leave their Familys exposed to the Murders & Rapines of the most barbarous Enemys in the World I could add many Reasons why I think this Bill will do more hurt than service and instead of relieving the distressed frontiers will make them lose the Hopes they have hitherto had of relief which they have a right to expect from their fellow Subjects but those I have mentioned will be sufficient to vindicate me in protesting against passing this Bill

JOHN RUTHERFORD

REASONS of the Council for passing the Bill for raising a supply of the sum of £13000
by a Tax on Estates Real & Personal &c

There are many concurring Reasons which induce us to give our assent to this Bill at this critical conjuncture

1 The Reasons setforth in the preambles to the several parts of this Bill are in our estimation of sufficient weight of themselves to engage our assent

Necessity absolutely requires that the several services provided for by it should be performed by the utmost Despatch

The State of our Treasury is such through the decline of Trade occasioned by the war that it does not answer even the ordinary annual Support of the Governm^t so that no money is to be expected from thence to answer extraordinary services nor do we conceive it possible that such can be performed without ready money which is not to be had in any other method (that we have heard or can think of) than in the way proposed by this Bill. We are as much averse to the issuing more paper money, or the having any at all as any one can be. But as the Tax to be levied cannot immediately be paid in to the Treasury and one third of the Bills are to be sunk at the end of each year for 3 years successively as the Tax is to come in and consequently the whole £13,000 to be sunk within that term we think, its put upon the best footing of any paper money Extant and 'tis highly Expedient this money should be immediately issued to answer the Exigencys of the province at this Juncture and when so considerable a sum as £13,000 is to be raised by this Bill to be laid out in the extraordinary (and as we conceive immediately necessary) services of this province therein particularized We are somewhat surprized to hear it advanced that 'twill be so far from being sufficient to put our Frontiers in "a good state of Defence that twill scarce be of more real service as now to be employed "than if no money at all had been raised

2^d The immediate security of our Northern Frontiers (now naked and defenceless) is of high concernment at this Juncture and cannot but engage the most earnest attention of all considerate people and could we possibly be slack in a matter of so much importance the frequent notices we receive of the Encursions of the Enemy and Savages under their Influence make into the County of Albany the mischiefs they have lately done, and the daring Insults they have offered near that City and the Town of Schenectady were enough to quicken our endeavours almost at any adventure for giving protection to our out-settlements

The Building of Blockhouses to cover our Frontier Settlements was thought a matter of great consequence to have done by the Commissioners of Indian Affairs and proposed by them to his Excellency as such to be recommended to the Assembly to make provision for: His Excellency communicated this proposal to the Council and his Excellency and Council approving of it the making provision for putting that scheme in Execution was strongly enforced by his Excellency to the Assembly this Session and they have done it by this Bill

The Neighbouring Colonies the Massachusetts and Connecticut have thought this method of great security to them against the Incursions of the French and their Savages for it settles a line of Communication upon their Frontiers and our Blockhouses are proposed to continue that line

from the northwest corner of the Blockhouse in New England nearest this province towards the Fort in the Mohawks Country at such distances and places as his Excellency shall direct or approve of and we conceive that these Blockhouses and Garrisons provided for by this Bill must necessarily interrupt & deter the Enemy from invading those Frontiers and we think this article has been already too long neglected Wherefore necessity requires the utmost dispatch at this Crisis for putting that scheme in execution which if this Bill be not passed into a Law cannot be done more especially considering the present Temper of our Indians their Inactivity and Declarations for standing neuter in the war and rather (as matters have been managed with them of late considering there is some reason to apprehend their Defection and Revolt to the French we think every one must be of opinion these Blockhouses must be a great security and afford some protection to our out-settlements till we can be enabled to give them better As to the Hardship upon the people of Albany County as has been taken notice of by the Gent^l for the negative side of this debate that their Militia should be obliged to garrison these Blockhouses which will be a means of many families being left Exposed, whilst the heads or masters of 'em are detained in Garrison

We could have wished that the Assembly had made more ample provision touching this head, that his Excellency might have been effectually enabled to have made Draughts out of the Militia in the remote County's to have strengthened the Frontiers in Albany County and have maintained and paid them for that service, but because the Assembly have not done the utmost that could have been desired when they have provided for some services which we think of Importance at this Crisis We can see no reason why the Bill should be rejected for that deficiency

As to the Blockhouses It is to be observed that this line of Blockhouses is proposed (and we think must be of great use though they may happen to be at greater distances and there are fewer of them than we could wish) to prevent the Enemy penetrating into that County and we think cannot fail of Answering that end in a great measure and suppose some Hardships will attend the people of Albany County by Garrisoning them yet as by much the greatest part of the money proposed to be raised by this Bill is to be laid out in the guarding defending and securing that Frontier County and the Out Settlements thereof against the Enemy without which they must undoubtedly be more exposed and be liable to many more and greater hardships and inconveniences and thereby more strongly induced to leave the County We conceive it will be much more for the ease and benefit even of the Inhabitants of that County to pass this Bill than to reject it; as to what is said relating to the Independant companys, if they are kept full, and no more or otherwise divided than as mentioned in the objection, we do not think any such consequences will follow therefrom as has been insinuated

3. As to the persons being named in the Bill who are to receive and apply the money proposed to be issued by it and to appoint the places for Blockhouses His Excellency (as we have understood) approved of (and we had no objection to) those persons for the purpose and therefore their names were inserted and the Bill provides that the Blockhouses shall be erected in such places as his Excellency shall approve of and upon an attentive perusal of this Bill we are of opinion that no part of it does encroach upon the royal prerogative or the power and authority of the Commander in Chief or any wise tend to affect our happy Constitution which we are ever Axious to maintain and preserve

Lastly. If the Gentleman for the negative could have offered any (as he insinuates that he could add many) Reasons "Why he thought this Bill would do more hurt than service, and "instead of relieving the distressed Frontiers would make them loose the hopes they have "hitherto had of Relief which they have a right to expect from their fellow Subjects;" We conceive that he has not done that Justice to the publick or himself in concealing them which (if any such he could have added) The duty of his station as one of his Majestys Council for this province ought to have laid him under an indispensible obligation of Communicating, but as he has not, we are willing to believe that he would have had so great a Regard to his trust as to have mentioned any further objection, that he Judged to be of Weight, if any he had, rather than to suppose he had one, and did not

The Council adjourned till to morrow morning 11 o clock And then met and Adjourned to Brookland on Saturday the third day of May: A. M. 11 o clock

The Speaker resumed the Chair

Ordered, that his Excellency's Speech be read, which being read accordingly it is

Ordered, that the same be entered in the minutes which is as follows :

Gentlemen of the Council, and General Assembly,

It has been signified to me, by Letter from his Grace the Duke of Newcastle, of the 9th of April last (which I have received by Express from Governor Shirley, an Extract whereof I shall order to be laid before you) that his Majesty has been pleased to order an Expedition, against the French Settlements in Canada, and I am commanded (as the other Governors of his Majesty's Colonies are) forthwith to make the necessary Dispositions, for raising as many Men, within my Government, as the Shortness of Time will permit, to be employed in Concert with his Majesty's regular Forces, on this important Service.

It is his Majesty's Intention, that the Troops to be raised in North-America, should consist of Companies of 100 Men each; and that those that should be raised in the several Provinces of New-York, New Jersey, Pennsylvania, Maryland and Virginia, be formed into one Corps, to be commanded by Mr. Gooch, Lieut. Governor of Virginia, whom the King has been pleased on this Occasion, to promote to the Rank of a Brigadier General.

The happy Consequences which will redound to his Majesty's Colonies on this Continent, the Advantage of the common Cause, and the British Interest in general, from the Success of such an Enterprize, must be thought of Weight sufficient to inspire every loyal Breast, and true Lover of his Country, with a suitable Zeal and Resolution, for contributing the utmost in their Power, towards the Accomplishment of the present Undertaking.

Gentlemen of the General Assembly,

In Consequence of what I have now mentioned, I must recommend it to you in the most earnest Manner, to make ample Provision, and that with the greatest Dispatch you possibly can, to enable me effectually to answer his Majesty's Expectations from his loyal Subjects of this Province, That we may signalize ourselves in the Part his Majesty expects we should bear

in this intended Service : It is with the greatest pleasure, I have now received your Resolve, of the 25th of February last, in answer to Mr Shirley's Letter, of the 13th of January preceeding ; wherein you have expressed yourselves with a becoming Warmth and Heartiness, that if his most gracious Majesty should think fit to undertake the Expedition therein mentioned ; this Colony would chearfully contribute any Thing in its Power, for the vigorous Prosecution of such an Enterprize, which leaves no Room for doubt, as you have now the Opportunity offered, that you will act with a Spirit and Resolution, becoming the Importance of the present Occasion.

Gentlemen of the Council,

I am perfectly assured also, that you will co-operate with the General Assembly, with your usual Ardour for his Majesty's Honour and Service, and that nothing will be wanting on your Parts, for the Advancement of this common Cause.

Gentlemen of the Council and General-Assembly,

I am perfectly satisfied, that it is needless for me to recommend the cultivating an Union and Harmony amongst you, upon a Subject so agreeable to all your Inclinations ; his Majesty's paternal Care of his remotest Subjects has been always remarkable, during the whole Series of his auspicious Reign, but more eminently conspicuous upon this important Occasion ; and his Majesty having been pleased to take into his royal Consideration, the Dangers these Colonies have constantly been exposed to, from the Incroachments and Insults of the Subjects of the French King, has been graciously disposed to set on Foot an Expedition, the Success whereof will free you and your Posterity from that Danger and the heavy Expence attending it ; this Instance of his royal Goodness and Tenderness towards you, cannot, and I am persuaded, will not, fail of meeting with all due Returns of Duty, Loyalty and Gratitude.

G. CLINTON.

The Hon^{ble} Daniel Horsmanden Esq^r moved that an Address be presented to his Excellency "To thank his Excellency for his Speech on this important occasion ; To express the Gratitude of the Council to his Majesty, for this Instance of his tender Regard for the Interest and prosperity of his Colony And to assure his Excellency that it is the unalterable purpose of the Council to evince by their actions, the sincerity of their Intentions in promoting this service"

Which Motion being unanimously agreed to

Ordered, that the Hon^{ble} James De Lancey, Daniel Horsmanden and Joseph Murray Esq^s be a Committee to prepare the Draft of an Address accordingly

The Speaker left the Chair, and the Committee withdrew

The Committee appointed to draw the Draft of an Address to his Excellency, being returned to the Council Chamber

The Council being returned to the Council Chamber

The Speaker assumed the Chair and Reported to the Council That having attended his Excellency with their Address, His Excellency was pleased to Return a favourable Answer thereto

Ordered, that the said Address and Answer be Entered in the Minutes, which are as follow :

To His Excellency the Honourable GEORGE CLINTON Captain General and Governour in Chief of the province of New York, and the Territorys thereon depending in America, Vice Admiral of the same, and Vice Admiral of the Red Squadron of his Majesty's Fleet

The Humble ADDRESS of the Members of his Majesty's Council for the province of New York

May it please your Excellency

We the members of his Majesty's Council most chearfully embrace the opportunity of Returning your Excellency our hearty Thanks for your speech on this important occasion, and are perfectly sensible We should be unworthy of his Majesty's paternal Care of the remotest of

his Subjects, did we not zealously exert our utmost Vigour in the prosecution of this important enterprize

As we want words to express our Gratitude to his Most sacred Majesty for this Instance of his tender Regard, for the Interest and prosperity of his Colonys; It is our unalterable purpose to evince by our Actions, the sincerity and Heartiness of our Intentions in promoting a service which his Majesty, and every loyal subject must have warmly at Heart

By order of the Council

PH: LIVINGSTON Speaker

His Excellency's ANSWER to the said Address

Gentlemen of the Council

I return you my hearty thanks for your Address: Your grateful sense of his Majesty's paternal care and Tenderness for his Colonys, and the Warmth you express for the Execution of this important enterprize renders you worthy of the Trust, the King is pleased to repose in you, and must highly recommend you to his Majesty

To the KING's most Excellent Majesty.

The humble ADDRESS of the Governor, Council and General-Assembly, of the Colony of New-York.

Most gracious Sovereign,

We your Majesty's most dutiful and loyal Subjects, the Governor, Council and General-Assembly, of your Majesty's Colony of New York, beg Leave to present our most sincere and hearty Congratulations, upon the glorious Success of your Majesty's Arms, under the Command and Conduct of his Royal Highness the Duke; whereby the rebellious daring Attempts of your Majesty's deluded Subjects, excited and assisted by the most inveterate and implacable Enemies to our happy Constitution, have (to the great Disappointment and Confusion of both) by the Blessing of God, been rendered vain and abortive.

May this ever be the Fate of your Majesty's foreign and domestick Enemies; may the British Throne be established in your Majesty's august House, reigning in perpetual Peace in the Hearts and Affections of a grateful dutiful and loyal People, till time shall be no more.

Permit us, Dread Sovereign, upon this happy Occasion, to return our most unfeigned grateful Thanks, for your Majesty's paternal Care of your remotest Subjects, the Colonies of North-America, in setting on Foot at this critical Conjunction, an Expedition against our natural Enemies the French, in Canada; who from their Situation upon the Back of all the Frontiers of these your Majesty's Dominions, and their exorbitant Inroachments, and wicked Intrigues with the native Savages, are become the Pest of these Countries, from which, by the Opportunity your Majesty has now been favourably pleased to put into our Hands, through your beneficent Tenderness of these Colonies; the Assistance of the royal Armament, and our own united

Endeavours, we hope by the same Blessing of Providence, we shall be effectually relieved, and such a Branch of Trade enlarged and established, as will be attended with the most extensive and lasting Advantages to your Majesty's Dominion in general, and the Northern Colonies in particular.

That your Majesty's Arms may be blessed with a constant Series of Success, and be the happy Means of restoring the general Repose and Tranquility, and your Majesty's faithful Subjects thereby confirmed in the free and uninterrupted Possession of their just Rights of Trade and Navigation, are the most sincere and hearty Wishes of,

May it please your Majesty, Your Majesty's,
Most dutiful and Loyal Subjects.

Which the Speaker did accordingly

Ordered, that his Excellency's Speech be read

Then the same was read and

Ordered, to be entered in the Minutes and is as follows

Gentlemen of the Council, and General Assembly,

In Obedience to his Majesty's Commands, I went in July last, to Albany, in order to engage the Indian Nations to join with us in the Expedition against Canada. You are not ignorant of the bad Dispositions the Six Nations have been in for some Time past; and the French of Canada, have been indefatigable in using all the Artifices in their Power, to turn that Disposition to their Advantage. It is not then to be wondered at, that I met with many Difficulties in that Affair; but this I hope will now increase your Pleasure, when I can assure you, that the Six Nations, and the neighbouring Indians, have in the most solemn Manner, joined with us in the War against Canada. Had the Fleet from Great-Britain, arrived at the Time it was expected, the good Effects of the Treaties I had with these Indians, would have been much more manifest than what can now appear, when from unexpected Incidents publicly known, we ourselves have not been able to pursue any steady Measures; and the Mortality of the City of Albany having been communicated to the Indian Camp, (it being impracticable to keep the Indians from the Town, or the Inhabitants from them) I was obliged to dismiss the Indians on their Promise of bringing back all their Force, at any Time I shall direct; however, I already expect that the Inhabitants of Canada feel, in their own Country, the Effects of this Meeting. The Diffidences and Disorders which from some Time past have appeared among the Six Nations, I think could not have happened without some Neglect or Misconduct, in the Management of Indian Affairs. The Enemy gained great Advantages thereby; I must therefore recommend this to your Consideration, as all the Advantages obtained in your late Treaty with them, by much Assiduity, and a great Expence, may be lost, by Neglect in the Conduct of their Affairs, while a watchful and cunning Enemy suffers no Opportunity to slip, of debauching their Minds, and diverting their Affections from us.

When I left this Place, I was in hopes of being freed from the principal Care of the Forces intended to proceed by Land against Canada, by the Arrival of M^r Gooch, whom his Majesty had appointed to command them, and who was then every Day expected; but that Gentleman having absolutely declined the Service, I was obliged to take that Care upon myself.

After we had been so long disappointed in our Expectation of the Arrival of the Fleet, and that any Attempts by Sea seemed impracticable, I concerted Measures with M^r Shirley, and M^r Warren, to employ the Land Forces to the best Advantage, for the Security of the Frontiers, and Annoyance of the Enemy; but these Measures were disconcerted, by the Accounts received of a Fleet of Ships being on the Coast of Nova Scotia, which was suspected to be the Best Squadron. It then became necessary for me to make such Dispositions of the Forces at Albany, as I thought would best serve for the Security of this Province, and at the same Time facilitate any Enterprize against the Enemy, that may at any Time hereafter be thought adviseable; and I have, before I left Albany, given Orders accordingly.

The Danger all the English Colonies in North-America, are exposed to by the Arrival of a Squadron of the Enemy's Ships, with a considerable Land Force, as it is said, on the Coast of Nova Scotia, requires our Attention; but I have not as yet received sufficient Information to be able to speak to you particularly on this Head.

Gentlemen of the General Assembly,

A larger Sum than usually given for the Management of the Indian Affairs, is at this Time necessary, and as by the Orders which I have left behind me at Albany, a Winter Camp is to be formed, and several small Forts and Block Houses to be built, for preserving the

Communication with the Army, and Security of the Frontiers, a considerable Expence must thereby be occasioned; Estimates of which, so far as I can procure them, shall be laid before you. Your own Safety is immediately concerned in the Execution thereof; and as this Province must sensibly feel the Effects of any Misfortune that may happen, and will likewise gain the greatest Advantages from the Success of any Enterprize against Canada, I make no doubt but that you will chearfully contribute all that is in your Power, in furnishing the Means requisite on this Occasion. You must be sensible at what great Expence your Mother Country supports the present War, against the Enemies of the Liberties of Europe, and of the Protestant Religion, and how much this Expence has been increased by a most unnatural Rebellion, which is now happily suppressed; and therefore how justly the King must expect of you a liberal Contribution to the utmost of your Power. When you consider the great Sums which the Crown expends on this Expedition, of which you'll reap the choicest Fruits, any Parsimony or Saving, (however popular this Term may have become) cannot at this Time, be mentioned in your House with Prudence or Decency; and I must recommend it to you, that whatever Expence you shall judge necessary, may be made the least burthensome possible, especially to those who are least able to bear it.

Gentlemen of the Council, and of the General Assembly,

It is always to be wished, that a perfect Harmony may subsist between the several Branches of the Legislature, which never was more necessary than now, as we are exposed to a powerful cruel, and deceitful Enemy. Differences often arise from imaginary Evils; and the Weakness of human Nature is such, that Mankind are seldom free from real Causes of Mistrust; but these likewise are often aggravated by the private Views of artful and designing Men: What I shall propose to you on this Occasion, is only to observe to you, that every Branch of the Legislature ought to keep strictly to our happy Constitution, without any one endeavouring to encroach upon the Powers, or Privileges, intrusted with the others; When unhappy Differences have arisen in our Mother Country, from an imprudent or wanton Stretch of Power, in any one of the Parts of Government; a Cure has been attempted, by throwing an Overmeasure of that Power into some other Part, by which the Ballance between the several Parts of Government has been destroyed. The Cure became worse than the Disease, whereby Confusion and Calamity always ensued, till the Ballance was again restored. I am told that something of the like Nature has more than once happened in this Government; let us then guard against such Mischiefs, and let us resolve to shew by our Actions, as well as by Words, that we understand and love the English Constitution, and thereby convince each other of the Sincerity of our Intentions, for the Good of our Country; and then I make no doubt, all of us shall enjoy the Pleasures which necessarily arise from the good Effects of such a Resolution.

Ordered to be Entered and is as follows

To the Honourable the President and Members of his Majesty's Council for the province of New
York

“The Petition of the Trustees of the Township of Brucklyn in Kings County
“in behalf of themselves & other the Freeholders & Inhabitants of the said
“Township

Humbly sheweth

“That the Freeholders & Inhabitants of the said Township being greatly aggrieved by An Act
“of the Governour Council and General Assembly made and published in the sixth year of his
“present Majesty's Reign Entituled, An Act to regulate the Ferry between the City of New
“York and the Island of Nassau and to regulate the Ferriage thereof, did by their humble
“petition to the Honourable the Representatives of this Colony made & presented in January
“last pray leave to bring in a Bill to relieve your petitioners from the Hardships therein
“mentioned

“That thereupon your Petitioners obtained leave to bring in a Bill to the same purpose,
“which after some opposition from the Corporation of the City of New York and hearing of
“Council on both sides, did at length pass the said Honourable House on the fourth day of July
“last and was then ordered to be carried to this Honourable Board praying your Honour's-
“concurrence

“That your Petitioners Humbly hope the said Bill contains sufficient Reasons within it self
“to move this Honourable Board to concur with the General Assembly in passing the said Bill
“into An Act. The whole scope whereof not being to give the Freeholders & Inhabitants of

“ the Township of Brucklyn any Right which they had not before the passing the said Act of
 “ the sixth year of his present Majesty Nor to take from the City & Corporation of New York
 “ and (*sic*) Right which it had before the making the said Act but only to remove a Grievance
 “ occasioned by the said Act and to leave both parties in the possession and Enjoyment of their
 “ particular Rights which they had antecedent to the said Act, without any Benefit to the one
 “ party or prejudice to the other by the continuance of the said Act

“ That your petitioners humbly hope that this Hon^{ble} Board will be of opinion that property
 “ ought to have been left to the Trial of Law in the known and established Courts of Justice
 “ within this Colony and that no Act ought to have been made to exclude or debar your
 “ petitioners of the free Exercise of their former priviledges of free Ferriage in their own boats
 “ claimed by Law to be annexed to their ancient Freeholds Especially that it was a very great
 “ Hardship to subject your petitioners by the said Act to the judgment of the Magistrates of
 “ the City of New York who are actually Parties interested against them

“ Your petitioners therefore most humbly pray your Honours to concur with the General
 “ Assembly in passing the said Bill now before this Honourable Board into a Law.

And your pet^{rs} shall ever pray &c

M^r Chief Justice De Lancey took notice That as the business of this Session was now compleated he had something to offer to the Council, which arose from the perusal of a pamphlet that had lately fallen into his Hands Entituled, "A Treaty between his Excellency the Governour and the Six united Indian Nations and other Indian Nations depending on the

province of New York, held at Albany in the months of August and September 1746 (which pamphlet he had in his hands) wherein was a paragraph, page 3, in the words following viz^t

"His Excellency the Governor of New York having received his Majesty's Commands, to engage the Indian Nations depending on his Government to join in the expedition then intended ag^t Canada, and to make them the usual presents on that occasion; and being sensible of the great use these Nations may be to the success of this Enterprize and likewise of the difficulties that probably might attend his Endeavours at this time, was desirous to have had the assistance of as many of the members of his Majesty's Council as the Circumstances of Affairs would admit; but they all declined to give their attendance except M^r Colden & M^r Livingston: His Excellency was therefore obliged to Act with the smallest number of members, which by his Majesty Commission can form a Council, viz^t Three; The above two Gentlemen and Captⁿ Rutherford, who was then at his post in Albany"

Which paragraph he conceived, did contain a Misrepresentation of Facts, and an invidious reflection upon such of the members of his Majesty's Council as did not attend his Excellency to Albany; He therefore moved that the Printer might be ordered to attend, and be examined, that the Council might be informed who gave him the Copy with directions to print it;

Which motion being seconded by M^r Murray;

M^r Colden confessed that he had delivered the copy to the Printer and being thereupon asked, whether he gave him directions to print it? He replied he had delivered him the copy;

Which confession not being satisfactory, he was again asked, Whether or no he directed him to print it; And it was said, That in Case he did not give a direct answer to that point, the Council would insist that the Printer should attend, who no doubt would inform them of the Truth of the matter:

Whereupon M^r Colden confessed also that he did direct him to print it; and afterwards owned that he was the author, but said he had no intention to reflect upon any of the Gentlemen of the Council

After some animadversions made on the said paragraph by M^r Chief Justice, M^r Horsmanden & M^r Murray, M^r Chief Justice further moved

That a censure might be passed upon the said paragraph; and that the Council would come to the follow^g Resolution thereupon

And on the Question being put it was accordingly

Resolved, that it is the opinion of the Council That the aforesaid paragraph contains a misrepresentation of Facts and an invidious Reflection upon the members of his Majesty's Council, who remained at the City of New York, during his Excellency's absence at the late Treaty at Albany

And as the said pamphlet is dispersed in print

Ordered that the said motion and proceedings and this Resolution be forthwith printed
Then the Council adjourned till to morrow morning 11 o'clock

Friday, the fifth day of December, 1746.

 TWENTY-FOURTH ASSEMBLY FIFTH SESSION.
Province of
New York
ss

*At a Session of his Majesty's Council and General Assembly begun
 at the City Hall of the City of New York, on Tuesday the 24th day of
 March, 1747.*

His Excellency the Hon^{ble} George Clinton Captain General and Governour in Chief of the
 said Province having been pleased to prorogue the General Assembly from the thirteenth day
 of January last at several times to this day

The Council met accordingly

PRESENT — *The Honoble* CADWALLADER COLDEN, Esq^r, Speaker,

PHILIP LIVINGSTON,
 ARCHIBALD KENNEDY,
 JAMES DE LANCEY,
 DANIEL HORSMANDEN, Esq^{rs}.

The Speaker assumed the Chair

Then the Council adjourned til to morrow morning 11 o clock

Wednesday, the twenty fifth day of March, 1747.

The Council met according to adjournment

PRESENT — *The Hon^{ble}* CADWALLADER COLDEN, Esq^r, Speaker,

PHILIP LIVINGSTON,
ARCHIBALD KENNEDY,
JAMES DELANCEY,
PHILIP CORTLANDT,
DANIEL HORSMANDEN, Esq^r.

The Speaker assumed the Chair

His Excellency having sent to the Council requiring their immediate attendance at the Council Chamber at his Residence

The Council adjourned thither accordingly

The Council being returned

The Speaker resumed the Chair and Reported that his Excellency had made a Speech to the Council and General Assembly and Delivered to him a Copy thereof which he laid before the Board

Ordered, that his Excellency's Speech be Read

Then the Same was Read and

Ordered, to be Entered in the Minutes and is as follows

Gentlemen of the Council and General Assembly,

I have delayed calling you together till this Time, in Hopes of receiving his Majesty's Commands, and thereby to have been enabled to speak more explicitly to you, with Respect to the Expedition against Canada, than I can at present.

But the Season of the Year is already so far advanced, that it is become necessary to make Preparation without Delay, for posting and employing the Forces, in such Manner, as they may be most useful, for the Security of our Frontiers, and the Execution of any Enterprize that shall be thought proper for Annoyance of the Enemy.

I sent Col. Roberts to Boston, to concert Measures with Governor Shirley, for this Purpose, which is done accordingly.

I have likewise retained the Mohawk Indians from Hunting, that they may be ready on any Occasion, for Service; and have used my best Endeavours among the other five Nations, to preserve them in the good Disposition, in which they were after my last Treaty with them at Albany; and to have them in Readiness, upon every Occasion, in which they can be of Service.

Parties of Indians, with some of the Inhabitants of this Province, are gone, and going out, with Design to intercept any of the Enemy, that may be abroad near our Frontiers; and to range the Woods, in all Places, where they may expect to meet with any of the Enemy.

Gentlemen of the General Assembly,

You know that Provision is only made, for victualling the Troops levied in this Province, to the first of May; I must earnestly recommend to you, the making a further Provision for this Purpose.

I have with very great Expence and Charge to the Crown, and without any Charge or Burthen on the Inhabitants of this Province, secured the Friendship of the five Nations of Indians, and of the Nations dependent on them; I have likewise, at the same Expence and Charge, received Hopes of joining some other of the more Western Nations of Indians, in the War against the French, and who were formerly in the French Interest. I think, it may tend much to his Majesty's Service, the Security of all the English Colonies in North-America, but more particularly to the Security of this Province, and the Success of any Enterprize that may hereafter be undertaken against the common Enemy, that this good Disposition among all the Indian Nations in Amity with us, be confirmed and established by all the Means in our Power; for this Purpose, I propose to go as early as possible to Albany; and I hope, you will think it incumbent on you, to contribute as largely as the Circumstances of the Province will permit, towards the Expence that must necessarily attend this Service.

Among other Things, which are concerted with Governor Shirley, two Forts are to be built at the Carrying-Place, towards Crown-Point, for Security of the Magazines and Stores, and of our Frontiers and Forces, on several Emergencies that may arise, and a Body of Men from the several Colonies, are (as soon as the Season will permit) to be encamped there, for the more secure and effectual carrying on of these Works, and other Services; and as no Directions are arrived from his Majesty, or his Ministers, for defraying the Expence of any Part of the Expedition against Canada; it is proposed, that the immediate Expence of these Services, be at the Charge of the several Colonies, who have levied Forces for the Expedition against Canada,

according to the Rates and Quotas, which were agreed upon by the Gentlemen of the Council of this Province, who attended me at Albany, and the Commissioners of the Government of the Massachusetts-Bay, and presented to me at Albany; as a reasonable Proposal, to be laid before the Legislatures of the several Colonies for their respective Approbation.

Governor Shirley assures me, that he will promote this Service as much as it is in his Power

As this tends more immediately to the Security and Safety of the People of this Province, I expect that you will set a good Example to the other Colonies, by your chearful Contribution towards the Expence of it; and this I must desire you to do, as speedily as possible; for I cannot so much as desire the Concurrence of the other Governments, till I am assured of yours; I shall Order the Proposal of the Rates and Quotas, as it was delivered to me at Albany, to be laid before you.

Gentlemen of the Council and General Assembly,

I shall offer no other Business to your Consideration at this Time; because the Nature of the Service, to which I desire your Assistance, requires the greatest Dispatch, and besides the Meeting of the Indians, which seems to me requisite to be without Delay; the present State of the new Levies, and other Services, require my Presence at Albany, as soon as may be.

This therefore, must be a short Session, but you shall meet again, as soon as these pressing Affairs will permit; when you may have Time to consider whatever may be proper for the Good of the Province; if any Thing else shall occur necessary for your present Consideration, besides what I have now laid before you, I shall communicate it to you by Message.

G CLINTON.

To his Excellency The Honourable GEORGE CLINTON, Captain General and Governour in Chief of the Province of *New York* and the Territories thereon depending in *America* Vice Admiral of the same and Vice Admiral of the Red Squadron of his Majesty's Fleet

The Humble ADDRESS of the Members of his Majesty's Council for the province of New York.

May it please your Excellency

We his Majesty's most Dutiful and loyal Subjects, the Members of the Council for the Province of New York return your Excellency our Thanks for your Speech

Your Excellency having "retained the Mohawk Indians from hunting, that they may be ready "on any occasion for service, and having used your best endeavours among the other five nations, "to preserve them in the good Dispositions in which they were after your last Treaty with "them at Albany, and to have them in readiness upon every occasion in which they can be of "service" we hope will have the good effects that may be expected from them

It cannot but occasion great uneasiness in us, to observe that our Indians employed in the barbarous method of scalping (only Justifiable by the precedent Practices of our Enemies) industriously avoid attacking, or meeting the French Indians or, when they meet, treat each other as Friends whereby they are encouraged in their cruel practice of butchering those who are not in arms, and even those who are unable to bear arms, Women and children: But we hope as your Excellency has secured the friendship of the Six Nations, you will be able to engage them against the French Indians, as well as against the French, for we humbly conceive it would tend much more to his Majesty's service, and be of considerable security to the out settlements of these Colonies, if the Indians are prevailed upon to turn their savage way of warring against each other

We acknowledge your Excellencies Favour in communicating to us that "Parties of Indians "with some of the Inhabitants of this province are gone, and going out with design to intercept "any of the Enemy that may be abroad near our Frontiers, and to range the Woods in all "places where they may Expect to meet with any of the Enemy"

We beg leave to assure your Excellency, we will on all occasions, exert our utmost endeavours for the advancement of his Majesty's service and the welfare of the Province. His Majesty's service and the welfare of the Province, being the invariable measure of our conduct.

By order of the Council

CADWALLADER COLDEN Speaker

City of New York
Council Chamber
2^d April 1747

His Excellency's ANSWER

Gentlemen,

I thank you for this address What difficulties I had to go through in order to engage the Six Nations heartily in the War, are well known.

I have omitted nothing in my Power to engage them in the manner you desire; and I shall use all the means that shall be in my Power to employ them most effectually against the Enemy

Major Edward Collins attending according to order was called in and examined touching the late and present Disposition of the new Levies at Albany and Declared as follows

That Coll^o Marshalls Battallion was posted at Coll^o Philip Schuyler's House and thereabouts which is between four and five miles distant from the City of Albany and on the same side of the River on which the City stands to wit the west side That Coll^o Roberts's Battallion was lately posted on the East side of Hudsons River at a place called Greenbush which is about one Mile below the City of Albany That Coll^o Marshalls Battallion hath been since removed to Green Bush to the Northward of Mr Renselaers House at and about the Ferry there Except one Company of said Battallion which the Examinee hath been informed was left or posted at the Patroons Mills on the West Side of Hudsons River about a short Mile northward of Albany That at the Ferry the River is a little more than a third of a Mile wide That the Examinee when at Albany to wit on the third Instant in the evening received a Letter from Major Glen at Schenectady dated the third Instant informing him the day before a Whiteman and an Indian belonging to Captⁿ Broadhead's Company were killed and scalped about half way between Schenectady and Albany on the Road and that the next morning there went a party to Canistiguyune and found killed there by the Enemy about fifty or sixty head of Cattle chiefly horses That the greatest part of the flesh of the Horses was cut off and taken away and that he concluded from thence the Enemy were very strong and perhaps an Army and that he thought himself obliged to acquaint the Examinee of it—That on receiving this Letter the Examinee immediately sent the same to Coll^o Roberts by Lieutenant Morris, for his perusal and to desire an Alarm Gun might be Fired That Mr Morris brought the said Letter again to the Examinee, and Acquainted him that the Coll^o did not seem inclined to have an Alarm Gun fired. That the Examinee then waited on Coll^o Roberts in order to prevail on him to fire an Alarm Gun and that Captain Campbell was with the Examinee That the Examinee told Coll^o Roberts he thought it very necessary an Alarm Gun should be fired and that it was usual on such occasions to have it done but that Coll^o Roberts did not think proper to give any

direction about it saying it might interfere with his orders and then Coll^o Roberts told Captain Campbell that at the firing of the first Gun he should make ready his Floats and at firing the second Gun he should embark the Men and bring them over That the Examinee never before heard of any such orders That the Examinee was afterwards pressed to fire an Alarm Gun by the Mayor and several of the principal Inhabitants of the City whom he met in going his rounds That the Examinee thereupon sent two of the principal people to Coll^o Roberts to desire him to fire an Alarm Gun, and to acquaint him that unless he ordered it to be done the Examinee would be obliged to do it himself, for that the Inhabitants were very pressing to have it done That Mr Hansen one of the said two persons returned and informed the Examinee That the Coll^o said he the Examinee might do as he pleased or that he did not care what he did, or words to that purpose; upon which the Examinee ordered a Gun to be fired That the Examinee a few days after enquired of Cap^t John Renselaer the owner of the Lands at Greenbush whether he was at Greenbush the day the Alarm Gun was fired. That he told him he was That the Examinee asked him what number of Battoes he saw there at the River side; That he answered, about six. That the Examinee asked him if he saw any preparation made to bring the people over to the City in case of an Alarm; that he answered in the Negative That he also asked if he was at Greenbush the day after the Alarm Gun was fired that he answered yes and that he saw no preparations made And the Examinee saith that he was present and heard said John Renselar declare on oath before a Justice of peace the substance of the above answers made to this Examinee by the said John Renselaer The Examinee says That Coll^o Marshall's Battallion was removed not long after the Examinee received the aforesaid Letter from Major Glen That the Examinee hath heard Coll^o Marshall and Major Clarke say it was against their opinions that this Battallion was removed to the other side of the River That Coll^o Schuylers House at the Flatts is Stockaded and made defencible and will he believed contain one hundred men at least That he believes the Company posted at the Mills consists of sixty or seventy Men That there are not any Inhabitants or Forces posted above the Mills northward of Albany except at Saratoga That he believes there are about three hundred Men in the City of Albany able to bear Arms That it comes to each of the Inhabitants turn to watch once in four Nights That there are in the City eight blockhouses and one Guard house and that the Inhabitants are only capable of keeping Guard in five of the Blockhouses that the Inhabitants have had no aid or assistance from the New Levies to ease them of the burthen of Watching to the Examinates Knowledge or Remembrance except that the Examinee gave Capt Winne liberty to lodge his Men in one of the Blockhouses on Condition he would keep a Centry there That this was sometime last summer and that he kept his men there eight or ten days That the Small Pox was in the Town of Albany last Winter and that the Meazles are there now That Coll^o Marshalls Battallion in going over to Greenbush marched through the Town of Albany

Ordered, that the Examinee and Mr Cuyler do attend again to morrow morning 10 o'clock
Then the Council adjourned till to morrow morning 10 o'clock

Fryday, the 21st August, 1747.

The Council met according to adjournment

Major Edward Collins attending again according to order was called in and further examined touching the late and present Disposition of the New Levies and declared as follows

That the New Levies have done duty in the Fort in the City of Albany while his Excellency the Governor was last there and at other times both before and after That Cap^t Diemer informed the Examinee that the day before Coll^o Marshalls Battallion went to Greenbush he saw on the East side of Hudsons River opposite to the Flatts two Indians which he imagined were French Indians and the Examinee says he is Town Major and Commandant of the Militia and Night Guards of the City of Albany and has acted as such near two years The Examinee says he is of opinion that the further end of the Patroons Pasture or the west side of the River above Albany about a mile and the other Lands adjacent thereto as also Coll^o Schuylers Lands where the Forces were lately posted are all of them places more convenient for the Forces to be encamped on than the places of their present Encampment and that he thinks it is more practicable for the men to desert from their present Quarters than from either of the three above mentioned Places

ED : COLLINS.

Edward Collins the foregoing Examinee then made oath that his Examinations taken in Council yesterday and this day are true to the best of his knowledge and belief.

Cornelis Cuyler attending according to order was called in and examined touching the late and present Disposition of the New Levies and declared as follows, viz^t

That Coll^o Robert's Battallion was lately and is now posted at Greenbush and Coll^o Marshall's Battallion was lately posted at the Flats about five miles above Albany That Colonel Marshall's Battallion was removed to Greenbush yesterday was a week since except one Company of said Battallion which the Examinee hath been informed and believes was left at the Patroons Mills and that the said Company consists he thinks of seventy or eighty men That the Examinee believes that Hudsons River at the Ferry is about five hundred yards wide That the Examinee about 10 o'clock in the evening of the third Instant received a Letter from Major Glen of Schenectady of that days date giving an account that they had advice that the Enemy had killed about sixty head of Cattle at Nestagayune and had taken away as well the Flesh of the Horses as that of the Cows and that the People of Schenectady were of opinion they were an army The Examinee says that Nestagayune is situated about ten miles to the northward of Albany on the west side of Hudsons River on the south side of the Mohawk River and about six miles from the Town of Schenectady And the Examinee says that on the contents of the abovementioned Letter being made publick the People were very pressing a Gun should be fired to alarm the Inhabitants that were out of the City and to give Notice to the Wood Rangers who were on the scout towards Canestagayune That including the most antient Men in the City of Albany he believes there are about three hundred able to bear arms That there are not any Inhabitants Northward of Albany above the Mills nor any Troops except those posted at Saraghtoga; that the Inhabitants of the City of Albany watch every fourth Night and that they have had no aid or assistance from the New Levies to ease them of the burthen of watching that the Examinee knows of

Ordered, that the Examinee attend again at 4 o cl P M

Then the Council adjourned till 4 o'clock P: M:

Friday, the 21st day of August, 1747 P. M

The Council met according to adjournment

JAMES DELANCEY,
DANIEL HORSMANDEN,
JOSEPH MURRAY,
JOHN RUTHERFORD, Esq^r.

The Speaker assumed the Chair

Mr Cuyler attending again according to order was further examined touching the late and present Disposition of the New Levies and Declared as follows

That M^{rs} Schuyler came to the Examinee's house on Tuesday the 11th Instant about 8 o'clock in the Evening and told the Examinee that Major Clarke had been with her just before and acquainted her that the Forces then posted at the Flatts were to be removed to Green Bush on the Thursday Morning following and advised her to take care of her effects That the Examinee the next day went to Coll^o Roberts at the request of M^{rs} Schuyler and desired him to let a Company remain at the Flatts some time til she could remove her effects and that the Examinee used all the arguments he could to induce Coll^o Roberts to encamp the Forces together at the Flatts or at the Patroons Pasture and told him that the People of Albany were very uneasy on hearing that he intended to encamp the Forces below the City and that Major Clarke who was then present Declared he was of opinion the Flatts was a good Place and better than Green Bush because it was High and Dry and that Coll^o Marshall who was also then present Declared himself to be of the same opinion That Coll^o Roberts then told the Examinee that he had orders to encamp the Forces together and that he intended to encamp them at Green Bush at the request of his Officers because it would keep them together better and more from the Town than if they were at the Mills The Examinee says that during the time the Small Pox was in the City of Albany the new Levies came into the Town as usual

CORNELIS CUYLER

The said Cornelis Cuyler then made oath that the contents of his Examinations taken in Council this day are true to the best of his knowledge and belief

Mr Chief Justice De Lancey then moved That an humble address be presented to his Excellency That he would be pleased to order the New Levies to be removed from the place of their present Encampment to some place to the Northward of the City of Albany where they

may be able to oppose the Enemy's March to the said City and more conveniently situated to succour Schenectady and Saraghtoga and that his Excellency would be pleased to order part of the Levies to be posted in the City of Albany to do duty there to ease the Inhabitants of the burthen of Watching until the Forces should be employed upon some Expedition

Which motion on the Question being put was agreed to and approved of

And then Mr Chief (sic) De Lancey further moved that a committee should be appointed to prepare the Draught of the said Address

Ordered thereupon that the Hon^{ble} James De Lancey, Daniel Horsmanden and Joseph Murray Esq^r be a Committee for that purpose

Then the Council adjourned till Monday Morning next 11 o'clock

Mr Horsmanden from the Committee appointed by order of the 21st Instant to prepare the Draft of an humble Address to his Excellency Reported that the Committee had prepared a Draft of the same Address which he Read and then laid the same before the Board where the same was again Read and

On the Question being put agreed to and approved of and

Ordered to be Engrossed

The Engrossed Address to his Excellency was read and approved and

Ordered to be signed by the Speaker

Then the Speaker signed the said Address and the same was

Ordered to be Entered in the Minutes and is as follows

To his Excellency The Honourable GEORGE CLINTON Esq^r Captain General and Governour in Chief of the province of *New York* and Territories thereon depending in *America* Vice Admiral of the same and Vice Admiral of the Red Squadron of his Majesty's Fleet

The Humble ADDRESS of his Majesty's Council of the said Province

May it please your Excellency

We his Majesty's most dutifull and Loyal subjects, the members of his Majesty's Council for the province of New York, beg leave to lay before your Excellency the present dangerous state we apprehend the City of Albany to be in

Your Excellency cannot but be sensible, that the preservation of the County of Albany, and of great part of this Province, the Fidelity of the Indian Nations (and we may add) in its consequences the security of great part of the Neighbouring Provinces, does chiefly depend upon the preservation of that City: We were therefore deeply affected with the late accounts received from thence, that the New Levies which had been posted to the Northward of the City of Albany, had been all withdrawn from thence, (except one Company of about 70 or 80 men left at the Mills, a short miles distance from Albany) and encamped at Greenbush below the City and on the opposite side of the River. Greatly alarmed at this Report and being informed that Mr Collins Town Major of Albany, and Mr Cuyler late Mayor of that City, were in this Town; We sent for and examined them upon their oaths, and they confirmed the truth of this Report. As this step appeared to us to be of Dangerous consequence to his Majesty's service, as so evidently to hazard the loss of the City of Albany, We thought we could not discharge the duty we owe to his Majesty, and to our Country, if on this occasion we should be any Longer silent

We are therefore constrained by the dangers we apprehend our selves exposed to, to have recourse to your Excellency, & to lay before you some facts, such as either consist with our own knowledge, or we received upon the oaths of the Gentlemen we examined

The City of Albany is situated on the west side of Hudsons River; the Town of Schenectady is also on the same side of that River, at about sixteen miles distance; the Fort at Saraghtoga is at about thirty six miles distance, to the Northward of Albany: Greenbush, where the Levies are Encamped, is on the East side of Hudsons River, at about a miles distance below Albany,

where the River is about the third part of a mile wide, and not fordable, being of depth sufficient for large vessells

Upon these facts we must observe to your Excellency, that the Levies Encamped at Greenbush, cannot march to the assistance of Albany or Schonectady, or to the Relief of Saraghtoga Fort, without first crossing the River below Albany and should the Enemy make any attempt upon Albany or Schonectady, we must leave it to your Excellency's own reflection to consider what delays and confusion would attend the passage of Troops, not very orderly and many of them scarce half Disciplined; and how far such an unnecessary delay would hazard the loss of those places, should they be suddenly attacked; and since the Levies are Encamped on the East side of Hudsons River (except that handfull at the Mills) and there are no Inhabitants to the Northward, all that part of the Country being lost, except the Fort at Saraghtoga; What is there to hinder or molest the French and their Indians from coming with the greatest confidence and security near the City of Albany, and watching an opportunity to surprize it

It was with great concern and grief that we heard of the distressed and deplorable circumstances of the Inhabitants of the City of Albany: The whole number of men able to bear arms, even including the greyheads of seventy and upwards, does not exceed three hundred; they are obliged to do duty on the Guard every fourth night, sometimes oftener, without distinction of age or persons; so that even the Judge of the Court of Common pleas for the County, a very ancient man, is obliged to take his turn; and yet notwithstanding this great fatigue upon the Inhabitants, they have had no assistance or ease from the New Levies

We beg leave to acquaint your Excellency, that we are justly apprehensive that these difficultys & discouragements may induce such of them as can support themselves elsewhere to leave the City, and thereby render it weaker and more exposed to danger and ruin

Sir. At this distance from his most sacred Majesty, we cannot lay before him for immediate Relief the Deplorable circumstances of our Country: from whose paternal care of all his faithfull subjects, (and such with truth we may call our selves from our known Loyalty to his Majesty & affection to his Illustrious House) We could not fail of assistance

At this distance therefore we apply to your Excellency, & we flatter our selves that upon the few considerations which we have laid before you, and the reflections which your own Judgment may suggest to you; your Excellency will be pleased to give your orders for posting such a number of the New Levies (until his Majesty shall dispose of them otherwise) to the Northward of the City of Albany in such places as your Excellency shall think most convenient for its protection and security, and to keep the Enemy at a greater distance: and we pray the God of Heaven to touch your Excellencys heart with compassion to the distressed Inhabitants of the City of Albany, that by posting some of the Levies in that City, the Inhabitants may be partly eased of the heavy duty they undergo, and be induced to continue in the City for its strength and defence; and we are humbly of opinion that those Companys of Levies, which were raised in and about the City, would be most proper for that purpose

By order of the Council

PH. LIVINGSTON Speaker

Council Chamber City of New York *August* the 24 1747

Ordered, that the Hon^{ble} Daniel Horsmanden and John Moore Esq^r do wait on his Excellency to know when he will be pleased to be attended with the Councils Address

A Message from his Excellency the Governour to the Council by the Deputy Secretary which being Read was

Ordered to be Entered in the Minutes and is as follows

Gentlemen of the Council,

I Now lay before you, an Agreement entered into by the Commissioners of this Province, of Massachusetts-Bay and Connecticut, wherein your assistance is necessary, so far, as relates to the Supplies to be granted, for defraying that charge of the Expence, which this Province is to undertake.

You will see by that Agreement, that this Province is to have a certain Number of Men in Readiness for Action, by a Day limited in that Agreement; you are to grant the necessary Supplies for raising and paying them, and all other incidental Charges, that must accrue on the Plan concerted by those Commissioners; except Guns, Ammunition, Battoes, Tents, and other Utensils, which I have prepared at the Expence of the Crown, and now remain fit for Service, and which I told the Commissioners, shall be reserved for that Purpose.

But you will observe by that Agreement, that nothing is concerted for the Security of the Frontiers of this Province, or for the Safety of the Inhabitants thereof, though the doing of this, was recommended by me, to the Commissioners of this Province, in the strongest Terms I could conceive; it remains then with you, to take Care of your Constituents, by granting the Supplies necessary for that End.

Neither have the Commissioners concerted any Method for preserving the Indians in the good Disposition they now are in, and which, I think, of the greatest Consequence to the Safety of the People. Before my Treaty with the six Nations last Year, they were so far from being hearty in entering into the War against the French, that the greatest Number of them were in the French Interest; they had frequent Treaties with the Governor of Canada, and some of them had actually joined in the War against us; they have since that given evident Proofs of an Alteration of thier Disposition in our Favour; such Proofs as will not admit of any Dispute, of their being heartily engaged in our Interest, and willing to hazard their Lives with us in any Enterprize against our common Enemy. At the same Time, we have too much Reason to fear, that the many Disappointments the Indians have met with, in the Hopes given them of attacking Canada, both by Sea and Land (and which have failed by Incidents not in our Power to prevent) may occasion many Distrusts and Jealousies among them, and which may prove highly prejudicial to the People of this Province, and favourable to a cruel and merciless Enemy, to whom the Frontiers of this Province, for a large Extent of Country to the Westward, as well as Northward, are too evidently exposed; and which, without the Assistance of the six United Nations, cannot so easily, and with so much Security, be defended.

I have, at a very great Expence to the Crown, recovered the Affections of the six United Indian Nations, and hitherto preserved them in their Fidelity; I have, likewise induced them to be assiduous in drawing in their Allies and Dependants into the same good Dispositions with themselves, and who, consist of numerous Nations, and who can be of the greatest Service in distressing the Enemy; but I can and will no longer continue this Charge on the Crown, The preserving the Fidelity of the Indians, can in the Expence occasioned thereby, bear but a small Proportion to the Charge of recovering, and hitherto preserving their Affections and Fidelity, and of keeping them always in Readiness, and Parties in Action; and therefore, I cannot doubt, of your contributing on your Part, to so small a Proportion, as is necessary at this Time, for the Safety and Security of the People of this Province, and who, I am well assured, will cheerfully bear any Tax or Imposition, that is so expedient for their own Safety. When it is considered what a Load of Taxes and Impositions, the People of Great-Britain cheerfully bear, for the Preservation of the Liberties of Europe, it cannot be expected, that they will bear with Patience the Refusal of their Colonies, to take upon themselves that Expence, which is necessary for their own Safety, especially, when what may be saved from Superfluities, will be more than sufficient for all the Means proposed for this Purpose.

The Securing the Garrison at Oswego, on all Events, is a Matter of the greatest Consequence, for preserving the Fidelity of the Indians, and deserves your serious Consideration, in order to give the necessary Supplies for that Purpose; and unless you likewise secure the Indians, by building Forts, one at least in every Nation, they must be wavering in their Resolutions; since, if this be neglected, they may suspect, that we have no Regard to their Safety, but only to employ them for our own benefit.

At the same time, I shall with great Pleasure think of, and concur in every Method, to make this necessary Expence as easy as possible to all, but especially to those who are least able to bear it; I mean, the labouring and industrious Part of the Inhabitants; with this View of saving Expence, I propose to you, to take the Forces levied on the Expedition intended against Canada, into the Pay of this Province, with Provisions, on the same Footing they would have been, had they continued in the King's Pay; considering how far the Number of Men in these Forces, and now in the County of Albany, is lessened by Death and Desertion, the whole will not amount to more than the Number of Men, which by the Agreement now laid before you will be requisite in a little Time to be levied in this Province, for the Purposes mentioned in that Agreement; without taking this Method, it may be a Question, whether the necessary Levies can be made when immediately wanted, and if they can be made, yet in all Probability the Expence of doing it, will be greater than the Charge of continuing these Troops in Pay for the Time proposed; at the same Time I must tell you, that unless this Method be taken for

continuing the Forces at Albany, the Frontiers must this Winter be deprived of that Defence, which they may have by continuing them, and in that Case, I know of no Method to secure the Frontiers, but by making large Detachments of the Militia, from the several Counties of the Province for that Service, and it must be done, if you do not agree to the other Method, notwithstanding that I think it will be every way more chargeable and burthensome to all the Inhabitants, and less effectual; in Order to lessen the Expence of keeping up the new Levies, I shall reduce the Number of Companies so that the Number of Men in each Company, be brought up to that of their first Establishment, and when that is done, the whole of what then can remain, will be no more than what is expedient for the Defence of the Frontiers.

Though I think it absolutely necessary, for you at this Time, to take the whole Charge of the Indians, as well as of securing the Frontiers upon yourselves, I shall Use my best Endeavours by such Application, as I shall think most effectual, to persuade the Colonies to the Southward, as far as Virginia, to contribute a reasonable Proportion towards the Encouragement and Support of the Indians, and defence of the Frontiers, as well as in joining in any Enterprize against the Enemy, which shall be thought proper; or if they cannot be thus persuaded, I shall use my best Endeavours to obtain such royal Injunctions, as shall be effectual for that Purpose.

As to your taking upon you at this Time, the whole necessary Expence of the Indians, I must inform you, that at my last Treaty with the six united Nations, the Governments of Virginia, and of the Massachusetts-Bay, sent considerable Presents to the Indians; the Massachusetts-Bay, have since that, sent Presents to the Value at least of One Thousand Pounds, New-York Currency; and Connecticut, about Three Hundred Pounds Value, in the same Money. This Government gave no Presents at that Treaty, nor have they at any Time since, been at any Expence on Account of the Indians, and therefore, you have now the more Reason to advance what is absolutely necessary for your own Safety, for some Time, till the neighbouring Colonies be bro't to contribute their just Proportion of that Expence.

There is nothing in my Power, which I will not cheerfully do, for the Welfare of this Province, and Safety of the People his Majesty has committed to my Care; I have given as strong Proofs of this, as any Governor ever did before me: I shall likewise use my Endeavours, that whatever you may give for these Ends, shall be as frugally managed as possible, and that all Satisfaction be given you for that Purpose, either by Accounts or otherwise, so far as can be desired.

You will see by the Agreement herewith sent you, that the Approbation of the several Governments, must be transmitted to the others as soon as possible. The Season of the Year makes it necessary to provide immediately for the Cloathing of the Forces at Albany, if they are to be continued there at your Expence

If I be not enabled to send an Account to Mr Shirley, and Mr Knowles, of your Resolutions, in Respect to the retaining the Forces at Albany, speedily, perhaps it may come too late, or be a Prejudice to his Majesty's Service in other parts.

The Sachems of the six Indian Nations, and others, who came down with Col. Johnson, (whose Name I cannot mention without grateful Remembrance of the Services he has done his Country) now wait for your Resolutions, and my Answer thereon; and though they are impatient to be gone, I cannot suffer them to go, without giving them Encouragement, by proper Presents and Assurances, in order to dispel any Jealousies they may have conceived by Reason of their Disappointment in the Expeditions having been so long delayed; and I cannot give these Assurances, till I know your Resolution of supporting the necessary Expence that attends the reserving the Friendship of the Indians.

The Sachems say, they will not stay beyond two Days; and if they go away discontented, I know not of what bad Consequence it may be, and surely it can produce no Good: These Things altogether make it necessary for you to resolve speedily, and therefore I shall lay nothing before you at this Time, till I know your Resolutions thereon; and I must require your speedy Answer on the several Heads now recommended to you. I shall order some other Papers to be laid before you, for your better Information in these Matters.

G. CLINTON.

City of New York *October 6th 1747*

The Deputy Secretary also laid before the Council a Report of the Commissioners of the Province of New York, Massachusetts Bay & Connecticut which being Read was
Ordered to be Entered in the Minutes & is as follows

AT A MEETING of the Commissioners of the Several Governments of the Massachusetts Bay, New York and Connecticut, at the City of New York in order to concert and agree upon some general measures, for carrying on the war against the Common Enemy & for y^e mutual Defence and Security of his Majesties British Provinces & Colonies, on this continent in North America; It is judged after mature Consideration had of the present distressing circumstances of these three Colonies, and thereupon the said Commissioners agree to Report to their Respective Constituents that they are unanimously of opinion.

1 That an Expedition be formed and carried on against the French Fort at Crown point, for the Reduction of that Fortress

2 That it will be necessary that four thousand Men (officers included) be raised (with as many of the Six Nations of Indians and their allies as can be obtained) to carry on the said Expedition, and that it will be necessary those Troops be at Albany by the fifteenth of April next, ready to march for the aforesaid purpose

3 That as the engaging the Six Nations and their allies, in this and other services against the Common Enemy, is of great importance to the British Governments, it is judged necessary, that such of the Indians as shall engage in the said Expedition, & go into the service, be equipt each with necessarys to the value of five pounds New York Currency, and be assured of a present of the like value on their return in case of success.

4 That as a further means of securing and engaging the said Indians in the service of the English, and to prevent their being seduced to Revolt to the French, it is agreed that it be proposed to each of the said Governments, that a Gunsmith be sent to each of the Tribes following viz' the Oneidas, Onondagas, Cayugas & Senecas, and two Men with each Gunsmith, to continue with them until the next Spring; and that the said persons be instructed to be as obliging as may be to the Indians, with whom they live and converse, and do all in their power to establish and increase the Interest of the English with them, and from time to time advise the Governments of any thing that they shall observe necessary, or that the Indians may want or desire to be done for that purpose; and that there be purchased suitable Goods, to the value of three hundred and sixty pounds New York Currency, to be put into the hands of said Smiths, (or of one of the men that go with them respectively) to be given to the several Nations aforesaid, (except sixty pounds thereof to be put into the hands of some suitable person for the Mohawks) to be distributed as follows Viz' one hundred & twenty pounds to the Senecas, sixty pounds to the Oneyades & Tuscaroras, sixty pounds to the Cayugas, and sixty pounds to the Onondagas, and that the several persons render an account upon oath of the disposition of the said Goods, to the respective Governments; and that the Charges of the said Smiths and others attending them, as also the said three hundred and sixty pounds, be born and paid in the proportion following Viz' The Massachusetts Bay nine twentieth parts; New York eight twentieths; and Connecticut three twentieths; But these proportions not to be drawn into precedent upon any other occasion hereafter

5 That (besides what Governour Clinton has assured the Commissioners shall be supplied Gratis, of the Battoes, Cannon, and Warlike Stores & implements, in the province of New York, provided at his Majestys Expence) the General and common Expence necessary for y^e engaging and Rewarding the Indians, paying the Officers of the Train of Artillery, and for the common store of Shot, Gunpowder, and other Military preparations necessary for the common service, be provided by & at the charge of the Governments engaging in this service, and that the proportions and Quotas of the Governments for these services, as well as the keeping and supporting the Garrison (if reduced) until his Majestys pleasure be known, be as above mentioned and that whatsoever part or proportion, either of Men or money, any other Governments shall undertake to bear and furnish shall lessen the parts of these three Governments, according to the aforesaid Proportion; and that the Legislatures of each Government, engaging in this Enterprize; raise, equip, provide for, subsist and pay their own Troops, as also appoint commissaries to take care of their own stores; saving, that the Government of New York be not obliged to raise above twelve hundred Men, the Massachusetts Commissioners agreeing to propose to their constituents, to raise four hundred Men, to compleat the proportion of New York The Officers to be Commissioned by the Governour of the said Governm^t undertaking to provide the same, and both Officers and Soldiers of said four hundred Men, to receive the same bounty, wages, subsistence and every other thing from the Government of New York, which shall be given or paid by the said Government of New York, to a like proportion of the twelve hundred Men, they shall raise for said Expedition

6 That the Governours of the Massachusetts Bay, New York & Connecticut be desired to appoint and Commissionate the three General Officers for the said Expedition

7 That each Government appoint a Committee of one or more persons to meet at Middletown in Connecticut on the eleventh day of December next, or as soon after as may be, in order to determine & ascertain the particulars necessary to be provided at the common charge of the Governments, and also to agree what particular sorts or species of the s^d particulars each Government shall undertake to provide, having regard to said Proportion

8 That the Commissioners here present, having made Report to their respective constituents, of what measures are hereby agreed upon; the Governours of the Massachusetts Bay, New York, and Connecticut, be desired by the respective Assemblys of these Governments, to apply to the Governours of the several other Provinces and Colonys from Virginia to New Hampshire inclusive, to recommend it to their several Assemblys, fully to join, according and in proportion to their abilities in this comon undertaking against his Majesty's Enemies, and to unite with these Governments in the mutual defence, and security of his Majesty's Colonies on y^e Continent in North America, and particularly desiring them, to send their Committee to meet at Middletown afors^d to engage in this undertaking, and to agree upon what part they respectively will provide of Men, Money & Common Stores, necessary for the engaging and encouraging the Indians, and for the carrying on the s^d Expedition; also requesting as speedy an answer as may be to

the Governours of these Governments respectively, of what their several Governments will undertake in this important Enterprize

9 That in the mean time, while the preparations are making for the proposed Expedition, application be made to his Majesty by the Legislature of each of these Governments, for such a Naval force as may be sufficient to go up the River St Lawrence, and either divert or subdue that part of the Country; and in case of an assurance of a sufficiency to command the River and attack the Fortresses there, and that it be his Majesty's pleasure the Expedition be carried on against Canada; that then the preparations and necessarys designed more immediately for an Expedition against Crown point, be employed and carried on against Canada, for the Reduction of the same; with such additional forces as can be raised: and in that case, that application at the same time be made as afores^d, that the Quotas of the several Governments be settled, and that those that are deficient be enjoined to furnish the same.

10 That in case the other Governments, who have not sent their Comiss^{rs} to this meeting to concert measures for the common good of his Majesty's Subjects, shall after application made to them as before proposed and Notice of these conclusions, and approbation thereof by these Governments, shall neglect or refuse to join them in these important affairs, for the mutual defence and security of his Majesty's Subjects and Interests; that then application be made as afores^d for the Royal Injunctions, to be laid on the several deficient Governments to furnish and provide their proportions and Quotas of Men and Money necessary for the future general defence and security of his Majesty's Colonies and for the carrying on any proper scheme for the annoyance of the Common Enemy.

11 That in case the proposed Expedition against Crown point only go forward, and no Ships of War are sent by his Majesty to go up the River St Lawrence for the purpose afores^d, then a diversion be made up s^d River with what Vessells can be obtained from the several Governments, at the charge of s^d Governments, and in conjunction with such of his Majesty's Ships of War as can be procured at Louisburgh or elsewhere, and that a diversion by Land be made by the direction and under the conduct of y^e General Officers by such of the Forces of Christians and Indians, as shall by s^d Officers on proper encouragement be sent out for that purpose.

12 That the Vessells Goods Stores and other things sent, or that shall go through any part of the Government of New York, for the forces employed in the aforementioned and proposed service, or in Garrisoning the said Fortress, be free and exempt from any Toll, Tribute, Custom and Duty, that is or might be imposed on such materials, by virtue of any Act of the Government of New York.

13 That if it should happen that the proposed Expeditions, shall neither of them be carried on the next year, or if by reason of any other events it should be found necessary, for the defence of his Majesty's Subjects, and annoying the Enemy to send out and maintain Scouts or Rangers, That then the Governments of Massachusetts Bay, New York, and Connecticut, send out on proper encouragement such a Number of Men respectively, as they shall Judge a proportion for them, in order to defend the borders of the exposed Settlements, and to annoy and distress the French & Enemy Indians in their Settlements; & in this service to join with such of the Six Nations and their allies as will go on that design: and that the other Governments of New Jersey, Pensylvania, Maryland, Virginia, New Hampshire, and Rhode Island, be applyed to, to furnish provide and bear their proportion in Men Money or other Necessarys, for the Encouragement and support of such Scouts or Rangers: And that each Government providing and sending out such Scouts or Rangers, receive the benefit of such money or other Necessarys as shall be afforded by the other Governments not sending Men, in proportion to the number of Men they shall respectively employ in s^d service

14 That in case any attack or invasion shall be made by the Enemy on any one or more of his Majesty's Governments, and application be made to any other Government for assistance, that the same be speedily afforded according to the necessity and circumstances of the case; The subsistance only being provided by, and at the charge of the Government requesting and receiving such succours: And if either of the Governments receive any intelligence of an Enemy approaching, either by sea or Land, who may endanger any one or more of the other Governments, that they give them the earliest notice possible thereof by Express

15 That the Legislatures of these three Colonys be desired to determine upon this agreement with all the Dispatch possible, and when done, that each Government do signify the same to the others as soon as may be

16 The large numbers of Men and great Charges consequent thereupon as above, have been come into by the Commissioners, by reason of the distressing Circumstances of these Governments, notwithstanding the full perswasion of the Commissioners, that these burthens must be beyond the abilities of said Governments, if continued; They being almost constantly harrassed by Incursions or Invasions on their Borders from the French and their Indians for near five hundred Miles an end; And many of their Settlements already broken up, and destroyed and divers others in the most imminent danger The Case being such, that if these Government do not lay these heavy burthen on themselves (under which if they are not relieved they must sink) they must be much sooner destroyed by their Inhuman Enemies aboves^d, who are exceedingly supported, spirited, and advantaged by the aboves^d Crown point Fort: The Commissioners being

sensible, that it is as truly unreasonable and destructive to these Governments, to support all the Men and Money necessary to defend his Majesty's Subjects and Interests in North America, as it would be for a small part of the Nation, to be at the expence of defending the whole: There being divers more wealthy, and populous Governments than we are, who have been, and are defended by us, and therefore in all reason ought to bear their proportion of the Common defence, both with Men and Money.

17 The above Articles we agree to recommend to, and in all proper ways to endeavour they may be ratified by the Governments to which we respectively belong, none of which shall be obligatory on any of the three Governments, but such as shall be ratified by all.

In Testimony whereof we have signed Triplicates of these presents, at the City of New York this twenty-eighth day of September, in the twenty-first year of the Reign of our Sovereign Lord George the Second, of Great Britain France & Ireland King &c^a Annoq Domini One thousand seven hundred & forty-seven

The Deputy Secretary laid before the Board by his Excellency's directions a copy of a Speech of seven Sachins of the Six Nations and other Indians to his Excellency the 26th Ultimo. Also a copy of the Examination of Coll^o William Johnson taken before a Committee of the Council the third Instant which being read

Ordered, that the same do lye on the Table for the further consideration of the Board

A Message from his Excellency the Governour by the Deputy Secretary which being read was

Ordered to be entered in the Minutes and is as follows

Gentlemen of the Council

You have herewith sent you, the copy of a Message which I have this day to the Assembly, that you may give your concurrence in the matters which I have recommended to them by his Majesty's orders, and which are necessary for his Majesty's service, and the Security of the Province

A Copy of a Message sent to the Assembly

Gentlemen,

In obedience to his Majesty's Commands, I am to inform you, that his Majesty has for the present, laid aside the Expedition intended against Canada, and has ordered the Forces levied in America, for that Expedition, to be discharged, except so many of them as it shall be thought necessary to retain for the defence of Nova-Scotia. I am further directed to recommend it to you, to furnish such Sums of Money, or Credit, as may be wanted to pay the Forces levied in this Province, for that Expedition, till it be provided for by Parliament; for which Purpose, Accounts of the whole Expence incurred on Account of the American Troops, from the Time of their being levied, to the Time of their Discharge is to be transmitted to his Grace the Duke of Newcastle.

His Majesty hopes you will comply with this Demand, without Difficulty; and I may add, that as I have already paid the private Men, to the 24th Day of June last, and two Months Pay to the Subalterns, the Demand on this Province, will be so much lessened at the Time of their Dismission. The like Demand is to be made on the other Colonies, who levied Troops for the same Service.

On this Occasion, I shall renew the Proposal I formerly made you, of retaining what Number of the Levies now at Albany, you shall be willing to pay, for the present Defence of the Frontiers of this Province; by which likewise the Charge of raising new Levies, in pursuance of the Agreement entered into with the Colonies of Massachusetts-Bay, and Connecticut, may be much lessened.

As it is become necessary that I know your Resolutions on these Heads without delay; and to prevent the proposing Conditions, which may occasion Delay, whatever of these Forces are to be retained, must be retained on the same Pay, both as to Officers and private Men, on which they entered into his Majesty's Service; and that in Case you do not retain all that are now remaining at Albany, after they shall be reduced into compleat Companies of One Hundred Men each, as I formerly proposed to you, the Choice of such as I shall think most proper for the Service, must be left to me. After I shall know your Resolutions to comply with the Whole, or any Part of what I now propose, Estimates of the Sums requisite, shall be laid before you. I must again repeat, that his Majesty's Service requires that I know your Resolutions without Delay; an Express which came from Boston, being detained for that Purpose.

"hundred and thirteen, be now Read the third time

Then the said Bill was read the third time and

On the Question being put

Resolved, that the said Bill do pass

Mr Colden dissented to the passing this Bill for the following Reasons

1 The Executive part of Government, and the Nomination to all Offices, is an undoubted part of his Majesty's Prerogative; and his Majesty has a peculiar Interest in all the Money or Funds granted in this Colony, They being granted to his Majesty and for his service; and therefore his Majesty or such Person as he has intrusted with the administration of Government, has a right to the Nomination of proper persons, to take Examine and State the publick accounts, that his Majesty may be assured of their Integrity and Zeal for his service: But in the present case I am well assured the Governour has in no manner been consulted in the Nomination made by the present Bill. The assuming the Nomination when no Powers are to be given by this Bill, but what can more effectually be done by Commission, makes the design on the administration more evident

2^d As the Funds for Support of Government, have for a continued usage in this Province, arisen from Duties and Imposts on Wine Rum & other Merchandize; Merchants (as the Commissioners appointed by this Bill are well known all to be) are not proper persons for examining & stating these accounts. For if by any connivance with the Merchants, these Duties and Imposts be not carefully levied, whereby the Merchants may save one half, or more, of what they otherways ought to pay; They seem to me not to be the properest persons to discover and take Notice of such Neglects, or of any Frauds in the levying, or collecting of those Duties and Imposts; whereby his Majestys Service may Suffer, and the burthen of Taxes, laid on the Real and personal Estates of the Inhabitants, be thereby increased. And if any credit is to be given to Rumour and Reports, these Duties if carefully collected, would produce at least double of what they now do; and the Inhabitants would thereby be eased in those Taxes which fall heaviest on the poorer & Industrious part of them—And as by the stating the publick accounts these Merchants appointed Commissioners, may gain an undue Influence over the Treasurer. The person principally intrusted with collecting these Duties, strong Temptations may be laid on the Treasurer to favour them in their Duties, more than others: whereby they may gain a great advantage over other Traders, to the great Loss of the fair Trader—As these Merchants offer to take the Trouble of Stating the publick accounts for many years past and to come, without any Reward and as there is nothing so generous formerly observed in their conduct in Life, to make any easily believe, that they would freely undertake this great Trouble, without some view to profit; There is Room to suspect a private view in it. For it is a general observation, that Merchants as seldom give their Labour and Time, without a prospect to profit, as any set of men whatsoever

3 As by the construction of several words and Expressions in this Bill, there seems to be an intention to make the present members of the Assembly for the City and County of New York perpetual Auditors of the publick accounts I think it an unfair Artifice to draw in the members of the Assembly to give their assent to a Bill, the Intention & purpose of which they may not perceive I believe not many on a Reading of this Bill, without pointing out the force of some words, and which are not obviously perceived, will imagine, that such is the Intention of the Bill; and yet upon a stricter examination, I think the force of those words in construction of Law will be found to be such: This is further confirmed by the Title to the Bill, in which there is no Limitation as to time, from and after the year 1713

4 There is no Tye on the Province, or on the Treasurer or on any other to bind them to the state of the accounts made by the Commissioners but that notwithstanding such a state, every article in the said accounts may be controverted, and therefore nothing effectual can be done by such state, Notwithstanding that the Treasurer, and others, may be put to great Trouble, and the province to a fruitless expence thereby

6 No Rules are prescribed for the Proceedings of the Commiss^{rs}, and therefore their Proceedings must be arbitrary, and in case of Error no means provided for Relief against or amendment of such Error.

6 For these Reasons the state of the accounts to be made by these Commiss^{rs}, may be far from being the true state; wherefore the power to publish that Erroneous state, may much deceive the people of this province, & serve to slander the Treasurer, or other particular Person in this province and for what purpose these accounts, thus stated, should be directed to be published in the Newspapers I cannot see, unless it be to confirm levelling principles of making the Mob the dernier Resort in matters of Account, and of consequence in all cases; The favouring of which principles evidently tends to the weakening his Majesty's Authority, and the dependence of this province on the Crown of Great Britain, and is destructive of all good Government. Certainly the exposing the State of the Revenue to foreign nations, unless it be very flourishing is not prudent in any Nation, especially in time of war

Lastly; Yearly salaries are to be paid in perpetuity, to certain persons, without any warrant from the Governour of this Province for the payment of them; and without any check or condition of their doing their duty; contrary to the express words of his Majesty's Commission: of which all Persons are at their peril to take Notice: and by the authority of which, all Laws passed in this Province have their Force, and it may be a Question whether any Law made in this Province, in direct contradiction to that authority, can be of force; at least, I cannot give my assent to the passing of this Bill, and thereby to be advising to his Excellency, to give his assent to a Bill, in direct contradiction to his Majesty's express commands to him

Ordered, that the Bill Entituled "An Act for the more effectual cancelling the Bills of Credit of this Colony" be now read the third time

Then the said Bill was read the third time and

On the Question being put

Resolved, that the said Bill do pass

M^r Colden dissented to the passing this Bill for the following Reasons

1 As this Bill is subject to the same exceptions, as to the Nomination of the Commissioners appointed by it, and the payment of their salary's without the usual warrant for the same, which I made to the Bill Entituled, "An Act to appoint Commissioners to take &c^a" it is needless to repeat these exceptions, since it may be sufficient to refer to them.

2 By this Bill, other Bills of Credit are directed to be cancelled in place of those Bills which by preceeding Acts were directed to be cancelled; By this means many Bills may be left in the hands of private persons, whose currency by the Acts by which they were emitted, may be expired; and thereby the Inhabitants of this Province be great sufferers. This at least may make all tenders of any considerable sum very difficult, since the Witnesses must swear that every Bill so tendered was current by the Acts of this Government, at the time of such tender.

3 The Treasurer is ordered by this Bill to receive any defaced Bills brought to him, and to exchange them for good Bills, which defaced Bills he is ordered to cancel and destroy: This is certainly a Fund for great Fraud, since after a Bill is defaced, the value of it cannot be known, neither can it be known whether it be a true Bill or a Counterfeit; many Counterfeit Bills of this province have appeared. After this Bill shall be passed into an Act, if any Counterfeit Bill be defaced, the Treasurer may receive it, and give a good Bill for it; and since this defaced Bill is to be destroyed, it is impossible to discover such Fraud

4 By the Act passed in the eleventh year of his Majesty's Reign, and mentioned in this Bill, a certain method was established for cancelling the Bills of Credit; in such manner that a perpetual evidence may remain that the persons employed in cancelling those Bills, have truly executed the trust reposed in them, both as to the number of Bills, and the value of each Bill so cancelled: By this Bill that clause which requires this proof and evidence, is to be repealed and no proof is required of the present Commissioners, that they shall truly and without Fraud execute their Duty, in cancelling the Bills, but their oath when thereunto required, & if they refuse to make oath, the penalty is five pound.

Now it is certainly possible, that these Commissioners may instead of destroying these Bills, put them in their pockets, and issue them out again; in place of good and true Bills, they may destroy counterfeit Bills; so that at the expiration of the time for the currency of the Bills of Credit, many good Bills to a great value may be left in the hands of private persons, and thereby either these persons must suffer, or the province by laying New Funds to pay these bills off.

When all checks on Fraud are purposely avoided, and every means to commit it is industriously given, it cannot with men of sense give a good opinion of such proceedings, especially when the reasons given for removing these checks, appear to be merely palliative, or evidently false, as they appear to me in the present Bill

Every Man who has Regard to his Honour, and is intrusted by the publick, in such manner that he may make great profit to himself by any abuse of the trust, will desire to have all possible evidence remain of his having acted faithfully in pursuance of the trust reposed in him; and when any man takes pains to have the means of preserving such evidence of his having acted faithfully taken away and rendered impracticable; or if such things are done with his privacy; it gives too good grounds to suspect such Mans designs—And no Man of Honour in

such case, would desire the whole evidence of his Integrity to lye on his own oath; since a conscience that can consent to such frauds, would not be startled at Perjury; especially when all means of discovering the Perjury are carefully removed

There are few or no Paragraphs in this Bill, to which just exceptions may not be taken; but those I have already mentioned, appear so glaring to me, that I think it needless to put down any more: I only shall observe, that as by the clauses in the Acts for cancelling the Bills of Credit, and which by this Bill are to be Repealed, the Bills of credit are to be cancelled without any charge to this Province, and in a manner which must be effectual, and give more satisfaction to all concerned; I cannot conceive any Reason for putting the Province to the charge of four pounds per day, unless it be to reward the services in General Assembly, of the Speaker, and three of the Members of the City of New York; who undertook to serve their constituents without fee or reward; but I am humbly of opinion, that it would be more for the Honour of this Government, to reward those services in a different manner

Ordered, that the Bill Entituled, "An Act for the Relief of the poor in the County of Suffolk" be now Read the third time.

Then the said Bill was read the third time and

On the Question being put

Resolved, that the said Bill do pass

Ordered, that the Honourable Philip Courtlandt Esq^r do acquaint the General Assembly that the Council have passed the aforesaid three Bills without any amendments

Ordered, that the Bill Entituled, "An Act for purchasing a Supply of Provisions for victualling eight compleat companys of the Forces raised in the Expedition intended against Canada or eight compleat companys of Voluntiers to consist of one hundred Men each to be employed on the Northern Frontiers of this Colony" be now Read the second time

Then the said Bill was Read the second time and

Ordered to be committed

And thereupon M^r Colden moved That it be an Instruction to the Committee to amend this Bill in such manner that the Disposition of the provisions for the Forces posted at Albany for the Defence of the Frontiers of this province be in his Excellency or in the Commanding Officer of the said Forces and that such clauses be added as shall be thought necessary to prevent any Embezzlement or converting of any of the said Provisions to any other use than is intended by this Bill

Which Motion on the Question being put was carried in the Negative

M^r Livingston made a Motion in the words following

Gentlemen,

When his Excellency our Governour on the sixth day of October last, ordered the agreement made and signed by the Commissioners, appointed in behalf of the provinces of Massachusetts Bay, Connecticut, and this Province; to be laid before this Board: it was accompanied with a Message from his Excellency to this Board, wherein were contained two paragraphs in the words following to wit

"But you will observe by that agreement that nothing is concerted for the security of the Frontiers of this Province or for the safety of the Inhabitants thereof; tho the doing of this was recommended by me to the Commissioners of this Province, in the Strongest Terms I could conceive: It remains then with you to take care of your constituents, by granting the Supplies necessary for that end

"Neither have the Commissioners concerted any method for preserving the Indians in the good Dispositions they now are in, and which I think of the greatest consequence to the safety of the People:"

Upon the hearing of which Message Read, I was under some uneasiness to find some Expressions, which may bear a construction to the disadvantage of the New York Commissioners, as if they had ignorantly, or wilfully omitted or neglected to concert or treat about such matters, as had been Recommended to them by his Excellency, for the Security of the Frontiers of this Province; or for the safety of the Inhabitants thereof; or for preserving the Indians in a good Disposition towards us.

When the New York Commissioners waited upon his Excellency with that agreement they informed him, that they had proposed to the other Commissioners, and insisted upon the aforesaid particulars, and all other matters Recommended to them by his Excellency; but could not prevail on the other Commissioners to agree to those particulars mentioned in his Excellency's Message, any further than what are contained in the said agreement, and farther when his Excellency was pleased to lay this agreement before the privy Council, he desired Mr Murray to acquaint the Council what the New York Commissioners had informed his Excellency at the time they had delivered the agreement, which Mr Murray accordingly did; as I suppose every Member here present well knows

You may also Remember Gentlemen, that immediately after Reading this Message before this Board, Mr Murray moved that this Board would declare their opinion of the conduct of the New York Commissioners, and which this Board could well do, from the knowledge every member had of most of the foregoing particulars, this being thought, as I understood, highly Reasonable by every Gentlemen present. It was then proposed his Excellency should be applied to, to make some amendment to the Message, to clear the New York Commissioners from any Reflection upon that head, and soon afterwards, I was informed, that his Excellency ordered an Amendment to be made in writing for that purpose, a copy of which the Deputy Clerk of the Council showed me, and is in the words following—"And though as the Commissioners of this Province told me in a Verbal Report they made of their proceedings, they had used all the Arguments with the other Commissioners for that purpose, which they thought most likely to prevail) and are to be inserted immediately after the following words in first page, viz: though the doing of this was recommended by me to the Commissioners of this province in the strongest Terms I could conceive"

Since which I have seen this Message printed, without that or any other Amendment; whereby the New York Commissioners, may be open to censure & blame, without the least Just cause: Wherefore on behalf of my self and the rest of the New York Commissioners I move that this Honourable Board would be pleased to give their opinion, relating to the conduct and behaviour of the New York Commissioners that they may be cleared from any blame.

Whereupon the Council are unanimously of opinion, that the Commissioners of this province Acted with Fidelity in the trust reposed in them, and earnestly pressed the aforesaid particulars, and the other matters recommended by them by his Excellency, though they could not prevail upon the Commissioners of the other Governments to agree to the particulars mentioned in his Excellency's Message any further than is contained in the written Agreement; and although some words in his Excellency's Message may bear a Construction to the Disadvantage of the Commissioners of the Province yet the Council are of opinion that his Excellency had no such intention; and doubt not but his Excellency, will fully clear them from any imputation of blame on that score

The Council Resolved themselves into a Committee on the Bill Entitled, "An Act for raising a Supply of 28.000 by a Tax on Estates Real and personal for defraying the Expence of several services necessary for the Defence of the Frontiers and annoyance of the Enemy: For emitting Bills of Credit for the like sum and for sinking and cancelling the said Bills in short periods" and the Bill Entitled, "An Act to prevent private Lotteries within this province"

The Speaker resumed the Chair

Ordered, that the said Report be made immediately

Then the Hon^{ble} John Moore Esq^r Chairman of the said Committee in his place Reported that the Committee had gone through the first of said two Bills and had directed him to Report the same without any amendment

Which Report on the Question being put was agreed to and approved of

To which Mr Colden Dissented for the following Reasons

Commissaries are appointed by this Bill for the pay of the Forces levied or to be levied in this province and for the Ammunition of Gun powder and lead, without consulting or advising with the Governour in the Nomination and large sums are to be issued from the Treasury without warrant from the Governour and in direct contradiction to his Majesty's Commission by the authority of which the Legislature of this Province is impowered to make Laws

These Commissaries are by this Bill to Act independently of the Captain General's orders or of the Commanding Officer of those Forces and thereby have in their power to controul and render ineffectual any orders however necessary for the Defence of the province or annoyance of the Enemy

The Method for cancelling the Bills of Credit to be issued by virtue of this Act opens a Door to fraud and to introduce confusion in all the other Funds

Ordered, that the said Bill be Read the third time

His Excellency having sent a message to the Council by the Deputy Secretary requiring their immediate attendance at the Council Chamber in Fort George

The Council adjourned thither accordingly.

Where being met His Excellency sent a Message to the General Assembly by the Deputy Clerk of the Council requiring the immediate attendance of that House and they attending accordingly with their Speaker

His Excellency then in the presence of the Council and General Assembly gave his Assent to the four following Bills viz^t

"An Act for purchasing a supply of Provisions for Victualling eight Compleat Companys of the Forces raised on the Expedition intended against Canada or eight Compleat Companys of Volunteers to consist of one hundred men each to be employed on the Northern Frontiers of this Colony"

"An Act for raising a supply of twenty-eight thousand pounds by a Tax on Estates Real and personal for defraying the Expence of several services necessary for the defence of the Frontiers and Annoyance of the Enemy For emitting Bills of Credit for the like sum and for sinking and cancelling the said Bills in short periods"

"An Act for the relief of the poor in the county of Suffolk" and

"An Act to prevent private Lotteries within this Colony"

After which the said Acts were published in the usual manner and then his Excellency was pleased to Dissolve the General Assembly by a Speech in the words following

Gentlemen:

Your Resolves of the 12th Instant, and your Order to the Printer thereon, published in your Minutes together with your other proceedings, makes it necessary to speak to you at this time, in different Terms than I wished to have done.

I must recommend to your serious Consideration, when cool and free from the Influence of your Leaders, whether (if I had by my Order to the Printer of the Gazette, infringed on your Priviledges) it would not have better become you, to have in some Manner applied to me on that Head? But this Method, I suppose, did not please; because, thereby you cou'd not so evidently assume an authority over me, and to annul and contradict the Orders of your Governour; this may be taken by those who have a Right to enquire into your Conduct, as a direct assuming the Supreme in the executive Part of Government; and which they may think destructive of your Dependency on the Crown of Great-Britain, and of which the People of Great-Britain, may become jealous.

Consider, likewise, that Paper published under the Name of a Remonstrance of your House, and your former Representations; they contain several Things which you knew to be false, as appears from the Proceedings of your House; in others you manifestly contradict yourselves; from Things notoriously known, it must appear, that what you assert in other Parts of them, is impossible to be true; no where had you any Evidence of the Truth of the Facts which you assert; you were guided by no Principal of Action, but that of a blind Faith in your Leaders; this must appear to any one, who shall consider the Minutes of your Proceedings, the Time and Circumstances attending them: All these Things, I say, will appear to any Person attentively considering your Endeavours, to throw the vilest Aspersions on your Governour's Conduct.

Can Falshood, Slander and Malice be supported by any other Methods, than those which you have taken? Wou'd any Man who has the least Sense of Honour, take those Methods to support truth? Or to seek Redress from any real Grievance, which are only proper to support Falshood and Malice, and propagate Slander? For what Purpose are those Publications made, when those to whom they are made, have no Means of enquiring into the Truth of them, and can give no legal redress to any Injury, if it were real? Can any Thing be more pernicious to Society?

Besides these Things observable in general throughout your Proceedings, the Method you took to present that Remonstrance (as it is called) could only be with Design, to shew your Contempt of his Majesty's Authority, in the Character of his Governour of this Province: By that Method you assume so far an Authority over your Governour that you think it incumbent on him to know, and to pay a Regard to your Committees, and to Papers signed only by the Clerk of your House. Consider the Petition usually made by your Speaker, when presented to the Governour for his Approbation: Your Speaker only desires Access to the Governour's Person for himself, and when necessary for the publick Service; take the whole of your Proceedings together, and the Spirit of your Actions too plainly appears.

I must Leave it to my Superiours to judge, whether that printed Paper, called a Remonstrance of your House, has not evidently all the Characters of a false, scandalous and malicious Libell, against your Governour? I must leave it to them to judge, whether I acted as became the Governour of this Province, in forbidding the Printer to re-print it in his News-paper, as I was informed, the Speaker of your House, had privately ordered him to do, after it had been printed in the Votes of your House? I must likewise leave it to my superiours to judge, whether I cou'd pass over such a Publication in Silence? Whether, with any Regard to my Character, I cou'd take Notice of it in any other Manner, which cou'd give less Offence, than what I did? And whether you have acted like honest Men and loyal Subjects, in ordering a Libell against your Governour to be re-printed and ten Copies of it to be given to each of your Members, in order to have it dispersed all over the Country, as is actually done?

As to the popular Out-cry you endeavour to raise, of the Liberty of the Press, I shall only say, that certainly this Liberty, as well as any other may be abused to the Injury of others; if an Injury is done, a proper Remedy ought to be applyed; and such a Remedy can never be thought a Restraint of any just Liberty. I am perswaded that no considerate Man can think, that I offered any Obstruction to the Liberty of the Press, by forbidding the Printer to publish that one Paper at his Perill; if no Peril in doing of it, neither the Author nor Publishers of it can suffer by that Order; the proper Judges may in Time shew, whether I did a Service or Disservice to any, by such Warning.

You know with what Earnestness I recommended to you, to provide for the necessary Expence of preserving the Fidelity and Friendship of the Six United Indian Nations, and other Indians our Friends, Engaged in War with the Enemy; and tho' it be now so long since that was laid before you, you have not made the least Provision for this Service, which none can doubt of being of the greatest Importance for the Preservation not only of this, but of all the British Colonies in North-America: Such a Neglect, can no otherwise be accounted for, but that by the Alteration which may be expected in the Disposition of the Indians, from the Contempt which (they may apprehend) you have of their past Services, and from other Disappointments they have met with; you may have it in your Power to give some Colour to the vile Falshoods and Calumnies, you have published: In Hopes of doing this, all the Mischiefs which may happen, are of no Consideration with you.

It is also necessary to lay open another Design which too evidently appears through all your Proceedings; and which, it's probable, you principally had in view, viz: An Intention to assume the Superiority in the Administration: For this Purpose, you throw out all the Aspersions on your Governour's Conduct, that Malice can invent; that thereby you might disable him in retaining that Authority over the People of this Province, which the King has intrusted him with: For what other Purpose have you attempted to put in the most odious Light, the Endeavours I took for the Safety of this Province, in this Time of Danger? And which I must leave to my Superiours to judge, whether they were not the most prudent that could be taken, under the present Circumstances.

The Reason why it became necessary to keep secret the Orders for discharging the Forces raised in America, on the Expedition intended against Canada, 'till the Time they were to be put in Execution, are now obvious, viz. Lest the Defence of the Frontiers should be deserted before Preparation could be otherwise made for the Defence of them; I gave you however,

timely Notice of what was to happen, that you might make the Provision requisite for that Service: At the same Time, I told you in what Manner any Number of the forces then posted on the Frontiers, might be retained with the greatest Certainty. You refused to make Provision in the Manner I proposed; you took a different, and much more uncertain Method; and, after you had fixed on one Method, you changed it to another equally uncertain in its Success; and which, on a fair Calculation, must put the Province to above Four Thousand Pounds more Expence than the Method I proposed. It is well known how dilatory you have been in your Proceedings, while the Safety of the Province required the greatest Dispatch in your Resolutions.

When I perceived the Province to be thus exposed to imminent Danger, I took the only Course remaining in my Power for the Defence thereof, either in case that a sufficient Number of the Forces then at Albany, could not be retained, or that the Frontiers should be attacked by a greater Force than the Number of Men you proposed to pay, could resist.

As the Dangers of the Enemy might happen suddenly, (and when least expected) it became necessary to put the Militia, without delay, into such a Disposition, that they may be always in Readiness on every Emergency. For which Purpose I gave Orders that Detachments may be made of them upon the first Appearance of Danger, that may require more Force than may at any Time happen to be on or near the Frontiers. I never heard it asserted, that the Orders which I then gave, were either illegal or partial; that they either favoured one Man, or were oppressive to another; or that they were unnecessary.

For what Purpose, I say then, were your Resolves published? which evidently tended to create Disobedience; and did accordingly produce Disobedience to these Orders which I am confident, will appear prudent and necessary for the Safety of this Province, to all judicious and impartial Men. Could this be done for any other End (if you did not design to give up the Province to the Enemy) than to usurp the Command of the Militia, and to show that his Majesty's Prerogative and Authority over the Militia, (and which was never disputed) must be fruitless and ineffectual, unless he please to take that Authority from you, and under such Limitations as you shall please to set to it? It is too well known what base Insinuations were industriously spread among the People at that Time, in order to carry the Spirit of Disobedience, and the Passions of ignorant People, to the most dangerous Height; and how industriously some of your Members were in propagating the most mischievous Sentiments for that Purpose. As I then publicly declared, that I had no Intention to put the People of this Province to any unnecessary trouble, so, since that Time, I have done all in my Power to prevent it, by my Endeavours to retain as great a Number of the Forces now at Albany, as can be done on the Encouragement which you had promised. I hope no bad Event may too evidently demonstrate the Necessity of the Precaution I endeavoured to take, in having the Militia, in readiness for Prevention of it.

Your refusing the King credit, for Payment of what is due to the Forces levied in this Province, on the Expedition against Canada, till such Time as Provision shall be made in Parliament for that Service, too openly shows what little Regard you have either to the King's Pleasure, so reasonably signified to you or his Service; and likewise what little Regard you have to those who have been willing to expose their Lives, in the Service of their Country, and have on several Occasions, exposed their Lives in the Defence of this Province: This Contempt of such signal Services, and neglect of Men, who are now in the greatest Distress, arising from their Zeal for their King and Country's Service, must for the future, discourage the like Zeal in all others; and on many Accounts, must be detrimental to the People of this Province.

It is now well known, that if you had complied with my Offers, of retaining the Forces posted at Albany, in the Pay of this Province, on the Terms I proposed, a sufficient Number of disciplined Men, commanded by Gentlemen, could then have been retained: And it is now likewise so evident, that a sufficient Number of Men cannot at this Time be obtained in this Province by the Method you have taken, that the Council has found it necessary to advise me, to apply to the neighbouring Colonies for Men: Until a sufficient Number can be procured, the Frontiers must remain exposed to the Enemy; and it must remain uncertain for some Time, whether a sufficient Number can be procured. Thus, from an Obstinacy, and some other Temper of Mind, to which it is difficult to give a proper Name you are willing to expose the Lives and Estates of the People you represent, to all Cruelties and Ravages of a merciless Enemy, rather than to comply with any Demand of your Governor, however reasonable or necessary it be for the Welfare of your Country.

You still further discover your desire of assuming the supreme Authority over all Military Force in this Province, by your Conduct towards the independent Companies of Fusileers now posted at Albany, for the Defence of this Province, and which have been kept in it above fifty Years, at the Charge of the Crown for its Defence. No Man can say, that the private Men can subsist themselves there on their Pay at this Time; or that they can at this Time, find any other Means for their Subsistence: Nor can any Man think that they can remain contented, to see others who do the same Duty with them, receive double the Pay and Provisions, while the Country which they protect, refuses provisions to them: Does not this plainly tend to a

Dissolution of these Companies? And for what Reason can this be desired by you at this Time, when Men are so much wanted for the Defence of the Frontiers, unless it be that you cannot bear any Military Force in this Province, not immediately dependent on you? And for this Purpose you are willing to lose these Troops likewise, though necessary for the Protection of the Province.

But the bills you have framed for the defence of the Frontiers, and to which I now give my Assent, for this reason only, that you have put it out of my Power otherwise to save this Province, from the most eminent Danger: These Bills, I say, put your Designs out of Question. For what Purpose do you put the Provisions for the Forces at Albany, the Pay of them, and the Ammunition, Gunpowder, and Ball, destined for their Use, into the Hands of Persons of your own Nomination, without advising or consulting with your Governor, in the Appointment of Persons to so great a Trust? But to put it in the Power of those Persons to controul any Order which your Governor shall give.

The Pretence which you endeavour to infuse into the Heads of the People, cannot have the least Appearance of Foundation, after the Declaration I made to you, that I would give my Assent to any Clauses proper to prevent any kind of Embezelment; or converting of either the Money or Provisions, to any other Use than designed by the granting them. It is well known that the Method you formerly took, and still continue to take, is as open to Frauds as any other. It must be surprising to have it supposed, that Frauds cannot be prevented otherwise than by a Breach or Alteration of the established Constitution; for this can only be supposed by those who do not understand, or are avowed Enemies to it.

You have done all in your Power to make my Endeavours for the safety of this Province, clash, and become inconsistent with my duty to the King, by making the only Means you put in my Power, for the Safety of the People, contradictory to his Majesty's express Commands; and which you know to be such, and derogatory to his Authority over you, while you obstinately persist in the same Method; but as I have a gracious Master, I hope my Zeal for the Safety of so many of his loyal Subjects as would otherwise be in Danger, will excuse me with him, by giving my assent to these Bills, under the present Circumstances of the Province, which admit of no Delay in preventing the Dangers all are in, but more especially many innocent People, on or near the Frontiers.

Whatever vain Imaginations your Leaders, or a Faction among you, may entertain, I am confident his Majesty has Numbers sufficient of loyal Subjects in this Province, to prevent the ill effects of the most daring Attempt on his Authority; and which all Men of Sense know, that no Act of this Government can, in any Light, deprive him of, or lessen his Prerogative, in any Circumstance, however vain you may be of your Powers; but that everything attempted by you to that Purpose, must be foolish as well as arrogant: Every Act to that Effect, is of itself void.

Many other Instances can be given of your grasping at Power, both Civil and Military, by your assuming to yourselves the Nomination to Offices, and the sole rewarding of all Services, as in every Money Bill you pass; to which you will allow of no Amendment by the Council, in any Part of the Bill, how foreign soever to the granting Part; neither do you previously advise or consult with your Governor, either in the Nomination to Offices, or the rewarding of Services.

Take the whole of your Proceedings together, there must appear not only a Want of Candour, but open Malice likewise; and as by your repeated Publications they are become generally a Part in Conversation of all People in the neighbouring Colonies; this Conduct, of you the Representatives of the People of this Province, can give no favourable Sentiments of the Probity of the People you represent.

Your continued grasping at Power, with an evident Tendency to the Weakening of the Dependency of this Province on Great-Britain, accompanied with such notorious and publick Disrespect to the Character of your Governor, and Contempt of the King's Authority intrusted with him, cannot be longer hid from your Superiors, but must come under their Observation, and is of most dangerous Example to your Neighbours.

As I know that great Numbers of the Inhabitants of this Province, disapprove of the present Conduct of you their Representatives, I cannot at this Time, do more for the Benefit of all, than by putting it in their Power to declare their Sentiments, that they may, if they please, vindicate their Loyalty to their Prince, and Love of the Country, on which they depend, and which protects them.

Therefore I think it for the Reputation and Interest of this Province, as well as for his Majesty's Service, that the General Assembly of this Province be DISSOLVED; and you are DISSOLVED accordingly.

The Speaker reported that the Council & the General Assembly had attended his Excellency yesterday in the afternoon at the Council Chamber in the Fort, and that his Excellency had been pleased to make a Speech to the Council and General Assembly, of which his Excellency had given him a copy which he delivered in at the Table.

Ordered, that his Excellency's Speech be now read

Then the same was Read and

Ordered to be Entered in the Minutes and is as follows

Gentlemen of the Council and General Assembly,

The publick Affairs of the Province have made it necessary for me to call you together at this Time; otherwise I should have delayed your Meeting to a Season of the Year, that must have been more convenient for you.

The Agreement made in this City, the 28th of September last, by the Commissioners of this Province, of Massachusetts-Bay and Connecticut, upon Measures for carrying on the War against the common Enemy, and for the mutual Defence and Security of his Majesty's British Colonies on the Continent of North-America, received the Approbation of the last General Assembly of this Province; the Government of Connecticut has signified their approbation of the same; and since the dissolution of the last Assembly, I received the Approbation of the Government of the Massachusetts-Bay, with some Alterations to the said Agreement. Copies of these Approbations and Alterations shall be laid before you.

Since the Government of the Massachusetts-Bay, have refused their Approbation of the 11th Article of that Agreement, I am of Opinion, that the Service which was expected from that Article, ought to be supplied by some other Method; which I think, cannot be otherwise done, than by a numerous Partys of Indians to be employed, for the Service which was intended by that Article.

The carrying this Agreement into Execution, tends so evidently to the Benefit and Security of all the British Colonies in North-America, that I think it needless to use any Arguments with you, to contribute every Thing incumbent on you to carry it on; and however chargeable it may be at this Time, yet when it is considered, that a great Part of the annual and heavy Expence, which this Province must bear for the Defence of the Frontiers only, may thereby be saved for the future, I persuade myself the People of this Province will chearfully submit to any Expence which shall be necessary for such beneficial Consequences.

The Advantage which all the Colonies, but more especially this, may receive from the Friendship and hearty Assistance of the Six United Indian Nations, and the Mischiefs which may come from a contrary Disposition, and their acting in favour of our Enemies, are notorious; therefore, it will deserve our most serious Attention, to consider how far their Disposition at this time may be affected by the Disappointments they have met with from the intended Expedition against Canada being laid aside, from the disbanding the Forces which were at Albany; and by the Influence which the French Emissaries may gain thereby over them, by infusing into their minds our want of Strength or Courage: This may occasion unexpected Difficulties in the Conduct of Indian Affairs, even in preserving their Friendship, but much more in engaging them heartily and generally in any new Enterprize; I must therefore demand your Assistance, to enable me to pursue every Method which may be necessary to engage the Six Nations of Indians, and their Allies, to join heartily with us in the Execution of the Agreement now laid before you; for without the Assistance of numerous Parties of the Indians, we may have much Reason to doubt of the Success of what is proposed; whereas, with such Assistance, we have the greatest Reason to expect it.

No Act has passed for the Payment of the Salaries of his Majesty's Officers of the Government, since the Act which expired the first of September last; I must therefore recommend to you, to provide for these Appointments, in as ample a Manner as has been heretofore done; as also for Expresses, and other contingent Charges and Services, which necessarily arise in Time of War.

I have appointed by Advice of Council Mr. Aaron Stevens, Interpreter to the Indians, in Behalf of this Province, from the Death of Mr. Blecker, their late Interpreter; and as he has done signal Services among those Nations, and contributes considerably to keep them steadfast

in the British Interest, I cannot doubt of your granting him an ample Allowance as Interpreter, from that Time.

No Provision has been lately made for the Pay and victualling of Oswego Garrison; and Col. Johnson tells me, he cannot continue supplying that Garrison any longer with Provisions, without an Extra Allowance of Two Hundred Pounds, per Annum, during the War, as the transporting the same is attended with great Difficulty, Hazard and Expence; and as the publick is considerably in arrear to him, I expect you will immediately provide for that Charge, with what Expence he has been at of sending the Provisions and Reliefs thither, over and above the Contract. I conceive it absolutely necessary, that Provision should be made for the Expence of a Smith, to reside during the Summer Season at Oswego, for the Use of the Indians that come to the Trading House, there being assured by Col. Johnson, it will give a general Satisfaction to all, but more particularly to the far Nations.

The Fort at Albany wants many Repairs, which I recommend to you; as also a Supply of Ammunition for the several Forts in the County.

As several Expences have incurred for Rewards to the Indians, for Scalps; for the Maintenance of their Prisoners; for transporting the new Levies to Albany; for victualling some of them in the Mohawk's Country; for removing the Cannon from Saraghtoga, to Albany; and for Expresses; And as Col. Johnson has advanced Money to the Smiths, and other Persons sent among the six Nations of Indians, of all which Disbursements, proper Accounts shall be laid before you, I must recommend the Payment of them as just and necessary Debts on this Government; as likewise the Payment of the Rent to the first of May next, of the House wherein I resided till the House in the Fort was put in a proper Condition to receive my Family. I must likewise recommend the compleating of the House in the Fort; the building of Stables, and making such other Conveniencies as are necessary and proper for my Accommodation.

The Companies for which the last Assembly made Provision, to be raised for his Majesty's Service, are almost compleat; but as no Provision was made for a commanding Officer at that Time, I cannot avoid desiring you to make such a reasonable Provision for one now, as will fully answer the Trouble, Care, and Expence, attending that Command.

Gentlemen of the General Assembly,

I depend upon you to grant Supplies for all the Services which I have laid before you, and particularly for what may be requisite to preserve the Friendship of the Six United Nations of Indians, and to engage them heartily in any Enterprize against the common Enemy, which shall be judged proper to undertake in Conjunction with the neighbouring Colonies.

Gentlemen of the Council and General Assembly,

There being nothing more desirable at all Times than Peace and Unity, I persuade myself you will enter upon the Affairs I have now recommended to you, with all Manner of Harmony and prudent dispatch; because the other Colonies who are united with us in the before mentioned agreement, wait your Resolutions; and the Example which you may give on this Occasion, will give Life and Dispatch to all concerned, where it appears necessary for the General Benefit of all the British Colonies in North-America.

You will always find me ready to concur in any Measure, that shall be proposed to me, for his Majesty's Service and the Interest of the Province.

G. CLINTON.

Fort George in the City of New York

Febry 1747.

Ordered, that his Excellency's Speech be forthwith printed.

M^r Chief Justice De Lancey moved that an Humble Address be presented to his Excellency "to thank him for his Speech, and for the readiness he expresses therein to concur in any measure that shall be proposed to him for his Majesty's service, and the Interest of the Province. The Council adj^d to wait on his Excellency with their Address and being returned

The Speaker resumed the Chair and Reported that having attended his Excellency with the Council's Address, he was pleased to return a favourable answer thereto which he reported in his place

Ordered, that the said Address & answer be entered in the minutes which are as follow

To His Excellency The Honourable GEORGE CLINTON, Captain General and Governor in Chief of the Province of New York and Territories thereon depending in America, Vice Admiral of the same, and Vice Admiral of the Red Squadron of his Majesty's Fleet

The Humble ADDRESS of his Majesty's Council for the Province of New York.

May it please your Excellency,

We His Majesty's most Dutiful and Loyal Subjects the Members of his Majesty's Council for the Province of New York, return your Excellency our Thanks for your Speech, and for the readiness you Express therein, to concur in any measure that shall be proposed to you for his Majesty's service and the Interest of the Province

We are fully sensible of the advantage which all the British Colonies on this Northern Continent, as well as this in particular, may receive from the Friendship and hearty assistance of the Six United Indian Nations, and the mischiefs which a contrary Disposition may produce; and as these as your Excellency observes are notorious, it is therefore evidently the Interest of all these Colonies, to join together in concerting such prudent measures as may most effectually secure the Friendship and dependence of the Indians, and thereby prevent the evil Effects which would unavoidably follow, from the French Emissaries gaining any Influence over them.

We agree with your Excellency that Peace and Unity are always desirable, and we do assure your Excellency, we shall Endeavour to cultivate them. And your Excellency may depend that our known Loyalty to his most sacred Majesty's Person and Government, and the Regard we have for this Country will always excite us to promote every step that has a tendency to His Majesty's service, and the welfare of the Country we live in.

By order of the Council
PHILIP LIVINGSTON Speaker

Council Chamber City of New York
15th of February 1747.

His EXCELLENCY's Answer.

Gentlemen:

I thank you for the assurances you have given me in your Address. No Endeavours shall be wanting on my part to promote His Majesty's Service, the Preservation & Friendship of the Indians, and the Peace and Welfare of His Majesty's Subjects in this Province: and I persuade myself, youll take the most prudent measures to cultivate those Ends.

The Deputy Secretary laid before the Council by his Excellency's directions a Copy of a Message from his Excellency the Governour to the General Assembly Which being read was *Ordered*, to be Entered in the Minutes & is as follows

Gentlemen,

In my Speech on the 12th of February last, I recommended to you, to make Provision for several Services that had incurred, or were necessary to be done at the publick Expence; but as the Season of the Year did not then permit you to provide for them, I shall order the Particulars thereof to be again laid before you, and recommend them to your Consideration, not doubting but they will have their due Weight in your Deliberations.

Since your Recess, I have taken all the Precautions in my Power, at his Majesty's Expence, to preserve the Affections of the Six Nations of Indians, in the British Interest, by sending

Col. Johnson among them; and he has succeeded so well, that he has prevented their going to Canada, until I can have an Interview with them; and although they have declared themselves fully attached to our Service, yet it appears to me by the Treaty which that Gentleman has had with them, (which I have ordered to be laid before you, with an Extract from his Letter) that there is the greatest Danger of a total Defection of those Tribes to the French Interest, unless we can give them Proof of the Sincerity of our Professions, by speedily and resolutely joining with them in prosecuting some Enterprize against the Enemy; therefore I hope you will readily unite with the Governments of Massachusetts-Bay, and Connecticut, in executing the Agreement entered into with them; as the Advancement of the King's Service, the Safety of the Province, and the well-being of the Inhabitants greatly depend thereon; and you may be assured of all the Assistance in my Power, in Conjunction with Governour Shirley, to encourage the Indians to do their Parts for the Reduction of Crown-Point, or to carry on some other Acts of Hostility against the Enemy; and I refer you to a Message of the General Court of the Massachusetts-Bay to Governour Shirley on this Occasion; a Copy of which I have ordered to be laid before you.

I have invited the Six Nations of Indians, and their Allies, to meet me at Albany, the Beginning of next Month, in order to partake of the Presents his Majesty has been graciously pleased to send them; but I am informed it will tend to little Purpose to give those Presents, unless an Act is passed before that Time, forbidding all Persons whatsoever, to buy or exchange, any Arms, Ammunition, Clothing, &c. from any Indian of the Six Nations, or their Allies, or to sell them any Rum, or other spirituous Liquors, under certain Penalties, without a Licence from me, or the Commander in Chief for the Time being; and I recommend it to you to prepare an Act for that Purpose before I go.

Capt. Armstrong, his Majesty's Engineer for this Province, has delivered me his Report, touching the present State and Condition of the Fortifications of this City; and as several Reparations and Buildings, are immediately wanting for the Security of the City, I must recommend it to you to take the same into your serious Consideration, and provide amply for the Works he has advised to be done, agreeable to his Report herewith delivered to you.

I have ordered to be laid before you Copies of two Letters, with some Affidavits, which I received from the President and Council of the Province of Pennsylvania, representing the Danger our Trade is exposed to, from several Privateers infesting our Coast, and as the Protection of Trade is of the utmost Consequence to this Province, I cannot doubt of your falling upon some Expedient for the Preservation of it, from the Attempts of the Enemy.

I have ordered an Extract from a Letter of the Governour of Canada, to Governour Shirley, to be laid before you, wherein he complains of there being no Cartel, or Rules settled for the Exchange of Prisoners, between this Government and Canada; and you may see from that Extract, what may be the Consequence, in case something is not done for that End. I must therefore recommend to you, to provide for the necessary Expence which must attend the Maintenance and Exchange of Prisoners, and redeeming from Captivity such of the Inhabitants of this Province, and Indians belonging to the Six Nations, as have had the Misfortune to fall into the Hands of the Enemy in Canada; but especially for the Redemption of those who are in the Custody of the French Indians, and which must be attended with greater Expence than what usually attends the Exchange or Ransom of Prisoners in other Cases, as they are a barbarous Enemy. I must also recommend to you, to provide for the usual Rewards given by this Province for Scalps and Prisoners taken from the Enemy.

On the 18th of February last, I appointed William Johnson, Esq; Colonel of the Levies, raised for his Majesty's Service in Defence of this Province, and Annoyance of the Enemy; and being satisfied that this Gentleman has taken particular Pains in regulating the Disposition of those Troops to the best Advantage, for the Defence and Security of the Country, I expect you'll make him a suitable Allowance for the Care and Expence that must attend that Command; and as the Enemy make frequent Attempts upon the Inhabitants in the Frontiers, I must recommend to you, to continue the Troops posted there in the Pay of the Province, till we can find a better Remedy for their Protection.

I have recieved a Letter from the Governour of Connecticut, informing me that a Number of his Majesty's Subjects in that Government, are willing to enter into the Pay of this Colony, to go as Out-Scouts against the Enemy, upon a certain Encouragement contained in his Letter, to which I refer you.

Gentlemen,

The Affairs which I have recommended to you demand Dispatch, and I persuade myself it will appear by your Proceedings and Resolutions, that you have that just and hearty Concern for the common Interest of your Country, which its Importance requires.

Ordered, that his Excellency's Speech be Read

Then the same was Read and

Ordered to be Entered in the Minutes and is as follows.

Gentlemen of the Council, and General Assembly,

I Congratulate you on the near Prospect there is of so great Peace, which we have Reason to hope is on a solid and lasting Foundation, since it is to be made with the Consent of all the Powers engaged in the War: But as we have no Accounts that the Peace is finally concluded, we ought to take the necessary Precautions for the Security of the Province on all Events; and more is necessary in this Province than in other Parts of his Majesty's Dominions distant from Canada. If any among the French in Canada should not be well disposed towards us, they may even in case of a Peace, privately set the Indians to do mischief; and I think therefore, that the Troops in the Pay of this Province, and remaining in the County of Albany, ought to be continued some Time longer, till the Inclinations of the French in Canada, and of their Indians, be known, and we have Reason to think that the Inhabitants on the Frontiers are in Safety. We have the more Reason to be on our Guard, since I cannot agree to the Terms offered for a mutual release of Prisoners on the Part of the Governour of Canada by the Officer sent by him to me, consistently with that regard which I have for the Security and safe Return of his Majesty's Subjects of this Province who have the Misfortune to be Prisoners in Canada.

I have given Orders that some Persons be sent from Albany, to propose more equitable Terms to the Governor of Canada, for the mutual restoring of Prisoners, than those which have been proposed to me on his Part.

And you may be assured, that nothing shall be wanting on my Part, to procure a safe and speedy Return of all the British Subjects Prisoners in Canada, that is in my power to do.

Gentlemen of the General Assembly,

As this is the Session in which you propose to provide for the Services of the current Year, I think it proper to observe to you, that in the Time of Governors Hunter, Burnet, Montgomery, and Cosby, the Establishment for the Payment of the Governors, Secretaries, judges, and other Officers Salaries, were made at the Entrance of each of those Gentlemen, upon his Administration, for the Term of five Years, by an Act entituled, An Act for the Support of his Majesty's Government within this Province; but that upon my coming to the Administration in the Year 1743, instead of making the usual Establishment for the Payment of those Salaries, the Assembly passed an Act, entituled, An Act for the Payment of the Salaries, Services, and Contingencies therein mentioned, until the first of September, 1744, and have continued this Method of granting the Salaries for supporting the Governor, and other Officers of the Government, from Year to Year, ever since.

The Inclination, Gentlemen, with which I came to the Administration of his Majesty's Government in this Province, to do every Thing for the Ease and Satisfaction of the People, which was consistent with my Duty to the King, as his Governor, and the Confidence I placed in the Advice then given me, that the Method proposed by that Act, for making Provision for the Payment of Salaries to the several Officers of his Majesty's Government, would not be attended with any Inconveniences, induced me to give my Assent to the Act; and the Rupture with France, which ensued before the Time of Year came round again for providing for the Payment of Salaries, and which has continued till the late Ratification of the preliminary Articles, for a general Pacification at Aix La Chappelle, has prevented me from refusing my Assent to the Acts passed in the three subsequent Years, for the same Purpose, being unwilling to move any Point which might interfere with the Assembly's Attention to other important

Affairs of his Majesty's Service, and the General Interest of this, and his other Colonies in North-America, depending before them, during the Course of the War.

But now that the Conclusion of the War, and the Experience I have had of the Tendency of these new Acts in many points, to weaken his Majesty's Government in this Province, have made it my indispensable duty to take the first Opportunity of putting a Stop to these Innovations. I must acquaint you, that I do not think myself at Liberty to give my Assent to the like Acts for the future, and therefore I earnestly recommend it to you, to make the same Provision for the Payment of Salaries that former Assemblies did, during the Administrations of my four immediate Predecessors, Chief Governors of this Province; and I hope, the same Spirit of Loyalty to his Majesty's Government, which animated those Assemblies, will induce you likewise to comply with what I propose.

Gentlemen,

I am not seeking any personal Advantage for myself, or the other Officers of his Majesty's Government, by an Augmentation of any Salary, in what I now recommend to you; and if you think it more agreeable to the Rights of the People, that the Sums to be paid for every Officers Salary, should be expressed in the Act, instead of having it entrusted with the Governor and Council, as was the usual method before, I shall not oppose it in the least.

You must be sensible, Gentlemen, that I am not offering to you any Innovation in the Method of Providing for the Support of his Majesty's Government, established by former Assemblies, but only endeavouring to put an End to those lately introduced, and to put his Majesty's Government in this Respect, on the same Foot it stood upon in the Time of my Predecessors, Chief Governors of this Province, immediately before I came to the Administration, which I conceive to be my Duty to do, and necessary for his Majesty's Service that it should be done.

It would be too prolix for me, to enter here into a particular Detail of the Inconveniences, which attend the new Method of providing for the Support of his Majesty's Government; but, shall observe only, some of the principal Objections I have to it, viz. That the Establishment for my own Salary, and Allowance, and the other Salaries and Services usually provided for, in former Acts of Assembly, are now made from Year to Year, instead of the Term of five Years. That many new Grants, and Matters of a different Nature are intermixed in those Grants, and tacked to the Grants for my own Support, and of the other Salaries, and Payments, which were usually joined with that, and that these Acts are passed the last of the several Sessions; and that the Grants made to the Chief Justice and other Justices of the Supreme Court, and some other Officers are made to them personally, by Name, not to the Officers for the Time being; which I mention, Gentlemen, in hopes that you will avoid doing the same in your Grants to be passed this Session.

Colonel Johnson, informs me, that he has not been paid a Debt of Two Thousand, One Hundred and Thirty Eight Pounds, due to him by this Province, and which was allowed and ordered to be paid him by an Act passed last Session, entitled, An Act to make Provision for several Services for the Defence and Security of the Frontiers, and other Purposes therein mentioned; and that the Reason given by the Treasurer, why he did not pay that Sum, is, that the Fund out of which this Money is to be paid, is surcharged, Sixteen Hundred Pounds; the Honour of this Government is engaged, that a Debt so just, and so long due, be speedily paid; the Hardships this Gentleman is under, by being kept out of so large a Sum, and for so long a Time, made him unwilling to undertake the supplying of the Garrison at Oswego, as became necessary at the Time the Relief was last sent thither; but I prevailed upon him, to do it, upon my repeated Instances, from the Danger that Garrison would otherwise be in, by the Want of necessary Supplies: I am persuaded, that I need only mention those two Debts, in order to your granting Money sufficient for the Discharge of them, and his other Demands, which I shall order to be laid before you.

I must, likewise recommend to you, to make Provision for paying the Arrears due to the Troops paid by this Colony, and for continuing so many of them, as are at this Time on the Frontiers, and for such time as shall be necessary for the Security of the Frontiers; as likewise for the Expence, which has arisen, or shall arise, by sending and receiving Messengers, or otherwise, for the Exchange of Prisoners, and for compleating and finishing the Governor's House and Stables; I shall direct that proper Accounts and Estimates be laid before you for these Purposes.

Gentlemen of the Council and General Assembly,

I shall do every Thing in my Power, which may contribute to the Safety and Prosperity of this Province, with your Assistance; and I shall (after I receive certain Intelligence of the Event of the Treaty of Peace) lay before you, what I shall then think necessary for the Good of the People under my Care.

The Humble ADDRESS of his Majesty's Council for the Province of New York.

May it please your Excellency,

We his Majesty's most dutiful and Loyal Subjects the members of his Majesty's Council for the province of New York beg leave to return your Excellency our thanks for your congratulating us on the near prospect of a general peace which we do not doubt but will be on a solid and lasting foundation since it is to be made with the consent of all the powers engaged in the war.

We likewise return your Excellency our thanks for the regard you express in your Excellency's Speech for the Security and Safe return of his Majesty's Subjects of this Province who have the Misfortune to be prisoners in Canada and we hope that those who are intrusted by your Excellency at Albany to send some persons from thence to propose more Equitable terms to the Governour of Canada for the mutual restoring of prisoners than those which have been proposed on his part will be carefull to answer your Excellency's good intentions by sending such persons as are qualified for such a purpose

Your Excellency may be assured from our Loyalty to his Majesty and affection for this country you shall not want the assistance of his Majestys Council to enable you to do every thing which may contribute to the safety and prosperity of this Province

After which the said Acts were published in the usual manner and then his Excellency was pleased to prorogue the General Assembly by a Speech in the words following

Gentlemen of the General Assembly,

I think it now a proper Time, to make some Remarks on your printed Resolves of the 26th of last Month, wherein you charge me with a Breach of my solemn Promise, and with a Violation of your Rights and Privileges, by refusing to receive an Address from your House.

It cannot be doubted, but that there is a certain Respect to be observed by you, towards your Governour, in all Interourse between him and you; and that it is his Duty to preserve the Dignity of the King's Authority, so far as he is entrusted with it: The Governour must judge for himself, when he thinks that just Respect is neglected; and therefore, as you first broke in upon the undoubted Rules of Decency, by that Address which you intended to make, you are only to bear the Blame, if any Inconveniences or Prejudices ensue, from your Disrespect to your Governor.

You claim the same Privileges with the House of Commons of Great-Britain. The Speaker of the House of Commons, after having been approved of by the King, desires, *that as often as Necessity for his Majesty's Service and the Good of the Common Wealth shall require, he may, by Direction from the House of Commons, have access to his royal Person.* It is not that the Speaker shall have Access whenever he pleases, but only when his Majesty's Service and the Good of the Common Wealth shall require. The Privilege of Access I never denyed you; but then I have a Right to judge as well as you, whether the Access you desire, be for his Majesty's Service and the Good of the Common Wealth, and that it be made with due Respect. otherways you claim a Superiority over me, inconsistent with the Constitution of this Government.

In whatsoever your Governour and you differ, there is a legal Method for Redress. In my Message to you, I told you, that I would do you the Justice, to send a Copy of that Paper, which you call an Address, to his Majesty's Ministers; which is sending it to the proper Tribunal for Redress, if I have done you any Injury, by my refusing to receive it. But you seem to decline this legal Method; and by your publishing that Paper, under the Name of an Address, in your Votes, and afterwards in a publick News Paper, published by the Printer of your Votes, you seem to place the dernier Resort in all Disputes between your Governor and you, in the Populace. How his Majesty may take this, or how a Parliament of Great-Britain, may take your claiming, not only the Privileges of Parliament, but Privileges far beyond what any House of Commons ever claimed, deserves your most serious Consideration. You seem herein to forget your dependency. I therefore think that I cannot, at this Time, more effectually show the Concern I have for the People of this Province, than by giving you Time cooly to consult with your Constituents on the Consequences your Proceedings may have; and that you may do this at a Time, when you are freed from that Influence which now too evidently prevails among you.

In most of the Bills prepared for my Assent, you continue so visibly to assume to yourselves, the executive Powers of Government, that nothing could excuse my giving my Assent to them, but the Necessity of the Service for which you grant the Money, without which those Services could not be performed. And as I have reason to think, that you persist in your Obstinacy, in assuming almost the whole Powers of Government, it becomes necessary for me to put an End to the present Session.

I therefore think it for his Majesty's Service, that the General Assembly be prorogued, to the second Tuesday in March next; and this General Assembly is accordingly prorogued to the second Tuesday in March next, then to meet here.

The Council adjourned til to morrow morn^g 11 o cl.

Wednesday, the 28th day of June, 1749.

The Council met according to adjournment

PRESENT — *The Hon^{ble}* CADWALLADER COLDEN, Esq^r, Speaker,

ARCHIBALD KENNEDY,
JAMES DE LANCEY,
JOSEPH MURRAY,
JOHN RUTHERFORD,
EDWARD HOLLAND, Esq^r.

The Speaker assumed the Chair

His Excellency having been pleased to require the attendance of the Council at the Council Chamber at Fort George The Council adjourned and went thither accordingly

Where being met His Excellency came to the Council Chamber and sent a Message to the General Assembly requiring the immediate attendance of that House and the House attending accordingly His Excellency was pleased to make a Speech to the Council and General Assembly and to deliver one copy thereof to the Speaker of the Council and another to the Speaker of the General Assembly

The Council then proceeded to the Council Chamber in the City Hall Where being met

The Speaker resumed the Chair and

Reported that his Excellency had been pleased to make a Speech to the Council and General Assembly a Copy whereof he delivered in at the Table

Ordered, that his Excellency's Speech be now Read

Then the same was read and

Ordered to be entered in the minutes and is as follows :

Gentlemen of the Council and General Assembly,

I congratulate you upon the Re-establishment of Peace, by which the Province is freed from the Calamities of War, to which the Frontiers of it were exposed from a barbarous and cruel Enemy: I am not now to incite you to the Prosecution of War, which when most successful, is attended with Effects no Ways desirable, but to the Arts of Peace, for the future Security and Prosperity of the People of this Province; and I assure you, Gentlemen, that I will cheerfully join with you, in every Thing which shall be necessary for the Legislature to do for this Purpose.

But, Gentlemen of the Assembly, it can be of little Service to make Laws, if they with whom the executive Powers of Government are intrusted, be disabled from putting them in Execution; and therefore, I must, (previously to every thing which may be proper to be recommended to you at this Time) demand, that you grant his Majesty a Revenue for the Support of his Government in this Province, in a Manner conformable to the Directions of his Majesty's Commission to me, by the Authority of which you sit and act, and of the Instructions which I have received for that purpose, and to make Provision for the Payment of the Debts justly due for Services done, and for the contingent Services of the ensuing Year, in Manner likewise conformable to the Directions of his Majesty's Commission and Instructions to me. In making this Demand, I ask nothing new, or that any new Taxes or Impositions be laid on his Majesty's Subjects in this Province, or what is not perfectly consonant to the English Constitution, and conformable to the Practice of Parliament. There are Laws of this Province now in force, granting to his Majesty Fonds for the Support of his Government; there is Money in the Treasury for this Purpose; and yet though the Moneys arising from these Fonds, are granted to his Majesty, he cannot (as these Laws now stand) make use of one Farthing of it, for the Purposes for which it was granted. This is such an inconsistency in itself, so contrary to our happy Constitution, and so prejudicial to his Majesty's Service, that it must be remedied; and therefore, I must demand of you, Gentlemen of the Assembly, to give me an Answer, in direct and positive terms, previously to your going on any other Business, Whether you will grant his Majesty a Revenue for support of his Government conformable to his Commission and Instruction to me, the Copies of which I now deliver to you; and may you in your Answer, make manifest your Duty to your King, your Love of the English Constitution, and your sincere Regard to the Welfare of the People you represent.

Gentlemen of the Council and General Assembly,

As soon as I shall have received the Assembly's Answer, I shall lay before you, what I think further necessary for his Majesty's Service.

I am sensible, that the approaching Harvest may make this Time of your meeting inconvenient to some of you; but I could not think it proper to meet you til I knew the Sentiments of his Majesty's Ministers, in Respect to the Assembly's refusing to grant the Support of Government, in the Manner I ask'd it last Fall. And now the pressing Hardships that many of the People of this Province are under, from their not being paid large Sums of Money of a long Time justly

due to them ; but more especially, the Sufferings of the Prisoners still detained in Canada, and for whose Relief, I cannot do what may be proper, till you provide for the Expence which must attend this Service, makes your meeting at this Time necessary ; and I hope, the Sufferings and Hardships so many of your fellow Subjects are under, will be of more Weight with you, than any Inconvenience some of you may be under, by your being taken from attending the Harvest in the Country.

The Speaker further Reported that his Excellency had delivered to him Extracts of part of his Majesty's Letters Patent and Instructions to his Excellency Which he delivered in at the Table where the same were Read

Ordered, that his Excellency's Speech be forthwith printed

Then the Hon^{ble} John Rutherford Esq^r moved that an humble Address be presented to his Excellency to return him Thanks for his Speech

Which Motion [being] seconded and agreed to by the Council

Resolved, that an humble Address be presented accord^{gly}

Ordered, that M^r Murray, M^r Rutherford and M^r Holland be a Committee to prepare the Draft of the said Address and that they lay the same before the Council to morrow morning

Then the Council adjourned til to morrow morn^g 11 o cl

And the Speaker having signed the same

Ordered, that Mr Kennedy and Mr Holland do wait on his Excellency to know when he will be pleased to be attended with the Council's Address

Then the said Gentlemen withdrew and being returned Reported that they had attended his Excellency with the above Message and he was pleased to say he would receive the Address immediately

The Council adjourned to wait on his Excellency with their Address and being returned

The Speaker resumed the Chair and Reported

That the Council having waited on his Excellency and presented their Address His Excellency had been pleased to return a favourable Answer thereto Which he laid before the Council: And the same being read

Ordered, that the said Address and Answer be entered in the Minutes which are as follow

To His Excellency the Honourable GEORGE CLINTON Captain General and Governor in Chief of the province of New York and Territories thereon depending in America Vice Admiral of the same and Admiral of the White Squadron of his Majesty's Fleet

The Humble ADDRESS of the Members of his Majesty's Council for the province of New York

May it please your Excellency

We his Majesty's most dutiful and Loyal Subjects the Members of the Council for the Province of New York return our humble thanks to your Excellency for your Speech wherein you express your readiness to join in every thing which shall be necessary for the Legislature to do for the future security and prosperity of the people of this Province

We heartily rejoice with your Excellency upon the Reestablishment of peace and in the hopes of the Advantages all his Majesty's Subjects particularly of this province will reap thereby

'Tis with the greatest pleasure and gratitude we observe your Excellency's concern for the sufferings of our prisoners and Hardships of the Publick Creditors and the same Zeal for the good of this province that you have always hitherto shewn during your mild Administration thro' all the difficulties lately attending it And we beg leave to assure your Excellency of our utmost Zeal in support thereof.

By order of the Council

CADWALLADER COLDEN Speaker

Council Chamber in the City of New York
the 30th June 1749.

His EXCELLENCY'S Answer.

Gentlemen :

I thank you for this kind Address; It will give me the greatest pleasure to be enabled to shew my concern for the future Security and Prosperity of this province by Acts more than words: I make no doubt of your Zeal to assist me for these purposes, by your advice and every other means in your Power, and I rely on it

The Council met according to adjournment

His Excellency having been pleased to require the attendance of the Council at the Council Chamber in Fort George.

The Council went thither accordingly

Where being met His Excellency came to the Council Chamber and sent a Message to the General Assembly requiring the immediate attendance of that House And the House attending accordingly His Excellency was pleased to prorogue the General Assembly until Tuesday the twelfth day of September next by a speech in the words following.

Gentlemen of the General Assembly,

I am truly sorry, that this Session of the General Assembly must end, without producing any one Thing for the Benefit of the People you represent.

I was in hopes of having an Opportunity of shewing by Acts, more than by Words, my sincere Intentions for the Welfare of the People under my Care; but you have made it too evidently appear, that you met together, not to proceed on Business, but to prevent every Thing that might be proposed for removing the Differences, which have, most unhappily for this Province, subsisted between the Branches of the Legislature.

You have not so much as introduced one Bill for this Purpose, or for the Benefit of the People you represent: Though you pride yourselves on some Occasions in following the Precedents in Parliament, I think, you cannot shew one Session of Parliament, in which not one Bill was read; yet this is the Case of this present Session; and this makes it evident, that you met together with a View, not to heal past, but to create new Differences; not to serve your Country, but private Piques and Resentments.

It cannot be said, that I proposed any Thing to you which it was not my Duty to do; in Return to this, you in the following Words, with a Sneer, renew past Cavils at my Administration, and which had been long since answered, viz^t

“We assure your Excellency, that we sincerely wish the breaking open the Storehouses at Albany; the Letters wrote to the Judge, Clerk and Sheriff, of Dutchess County, requiring them to put a Stop to Proceedings in Cases of private Property; the Attempts made to restrain the Liberty of the Press, and other Things of like Kind, could be buried in perpetual Oblivion.”

Since you think it proper to renew these Charges, it is necessary for me to repeat the Purport of the Answers formerly given to them. The Case of breaking open the Storehouses at Albany, was as follows, viz.

After any Attempt on Canada, was thought impracticable in that Season of the Year, I resolved to march the Troops that had rendezvous'd at Albany, to the Great Carrying-Place, by which every Thing must pass in going to Canada; and there, under the Cover of these Troops, to erect some kind of Fortification, capable of containing five hundred Men. Such Kind of Fortification would be necessary for Security of the Stores, &c. in their Transportation, in Case the intended Enterprize against Canada, should in the Spring have been renewed; and in doing it then, while the Troops were idle, would have saved Time. As this is a Pass, by which the Enemy make their Incursions on our Frontiers, the Enemy's Parties could not escape being discovered, and intercepted by such a Number of Men, either in their going towards, or returning from the Frontiers; and it was thought nothing else could be of so much Benefit for that Purpose.

When this was resolved on, I desired Mr. Colden, to ask the Assembly's Commissioners for Provisions, whether they would take Care of Provisions, in the March of these Troops to the Carrying-Place, and whilst there? Mr. Colden, acquainted the Commissioners with my Design, and told them, as the Assembly had entrusted them with the Care of the Provisions, I was

desirous that they should take Care of them; but that if they refused, I should be under a Necessity to appoint some other for that Service: They objected that the Assembly had not provided for the Transportation. Mr. Colden, in Answer to this, said, that as the Assembly had undertaken to find the Troops levied in this Province with Provisions, they certainly intended to pay the Transportation, being an inseparable Incident to that Service: But when the Commissioners would not trust to the Assembly for this Expence, Mr. Colden, from me, told them, that I would engage to pay the Charge of Transportation, in Case the Assembly refused to pay it; and on this they agreed to take Care of the Provisions as was desired; and I left the Place, expecting they would do so. Mr. Colden informed me, that he made use of no other Words with the Commissioners, or any Kind of threatening, but as in Substance as above related.

Before I left the Place, as it was doubted whether a sufficient Number of Carriages and Carpenters, or other Tradesmen could be obtained, without impressing; I issued a Press Warrant in the same Words which had been agreed in a full Council in New-York, before I went to Albany. It was several Days after I had left Albany, and when the Forces were all ready for their March, the Waggon, &c. in the Streets, when the Commissioners refused to deliver out any Provisions to be carried with them: Thereupon the Officers held a Council of War, and there resolved to make use of my general Warrant for impressing, to take the Provisions by Force; and at the same time Time, offered to give Receipts for what was taken. It has not been so much as pretended, that any of the Provision was imbezzled by that Act, or converted to any other Use than that for which they were intended. By the Stopping of the Provisions, this Service, so useful, for the Security of the Province, became impracticable; and this, among many others, evidently shews the Inconveniences and Absurdities, which must continually attend the Assemblies assuming to themselves, the executive Powers of Government.

The Occasion of writing the Letters mentioned, was this: After the Forces levied for the Expedition against Canada, were disbanded, some Deserters sued their Captain for their Pay; and as it was suspected, that a Country Jury might not have the due Regard to the martial Law and Mutiny Act, in such Cases; I was perswaded to write those Letters: The Proceedings at Law were not thereby stopped, and no Man suffered any Injury in his Property thereby; I acknowledged my Error in doing it, and offered Redress, as appears by your Minutes of the 27th of June, 1748; and how becoming it is in you to renew this Complaint, after what I had formerly done, you yourselves, in cooler Reflections, may think.

As to what you call an Attempt to restrain the Liberty of the Press; I did nothing but what was my Duty, in endeavouring to prevent the Publication of a Libel against the Government. The Printer receives a yearly Salary from the Government; and notwithstanding of this, he not only continues to print Injurious Reflections and Falshoods against the Administration of Government in this Province, but likewise Lampoons and Sarcasms, on the Administration of Government in Great-Britain, and that on Matters of the highest Nature. In the Bill for contingent Services, you gave this Printer a Gratuity, over and above his Salary, to encourage him for those his extra Services.

As to the other Things of the like Kind, which you add to these particular Charges, no Man, who observes your present and past Disposition of Mind, can believe, that if I had made any Slips on which you could have laid hold, that you would have concealed them; but have published them with all the Aggravations that could have been contrived to blacken my Character: And after all that you can say, I still have the Pleasure in my own Breast, to think, that no Man in this Province can say, that I injured him either in his Liberty, Property or Reputation; and that no Governor ever had, or can have, a greater Inclination to do every Thing in his Power, for the Welfare of the People of this Province.

Whether your Actions be a Proof of the Regard you have to the Preservation of publick Credit, and to the Prosperity and Security of the People you represent; I shall leave with your selves to reflect on.

You have made use of the Sense I have, of Justice due to the publick Creditors, and the Compassion I have for them, under the Difficulties some of them labour, by having large Sums detained from them, of a long Time due; as a Temptation to draw me from my Duty; and I hope they are sensible that it is not my Fault that they have no Relief.

Your refusing to grant the necessary Supplies for obtaining the Liberty of your fellow Subjects, Prisoners in Canada, could proceed only from the same Design. I have kept you together near a Fortnight after you had broke off all Intercourse between your Governor and you, in hopes that your Compassion for your distressed Brethren in Canada, and the Safety of the People of this Province, by preserving the Fidelity of the Indians, would at last prevail with you to give the necessary Supplies for that Purpose: Whatever Motive prevailed at last with you, to provide in some Sort for this Service, yet rather than recede from that unparallel'd Resolve, of having no further Intercourse with your Governor, you broke through all the established Rules and Orders of Government, in giving Money for it.

However you may be blamed for this extraordinary Conduct at this Time, I hope the Necessity of the Service, and your Obstinaey, will excuse me.

I come now to a Paragraph in your Address (as you call it) of the 14th of last Month, which is highly injurious to the Form of Government established in this Province, to the King and

his Ministry, and to all his Majesty's Governors in the Plantations; the Purport of which, is to make the People believe, that a Sort of Beggars are sent over Governors of his Majesty's Colonies, with a View that they may enrich themselves, and that the Powers and Instructions given by the King, to his Governors, are calculated to that Purpose; and that this is the Reason why you refuse to yield Obedience to them. Can any Thing appear more daringly undutiful, or be more injurious, than this Insinuation?

I shall answer it, by considering what Facts have happened in this Province, to support so heavy a Charge. If I had drawn any the least Sum of Money out of the Treasury, for any other Purpose than that for which it was granted, no doubt it would have been exposed in the most glaring Light; and as nothing of this Kind is alledged, I stand innocent: I have likewise, carefully examined the Minutes of Council and Assembly on this Head for thirty Years past, and I cannot find that any Governor, has at any Time been charged with having drawn any publick Money for his own Use, either directly or indirectly, other than what the Grantors designed he should draw for that Purpose; and I am perswaded no Instance can be given. I offered my Consent to any Clause in the Money Bills which has no other Tendency than to prevent Misapplication of the Money granted; surely then this egregious Slander on his Majesty's Government and Governors, must be for some other Purposes, than preventing of Imbezement of the publick Money; and it must be for some other Purpose, that you treat the Person of your present Governor with the Insolence you do; such as can no where be parallel'd, but where there was a formed Design to overturn the Government.

You have refused to grant Money for the necessary Services, pursuant to the Powers of his Majesty's Commission, by which only you are impowered to sit and act as the General Assembly of this Province: You must then think, that you can levy Money on his Majesty's Subjects by some other Authority, different from that which the King has given.

You claim the sole Power of issuing y^e publick Money, which is in effect taking the executive Powers of Government into your own hands.

You appropriate the Salaries not to the Office, but to the Officer by Name, with a View to deprive his Majesty of his Right to the Nomination to Offices.

You have in a Manner, for which I am perswaded no Precedent can be given, put a Stop to all publick Business, and any Intercourse between his Majesty's Governour and Assembly: Matters are now brought to an Issue, and must be left to the Judgment of our Superiors.

Gentlemen,

I believe, that you yourselves, and all without Doors, who are acquainted with your publick Proceedings, expect a Dissolution of the present Assembly: But as the Matters in Dispute are now brought to an Issue, and by a Dissolution it may be said, that I disable you from making a proper Defence, if you should after this, be called to answer for what has been done; I am unwilling to be thought to take any such Advantage: But as you have already continued twelve Days (since your Resolution to go on no Business) without entring upon any, and your Constituents are thereby put to an useless Expence, a Prorogation is become necessary; and the General Assembly of this Province is accordingly prorogued to the twelfth Day of September, then to meet here.

TWENTY-SIXTH ASSEMBLY FIRST SESSION

At a Session of the Council and General Assembly of the Province of New York begun and holden at the City Hall in the City of New York on Tuesday the fourth day of September 1750 in the twenty fourth year of the Reign of King George the Second.

His Excellency the Hon^{ble} George Clinton Captain General and Governour in Chief of the said Province having Prorogued the late General Assembly at sundry times from the 12th day of September 1749 to the 24th day of July 1750 was pleased to Dissolve them by Proclamation bearing date the twenty first day of July last and afterwards to order Writts to be issued for electing Representatives to serve in General Assembly. And the said Writts being returnable on his Day

The Council met accordingly

PRESENT — *The Hon^{ble}* CADWALLADER COLDEN, Esq^r, Speaker,

ARCHIBALD KENNEDY,
JOHN RUTHERFURD,
EDWARD HOLLAND, Esq^r.

The Speaker assumed the Chair

His Excellency having required the Attendance of the Council at the Council Chamber in Fort George, The Speaker left the Chair and the Council went thither accordingly

Where being met His Excellency came to the Council Chamber and sent a Message requiring the immediate attendance of the Members of the General Assembly who were qualified.

The said Members attending accordingly

His Excellency was pleased to direct them to return to the Assembly Chamber and choose a Speaker and Present him for his Approbation immediately.

And the said Members of the General Assembly being returned to the Council Chamber presented David Jones Esq^r for their Speaker to His Excellency for his Approbation.

Which choice his Excellency was pleased to approve of.

Then the said David Jones Esq^r after a short apology for himself, desired his Excellency, in behalf of the House, That their words and actions, might constantly have a favourable construction. That the Members might from time to time have free Access to his Excellency and That they and their Servants might be priviledged & protected as usual Which his Excellency was pleased to Grant

His Excellency then made a Speech to the Council and General Assembly and delivered one Copy thereof to the Speaker of the Council and another to the Speaker of the General Assembly

The Council returned to the Council Chamber in the City Hall.

The Speaker assumed the Chair

Then the Council adjourned til 3 o'clock P^t Merid^m.

Tuesday, the 4th day of September, 1750, P^t. Mer:

The Council met according to adjournment

PRESENT — *The Hon^{ble}* CADWALLADER COLDEN, Esq^r, Speaker,

ARCHIBALD KENNEDY,
JOHN RUTHERFURD,
EDWARD HOLLAND Esq^r.

The Speaker assumed the Chair

The Speaker Reported that the Council and General Assembly had attended his Excellency this Morning at the Council Chamber in the Fort And that his Excell^y had been pleased to make a Speech to the Council and General Assembly of which his Excellency had given him a Copy which he delivered in at the Table.

Ordered, that his Excellency's Speech be now Read

Then the same was Read and

Ordered to be entered in the minutes and is as follows, viz'

Gentlemen of the Council, and General Assembly,

One great Inducement for my calling you together at this Time is, to give you an Opportunity of making a proper and seasonable Provision for that important Garrison at Oswego, which has been supported by Advance on the Publick Credit: But as none are willing to advance longer on that Credit, it becomes necessary that this Expence be immediately provided for; not only to pay what is already due to the Person who has supplied that Garrison for some time past, but likewise for its future support. The Mischiefs which must happen by withdrawing that Garrison, are too obvious to need mentioning, and unless the necessary Supplies be granted, they cannot be avoided.

The present State, and the Security of the Frontiers for the Future, likewise deserve your serious Attention. This can be done properly in Time of Peace only: 'Tis too late to think of it, when we are threatened with, or in actual War; it may then become impracticable. The necessary Expence becomes so heavy on the People in Time of War, that it ought (as much as possible) to be lessened, by a previous Care, in what is in your Power to do in Time of Peace.

It has (I am informed) been usual for the Governors of this Province, to meet the Indian Nations depending on this Government, after the Conclusion of a Peace: As no Provision has been made for the necessary Expence attending this Service, it has not been in my Power to perform it. I am afraid this may have a bad Effect on the Minds of the Indians, at this Time, when the French of Canada, (according to the Informations I have received) are indefatigable in infusing Prejudices into them, to our Disadvantage. I am likewise informed, that the French have incited several of the Indian Nations, depending on and in alliance with the English Colonies, to make War on each other. This requires a speedy Remedy, as these Intrigues of the French are not only destructive of the extensive and beneficial Commerce the English have with numerous Indian Nations, but may likewise render the safety of the Colonies precarious hereafter. I cannot doubt of your using all the Means in your Power, for preserving and enlarging the British Commerce, among the Indians, and for securing their Fidelity; and that you will enable me to pursue the measures necessary for that End.

The Government of this Province has been now two Years without any Support: This not only requires your Care, in Regard to what is due to the Officers of Government for their past Services, and the contingent Charges which have already occurred, but likewise for the future Support of the Government: In doing this, no better rule can be followed than that which is given in the Commission to the Governors of this Province, (which is the Foundation of the Legislative Authority in it) and the royal Instructions which accompany those Commissions; Copies of which, so far as relates to the Support of Government, and the Manner of raising and issuing of the publick Money, are on your Registers: On this Occasion I must remark, that the Commission and Instructions on these Matters, have remained the same ever since the happy Revolution: They were formed by the great Ministers who distinguished themselves at that Time, by their knowledge of, and Zeal for the English Constitution, and Liberty of the People; they have been reviewed from time to time, and confirmed by the Judgment of succeeding Ministers, who have no less distinguished themselves by their strictly adhering to the Constitution, and by their Love to the Country: They therefore, as well as the Authority with which they are enforced, deserve your strictest Regard.

I hope I need not with many Words, recommend the Observance of that Instruction which forbids Matters of a different Nature to be included in the same Bill: This is done not only to preserve the Freedom of Judgment in the several Branches of the Legislature from any Constraint, but likewise to preserve the King's Right, in confirming or repealing the Laws passed in this Province, and which must seem to be designedly invaded, when Matters necessary for his Service, are tacked to others which he may think prejudicial: On this Head I must observe, that it is not usual in Parliament to make Provision for any services which have not been previously recommended, and that the mixing Services which have been thus allowed, with those that are not, may be thought an Attempt to bar the Right which the King has, of judging of the Merits of his Servants, and their Services.

Gentlemen of the Assembly,

I must demand of you the necessary Supplies for the Services which I have recommended to your Consideration, and particularly to make Provision for the Garrison of Oswego; the Support of Government, and the Payment of the publick Debts, which have for some Time been so justly due, particularly Colonel Johnson's, who so generously advanced for the publick Service: Accounts of which shall be laid before you. You have now a fair Opportunity of demonstrating your Loyalty to your King, and your Attachment to the Interest and Welfare of your Country.

Gentlemen of the Council and Assembly,

I chuse to shew my Inclinations to do every Thing in my Power, for the Peace and Prosperity of the People of this Province, by my Actions rather than by Words; by a chearful Concurrence with you in every Thing that may be for his Majesty's Service, and the Good of his People. I earnestly recommend to you, to think of what means may best encourage the Agriculture and Trade of the Province, or such Manufactures as may be the most useful to your Mother Country. You may learn from the Act for the encouragement of the Importation of Iron into Great Britain, from the Colonies, passed in the last Session of Parliament, and from the Act for the encouraging of the Whale Fishery, and the manufacturing of Indigo; that you may expect all proper Encouragement for such Purposes.

To His Excellency the Hon^{ble} GEORGE CLINTON Captain General and Governor in Chief of the Province of New York and Territories thereon depending in America Vice Admiral of the same and Admiral of the White Squadron of His Majesty's Fleet

The humble ADDRESS of the Members of his Majesty's Council for the Province of New York

May it please your Excellency

We His Majesty's most dutiful and loyal Subjects, the Members of the Council for the Province of New York, return our humble Thanks to your Excellency, for your Speech.

We are extremely sensible how nearly it concerns this Government, to support the Garrison at Oswego, both on Account of the Trade carried on there, and the means it is of securing the Fidelity and Friendship of the Six Nations, and other Indians: And your Excellency may rely on our utmost endeavours, to promote the necessary measures for its support: And for restoring the Publick Credit, on which the Honour, Welfare and Safety of the Province so much depend.

We agree in your Excellency's Sentiments, that the Securing our Frontiers, must be effected with greater ease to the People in time of Peace, than in War; and therefore think it justly merits our immediate attention.

It has been usual for the Governors of this Province, to meet the Indians after the conclusion of a Peace; which we conceive to be the more necessary at this Juncture; as it may have a tendency to defeat the Intrigues of the French, who are ever indefatigable in Prejudicing them against the English.

We assure your Excellency, of our Readiness to concur in any proper Measures for the support of this his Majesty's Government, and for Payment of the Publick Debts; and in doing this, as your Excellency well observes, no better Rule can be followed, than that which is given by his Majesty's Commission and Instructions: from which we know of no Deviations, but have been attended with bad consequences

We return your Excellency our Thanks, for the Readiness you express to do every thing that may be for his Majesty's Service, and the good of his People; and assure your Excellency nothing shall be wanting on our Part to Promote so desirable purposes.

By order of the Council

CADWALLADER COLDEN Speaker

A Message from the General Assembly by Mr Nicol & Col Schuyler with the Bill Entituled, "An Act to enable his Excellency the Governor to meet the Six Nations of Indians at Albany to make them the usual presents there" with the amendments made thereto by the Council acquainting the Council that the General Assembly conceives that the said Bill is a Money Bill and therefore they cannot agree to any amendments made thereto by the Council

The Hon^{ble} John Rutherford Esq^r took his seat

Then Mr Colden proposed that the Council should come to the following Resolutions upon the said Message.

"That the Council have a right to amend any Bill containing any matter or Thing which they conceive to be derogatory to his Majesty's prerogative or authority or prejudicial to his People.

That the present Bill Entituled, "An Act to enable his Excellency the Governor to meet the Six Nations of Indians at Albany to make them the usual presents there" cannot with any propriety be called a Money Bill, since not one penny is granted thereby.

That the Legislature of this Province sit and act by the authority of the King's Commission to the Governor of this Province only.

There being a clause in his Majesty's Commission to the Governor in chief of this Province in the following words viz^t

And Our further Will and Pleasure is that all publick money raised or which shall be raised by any Act to be hereafter made within Our said Province and other the Territories depending thereon be issued out by Warrant from you by and with the advice and consent of our Council and disposed of by you for the support of the Government and not otherwise.

That the several Amendments of the Council were either to make the Bill conformable to that clause, or to render it more effectual for the service intended to be done.

That every Act of the Legislature of this Province containing any Clause or Thing which is contradictory to the King's Commission, or not warranted by it, is so far void.

That the Treasurer of this Province cannot be indemnified for issuing or paying any publick Money otherwise than by Warrant from the Governor with the advice and consent of his Majesty's Council."

Resolved, that the consideration of what Mr Colden has proposed as Resolutions proper to be taken by this Board be deferred to the next meeting of the Council and that the absent members be summoned to attend

TWENTY-SIXTH ASSEMBLY SECOND SESSION.

At a Session of the Council and General Assembly of the Province of New York, begun and holden at the City Hall in the City of New York, on Thursday the 30th day of May 1751 in the twenty fifth year of the Reign of King George the Second.

His Excellency the Hon^{ble} George Clinton having prorogued the General Assembly by several proclamations from Tuesday the first day of April last to this day
The Council met accordingly

PRESENT — *The Hon^{ble} CADWALLADER COLDEN, Esq^r, Speaker,*

ARCHIBALD KENNEDY,
JOSEPH MURRAY,
JOHN RUTHERFURD,
EDWARD HOLLAND, Esq^r.

The Speaker assumed the Chair

His Excellency having required the attendance of the Council at the Council Chamber in Fort George, The Speaker left the Chair and the Council went thither accordingly.

Where being met His Excellency came to the Council Chamber and sent a Message to the General Assembly requiring the immediate attendance of that House.

And the House attending accordingly His Excellency made a Speech to the Council and General Assembly and delivered one copy thereof to the Speaker of the Council, and another to the Speaker of the General Assembly.

The Council then returned to the Council Chamber, and the Speaker resumed the Chair and Reported that his Excellency had been pleased to make a Speech to the Council and General Assembly, of which his Excellency had given him a Copy which he delivered in at the Table.

Ordered, that his Excellency's Speech be read.

Then the same was read and

Ordered to be entered in the Minutes and is as follows.

Gentlemen of the Council, and General Assembly,

It is with the greatest Concern, that I am to acquaint you with the Death of his Royal Highness the Prince of Wales: The Grief upon this melancholy Occasion, is great and general; it is however a great Comfort to his Majesty's faithful Servants to hear, that his Health is entirely re-established, and that her Royal Highness the Princess of Wales, and all the Rest of the Royal Family, are as well as can be expected, in the present Circumstances.

I most heartily condole with you upon this unfortunate Occasion.

The Securing the Fidelity of the six Nations of Indians to the British Interest, is so absolutely necessary, for the Safety and Prosperity of this Province, that every Step should be taken that will contribute to that End.

As I am to meet the Indians at Albany, the latter End of next Month, I thought it for his Majesty's Service, to call you together before I went, that you might enable me in the most effectual Manner, to secure and preserve their Fidelity.

I imagine you are not unacquainted with the Methods the French take to bring those Nations over to their Interest; and we, on our Parts, should pursue every Method to counteract them.

The Steps I have taken with the neighbouring Governors for that Purpose, will appear by the Papers, which I shall order to be laid before you.

Gentlemen of the General Assembly,

There is no Provision made (as has usually been done) for the contingent Charges, which daily occur, in taking care of the Indian Affairs; I must therefore recommend to you to make Provision for this Service.

The Sum granted the last Session, for Presents to the six Nations of Indians, I do not think sufficient at this Time, to answer the Ends you propose; therefore it becomes you, Gentlemen, that will soonest feel the Effects of their going over to the French, to act properly upon this Occasion.

You see, Gentlemen, with what Earnestness I press this Subject upon you; and I hope I shall have the Pleasure of seeing the desired Effects of it: I think it of such visible Advantage, and so necessary to the common Good and Safety of your Country, that I should have justly blamed myself, if I had not pressed it at this Time.

Gentlemen of the Council and General Assembly,

The Time of meeting the Indians, requires all possible Dispatch in coming to such Resolutions as you shall think proper, on the Matters I have recommended to your Consideration.

G. CLINTON.

Fort George in the City of New York

30th of May 1751.

Ordered, that his Excellency's Speech be forthwith printed.

Then Mr Kennedy moved, that an humble Address be presented to his Excellency on the subject matter of his Speech. Which motion being agreed to.

Resolved, that an humble address be presented to his Excellency accordingly.

Ordered, that Mr Kennedy, Mr Murray and Mr Rutherford be a Committee to prepare a draft of the said Address, and that they lay the same before the Council with all convenient speed.

Then the Council adjourned til to morrow morning 11 o'clock

Friday, the 31st day of May, 1751.

The Council met according to adjournment

PRESENT — *The Hon^{ble}* CADWALLADER COLDEN, Esq^r, Speaker,

ARCHIBALD KENNEDY,

JAMES DE LANCEY,

JOHN RUTHERFURD,

EDWARD HOLLAND, Esq^{rs}.

The Speaker assumed the Chair.

Mr Kennedy from the Committee appointed to prepare the draft of An Address to his Excellency reported that the Committee had drawn up an Address accordingly, which they had directed him to report to the Council, and he read the same in his place, and then delivered it in at the Table, where the same was again read, and being amended, agreed to by the Council.

Ordered, that the Address be engrossed.

The engrossed Address to his Excellency was read and

Ordered to be signed by the Speaker and the Speaker having signed the same,

Ordered, that Mr Kennedy and Mr Rutherford do wait on his Excellency, to know when he will be pleased to be attended with the Council's Address.

Then the said Gentlemen withdrew, and being Returned, Reported that they had waited on his Excellency, with the above Message, And that his Excellency had been pleased to appoint to morrow morning 11 o'clock.

The Council adjourned til to morrow morning 11 o'clock.

Saturday, the 1st day of June, 1751.

PRESENT—*The Hon^{ble}* CADWALLADER COLDEN, Esq^r, Speaker,

ARCHIBALD KENNEDY,
JAMES DE LANCEY,
JOSEPH MURRAY,
JOHN RUTHERFURD,
EDWARD HOLLAND, Esq^r

The Speaker assumed the Chair.

Then the Speaker left the Chair and the Council went to present their Address to his Excellency. And being returned the Speaker resumed the Chair, and Reported that having attended his Excellency, and presented to him the Council's Address, His Excellency had been pleased to return a favourable answer thereto, Which being read

Ordered, that the said Address and answer be entered in the minutes which are as follow :

To His Excellency the Hon^{ble} GEORGE CLINTON, Captain General and Governour in Chief of the Province of New York and Territories thereon depending in America Vice Admiral of the same and Admiral of the White Squadron of his Majesty's Fleet

The humble ADDRESS of the Members of his Majesty's Council for the province of New York

May it please your Excellency

We his Majesty's most dutiful and loyal subjects the Members of the Council for the province of New York return your Excellency our humble thanks for your Speech.

It is with great Grief and concern we condole with your Excellency the Death of his Royal Highness the Prince of Wales. May his Majesty, her Royal Highness the Princess of Wales, and all the rest of the Royal Family long enjoy Health.

The Securing the Fidelity of the Six Nations of Indians to the British Interest, is a point of so much importance to the safety and prosperity of this, and every other of his Majesty's Colonies upon this Continent, that we cannot hesitate in thinking but that every member of the community will do every thing in his power to enable your Excellency at this critical Juncture, to secure and preserve it in the most effectual manner.

We are not unacquainted with the indefatigable endeavours of the French to seduce our Indians, nor with the methods your Excellency has been pleased to propose to this and the neighbouring Colonies, in order to prevent their fatal consequences; for which our most humble thanks are due.

We on our Parts beg leave to assure your Excellency, that there shall be nothing in our power wanting to encourage and support those measures, your Excellency has been pleased to lay before us, for gaining and preserving the Friendship of the Indians in general to the British Interest.

By order of the Council
CADWALLADER COLDEN Speaker

Council Chamber City of New York
31st May 1751

HIS EXCELLENCY'S ANSWER.

Gentlemen :

I thank you for this Address, and I am exceedingly pleased that the Measures I have taken for the securing the Fidelity of the Indians are so agreeable to you.

And being returned, the Speaker resumed the Chair and reported that his Excellency had made a Speech to the Council and General Assembly of which his Excellency had been pleased to deliver him a Copy which he delivered in at the Table.

Ordered, that his Excellency's Speech be read.

Then the same was read and

Ordered to be entered in the minutes and is as follows

Gentlemen of the Council and Assembly,

I have delayed calling you together till this Time, that it might be more convenient for yourselves. You know it is now necessary to provide for the Support of his Majesty's Government in this Province. I must, at the same Time, earnestly recommend the Payment of the Debts, still due for past Services, which remain unpaid. This is necessary, not only in Justice to the Creditors, but for preserving the publick Credit for the future.

The present State of the Indian Affairs deserves your most serious Attention. The French are more than commonly assiduous, in withdrawing the Affection of the Indians from us, and in obstructing the British Trade every where among them; for which Purposes, they are at a very great Expence.

There being no Supplies granted, as was formerly usual, for employing proper Persons in the Care of Indian Affairs, Col. Johnson (who for some Years past, has been so successful in that Service) has advanced a very considerable Sum on the Credit of the Government: But he has since declared, that he cannot continue in this Service, which is attended with considerable daily Expence, as well as personal Fatigue, unless proper Allowances be made, to enable him to perform it.

From the Informations which I have received, and which shall be communicated to you, it will appear necessary, not only to provide for the usual annual Expence which attends the Management of Indian Affairs, and of sending Smiths to reside among them, but likewise, of sending proper Persons to the more distant Nations, to prevent the Designs of the French, and removing any bad Impressions they may have made upon them.

The preserving the Fidelity of the Indians, is evidently of such Consequence to the future Security and Prosperity of this Province, that I need not add any Thing more to draw your Attention on this Head.

Gentlemen of the General Assembly,

I must recommend to you, to give the necessary Supplies for the Services I have mentioned, and for the contingent Expence that must at all Times unavoidable attend the Administration of Government; and that in doing this, you will have that Regard which is due to the Directions in his Majesty's Commission and Instructions to me.

Accounts of the publick Debts shall in a proper Time be laid before you.

Gentlemen of the Council and Assembly,

It will give me the greatest Pleasure to join with you, in every Thing for the Benefit of the People under my Care; and you may depend on my hearty Concurrence with you, in any Measures, for advancing the Prosperity of this Province.

G. CLINTON.

Fort George in New York }

To His Excellency the Hon^{ble} GEORGE CLINTON Captain General and Governour in Chief of the Province of New York and Territories thereon depending in America Vice Admiral of the same and Admiral of the White Squadron of his Majesty's Fleet

The Humble ADDRESS of his Majesty's Council for the Province of New York.

May it please your Excellency

We his Majestys most dutiful and loyal Subjects, the members of the Council for the Province of New York, most humbly thank your Excellency for your Speech, and your Declaration of concurring heartily with us, in every thing for the benefit of the people of this Province: We are truly sensible of your Indulgence in calling us together at a time most convenient to our selves.

Your Excellency may rest assured that our best endeavours shall not be wanting to support the Honour of his Majesty's Government in this Province, and in making your administration easy to you, that it may be an Inducement to your Excellency to continue long with us.

We are well apprised of what Importance the securing the fidelity of the Indians, is to the British Interest, and for the safety and prosperity of this Province; and how much the Intrigues of the French, at this time (if they should succeed) may be prejudicial; and that if measures be not speedily concerted, to avoid the dangers to which we are exposed, any Remedy may afterwards come too late: Your Excellency may therefore be assured, that we shall cheerfully concur in such measures, as may most effectually attach the Affections of the Indians to the Crown of Great Britain, and defeat the Designs of those who are at this time, attempting to delude them to our prejudice.

We shall most cheerfully and heartily assist your Excellency in your Endeavours for promoting the prosperity of the people under your care.

By order of the Council
CADWALLADER COLDEN Speaker

Council Chamber in the City of New York }
9th October 1751 }

HIS EXCELLENCY'S ANSWER

Gentlemen,

I thank you for this Address, and for the assurance you give me of your assistance in the matters I recommended to your consideration.

As it is the duty of the several Branches of the Legislature, to be heartily and firmly united in promoting the welfare of the province, so it will give me the most sensible pleasure to see the good effects, which must necessarily arise from such union.

G. CLINTON.

The Speaker laid before the Council an Address from the General Assembly to his Excellency, and a Letter from the Indian Interpreter of the 15th Instant which the Speaker informed the Council, his Excellency had desired him to lay before them, and to acquaint them that upon the General Assembly's presenting their Address, he told them, before he could give any answer thereto, he thought proper to communicate it to the Council.

And the said Address and Letter being read

Ordered, that the said Address and the purport of the said Letter be entered in the Minutes which are as follow.

To his Excellency the Honourable GEORGE CLINTON, Captain General and Governor in Chief of the Colony of New-York, and Territories thereon depending in America, Vice Admiral of the same, and Admiral of the White Squadron of his Majesty's Fleet.

The humble ADDRESS of the General Assembly of the said Colony.

May it please your Excellency,

We his Majesty's most dutiful and loyal Subjects, the General Assembly of the Colony of New-York, beg Leave to set before your Excellency, in a clear Light, several Matters which have been the Subject of our Deliberations, in the Course of our present Session; some of which may have been mistaken, and others perhaps, misrepresented to your Excellency.

We shall begin, Sir, on the Subject of Indian Affairs. Your Excellency knows, that this Colony has very lately been at the Expence of, One Thousand Pounds, to settle Matters of that Kind on such a Foundation, as might render the Designs of those who should attempt to draw the Indians in Alliance with his Majesty from their Attachment to the British Interest, fruitless and abortive; and we hope the Use your Excellency made of that Sum, for attaining this great and salutary End, has not been without Success; but are sorry to find that after this extraordinary Expence, the State of the Indian Affairs still requires a further Aid.

We are, Sir, sincerely sorry, to have Occasion to suggest our Apprehensions, that this unsettled Condition of those Affairs, (perpetually demanding new and repeated Supplies to settle and adjust them) proceeds from some Defect of Attention, or Misconduct in those who have of late Years been intrusted with their Management. And we freely acknowledge to your Excellency, that from hence arises our Backwardness to make Provision for Matters of this Kind. For, whilst we are under Apprehensions that what we are desired to give, will not be usefully employed in the Service for which it is required, we cannot answer it either to ourselves, or to our Constituents, to give any Thing at all. Your Excellency knows how desirous we have been for settling those Matters, and what Steps have been taken for that Purpose, and with how little Success they have been attended: An we here beg Leave to assure your Excellency, that when this Matter is put on such a Foundation that we can have just Reason to expect that the Provision which may be made, will be faithfully and advantageously employed for attaining the End designed, we shall then cheerfully make a suitable Provision for those Purposes.

Your Excellency may observe, that there is no Provision made for repairing the Trading House at Oswego. This was occasioned by the Want of proper Estimates, without which no Judgement could be formed of the Expence necessary for these Repairs. And as the Season of

the Year, and the Distance of the Place, seems to render any Performance of that Kind, at present, impracticable, we presume that a proper Estimate may be procured, and a suitable Provision made, long before the Season of the Year will permit any Thing of that Kind to be carried into Execution.

You may also observe, Sir, by the Journal of our Proceedings, that there is a Contest subsisting between us and the Council, which affects the Bill passed by us for paying the Debts still due from this Colony. The Bill, tho' proceeded upon, and passed by us in the same Manner with other Bills of the like kind, they absolutely refuse to proceed upon, until we shall lay before them the several Accounts on which the Allowances in that Bill are founded. This is a Demand which appears as yet altogether unprecedented, and which we conceive they have no Right to make on us, and which we cannot comply with without betraying the Trust reposed in us; and therefore, if the Persons to whom those Allowances are made payable, are delayed in their respective Demands, it must be laid to the Charge of those who are the Cause of that Delay.

We now beg Leave to intreat your Excellency, to give your Assent to such of the Bills prepared for it, as your Excellency shall approve of; and that your Excellency will then be pleased to permit us to return to our respective Families, during the Winter Season.

The tender Regard which your Excellency has always professed to have for the People committed to your Care, persuades us that your Excellency will not deny this our reasonable Request, the apparent Consequences of which, will be their receiving the Advantage of the Bills intended for their Benefit, and their being eased of the Expence that must unavoidably arise from the continued Attendance of their Representatives here.

By Order of the General Assembly,
DAVID JONES, Speaker.

City of New York
November 20th 1751

The Letter to his Excellency from Arent Stephens the Indian Interpreter is in substance as follows.

That he had received his Excellency's Directions with the Letters inclosed and immediately sent an Express to Captain Butler to let him know his Excellency's sentiments regarding him. That it has been usual on any weighty affair for the Six Nations to meet at Onondaga and therefore some of the Chiefs of the Mohawks &c ought to go with him and that he must send an Express to the Cahugas & Senecas to meet at Onondagah. Neither can he speak to them without a Belt of Wampum on each Message and that he hopes the Assembly will consider this necessary expence.

That the Mohawk Indians have been in a great alarm occasioned by the French and their Indians accusing them of murdering five French Indians last Summer on their hunting place upon which the French sent to the Mohawks signifying that if they did not immediately go to Canada and make up the Affair, they and their Indians would come and destroy them. That the Mohawks having made enquiry into the matter found the Murder was committed by some River Indians and sent some Sachems to the Carrying place to assure the French Indians of their Innocence and by what Indians the murder was committed And to assure the French Governour they would send some Sachims at New Year to clear themselves of this Accusation and to ask pardon of him for the Injuries done by Hendrick against them.

Ordered, that the said Address to his Excellency from the General Assembly be referred to a Committee of the Council. That the said Committee do prepare the Draft of an humble Address to be presented to his Excellency in answer thereto. And that M^r Alexander, M^r Kennedy and M^r Holland be a Committee for that purpose.

Then the Committee desired the Speaker to give his assistance in preparing the said Address. The Council adjourned til to morrow morn^g 10 o'clock.

Saturday, the 23^d day of November, 1751.

The Engrossed Address to his Excellency was read and approved of.

Ordered, that the Speaker sign the said Address.

Then the Speaker signed the same accordingly.

Ordered, that Mr Kennedy and Col Johnson do wait on his Excellency to know when he will be pleased to be attended on with the Council's Address.

Then the said Gentlemen withdrew; and being returned, Reported that they had waited on his Excellency with the above Message, And that his Excellency had been pleased to appoint immediately

The Speaker left the Chair and the Council went to the Fort to present their Address to his Excellency

The Council being returned the Speaker resumed the Chair; and reported that having attended his Excellency and presented to him the Council's Address, His Excellency had been pleased to return an Answer thereto. Which the Speaker delivered in at the Table. And the said Answer being read

Ordered, that the said Address and Answer be entered in the Minutes which are as follow.
viz^t

To his Excellency the Honourable GEORGE CLINTON Captain General and Governor in Chief of the province of New York and Territories thereon depending in America Vice Admiral of the same and Admiral of the White Squadron of his Majesty's Fleet

May it please your Excellency

We his Majesty's most dutiful and loyal Subjects the Council of the Colony of New York, beg leave to return your Excellency our hearty Thanks for laying before us, the Address of the General Assembly to your Excellency of the twentieth Instant, on which be beg leave to remark to your Excellency :

That on the subject of Indian affairs it is true that one thousand pounds were lately granted for presents to the Indians, at your last interview with them; and several of us were witnesses of the distribution of the presents to the Indians at that time. We are also informed that your Excellency laid a particular Account of the Disposition of that sum of Money before the Assembly in the present Session; and we have not heard of any objection made to that Account.

As to the state of the Indian Affairs still requiring a further aid; We beg leave to observe, That it has been usual in time of peace, to allow at the rate of four hundred pounds a year, for presents to the Indians, and at the Rate of one hundred and fifty pounds a year for the expence of the Governors going to Albany, to have an interview with them. But the Assembly of this Colony have made no provision for this usual expence, ever since the year 1745 except the grant of the said one thousand pounds and of one hundred and fifty pounds at the same time for your Excellency's voyage to Albany. In time of peace for six years the said usual rate would have amounted to three thousand three hundred pounds; so that in these six years last past, the provision made for that particular service, concerning Indian Affairs, falls two thousand one hundred and fifty pounds short of what had been usually provided in time of Peace; tho several years of that time, was while this Colony was in actual War with the French of Canada and their Indians.

We beg leave further to observe, that in time of Peace the usual allowance to Commissioners for managing Indian affairs, was one hundred and ninety pounds yearly; and in the years 1745, and 1746, it was something more; But since the year 1746, no allowance has been made as yet by the Assembly, for that service; which since 1746, amounts to nine hundred and fifty pounds;

so that in these last six years, this province has contributed less than usual in time of peace, upon the said two Articles of Indian Affairs, the sum of three thousand one hundred pounds.

We are likewise informed, that it has been usual on the conclusion of a peace, for the Governor of this province, to have an interview with the six Nations, to take out of their hands the Hatchet which he had delivered them at the beginning of the War; to thank them for their Assistance, and to make them presents on that occasion, which your Excellency was not enabled to do by Reason that the Assembly made no provision at that time, for this, or the usual Expence, attending the Management of Indian Affairs.

That there is great reason to apprehend, that these neglects have been of great prejudice to the British Interest at a time when the French are omitting no means in their power, with a great Expence, to withdraw the Affections of the Indians from us; and of which your Excellency has laid before the Assembly in this present Session, the repeated Informations which you had received.

We find by the Minutes of the Commissioners of Indian Affairs and Letters between your Excellency and them, in the beginning of the year 1746, that they did not effect sundry matters which your Excellency required of them, and thought absolutely necessary for defeating the Intrigues of the French with our Indians; whereby your Excellency was obliged to employ other persons to do those things; which accordingly were successfully effected by those other Persons — These Things with the repeated requests of the then Commissioners of Indian Affairs to be discharged, rendered it necessary for your Excellency to Employ others for the management of Indian Affairs in their Room.

Col: Johnson the person chiefly employed since by your Excellency, we are well assured has managed the Indian Affairs with great prudence and success, and has advanced large sums of money on that service, the Accounts whereof have been from time to time laid before the General Assembly, a great part whereof stil remains unpaid and unprovided for: and the Non Payment of those Monies has laid him under the necessity (as he informs us) of declining that service for some months past.

We are sorry to find the management of Indian Affairs censured in the manner it is in the Assembly's said Address; and think it must be a great hardship to the Officers of the Government, to have their actions and Conduct censured in such a manner, that no other answer can be given but that of a bare negative, and to be deprived of all means of legally justifying themselves against such censures — It must tend greatly to weaken the Administration, when the most Innocent may be equally exposed with the most Guilty, to the prejudices and bad impressions made by such means on the minds of the good people of this Colony.

And we think it our duty as far as in us lies, to protect and support the Officers of the Government, while they execute their Offices with Diligence and Integrity; so on the other hand, we shall be as solicitous to bring them to Justice, whenever properly charged with misconduct or any misdemeanor; and if found Guilty, that they shall suffer a censure adequate to their offences.

As to the steps mentioned in the Assemblys Address, to have been taken, for settling these matters, we Suppose they mean the Private Messages to your Excellency concerning the nomination of Commissioners for Indian Affairs — The Advice which we gave your Excellency on those occasions, appears on our minutes, and was communicated by your Excellency to the Assembly.

His Majesty has intrusted the advising your Excellency, in the nomination to Offices, with the Council; and we ought as carefully to preserve the Constitution of Government in securing our own priviledges, by that Constitution, as by not invading those of others. Some of the Council always attend the Governour at his interviews with the Indians — All the Transactions with the Indians are usually communicated to the Council and thereby they are better qualified to advise in these Matters, than its probable the Members of the Assembly can be — But at this time we think, that more than usual care ought to be taken in the choice of Persons for the management of Indian Affairs, not only by reason of the great pains at this time taken by the French to our prejudice, but likewise on Account of a Trade carried on from Albany to Canada, which we are of opinion is greatly prejudicial to the British Interest; and therefore that it highly concerns the British Interest, that no person engaged in that Trade with Canada, be employed in the management of the Indian Affairs.

We are humbly of opinion that the Reasons given by the Assembly for their not providing the necessary supplies for the repairing the Garrison at Oswego, are not satisfactory. Because the repairs wanting, more particularly set forth in the certificates concerning that matter, laid before the Assembly; and Because, as none reside at Oswego, except the Officers, Soldiers and Traders, it is probable none of them may be capable of making a proper estimate of the Expenses necessary for those Repairs. The season of the year will not permit any proper person to go at this time for that purpose, and if delayed till Spring, must unavoidably delay the necessary Repairs, perhaps till the season next year will not permit them to be made, unless the Assembly be called for that purpose only, which would occasion a greater Expence to the Colony than these Repairs can amount to. And we are humbly of opinion, that if the Assembly had given their Consent to the Bill which the Council sent to them, for issuing Money for that purpose, Materials for the Repairs might have been provided in this Winter Season, and the Repairs made

with the greatest Expedition possible; and the Colony could not have suffered thereby, as the whole of the sum proposed to be issued for this purpose, was not to exceed two hundred pounds; and if a less sum were found sufficient, no more was to be issued than should be found necessary, and even that to be accounted for on oath, to the Governour, Council and General Assembly.

We must express our surprize, at the reflections the Assembly make on our desiring them to communicate to us the Accounts and Vouchers, for the payment of which large sums of money were to be issued from the Treasury, and to which the consent of the Council is necessary. And we must inform your Excellency, that this matter is not truly set forth in the Assembly's Address. We hope it was by mistake. For our first Message was in the following words "That the Council desire the House would communicate to them, the several accounts laid before the House, upon which the several allowances have been made in the Bill brought up to the Council Entitled, An Act for paying and discharging several Demands made on this Colony; and the vouchers for the said Accounts, together with the several other Accounts recommended by his Excellency, to the General Assembly, this Session, and the vouchers respecting them."

Our second Message was in the following words

"Resolved, that it is the undoubted Right of the Council to see the Accounts and vouchers of them, for the payment of which any sum is to be taken from his Majesty's Revenue, and to the payment of which their consent is necessary.

"Resolved, that the Council will not proceed on the Bill now before them Entitled, 'An Act for paying and discharging several Demands made on this Colony' until the Accounts and Vouchers for the sums to be paid by virtue of said Bill shall appear before them"

If the Assembly had been pleased to communicate the Accounts and Vouchers, we might have proceeded on that Bill, so that the creditors, many of which, as we believe, are absent at a great distance, might have received the money due to them, without the delay and trouble of making out new Accounts, and procuring new vouchers. For the Accounts and vouchers it cannot be denied we have a Right to see and examine. We never demanded the Accounts as a matter of Right from the Assembly.

The Council, by the Kings Commission and Instructions, are peculiarly intrusted with the issuing of all money, granted to his Majesty by the General Assembly of this Colony; and we think it inconsistent with the British Constitution, that any Branch of the Legislature should yield a blind submission to the Judgment or opinion of the other.

Before we leave your Excellency, we beg leave to express our great concern, for the Assembly's not having made the necessary provision for Indian Affairs, at a time when it was scarcely ever so much wanted to oppose the indefatigable endeavours and Intrigues of the French; by which, not only the safety of this Colony but of all the Colonies in North America, may be in great danger. We hope your Excellency will be perswaded, that the Council of this Colony have done all in their power to prevent the mischiefs which may ensue from such neglect.

The Assembly expresses a great desire, that your Excellency would please to dismiss them; that they may return to their Families during the Winter season. We therefore have made all the dispatch in our power, in making this Address; tho' we are sensible how much more time is necessary to represent the matters which are the subject of it, in the manner it truly deserves, that your Excellency may have it in your power to express your Regard for the ease of every Individual under your Care; and therefore we hope your Excellency will excuse any inaccuracies, into which we may have inadvertently fallen.

By order of the Council

CADWALLADER COLDEN Speaker

Council Chamber City of New York
the 23^d November 1751

His Excellency's ANSWER,

Gentlemen,

I thank you for this Address. You may be assured, that I shall have a due Regard to the contents thereof

TWENTY-SEVENTH ASSEMBLY SECOND SESSION.

Province of }
New York } ss.

At a Session of the Council and General Assembly of the said Province begun at Jamaica in Queens County on Wednesday the thirtieth day of May One thousand seven hundred and fifty three in the Twenty sixth year of King George the Second.

His Excellency the Honourable George Clinton having been pleased on the 11th day of November last to prorogue the General Assembly to the first Tuesday in March following, and by sundry Proclamations from time to time published, to this day to meet at this place

The Council met accordingly.

PRESENT — *The Hon^{ble}* JAMES ALEXANDER, Esq^r, Speaker,

ARCHIBALD KENNEDY,

EDWARD HOLLAND, Esq^{rs}.

The Speaker assumed the Chair

His Excellency being come to the Council Chamber, the Speaker left the Chair, and his Excellency sent a Message by the Deputy Secretary to the General Assembly, requiring the immediate Attendance of that House

And the House attending accordingly.

His Excellency made a Speech to the Council and General Assembly, and delivered one Copy to the Speaker of the Council, and another to the Speaker of the General Assembly and then returned to his Residence

The Speaker resumed the Chair and

Reported that his Excellency had been pleased to make a Speech to the Council and General Assembly, of which he had obtained a copy, which he delivered in at the Table, where the same was Read and

Ordered to be entered in the minutes and is as follows —

Gentlemen of the Council, and General Assembly,

I have received some Instructions from the Lords Justices, with a Letter accompanying the same, from the Lords of Trade and Plantations, recommending the considering and revising the Laws of this Province, and in Lieu thereof, to frame and pass a compleat and well digested Body of New Laws. Together with the Copy of an Act, passed in Virginia, for the like Purpose, recommended as a Plan for executing what is proposed by the said Instructions; Copies of which Instructions, Letter and Act, are ready and will be laid before you. This, Gentlemen, is a Matter of great Importance, and may, if duly attended to, be of singular Use and Service to the Province, and as such, I doubt not, but you will readily give it all the Consideration and Dispatch, which the Weight and Nature of the Affair may require.

Gentlemen of the General Assembly,

As there was a Necessity of Meeting you early, I have (with the Advice of his Majesty's Council) appointed this Place, as being the most convenient, secure and free from the Infection of the Small-Pox, of any we could judge of; for although the City is now said to be almost free from that Distemper, yet to have called you, Gentlemen, at this Season, to that Place, might have given many of you great Uneasiness, if you had found yourselves exposed to any Degree of Danger from the remaining Infection.

You will now, Gentlemen, have an Opportunity of taking into your further Consideration, the State of Indian Affairs, and ruinous Condition of the Trading House at Oswego, frontier Forts and Fortifications in general, and making proper and necessary Provisions for them as well as for settling and discharging the several Accounts and Demands on the Government, which were contracted during the late War, on the publick Faith, and for the Service and Honour of the Province, and particularly by Colonel Johnson, whose Case with the Rest, I earnestly recommend to you: And make no Question, but you will do therein, what is consistent with Honour and Justice.

The Resolution you made at the Close of the last Session, for establishing a Seminary for the Education of Youth within this Colony, is laudable and worthy your diligent Prosecution, and most serious Attention.

Gentlemen of the Council, and General Assembly,

Some Intrusions have lately been made on the Lands of his Majesty and his Subjects of this Province, whereof sundry Complaints have been made to me, Copies of those Complaints, and of what I have done thereon, shall be laid before you, being well assured, you will use your best Endeavours for the Preservation of his Majesty's Authority and Jurisdiction, to the Extent of the Bounds of this Province, and for the Protection of the Properties of his Majesty and his Subjects within it; and I leave it to you, to consider, whether it may not be expedient that Committees of both Houses should be appointed to meet and concert the most proper Measures to be taken in this Affair, wherein I shall give my best Assistance.

While I continue to have the Honour of representing his Majesty as Governor here, I shall readily and heartily join with you, in doing every Thing in my Power, consistent with my Duty, that may promote the Happiness and Welfare of the good People of this Province.

G. CLINTON.

Ordered, that the said Address and Answer be entered in the Minutes which are as follow —

To His Excellency the Honourable GEORGE CLINTON Captain General and Governor in Chief of the Province of New York and Territories thereon depending in America Vice Admiral of the same and Admiral of the White Squadron of his Majesty's Fleet

The Humble ADDRESS of his Majesty's Council of the Province of New York.

May it please your Excellency

We his Majestys most dutifull and loyal Subjects, the Council of the Province of New York, beg leave to return your Excellency our most gratefull and sincere thanks for your favourable Speech.

We are fully sensible of the great importance which the reviseing of the old, and passing a complete and well digested Body of new Laws will be to this province, and shall with the utmost willingness do every thing in our power to promote so usefull and beneficial a design, which work will be rendered much easier by the late Edition of the Laws of this Province than otherwise it would have been.

The Intrusions made on the Lands of his Majesty and his Subjects in this Province, of which several complaints have been made to your Excellency may in their consequences greatly endanger the interest and peace of this Colony. And as we are truly sensible that your Excellency has already taken a great deal of pains to prevent the many mischevious effects which may naturally attend such proceedings, so we cannot but acknowledge your goodness and care in laying that matter before the several Branches of the Legislature not doubting but that they will use their best endeavours to support your Excellency therein: assuring your Excellency we shall be ready to join in concerting the most prudent measures to be taken in this affair.

Tis with pleasure we embrace this opportunity to acknowledge our intire confidence in your Excellency's disposition to promote the true interest of the people of this Province, consistent with your duty; and we beg leave to assure you, that we will most readily and heartily join with your Excellency, in every measure suitable and proper to advance the publick happiness and prosperity; to promote the Dignity and authority of his Majesty's Government; and your Excellency's Honour and ease in your administration, while you continue to represent his Majesty as Governour of this Province.

By order of the Council

JAMES ALEXANDER Speaker.

And the said Address and Answer being read, were

Ordered to be entered in the minutes and are as follow. viz^t

May it please your Excellency,

We his Majesty's most dutiful and loyal Subjects, the General Assembly of the Colony of New York, beg Leave humbly to represent to your Excellency, that on considering your Excellency's Message of the 13th Instant, and the Speech of the Chief Mohawk Sachem, sent therewith, the State of Indian Affairs appears to us to be in such a critical Situation, that we conceive no Commissioners that can be appointed, will have sufficient Weight and Influence to adjust and settle them in such a Manner as will secure the Indian Nations in his Majesty's Interest.

These Considerations, Sir, have induced us to make an extraordinary Allowance on that Head, in case your Excellency shall meet the Indian Nations at Albany, in Person, to renew the

ancient Alliance with them, and (as they term it) take the Hatchet out of their Hands, which they say has not yet been done, though your Excellency has met them at Albany, since the Conclusion of the War.

The Advices communicated to us, with your Excellency's Message of the 16th Instant, with Respect to what has passed between your Excellency and those Mohawks who have been lately at New York, still more fully evince the Necessity of your Excellency's Presence at Albany; and we persuade our selves that in this extraordinary Conjunction, you will not hesitate a Moment in taking the Resolution to meet the six Nations there in Person this Summer.

We entirely agree with your Excellency in the Expediency of sending the Interpreter, with two Persons of Weight, among the Indians, with all possible dispatch, through all the five Nations, to represent to them the Unreasonableness of the Proceedings of those of the Mohawk Nation who came lately to New York, and to invite them to a Conference at Albany, to assure them that they shall there receive the Presents usually made by this Colony on such Occasions, and that the Complaints of their Brethern the Mohawks shall then be strictly examined into, and their real Grievances justly redressed: The Expence of which Service, we assure your Excellency, shall be provided for as soon as the Amount thereof can be known.

DAVID JONES, Speaker.

Jamaica June 22^d 1753

HIS EXCELLENCY'S ANSWER.

Gentlemen,

I Thank you for this Address. I am sorry to acquaint you, that my bad State of Health, at present, will not permit me to go to Albany, to meet the Six Nations of Indians, as you desire.

I join with you in Opinion that the State of Indian Affairs, is at present in a very critical Situation, and think it requires the Advice and Assistance of the Council and Assembly in a free Conference; and upon the Arrival of the Gentlemen of the Council, who are daily expected from Albany, I shall recommend it to the Council, to meet you in such Conference, that you may then jointly agree upon the most fit Persons of Weight to send with the Interpreter, to invite the Six Nations to meet at Albany, by a Day to be proposed; and on proper Instructions to be given to those Persons: Also, upon the most proper Persons to be appointed Commissioners, to supply my Place at that Interview, and the Powers and Instructions to be given to such Commissioners. And that you may then also agree, upon the Method of Inquiry into the Complaints of the Mohawks, and of giving them Redress; in which as well as in every other Measure, that shall be thought necessary in this important Affair, I shall, so far as is consistent with my Duty, most readily concur with you. And at this Conference you will be acquainted with other Reasons, besides the ill State of my Health, why I think it most proper that Commissioners should supply my Place at Albany, at the intended Interview with the Indians.

G. CLINTON.

Then the Council went to meet the General Assembly in a free Conference, on the Subject matter of the Conference this Morning, and being returned, the Speaker Reported, that the Council had by his Excellency's directions, acquainted the House, that his Excellency was in

daily expectation of being succeeded in the Government, and therefore did not think it advisable in such a Juncture to go to Albany to meet the Indian Nations. That the Council delivered it as their opinion, that no Commissioners that could be appointed to meet the Indians, would have equal weight and influence with a Governor or Commander in Chief; and that they were therefore of opinion that the Interview with the Indian Nations should be suspended until the arrival of the new Governour. But that it would be necessary in the mean time, to send some persons of weight and influence among the said Nations; to acquaint them with the Reasons of their not being sent for to a Conference at Albany so soon as they might expect; and to endeavour to remove the uneasiness that appears to be now subsisting among them. And that the Council concluded with a proposal that a Committee should be appointed by each House to meet this evening, to consider of proper means for those purposes, which proposal had been agreed to by the General Assembly.

Resolved, that Mr Murray, Mr Chambers and Mr Smith be a Committee of the Council to confer with a Committee of the General Assembly, on the Subject Matters mentioned this day at the free conference, and that the said Committees meet this Evening at the House of the Widow Stillwell and that the Speaker be desired to assist the said Committee.

JOHN CHAMBERS,
WILLIAM SMITH, Esq^{rs}.

The Speaker assumed the Chair.

The Speaker left the Chair and with the Council met the General Assembly at the free conference, in order to a conclusion thereof, and being returned, the Speaker Reported, That the Council had proposed that a Representation should be made of all the several matters concluded upon at the former conference and by the Committees appointed by each House in consequence thereof — That the aforesaid Committees should again meet at 8 o'clock to morrow morning at the House of the Widow Stillwell in order to prepare the said Representation, and That the same when agreed to by each House, should be signed by the Respective Speakers, and then presented to his Excellency the Governour. To which Proposal the General Assembly had agreed.

The Council adjourned till to morrow morning 10 o'clock.

Tuesday, the 3^d day of July, 1753.

The Council met according to adjournment.

PRESENT — *The Hon^{ble}* JAMES DE LANCEY, Esq^r, Speaker,

JOSEPH MURRAY,
JOHN CHAMBERS,
WILLIAM SMITH, Esq^{rs}.

The Speaker assumed the Chair.

Mr Murray from the Committee appointed to meet the Committee of the General Assembly to prepare the Draft of a Representation to his Excellency of the several matters concluded upon at the conference between the Council and the General Assembly on the subject matters recommended to them by his Excellency, Reported, that the joint Committees had prepared a draft of the said Representation, which he Read in his place, and then delivered the same in at the Table, where the same was again read and agreed to by the Council.

A Message from the General Assembly by Mr Richard and Col^o Breckman acquainting the Council that the House have approved of the draft of the Representation prepared by the joint Committees to be presented to his Excellency as the Result of the free conference of the Council and General Assembly on the subject matters recommended to them by his Excellency.

Ordered, that Mr Murray acquaint the General Assembly that the Council have approved of the Draft of the said Representation.

Ordered, that the said Representation be Engrossed.

The Engrossed Representation to his Excellency the Governour was Read, and

Ordered, that the Speaker of the Council sign the same.

Then the Speaker signed the same accordingly.

Ordered, that the Hon^{ble} John Chambers Esq^r do carry the said Representation to the General Assembly, in order to be signed by the Speaker of that House, and acquaint the House, that the Council have appointed himself to wait on his Excellency the Governour with such members as the General Assembly shall appoint to know when his Excellency will be pleased to be attended with the said Representation.

Mr Chambers being returned reported that himself and Mr Livingston and Mr Cruger had waited on his Excellency to know when he would be pleased to be attended by the Council and General Assembly with their joint Representation, and that his Excellency had been pleased to appoint immediately at the House of Mr Thomas Braine in Jamaica.

Then the Speaker left the Chair, and the Council and the General Assembly went to present the said Representation to his Excellency, and the Council being returned

The Speaker resumed the Chair and Reported, that the Council and General Assembly had attended his Excellency with their joint Representation and that the same being read and presented to his Excellency, His Excellency had been pleased to return an Answer thereto, which the Speaker delivered in at the Table, and the same being read

Ordered, that the said Representation and Answer be entered in the Minutes which are as follow viz^t

To his Excellency the Honourable GEORGE CLINTON Captain General and Governour in Chief of the Province of New York and Territories thereon depending in America Vice Admiral of the same and Admiral of the White Squadron of his Majesty's Fleet

The Humble REPRESENTATION of the Council and General Assembly of New York.

May it please your Excellency,

Your Excellency having been pleased to recommend to the Council and General Assembly, to meet in a free Conference, to consider of the present critical Situation of Indian Affairs; we do humbly report to your Excellency, That upon due Consideration that your Excellency cannot go to Albany, to meet the Indian Nations, by Reason of your Indisposition, and the Expectation you have of being succeeded in the Government: and being also sensible that no Commissioners can have that Influence on the Indian Nations as the Governor or Commander in Chief, whose Rank and Authority would add Solemnity, and give great Weight to such an Interview: We are therefore humbly of Opinion, that at this time it will be most adviseable, to send a proper person to meet the six Nations at Onondago, in order to remove their present Uneasiness, to bury the Hatchet, and to preserve the Friendship of those Nations: For which Purposes the General Assembly, in Consequence of this Opinion, have already voted the sum of, Two Hundred and fifty pounds, to be laid out in suitable presents, to be distributed among them; and also a Sum not exceeding Two Hundred Pounds, for the Expences of the Person to be sent on this Service; and the Council and General Assembly, are humbly of Opinion, that Col. Johnson is the most proper Person to be appointed to do this Service, who hath generously consented to perform the same without any other Allowance than the Expence he may be put to in so fatiguing a Journey, on such an important Occasion. And therefore we humbly hope your Excellency will commissionate him, and give him the Instructions we now present to your Excellency, together with such others as your Excellency shall think necessary.

By Order of the Council,

JAMES DE LANCEY, Speaker.

By Order of the General Assembly,

DAVID JONES, Speaker.

WILLIAM SMITH, Esq^r.

The Speaker assumed the Chair.

And the Council being informed there are not a sufficient number of the members of the General Assembly met to make a House,
Adjourned till to morrow 3 o'clock P. Merid

Wednesday, the 31st day of October, 1753.

The Council met according to adjournment.

PRESENT — *The Hon^{ble}* JAMES ALEXANDER, Esq^r, Speaker,

ARCHIBALD KENNEDY,
JOSEPH MURRAY,
JOHN CHAMBERS,
WILLIAM SMITH, Esq^r.

The Speaker assumed the Chair.

The Hon^{ble} James De Lancey Esq^r his Majesty's Lieut^t Governor and Commander in Chief of this province, being come to the Council Chamber, sent a Message to the General Assembly requiring their immediate attendance: Who attending accordingly with their Speaker, His Honor made a Speech to the Council and General Assembly, and delivered one copy thereof to the Speaker of the Council and another to the Speaker of the General Assembly, together with Copies respectively of his Majesty's Instructions therein referred to, and of the 47. 48. 49 and 50th Articles of his Majesty's Instructions and then his Honor left the Council Chamber.

The Speaker resumed the Chair.

Ordered, that his Honors said Speech with the Instructions delivered therewith, be read, and the same being read

Ordered, that the same be entered in the Minutes which are as follow :

Gentlemen of the Council and General Assembly,

His most Sacred Majesty having been graciously pleased, by his Royal Commission, to appoint me Lieutenant Governor of this province, the Government thereof is devolved upon me, by the Death of his late Excellency Sir Danvers Osborn, Baronet. As he was a gentleman of Birth, of liberal Education, and distinguished Character, we had well grounded Expectations of being a happy People under his Administration, and have therefore, just Reason to regret his Death, and lament it as a publick Loss.

You will perceive, by the thirty-ninth Article of his Majesty's Instructions to Sir Danvers Osborn (Copies of which, I shall herewith deliver you) how highly his Majesty is displeased at the Neglect of, and Contempt shewn to, his royal Commission and Instructions, by your passing Laws of so extraordinary a Nature, and by such your unwarrantable Proceedings, particularly set forth in this Instruction. Hence also, his Majesty's Royal Pleasure as to these Matters will appear, and what he expects from you. On this Head, I must observe to you that by our excellent Constitution, the executive Power is lodged in the Crown; that all Government is founded on a Confidence that every Person will discharge the Duty of his Station; and if there should be abuse of Power, that the legal and regular Course, is to make Application to his Majesty, who having a paternal Tenderness for all his Subjects, is always ready to hear and redress their Grievances.

Gentlemen of the General Assembly,

I must earnestly press it upon you, that in preparing your Bills for the support of Government and other publick Services, you pay a due Regard to his Majesty's Pleasure, signified in his Instructions, and frame them in such a Manner, as when laid before me for my Assent, I may give it consistent with my Duty to his Majesty.

The Provision lately made for repairing his Majesty's Fort and Copsey Battery, will, from the great Damage done to the latter by the late Storm, fall very short of answering those purposes. I must, therefore, recommend to you, to make further Provision for this End; and also, for completing the Repairs of the Trading House at Oswego. I need not mention to you the Importance of that Place, you will see by the Copy of the Letter and Account from the commanding Officer at that Post, what Repairs have been made and what is still necessary to be done.

Gentlemen of the Council and General Assembly,

Among the public Papers delivered to me, I find a Letter from Col. Johnson, with an Account of his Proceedings in his late Negotiations, with the five Nations and other Indians on the Frontiers; Copies of which shall be laid before you. The preserving those Indians in their Fidelity, and drawing others to settle among them, is of such Consequence to his Majesty's Service, and the Safety of this and the other Northern Colonies, that it requires at all times the greatest Attention.

The Method now practised by the Law, for letting to farm the Excise on strong Liquors, is complained of as burthensome. I recommend it to you, to put it on such a Footing, as will remedy that Grievance.

I must also recommend to you, the passing a Bill, for regulating the Militia, that the People may be trained to the Use of Arms, and prepared for their Defence on any Emergency.

The good Effects which have arisen from the Act made to prevent the Exportation of unmerchable Flour and the false Taring of Bread and Flour Casks, and the Reputation the Manufacture of Flour has gained abroad under the present Regulations, are strong Arguments to induce you to fall upon some effectual Means, to prevent the Frauds which are committed in Beef, Pork, and other Commodities.

Gentlemen,

My Inclination and Interest lead me to study and pursue the Welfare of this Country; you cannot therefore doubt of my Cheerful Concurrence with you, in such Measures as will promote that End, and you may be assured I will readily give my Assent to any Bills, that have his Majesty's Service and the Prosperity of the Province for their Object.

JAMES DELANCEY.

City of New York,
31st of October, 1753.

Extracts of his Majesty's Instructions directed to the late Sir Danvers Osborn Baronet deceased, Given at the Court at Kensington the thirteenth day of August 1753

INSTRUCTION 39th

39. WHEREAS it hath been represented to us, that great Disputes and Animosities have for some Time past, subsisted among the several Branches of the Legislature, of our Province of New-York: That the Peace and Tranquility of the said Province has been disturbed, Order and Government subverted, the Course of Justice obstructed, and our Royal Prerogative and Authority trampled upon, and invaded in a most unwarrantable and illegal Manner. And Whereas the Assembly of our said Province, have not only refused to comply with the Powers and Directions which we have thought expedient to give, by our Commission and Instructions, to our Governor of the said Province, with Respect to Money raised for the Supply and Support of Government, but have also, in open Violation of our said Commission and Instructions, assumed to themselves, in the Laws which they have annually or occasionally passed, the disposal of publick Money; the Nomination of all Officers of Government; the direction of the Militia, and of such other Troops as have been raised for our Service, and many other executive Parts of Government, which by our said Commission and Instructions We have thought proper to reserve, and which by Law belong to our Governor only. And Whereas it likewise appears that some of our Council of said Province, not regarding the Duty and Allegiance they owe us and the Trust we have reposed in them, have joined and concurred with the Assembly, in those unwarrantable Measures. We therefore, being extremely sensible how much all such Animosities and Divisions, amongst the different Branches of the Legislature, and the unwarrantable Proceedings which have attended the same, must affect and prove destructive of the Peace and Security of our said province; lessen and impair that due Authority, which by Right belongs to us in the Government thereof, and thereby alienate the Hearts and Affections of our loving Subjects; and being determined at the same Time, that we do protect all our loving Subjects in the Lawfull Enjoyment of their Rights and privileges, not to permit our own Authority and Prerogative to be in any Degree violated, or unduly lessened, by any Encroachments whatever. It is our express Will and Pleasure, and you are hereby strictly enjoined and required, forthwith upon your Arrival, to use your best Endeavours, in the most

prudent Manner, to quiet the minds of our loving Subjects, and reconcile the unhappy Differences subsisting amongst them; and having called the Council and Assembly of our said Province together, you are to signify to them in the strongest and most solemn Manner, our high Displeasure for their Neglect of, and the Contempt they have shewn to, our Royal Commission and Instructions, by passing Laws of so extraordinary a Nature, and by such their unwarrantable Proceedings; and that We do strictly charge and enjoin them for the future to pay to our said Commission and Instructions due Obedience; receding from all unjustifiable Encroachments upon our legal Authority and Prerogative, and demeaning themselves in their respective Stations with a due Regard thereto, and to the Peace, Security and Prosperity of the Province. And Whereas, nothing can more effectually tend to re-establish good Order and Government within our said Province, and promote its future Peace and Prosperity, than the having a Permanent Revenue settled by Law, upon a solid Foundation, for defraying the necessary Charges of Government, for Want of which great Inconveniency and Prejudice have hitherto arisen to our Service, and to the Affairs of our said Province, It is therefore, Our further Will and Pleasure, that you do in the strongest Manner, recommend to the Assembly, in our Name, without Delay, to consider of a proper Law, to be passed for this Purpose, taking Care that such Law shall be indefinite and without Limitation, and that Provision be made therein, for the Salary allowed by us, to Our Captains General and Governors in Chief of our said Province; and likewise for competent Salaries to all Judges, Justices and other necessary Officers, and Ministers of Government, and for repairing the Fortifications, and erecting such new ones, as the Security and Safety of the Province may require; for making annual Presents to the Indians, and for the Expence attending the same; and in general, for all such other Charges of Government, as may be fixed or ascertained. It is, nevertheless, Our Will and Pleasure, and you are hereby empowered, after the passing such Law as aforesaid, to give your Assent to any temporary Law or Laws, for defraying the Expences of temporary Services. Provided always, that the said Law or Laws do expire, and have their full Effect, when the Services for which said Law or Laws were passed, shall cease and be determined; and that they be consistent with Our Royal Prerogative, and Our Commission and Instructions to you. And it is Our further Will and Pleasure, that all Money raised for the Supply and Support of Government, or upon Emergencies for a temporary Service as aforesaid, shall be disposed of, and applied to the Service only for which it was raised, by Warrant from you, by and with the Advice and Consent of the Council of our said Province, and no otherwise. But, the Assembly may, nevertheless, be permitted from Time to Time, to view and examine the Accounts of Money disposed of by virtue of Laws made by them; which you are to signify to them, as there shall be Occasion. And it is Our further Will and Pleasure, that if any of the Members of our Council, or any Officer holding or enjoying any Place of Trust or Profit, within our said Government, shall in any Manner whatever give his or their Assent to, or any wise advise or concur with the Assembly in passing, any Act or Vote, whereby our Royal Prerogative may be lessened, or impaired, or whereby any money shall be raised or disposed of, for the publick Service contrary to or inconsistent with the Method prescribed by these our Instructions to you; you shall forthwith remove or suspend such Councillor, or other Officer so offending; giving to our Commissioners for Trade and Plantations, an immediate Account thereof, in order to be laid before us.

INSTRUCTION 47.

WHEREAS several Inconveniences have arisen to our Governments in the Plantations, by Gifts and Presents made to our Governors by the General Assemblies. For prevention whereof for the future, It is our express Will and Pleasure, that neither you our Governor, Commander in Chief, or President of the Council of our said Province of New York, for the Time being, do give your, or their Consent to the passing any Law or Act, for any Gift or Present to be made to you or them, by the Assembly: And that neither you nor they, do receive any Gift or Present from the Assembly or others, on any Account or in any Manner whatsoever, upon Pain of our highest displeasure, and of being recalled from that our Government.

INSTRUCTION 48.

Our Will and Pleasure is, that you take to yourself as Captain General and Governor in Chief, in and over our said Province, the sum of Twelve Hundred Pounds, Sterling, per Annum, out of our Revenue arising within our said Province.

INSTRUCTION 49.

And Whereas, it has been represented unto us, that Twelve Hundred Pounds, Sterling, per Annum, is not, at present, sufficient for the Support of our Governor, and the Dignity of that our Government: We are graciously pleased to permit and allow, that the Assembly of our said Province of New York, may by any Act or Acts, settle upon you, such Sum or Sums in Addition to your Salary, as they shall think proper. And you are hereby allowed to give

your Assent to any Act or Acts of Assembly for the said Purposes; notwithstanding, any Clause or Clauses, contained in the 47th Article of these Instructions; provided that, such Sum or Sums be settled on you, and your Successors in that Government, or at least on you, during the whole Time of your Government there; and provided the same be done by the first Assembly, and within a Year after your Arrival in that Province.

INSTRUCTION 50.

And We do further direct and require, that this Declaration of our Royal Will and Pleasure, in the three foregoing Articles, be communicated to the Assembly at their first Meeting, after your Arrival in our said Province, and entered in the Registers of our Council and Assembly, that all Persons whom it may concern, may govern themselves accordingly.

The Speaker resumed the Chair and Reported That having attended his Honour and presented to him the Council's Address, his Honour had been pleased to return a favourable answer thereto, which being read

Ordered, that the said Address and Answer be entered in the Minutes which are as follow

To the Honourable JAMES DE LANCEY Esq^r his Majesty's Lieutenant Governor and Commander in Chief in and over the Province of New York and the Territories depending thereon in America.

The humble ADDRESS of his Majesty's Council of the Province of New York.

May it please your Honour,

We his Majesty's most dutiful and loyal Subjects, the Council of the Province of New York beg leave to condole with your Honour the death of his late Excellency Sir Danvers Osborn Baronet which we Lament as a publick Loss.

The administration of the Government being devolved on your Honour, in virtue of his Majesty's appointment of you as his Lieutenant Governor We heartily congratulate your Honour on this your promotion, and return you thanks for your Speech at the opening of this Session: And as we are truly sensible of your abilities, and from your long experience in the Publick Affairs of this Province, your fitness to Govern: So we assure our selves, that under your wise and prudent administration, his Majesty's Prerogative will be maintained, and the people secured in their Rights and Liberties.

It is a just and equal regard to those two important Points, on which every Government in his Majesty's Dominions must depend, and without which we may with truth say, no government can long subsist. We are therefore affected with the deepest concern at his Majesty's being so highly displeased with the Council of this Province, as signified in the 39th Article of his Instructions to the late Sir Danvers Osborn, which you have been pleased to lay before us; and on this occasion beg leave to observe, that if at any time we have given our assent to Bills by which the Government hath been supported, and the publick services provided for, in a manner different from the method directed in his Majesty's Commission and Instructions, it is merely from the Exigency of the publick affairs, and not with any view to incroach on his Majesty's Prerogative. And therefore we humbly hope that our conduct under these circumstances will appear in a favourable Light to his most sacred Majesty, especially if it be considered, that his Majesty's Governor or Commander in Chief might have given a negative to such Bills, and that these Bills were framed nearly in the same manner with those that have been passed for the support of Government and other publick services for many years, and long before most of the present members were of his Majesty's Council, which after being Enacted into Laws we doubt not have been duly authenticated, and constantly transmitted to the Lords Commissioners for Trade and Plantations for his Majesty's Royal approbation.

We beg leave to assure your Honour that the several matters recommended to us in your Speech, shall in the course of our proceedings have their due weight and attention, and that your Honour may depend on our chearful concurrence in any measure calculated for his Majesty's service, the Honour and Dignity of his Government and the Welfare of this Province.

By order of the Council

JAMES ALEXANDER Speaker.

Council Chamber City of New York
6th November 1753.

His HONOURS Answer.

Gentlemen,

I thank you for this Address, and the favourable sentiments you express of me.

I shall make it my study, as it is my duty, to maintain his Majesty's Prerogative, and to secure the people in their Rights and Liberties.

His Majesty's service, the Honour and Dignity of his Government, and the Welfare of the Province shall be the objects of my attention. I am obliged to you for the assurances you give me of your chearful concurrence in every measure calculated for those desirable ends, and I shall rely on your advice and assistance.

TWENTY-SEVENTH ASSEMBLY FOURTH SESSION.

At a Session of the Council and General Assembly of the Province of New York, begun and holden at the City Hall in the City of New York, on Tuesday the ninth day of April, one thousand seven hundred and fifty four, in the twenty seventh year of the Reign of King George the Second. 1st Meridiem.

The General Assembly of this Province having been prorogued on the 12th day of December last to the first Tuesday in March then next; and on the first of March by Proclamation, to the 26th of the same Month, and afterwards on the 3^d (*sic*) day of March, by Proclamation to this day

The Council met accordingly.

PRESENT — *The Hon^{ble}* JAMES ALEXANDER, Esq^r, Speaker,

ARCHIBALD KENNEDY,
JOSEPH MURRAY,
EDWARD HOLLAND,
JOHN CHAMBERS,
WILLIAM SMITH, Esq^r.

The Speaker assumed the Chair.

The Honourable James De Lancey Esq^r his Majesty's Lieutenant Governor and Commander in Chief of this Province, being come to the Council Chamber sent a Message by the Deputy Secretary to the General Assembly requiring their immediate attendance: and

The House attending accordingly with their Speaker,

His Honour made a Speech to the Council and General Assembly, and delivered one copy thereof to the Speaker of the Council, and another to the Speaker of the General Assembly, and then his Honour left the Council Chamber.

The Speaker resumed the Chair.

Ordered, that his Honour's Speech be read, and being read

Ordered, that the same be entered in the Minutes, Which is as follows.

Gentlemen of the Council, and General Assembly,

The Advices I have received during your Recess, are of so interesting a Concern to his Majesty, and his American Subjects, as laid me under a Necessity of calling you together thus early for your Advice and Assistance.

The Progress the French have already made in taking Possession of his Majesty's Lands, and building Forts upon a most important Pass, between the Lake Erie, and the River Ohio, will appear by the Papers I shall order to be laid before you. 'Tis evident they hope by these Advances, to surround and confine his Majesty's Colonies as much as possible; and as the Fur Trade depends on the Supplies of Arms and Ammunition, which the Indians now receive in common from both Nations, the French think, by cutting off all Intercourse between the far Nations of Indians and us, they may in Time secure the sole Benefit of that Trade to themselves, and attach them so firmly to their Interest, as to be ready at all Times to join in any Attempts they may make on his Majesty's Colonies.

The Government of Virginia, sensible of the dangerous Tendency of these Proceedings, is determined if possible, to put a Stop to them; and for this Purpose, as they look upon it to be the common Cause of all the Provinces, have requested their Aid and Assistance. Your Loyalty and Affection for his Majesty's Person and Government, with the late Resolution on the Right Honourable the Earl of Holderness's Letter, which you will see his Majesty has been graciously pleased to approve of, give me well-grounded Hopes that you will exert your greatest Efforts, to vindicate the Honour of his Majesty's Crown, and justify his undoubted Rights, against the Invaders of his Property.

Gentlemen of the General Assembly,

In obedience to his Majesty's Commands, I must desire you will grant such Supplies as the Exigency of these Affairs may require, by enabling me to raise and send such Force to the Assistance of our Neighbours, as may leave them no Room to doubt of your Readiness to take Part in every Expence necessary for the publick Utility.

I am commanded by his Majesty, forthwith to send two compleat Companies of the Troops posted here, into the Province of Virginia, and shall do it with all possible Dispatch, after you have provided for the Expence of their Transportation, and subsisting them with Provisions, for the Time they may be employed on the intended Service; which I earnestly recommend to you to do without Delay.

The Six Nations of Indians are justly alarmed at the Encroachments of the French; and unless the Colonies unite in Measures for building Forts in their Country, for their Security, and the Safety of the Women and Children when the Men are abroad, and for sending Smiths and other proper Persons, to reside among them, I am apprehensive we shall lose the little Influence we still have over them. This is a Matter that well deserves your serious Attention, as upon it depends the greatest Security we have for the Fidelity of those People; and although it be reasonable, that the Expence be borne by the Colonies in general, yet as those Nations more immediately depend upon the Province of New York, any Scheme for their Safety and Protection, will naturally be expected to take its Rise here: 'Twill therefore be shewing your Regard for the Welfare of this, and all the Colonies, by declaring your Willingness in a publick Resolution, to bear a Proportion of the charge of erecting and maintaining such Forts. I have already the Sentiments of several of his Majesty's Governors on this Point, and am led, from the common Danger, to hope for the Assistance of several of the neighboring Colonies, in a Measure of so general Concern.

And while you have this Matter under Consideration, I must recommend to you that of the open and defenceless Condition of our Northern Frontier; and that you will enable me to build some Fort or Forts, in a proper Situation, till I have used my Endeavours to bring his Majesty's other Governments concerned in the Defence of that Part of the Country, to contribute to the Charge of erecting as many Forts on this Quarter, as may be necessary to guard them, and us, from the Incursions of the Enemy in Time of War.

You are well convinced of the Importance of the Trading House at Oswego, and therefore I need use no Arguments to prevail with you to grant a sufficient Sum to put that Fortress into thorough Repair: It appears the more necessary at this time, as the French in their way to the Ohio, pass that Post; and should they expect it to be unprovided for a Defence, we have no Reason, from their late Proceedings, to doubt they would make an Attempt upon it: I therefore think it highly expedient to order a double Garison thither of his Majesty's Troops, and wait only for your making suitable Provision for it.

Copsey Battery, in this City, you are sensible, is in a ruinous Condition; and I am persuaded you will think it absolutely necessary to put it into good Repair.

I have appointed the fourteenth of June next, for the Interview with the six Nations, at Albany; and as the time now draws near, you will provide for Presents to be distributed among them at this Meeting, and for the Expence of my Voyage thither.

Gentlemen of the Council and General Assembly,

The Matters I have recommended to your Consideration, are of so great importance, as do not permit me to divert your Attention by laying any Thing else before you at present: I shall therefore only recommend, that you will give them that due Weight and Dispatch they seem to demand of you, and I make no Doubt but the Result of your Deliberations will reflect Honour on yourselves, and be a Benefit to your Country. You may be assured of my hearty and cheerful Concurrence in every Measure calculated for his Majesty's Service, and the Happiness of the People of this Province.

To the Honourable JAMES DE LANCEY Esq^r his Majesty's Lieutenant Governor and Commander in Chief in and over the Province of New York, and the Territories depending thereon in America

The Humble ADDRESS of his Majesty's Council of the Province of New York.

May it please your Honour,

We his Majesty's most dutifull and Loyal Subjects, the Council of the Province of New York return your Honour our hearty thanks for your Speech at the opening of the Session.

We are truly sensible of the great importance of the several matters recommended to us, and are disposed heartily to join in concerting the most proper and prudent measures to be taken thereupon. And as it is our Interest, as well as our Duty, we shall use our utmost endeavours to enable your Honour to put in Execution his Majesty's Commands relating thereto; and also to pursue and carry on your well grounded scheme and good intentions, for securing the fidelity of the six Nations of Indians, and for the protection and safety of our Frontiers, and those of the Neighbouring Colonies.

The pains and trouble your Honour has already taken, and we are confident will take about these affairs, must reflect Honour on your Administration: And as we have the strongest assurance of your hearty and cheerfull disposition, to concur in every measure calculated for his Majesty's service and the happiness of the people of this province, so we beg leave to assure your Honour, we shall do every thing in our power to assist therein and make your Government easy.

EDWARD HOLLAND,
JOHN CHAMBERS,
WILLIAM SMITH, Esq^r.

The Speaker assumed the Chair.

Mr Chambers from the Committee to whom was referred the Bill Entituled, "An Act to apply several sums of money for the use and security of this Colony" Reported that it appeared by the Bill several sums of money are intended to be paid on Receipts, and not by Warrant, as directed in his Majesty's Commission and Instructions, which Commission is of Record, and the Instruction relative to this point, entered in the Minutes of both Houses. And that the services provided for in the Bill are in the opinion of the Committee highly necessary for his Majesty's service, and the security of the province, and most of them proper to be carried into execution without delay, and therefore that the Committee submitted the Bill to the consideration of the Council.

Resolved, that the method of issuing Publick money on Receipts, is contrary to that directed by his Majesty's Commission and Instructions, which directs all publick money to be issued by Warrant from the Governor, by and with the advice and consent of his Majesty's Council, and that a friendly conference be desired with the General Assembly thereupon.

Ordered, that the Hon^{ble} John Chambers Esq^r acquaint the General Assembly, that it appears by the Bill brought from that House, Entituled, "An Act to apply several sums of money for the use and security of this Colony" that several sums of money are intended to be issued on Receipts of the persons therein mentioned, and not by Warrant from the Governor by and with the advice and consent of his Majesty's Council, as directed in his Majesty's Commission and Instructions, which Commission is of Record, and the Instruction relative to this point, entered in the minutes of both Houses and therefore that the Council desires a friendly Conference with the General Assembly thereupon.

A Message from the General Assembly by Mr Richard and Mr Walton in answer to the Message of the Council abovementioned, acquainting the Council that the said Bill being a money Bill, that House cannot consent to any conference with the Council on the subject matter thereof.

The Council adjourned till to Morrow Morning 11 o'clock.

Wednesday, the 1st day of May, 1754.

The Council met according to adjournment.

PRESENT — *The Hon^{ble}* JAMES ALEXANDER, Esq^r, Speaker,

ARCHIBALD KENNEDY,
JOSEPH MURRAY,
EDWARD HOLLAND,
JOHN CHAMBERS,
WILLIAM SMITH, Esq^r,

The Speaker assumed the Chair.

Resolved, that as the Council cannot, consistent with his Majesty's Commission and Instructions, pass the Bill Entituled, "An Act to apply several sums of money for the use and security of this Colony:" and as the Assembly has refused the Conference desired by the Council thereupon, an humble Representation on this matter be made by the Council to his Honour the Lieutenant Governor, to be presented to his Honour with the Bill and copies of the proceedings thereupon.

Ordered, that Mr Holland Mr Chambers and Mr Smith be a Committee to prepare a Draft of the said Representation.

Mr Chambers from the said Committee Reported, that they had prepared a Draft of the said Representation, which he read in his place, and then delivered in at the Table, where the same was again read and agreed to.

Ordered, that the said Representation be Engrossed.

The Engrossed Representation to his Honour the Lieutenant Governor was read and approved of and

Ordered, that the Speaker sign the same.

Then the Speaker signed the same accordingly.

Ordered, that Mr Holland and Mr Chambers wait on his Honour the Lieutenant Governor, and desire to know when he will be pleased to be attended with the said Representation.

The said Gentlemen having delivered the Message to his Honour, Reported that he had been pleased to say he would come to the Council Chamber in half an hour and receive it there.

His Honour being come to the Council Chamber The Speaker left the Chair and read and then presented to his Honour the Representation of the Council in the words following viz^t

To the Honourable JAMES DE LANCEY Esq^r his Majesty's Lieutenant Governor and Commander in Chief in and over the Province of New York and the Territories thereon depending in America.

The humble REPRESENTATION of the Council of the Province of New York

May it please your Honour

We beg leave to lay before your Honour the Bill Entituled, "An Act to apply several sums of money for the use and security of this Colony" with copies of the proceedings thereon: By which your Honour will perceive, that sundry Sums of Money are appointed to be paid by the said Bill to particular persons, upon their Receipts, which is Repugnant to his Majesty's Commission on Record, and to the thirty ninth Instruction to the late Sir Danvers Osborn entered in the Minutes of this House, and of the House of Assembly.

We were not willing to amend the said Bill, to make it agreeable to the Commission and Instructions, least it should at this critical time, raise a contest between the two Houses, concerning our Right to amend Money Bills, (a point often already determined by the King and Council and Lords of Trade in favour of Councils) and therefore chose to desire a friendly conference with the General Assembly on this Matter; But your Honour will find that they have refused to confer, alledging for Reason that it is a Money Bill, which we humbly conceive it is not, as no money is thereby given to his Majesty, but only monies applied, which had been before granted. And were it even a Money Bill, we can produce many instances of Conferences desired by the House of Lords, on Money Bills before them, and those conferences agreed to by the House of Commons, and remember not of any instance before this, in this Province of a refusal to confer on a Money Bill.

As we declined amending this Bill, so for the like Reason we decline entering into any contest with the Assembly at this extraordinary Juncture, on this their refusal to confer. And tho' we cannot pass the Bill as it stands, so directly repugnant to his Majesty's Commission and Instructions, yet we think it improper to reject it, least it should be from thence suggested that we did not think the services therein proposed to be provided for, to be necessary, which we are of opinion are highly so. And as we hope the House of Assembly, when made sensible that the passing a Bill repugnant to his Majesty's Commission and Instructions, is but another way of refusing to pass any Bill for that purpose, may as yet (if your Honour will give them an opportunity) pass a Bill consistent therewith, We therefore humbly submit it to your Honour, whether it may not be proper to prorogue the General Assembly for a short time, for the reason and purpose aforesaid.

By order of the Council

JA: ALEXANDER Speaker

Council Chamber. New York }
1st May 1754 }

Whereupon his Honour was pleased to say

Gentlemen,

I am in doubt whether it will be proper for me to prorogue the General Assembly while the Bill mentioned in your Representation is unrejected by you.

His Majesty's service and the safety of the Province under my Government, require that the services provided for in the Bill, should be immediately done, and will not admit of delay. And as I am not fully assured that the Assembly after a prorogation will make the like provision as in this Bill, I do not think my self Justifiable in proroguing them.

The Reasons assigned by you for not passing the Bill, are apparently of great weight, and I think the Assembly manifestly in the wrong, in the manner in which they have framed the Bill for the services provided for in it. But if the Council think it proper to reject the Bill; I shall then find my self under a necessity of Proroguing the General Assembly, and upon their next meeting shall recommend to them again to provide for those services in a manner not liable to the same objections. I deliver back the Bill to you.

Then the Council adjourned till 3 o'clock P^r Merid.

Wednesday, the 1st day of May, 1754. P^r Merid^m.

The Council met according to adjournment.

PRESENT — *The Hon^{ble}* JAMES ALEXANDER, Esq^r, Speaker,

ARCHIBALD KENNEDY,
JOSEPH MURRAY,
EDWARD HOLLAND,
JOHN CHAMBERS,
WILLIAM SMITH, Esq^r.

The Speaker assumed the Chair.

Ordered, that the Bill Entitled, "An Act to apply several sums of money for the use and security of the Colony," be Recommitted to the Gentlemen of the Council or any five of them.

The Speaker left the Chair and

The Council Resolved into a Committee to consider of the said Bill, and having gone through the same, and being ready to make their Report thereon

The Speaker resumed the Chair.

Then M^r Chambers Chairman of the said Committee, in his place Reported, that the Committee had gone through the said Bill, and directed him to report the same without Amendment.

Which Report on the Question being put was agreed to and approved of.

Ordered, that the said Bill be read the third time.

Then the said Bill was read the third time and

On the Question being put

Whether the Bill should pass?

It passed in the Negative.

Then the Question was put

Whether the Bill should be Rejected or not?

Which passed in the Affirmative.

Resolved, that the said bill be Rejected accordingly.

His Honour the Lieutenant Governor being come to the Council Chamber, sent a Message to the General Assembly by the Deputy Secretary, requiring their immediate attendance, and they attending accordingly

His Honour in presence of the Council and General Assembly, gave his Assent to the three following Bills viz^t

An Act to continue An Act Entitled, An Act to Establish the Rates to be taken for Wharfrage of Ships and other Vessels using the three Wharfs therein mentioned.

An Act to Revive An Act Intituled, An Act to prevent the breaking or otherwise injuring Glass Lamps in the City of New York.

An Act to prolong the time limited for drawing the Lottery appointed in and by An Act Entitled, An Act for raising the sum of one thousand one hundred and twenty five pounds by a publick Lottery for this Colony for a further provision towards founding a College within the same.

Then the said three Acts were published with the usual solemnity and the Governor, Council and General Assembly, being returned to the Council Chamber, his Honour was pleased to say, he thought it for his Majesty's service, to prorogue the General Assembly, and did accordingly with the advice of his Majesty's Council, prorogue the General Assembly till to morrow.

TWENTY-SEVENTH ASSEMBLY FIFTH SESSION.

At a Session of the Council and General Assembly of the Province of New York, held at the City Hall of the City of New York on Thursday the second day of May, one thousand seven hundred and fifty four, in the twenty seventh year of the Reign of King George the Second.

WILLIAM SMITH, Esq^r.

The Speaker assumed the Chair.

The Honourable James De Lancey Esq^r his Majesty's Lieutenant Governor of this Province being come to the Council Chamber, sent a Message to the General Assembly by the Deputy Secretary, requiring their immediate attendance, and the House attending accordingly.

His Honour made a Speech to the Council and General Assembly, and delivered one copy thereof to the Speaker of the Council, and another to the Speaker of the General Assembly and then his Honour left the Council Chamber.

The Speaker resumed the Chair.

Ordered, that his Honours Speech be Read, which being Read,

Ordered, that the same be entered in the minutes, which is as follows, Viz^t

Gentlemen of the Council and General Assembly,

As the several Matters I lately recommended to you, are still fresh in your Memories, I think it needless to repeat them.

Gentlemen of the General Assembly,

I am convinced that the Council, when they rejected the Bill, to apply several Sums of Money for the Use and Security of this Colony, were of Opinion the Services were highly necessary. But as they conceived the Manner in which that Bill was framed, to be repugnant to his Majesty's Commission and Instructions, they thought themselves, in Duty to his Majesty, bound to refuse their Consent to it : And I hope when you again take these Services into Consideration, (which you are sensible can admit of no Delay) you will frame the Bill so as it may not lay the Council under any Difficulty of passing it.

Gentlemen of the Council and General Assembly,

I must press you to proceed in this Matter, with Unanimity and Dispatch : His Majesty's Service, and the Safety of the Province, requiring it.

JAMES DE LANCEY

To the Honourable JAMES DE LANCEY Esq^r his Majesty's Lieutenant Governor and Commander in Chief in and over the Province of New York and the Territories depending thereon in America

The Humble ADDRESS of the Council of the Province of New York.

May it please your Honour

We his Majesty's most dutiful and Loyal Subjects the Council of the Province of New York, beg leave to return your Honour our most grateful Thanks for your Speech to both Houses, and acknowledge your Honours care and attention to his Majesty's service, and the good of the Province.

We assure your Honour we had the Bill mentioned in your Speech, to apply several sums of money for the use and security of this Colony, under serious Consideration several days, and were truly sensible the services intended to be provided for therein, were highly necessary: But as the Bill was framed directly contrary to his Majesty's Commission and Instructions We thought we could not consistent with our duty give our consent to it: And therefore hope the General Assembly, upon considering our Reasons for rejecting this Bill, will according to your

Honours Recommendation, frame another for those important services, in such a manner as may not lay us under any difficulty in passing it. And they will find us both ready and willing to join with them and proceed in this matter with unanimity and Dispatch.

By Order of the Council

JAMES ALEXANDER, Speaker.

 TWENTY-SEVENTH ASSEMBLY SIXTH SESSION.

At a Session of the Council and General Assembly of the Province of New York, begun and holden at the City Hall of the City of New York on Tuesday the twentieth day of August, one thousand seven hundred and fifty four, in the twenty eighth year of the Reign of King George the Second.

The General Assembly of this province having been prorogued on Saturday the fourth day of May last, to Tuesday the twenty eighth day of the same Month; and on the said twenty eighth day of May, by Proclamation, to Tuesday the second day of July; and on the twenty eighth day of June, by Proclamation to Tuesday the sixth day of August, and on the sixth day of August * by Proclamation to this day.

The Council met accordingly.

PRESENT — *The Hon^{ble}* ARCHIBALD KENNEDY, Esq^r, Speaker,

EDWARD HOLLAND,

JOHN CHAMBERS, Esq^r

The Honourable James De Lancey Esq^r his Majesty's Lieutenant Governor and Commander in Chief of this province, being come to the Council Chamber, the Speaker left the Chair, and his Honour sent a Message by the Deputy Secretary to the General Assembly, requiring their immediate attendance, and the House attending accordingly,

His Honour made a Speech to the Council and General Assembly, and delivered one copy thereof to the Speaker of the Council, and another to the Speaker of the General Assembly, and then left the Council Chamber.

The Speaker resumed the Chair.

Ordered, that his Honour's Speech be read, and the same being read, was

Ordered, to be entered in the Minutes, and is as follows

Gentlemen of the Council and General Assembly,

The French Forces in Conjunction with a Number of Indians, having lately attacked and defeated the British Troops under the Command of Col. Washington, on this side of the Ohio,

* This date is incorrect, according to the preceding Proclamation and *N. Y. Council Minutes*, xxiii, 210.

within the undoubted Limits of his Majesty's Dominions, and as I am informed, built a Fort on the Forks of Monongahela; I was obliged to call you together at this Time.

It is evident, and needs no Arguments to prove how conducive it must be to his Majesty's Service, and the general Welfare of all the Colonies, that we should be aiding and assisting to each other, in Case of any Invasion. In this Situation, it is incumbent on all the Provinces, to give the Virginians the Aid they stand in need of. It behoves us more particularly to exert ourselves, for as we have a large and extended Frontier, exposed to the French and their Indians, we cannot with any Decency, should this Province be attacked, call upon the other Governments on the Continent, or with Reason expect Assistance from them, unless we now cheerfully throw in our Contributions, to enable the Virginians to repel the French, and drive them out of the Limits of his Majesty's Dominions: This is a Point that deserves your most serious Attention.

There is another which requires it no less; and that is, the defenceless State of the Province. View the Fortifications of this City, and let your own Eyes inform you, what Repairs are necessary, and what other Works wanting to strengthen and defend it. Consider how near the most populous and best Part of Canada is to Albany; how weak and unprepared for a Defence that City is; that we have not any Place of Strength above it on Hudson's River, to retard an Enemy one Moment, so that they might be at our Doors to give us the first Notice of our Danger. The Consequences that must attend the Loss of Albany, is a Subject more proper for your own Reflection, than for me to enlarge upon. A Place of so great Importance ought to be well provided for its Defence in all Events. A strong Fort on Hudson's River, must be a great Security to that City, as Intelligence might be sent from thence, of the Approach of an Enemy, and the Place thus enabled to hold out till a sufficient Force could be brought to its Relief, which might be soon done: And a Fort on that Quarter, must also, in Time of War, be a great Check to the Enemy's Incursions towards Schenectady and other Parts of the Country.

In Case of a War, we may expect great Assistance from the Six Nations of Indians. I left them in a very good Disposition at the late Treaty; but unless we put ourselves in a proper Posture of Defence, they will be unwilling to expose themselves to the Resentment of the Enemy. If we will protect them, they will be ready to fight for us. The Building a Fort and making a Settlement in the Senecas Country, is a Matter of great Consequence, for besides the Advantages we might draw from it, the French will be prevented from taking this Step, which they would have done long ago, could they have prevailed on the Indians to consent to it. With this view a Tract of Land of a good Soil and fit for Settlements, was purchased by Lieutenant Governor Clarke, from the Senecas, the most numerous of the Six Indian Nations; and tho' a Fort was not then built, and even now as it is a general Concern, ought to be done at a general Expence; yet, as the Situation of Affairs is become more dangerous than at that Time, it is necessary to erect a Fort there, even at our own Charge, to secure a Footing at that Place; to attach that Nation to the British Interest, to hinder their falling into the Hands of the French; and to unite them more firmly with the other Indian Nations, in a Dependence on this Government.

It has been usual to send a Smith, and some other Persons to reside in the Senecas Country, to secure that Nation in their Fidelity to us: And the Onondagoes have desired me to order a Smith to be sent and remain among them for a Year. Services of this Nature have ever been attended with a good Effect.

In my late Conferences with the Six Nations at Albany, they complained of the pernicious Effects arising from the Use of Rum among them, and desired it might not be sold in their Castles or Countries. The Mohawks also requested that the People who are settled there, might not be suffered to sell this Liquor to them: And as the Law which restrains the Sale of Rum to the Indians, has proved ineffectual, I must recommend to you, to make such further Provision as will fully answer that End.

It may be proper to revise the Militia Act, to make it more effectual for the Purposes intended, and to insert a Clause, to form those who are exempted by Law, yet able to bear Arms, into Companies, to appear once a Year, and as often as the publick Service shall require it for the Defence of the Province; and to provide a Quantity of Arms and Accoutrements to be lodged in the Cities of New York and Albany, to be ready upon any Emergency.

Gentlemen of the General Assembly,

The present Exigency calls aloud upon you, for Supplies, to assist our fellow Subjects of Virginia. The Case is much altered, since I first laid before you the Encroachments of the French. They had then built Forts only on the Lake Erie, and at the head of Beeve River, they have now descended this River to the Ohio, and thence to the Monongahela, and have defeated his Majesty's Troops on this Side of the Ohio, so that by these Steps it is evident, the Case has now happened in which you engaged by your Resolution of the 13th of November last, to make Provision for assisting any of the neighbouring Colonies to repel Force by Force: And I am persuaded, you will acquit yourselves as becomes you, by cheerfully giving an ample Supply for this Service; and that you will at the same Time, make a suitable Provision for the other Services which the Defence and Safety of the Province demand of you.

Gentlemen of the Council and General Assembly,

The Things I have recommended to you, highly concern his Majesty's Honour, and the Interest and Safety of the Province. We may learn from the Relations published by the French, that they have long had a Design upon this Province, Plans have been laid for its Conquest; Schemes have been formed to attack Albany and this City at the same Time; the former by a Land Force from Canada, and New York by a naval Armament. They would gladly be Masters of a Country, that must soon put it in their Power to reduce the Six Nations, and their numerous Allies, to an intire Dependence on them: By preventing this, you will go a great Length in defeating their Views, to subject the whole Continent to the French Yoke. Let me therefore, earnestly exhort you, to provide in Time for your Security, that by effectually fortifying the Province, the future Schemes or Attempts of your Enemies, may be frustrated and rendered abortive.

When I was at Albany, I proposed to the Commissioners of the several Governments met there, the building Forts in proper Places to cover the northern Frontiers of this, and some of the neighbouring Provinces, and Forts in the Indian Countries, but without any Effect; they seemed so fully persuaded of the Backwardness of the several Assemblies to come into joint and vigorous Measures, that they were unwilling to enter upon the Consideration of these Matters; and formed a Plan for a general Union of all the Colonies, to be enforced by Act of Parliament: Which, together with a Representation they prepared of the State of the Colonies, I shall order to be laid before you.

Gentlemen,

I need not recommend Unanimity to you; the Matters laid before you are of such Importance, that they will naturally lead you to unite your utmost Endeavours to bring them to a happy Conclusion. It will give me the highest Satisfaction, if while I have the Honour of the Administration, something effectual be done to assist our Neighbours, and to strengthen and secure ourselves. You will ever find me ready to give my Assent to any Bills for his Majesty's Service and the Good of this Country.

The Humble ADDRESS of the Council of the Province of New York.

May it please your Honour,

We return you our most humble thanks for your Speech.

We are truly sensible of the importance of those matters you have been pleased to lay before us—When the Dignity of the Crown is insulted, the welfare of Great Britain attacked, and the property of our fellow subjects invaded, can Englishmen, can we, who are under so many ties of duty and Gratitude; We who so often have made profession of duty and Loyalty to the best of Kings; hesitate one moment to exert with Indignation, our utmost efforts of Resentment. Surely not! We therefore beg leave to assure your Honour that we will cheerfully concur in every proper measure that can in any wise conduce to the defeating those perfidious schemes concerted by a Nation void of sincerity and Regardless of all Faith and Treaties.

Permit us Sir to add that there is nothing in our power shall be wanting, wherein we can by any means, contribute to the Honour of your Administration.

Mr. Banyar brought to the Council a Message from his Honour the Lieutenant Governor in the words following.

Gentlemen,

A few days after your Recess, I received Advice that a Body of French Indians had made an Incursion into this Province, and destroyed the Settlements at Hoseck and Sinkhaick. I immediately sent Orders to replace the Stockadoes where wanting, round the City of Albany, and to repair the Block-Houses, and for the better Security of that important Post, I ordered the Company of his Majesty's Forces from this Place to Albany, detaining here only a Serjeant, and the Invalids to do Duty in Fort-George. I also, by y^e Advice of his Majesty's Council, directed a Fort to be built on Hudson's River, above Albany, but as no Workmen could be prevailed on to undertake it upon the Credit of the Province, this necessary Service is left undone. You will agree with me that nothing can contribute more to the Credit of any Government, than a punctual Discharge of the Debts contracted for its own Security and Welfare, which I earnestly recommend to you, and particularly the Demand of Colonel Johnson, that has long laid before you; and for the Payment of which I hope you will now provide, as well as for all other Expences disbursed on the publick Account. This will be an Encouragement to Persons chearfully to undertake any future Work for the Province, on Emergencies that may arise, and require immediate Orders from a Governor to be carried into Execution: And as the Safety of the Province may be greatly endangered by the Want of a Sum of Money in the Treasury, to be drawn out on such pressing Occasions, I recommend this to you as a Matter worthy your Consideration.

Mr Banyar brought to the Council a Message from his Honour the Lieutenant Governor in the words following.

Gentlemen,

At my late Interview with the Indians in Albany, the Mohawks of the lower Castle made their Complaints to me, principally on two Points. That they had never sold a large Tract of Land lying between Hudsons and the Mohawks River, called Kayoderosseras, and that they intended the Lands which the Reverend Mr Barclay, then their Missionary, purchased of them, should not pass in Fee, but remain as a Glebe for ever for the use of a Minister, and therefore desired, I would pay Mr Barclay for the House, and set apart the Land for that Purpose, as you will see by the Minutes of Council, Copies of which will be laid before you herewith.

I have mentioned this to Mr Barclay, and he has generously offered to take up with the Money he has disbursed on that Place.

The Conojohary or upper Mohawks also desired, I would have a Church built at that Castle; a Request of such a Nature that I persuade myself you will in Christian Compassion to those People enable me to comply with, and to build it of Stone that it may on an Emergency serve as a Fort, for the Security of their Wives and Children.

The Mohawks, as they live amongst us, are always at Hand to assist us, and in the late War, shewed themselves ready to join us on every Occasion, and on their Fidelity depends in a great Measure that of the other Nations. It is therefore, our Interest to give them all reasonable Encouragement, so that I must recommend it to you, to make Provision for these Purposes.

Mr Banyar brought to the Council a Message from his Honour the Lieutenant Governor in the words following

Gentlemen,

His Majesty's Receiver-General has delivered a Memorial to me, setting forth, the Difficulties which render it impossible for him to collect and receive the Quitt-Rents regularly and duly as they ought to be, without the aid of a Law for that Purpose. I send you a Copy of the Memorial as it points out a Method, which, I think will be of Benefit to his Majesty, and a great Ease to the Subject in the Collecting of those Rents for the future, by freeing them from the heavy Expence that might otherwise attend the Recovery of them. I shall readily give my Assent to a Bill of this Nature, and have no doubt, you will put it in my Power to do so, as the obliging all Persons to pay their Arrears, and to discharge their Rents as they become due, must compel those who hold large Tracts of uncultivated Lands to a speedy Settlement.

Mr Banyar brought to the Council a Message from his Honour the Lieutenant Governour in the words following

Gentlemen,

I Have ordered to be laid before you an Extract of a Letter of the 5th of July last, which I lately received from the Right Hon^{ble} Sir Thomas Robinson, one of his Majesty's principal Secretaries of State; and also a Copy of a Letter which he had wrote to Governor Shirley, by his Majesty's Commands. You perceive how graciously his Majesty accepts the Services of his Subjects, for their own Defence and Security: This should animate you to act chearfully and vigorously in this Juncture, and thereby merit the Approbation of the best of Kings, who delights in the Prosperity of his People. I flatter myself I shall have your Aid to follow the laudable Example of our Neighbours of Massachusetts-Bay, and to enable me to build a Fort on such a Place on Hudson's River, as shall be thought most proper for his Majesty's Service, and the Defence of our Northern Frontier; and that you will make a suitable Provision for carrying into Execution, an Undertaking so visibly calculated for the Advantage and Safety of the Colony.

You have already shewn your Zeal for the general Interest of these Provinces, by granting Five Thousand Pounds, towards the Assistance of Virginia. I am therefore fully persuaded you will not be backward in granting Supplies for the Security of this wherein you are yourselves so deeply interested.

The Officers of the Troops in Garison, at Albany, have represented to me, that the Men are entirely destitute of Bedding, without which, it is impossible, from the Coldness of the Rooms, they can subsist this Winter, having nothing but the Boards to lay on. The Defence of that City depends in a great Measure upon the Soldiery there, who must infallibly desert, unless you by a seasonable Supply relieve them, which his Majesty's Service obliges me to recommend to you to provide for without Delay.

JAMES DE LANCEY.

City of New York

Mr Chambers from the joint Committees of the Council and General Assembly, appointed to receive the Proposals of Cap^t John Morke, Reported that the said Cap^t Morke had attended and laid before the Committees the Model of a floating Battery for the annoyance of Ships &c which they esteem an ingenious invention, but think the same was principally calculated for and may be more usefully employed against Fortresses and Places of strength upon Land, where the same Battery may be conveniently anchored in shallow waters, than against Ships in this or any other Port, where the waters are deep and the streams rapid.

That he also imparted to them a scheme for preserving of Timber and Ships sound and durable, in which are several useful observations and directions to that End, and of which he left a copy with the Committees.

That as to what the said Cap^t Morke sets forth about the Remarks and Observations he has made about Materials for Naval Stores in the Northern Colonies, and his having engaged skilful

and experienced Persons to come over upon Proper encouragement to instruct the People in the method of curing Hemp and making Tar, Pot Ash, Iron, Steel &c to much greater perfection than as yet practiced among them: The Committee are of opinion the Council are better able to judge of the expediency and fitness thereof, and of the Encouragement proper to be given the said Capt^m Morke for setting up and carrying on of such Manufactories within this Colony, than they are: and therefore humbly beg leave to submit the same to them."

BECAUSE the Council were of opinion the said Bill is inconsistent with the 39th Article of his Majesty's Instructions to Sir Danvers Osborn: And Mr Alexander added this further reason "For that he has not seen any vouchers to prove that the debts thereby provided for are due and just."

The Speaker left the Chair and

The Council resolved itself into a Committee on the Bill entituled, "An Act for the payment of the Salaries and services therein mentioned to the first day of September one thousand seven hundred and fifty five."

The Committee having gone through the same

The Speaker resumed the Chair and

Mr Chambers Chairman of the said Committee in his place Reported that the Committee had gone through the said Bill and directed him to report the same without any amendment.

Which Report on the Question being put was agreed to and approved of

And thereupon the Speaker put the question

Whether the Bill should be read the third time or Not?

Which passed in the Negative

BECAUSE the Council were of opinion the said Bill is inconsistent with the 39th Article of his Majesty's Instructions to Sir Danvers Osborn.

His Honour the Lieutenant Governour being come to the Council Chamber sent a Message to the General Assembly by the Deputy Secretary, requiring the immediate attendance of that House and the House attending accordingly with their Speaker

His Honour in presence of the Council and General Assembly was pleased to give his Assent to the following Bills viz^t

BY THE HONOURABLE

JAMES DE LANCEY Esquire his Majesty's Lieutenant Governor and Commander in Chief (L.S.) in and over the Province of *New York* and the Territories depending thereon in *America*.

A PROCLAMATION.

WHEREAS the General Assembly of this Province stands adjourned to the second *Tuesday* in *March* next, And Whereas his Majesty's service requires that they should sit sooner for the dispatch of Business, I Have therefore thought fit by and with the advice of his Majesty's Council to issue this Proclamation hereby ordaining and appointing that the said General Assembly shall meet and the said General Assembly is directed and required to meet to proceed on Business on *Tuesday* the *fourth* day of *February* next at the *City Hall* in the City of *New York* Of which all his Majesty's subjects concerned therein, are to take Notice and govern themselves accordingly.

Given under my hand and seal at Arms at *Fort George* in the City of *New York* the *tenth* day of *January* in the year of our Lord one thousand seven hundred and fifty five and of his Majesty's Reign the *twenty eighth*.

JAMES DE LANCEY.

By his Honours Command

GW BANYAR D Sccry

God save the KING.

Tuesday the fourth day of February, One thousand seven hundred and fifty five.

His Honour the Lieutenant Governor having been pleased on the tenth day of January last to issue a Proclamation for convening the General Assembly on this day
The Council met accordingly.

PRESENT—*The Hon^{ble}* JAMES ALEXANDER, Esq^r, Speaker,

ARCHIBALD KENNEDY,
JOHN RUTHERFURD,
EDWARD HOLLAND,
JOHN CHAMBERS,
WILLIAM SMITH, Esq^{rs}.

The Speaker assumed the Chair.

M^r Banyar Deputy Secretary brought a Message from his Honour the Lieutenant Governor, with several other Papers: Which Message being read is in the words following viz^t

Gentlemen,

I thought it necessary to call you together before the Time to which you were adjourned. Two causes have principally induced me to take this Step. Since your Recess, I have received a Letter from the Right Honourable Sir Thomas Robinson, one of his Majesty's Principal Secretaries of State, a Copy of which is herewith sent you, acquainting me with the Measures which the King has thought proper to take for the Defence of his just Rights and Dominions in North-America, and for the Security and Welfare of his Subjects in these Parts. These are such Proofs of his Majesty's Regard to us, as ought to excite us to take the most vigorous Steps to repel our common danger, and rouse up that Emulation and Spirit, which every man owes at this Time, to his Majesty, the Publick, and himself. I do therefore most earnestly recommend it to you, that in Duty to his Majesty, and in Gratitude for so signal Instances of his paternal Care of you, you will make sufficient Provision to enable me fully to come up to what his Majesty so justly expects at your Hands.

While the King's Troops are employed in the Defence of his just Rights, we have all the Reason, under God, to expect a happy Issue: And from the Maxims and Practices of our foreign Neighbours, have we not Cause to apprehend that they will make some vigorous push to revenge themselves on one or other of the British Colonies: And if we continue in our present defenceless State, what more probable, than that they will bend their Force this way. This is an alarming Consideration, and, I hope, will have the proper Weight with you, not to discourage, but rather to animate you to fall upon such Ways and Methods (they are in your own Power) as will encourage Men with Alacrity to fight for the Honour of their King, and for the most valuable Blessings, their Religion, their Liberties, and their Property. These are Motives, which would inspire any Man with Courage. But what can the bravest Men do, without proper Works to cover them, and annoy the Enemy? Let me therefore exhort you, to put the Province in such a Posture of Defence, and that without Delay, that whenever an Enemy shall think proper to visit us, we may by the Blessing of God, give them such a Reception, as may discountenance all future Attempts to conquer and enslave us. Besides, there is this very considerable Advantage in being well fortified, that an Enemy will not think of attacking a Place, where they must expect a very rough Treatment, with little hopes of Success.

In the first Place then, the Fortifications of this City ought to be repaired, or altered, and other Works made, where the Commander in Chief with the Advice of the Council, and the Assistance of the best Engineers that can be had, shall think most conducive to the common Safety; with this View, and in full Dependence that you will not neglect your own Security, I have already applied to General Braddock, to send an able Engineer to this Place, if one can be spared. Nothing can be more evident to a considering Man, than that the Value every Estate in the Province, depends on the Trade, and of Course on the Safety of this City; so that there is the highest Reason it should be effectually secured.

In the next Place, our northern Frontier, demands your most serious Attention. The City of Albany, is in such a Condition, as draws a Reproach upon us from our own Indians, at the same Time that it greatly discourages them. They publicly declared at the last Interview, that it was a Shame to see us so open and defenceless; and said, that the French who are just at our Doors, could come in at Night and turn us all out.

Albany, should therefore be strengthened; for if that be taken, I do not see what could stop an Enemy from passing on the West Side of Hudson's River, through Ulster and Orange, even into Jersey or Pennsylvania: and being Masters of Albany, they would cut off all Communication between us, and the Indians, and the Settlements on the Mohawks River.

It is necessary to have a strong Fort built in some advanced Place on Hudson's River, well garrison'd, and whence a Number of Scouts may be employed to gain Intelligence, and give Notice of the approach of an Enemy, that the Inhabitants may be on their Guard, and ready to

receive them; and be able to intercept any small Parties that come to disturb or destroy the Out-Settlements. Such a Fort would be of Service to the whole Country.

The Militia Act, should be made more effectual to compel Men to do their Duty in Case of an Invasion.

I have already laid before you several of these Matters, and others Relative to the Indians; which you will take into Consideration. I send you a Copy of a Letter from the Commissioners for Indian Affairs, and an Extract of another I received from the Corporation of Albany. It will be proper to make Provision for contingent Services, suitable to the Exigency of the Times. and as an Interview with the Indians may be necessary this Year, you will think of making Provision for that Purpose.

Gentlemen,

The Services I have now recommended to you, demand a large Supply of Money; but as Security cannot be purchased at too high a Rate, I flatter myself, you will not risque losing your All, by an ill-timed Parsimony. I can have no Interest therein, but what is yours: Let me entreat you then, to apply your selves most seriously to consider of such Funds, as will be sufficient to defray all the Expences necessary for your own Preservation, and the Continuance of the Blessings we now enjoy.

Mr Banyar Deputy Secretary brought to the Council a Message from his Honour the Lieut^t Governor in the words following viz^t

Gentlemen,

There is at this Time, a very pernicious Trade carried on from this Province, which deserves your Consideration. The French at Louisbourg, are furnished with Provisions from this and some other of the Northern Colonies, whence they supply Canada and their Forces on the Ohio; and are thereby in a Condition to support themselves in their Encroachments on his Majesty's Territories.

I therefore think it will be for his Majesty's Service and the general Safety, that a Law be passed to restrain this evil Practice, empower the Commander in Chief with the Advice of his Majesty's Council, to put a Stop to it when necessary, by laying such Penalties on the Owners, Freighters and Masters of Vessells using this Trade, as May discourage them from prosecuting a Business of such visible bad Consequences to the general interest.

The Speaker assumed the Chair.

The Council adjourned till 3 o'clock to Morrow Afternoon.

Wednesday, the twenty sixth day of March, 1755. P. M.

The Council met according to adjournment.

PRESENT— *The Hon^{ble}* ARCHIBALD KENNEDY, Esq^r, Speaker,

JOHN CHAMBERS,
WILLIAM SMITH, Esq^{rs}.

The Speaker assumed the Chair.

M^r Banyar Deputy Secretary brought to the Council a Message and several Papers from his Honour the Lieutenant Governor, which Message is in the words following viz^t

Gentlemen,

I have the Pleasure to acquaint you with the Arrival of General Braddock, and the two Regiments ordered by his Majesty to Virginia. This makes it necessary for me again to recommend to you the enabling me to quarter the Troops, impress Carriages, and provide all Necessaries for such Forces as shall arrive or be raised within this Government, these being Services of a local and peculiar Nature: And further that you would raise as large a Sum as can be afforded, as your Contribution to a common Fund for all Articles which are of a more general Concern, to be employed provisionally for the general Service of North-America until such Time as a Plan of general Union of his Majesty's Northern Colonies for their common Defence, can be perfected, according to his Majesty's Pleasure signified to me by a Letter of the 26th of October last, from the Right Hon^{ble} Sir Thomas Robinson, already laid before you.

I send you herewith Copies of some Papers I received from his Excellency Governor Shirley, which are of such Importance as require your early and most serious Attention, the rather as the Measures proposed therein tend to unite our common Strength for our common Defence, and I hope, will lead us into a general Union for the general Welfare. The French Encroachments are chiefly owing to the Want of this. If the British Colonies act in concert, they will soon be able with his Majesty's Assistance, to check and remove them. You will not, I am persuaded, be so regardless of your Safety as to neglect the Means and Measures for your own Preservation, but in this, and all other Instances show your Readiness to join with the other Colonies in all reasonable Methods to protect and secure yourselves and the common Interest, and avoid the disadvantageous Imputation of backwardness on your Part to engage in a Plan calculated for the Good of the Whole.

I am under a Difficulty to get the Garrison of Oswego supplied with Provisions, the contractor being unwilling by Reason of the Disappointments in his Pay, to disburse any further Sums in that Service. You will therefore think of making Provision, that the publick may not suffer through any Delay of Payment, and particularly that this Garrison of so great Importance be not in Danger of being lost.

JAMES DE LANCEY.

City of New York
26th March 1755.

On reading the said Message and the Papers from Governor Shirley therein referred to,
Ordered, that M^r Holland, M^r Chambers and M^r Smith be a Committee to confer with a Committee of the General Assembly on the subject matter of the said Message and Papers; with Power to the said Committee to confer thereupon with Thomas Pownall Esq^r Commissioner on the part of the Government of the Massachusetts-Bay.

Ordered, that Mr Chambers do acquaint the General Assembly, that the Council have appointed Mr Holland, himself, and Mr Smith, a Committee to confer with a Committee of that House on the subject Matter of his Honour the Lieutenant Governor's Message of this day, and the Papers from his Excellency Governor Shirley referred to in the said Message, with Power to the said Committee of the Council to confer on the said Matters with Thomas Pownall Esq^r Commissioner on the part of the Government of the Massachusetts-Bay. And that the Council desire the General Assembly to appoint a Committee of their House to join the said Committee of the Council for the like purposes.

A Message from the General Assembly by Mr Watts and Mr Cornell, acquainting the Council that the House have appointed Mr Verplanck, Mr Livingston, Mr Nicoll, Mr Cruger, Captⁿ Walton and Mr Thomas a Committee to join the Comm^{ee} of the Council, to confer with them on the subject matter of his Honour the Lieutenant Governor's Message of this day, and the Papers from his Excellency Governor Shirley referred to in the said Message, with Power to confer with Thomas Pownall Esq^r Commissioner on the part of the Government of the Massachusetts Bay, on the said Matters.

Ordered, that the said joint Committees of the Council and General Assembly to meet immediately at the House of Mr Edward Willet for the purposes aforesaid.

Ordered, that Mr Chambers do acquaint the General Assembly that the Council have appointed the joint Committees of the Council and General Assembly to meet immediately at the House of Edward Willet.

The Council adjourned till to Morrow Morning 11 o'clock.

Thursday, the 27th day of March, 1755.

The Council met according to adjournment.

PRESENT — *The Hono^{ble}* ARCHIBALD KENNEDY, Esq^r, Speaker,

JOSEPH MURRAY,
EDWARD HOLLAND,
JOHN CHAMBERS,
WILLIAM SMITH, Esq^r.

The Speaker assumed the Chair.

Mr Holland from the Committee appointed to meet and confer with a Committee of the General Assembly upon the subject matter of his Honour the Lieutenant Governor's Message of the 26th Instant, and the Papers from his Excellency Governor Shirley referred to in the said Message, and also to confer thereupon with Thomas Pownall Esq^r Commissioner on the part of the Government of the Massachusetts Bay, Reported that the joint Committee had met and conferred together, and with the said Thomas Pownall Esq^r upon the subject of the matters referred to them and that the joint Committee had come to the following Resolutions.

First That the Scheme proposed by Governor Shirley for the defence of the British Colonies in North America is well concerted.

Secondly That this Colony join therein, if the General appointed by his Majesty to command the Forces in North America approves of the said Scheme.

Thirdly That this Colony raise and subsist eight hundred men, if the Colony of Massachusetts Bay raise and subsist fourteen hundred men according to the proportion settled by the Commissioners as reasonable, at the Congress at Albany in June last.

Fourthly That if a sufficient number of Forces be sent up Kennebeck River, to make a diversion there, by the Government of the Massachusetts Bay, the joint Committee is of opinion it may be equivalent to two hundred men, in which that Colony is by the Committee thought deficient, in only proposing twelve hundred Men to be raised at their expence in the intended enterprize.

And the Question being put

Whether the Council agree with the Committee in their Report?

Resolved, that the Council do agree to the said Report.

Ordered, that Mr Holland do acquaint his Honour the Lieutenant Governor with the said Report and Resolution.

The Council adjourned till Saturday afternoon 3 o'clock.

Saturday, the 29th day of March, 1755.

M^r Banyar Deputy Secretary brought to the Council a Message from his Honour the Lieutenant Governor in the words following viz^t

Gentlemen,

I shall order a Copy of a Letter I lately received from the Right Honourable Sir Thomas Robinson, one of his Majesty's Principal Secretaries of State, to be laid before you; and as it is a fresh Instance of his Majesty's Paternal Care of his Colonies and Subjects in North-America, you will read it with the Pleasure that becomes the most dutifull and loyal Subjects, sensible that the King is determined nothing shall be wanting towards their Support. This Consideration ought to induce you chearfully to comply with what is expected from you by his Majesty, and to shew your Gratitude to the best of Kings, by enabling me to effect the intended Augmentation of his Majesty's Troops in America, and to defray the Charge of levying the same.

During your Recess I made Application to the Government of Connecticut, to raise a Number of Men in that Colony, in the Pay of this Province, and have obtained Leave to raise three Companies, as you will see by a Copy of the Resolve of the Assembly, which I shall order to be laid before you. I have given Warrants to five other Persons, such as were recommended to me as able to raise Companies, which I hope they will soon compleat. I have ordered Cartouch Boxes to be made, this Article being omitted in the Act lately passed; and which you will now

provide for. I have wrote to Governor Dinwiddie, requesting the Loan of Arms for the Men, but have as yet received no Answer; it will therefore be necessary to make Provision for a Supply of Arms, in Case we should be disappointed of those. It will likewise be necessary to cause such Forts to be erected on Hudson's River, and in other Places, as shall be thought expedient for securing Stores, sheltering Men, and receiving the Sick and Wounded, and keeping open a Communication between Albany and the Provincial Troops; and to build a proper Vessel to command the Navigation of the Lake, and thereby deter the French Indians from passing this way. You are well apprized that the Assistance of a number of Indians may contribute greatly to the Success of the present Expedition; and that when engaged, they must be supplied with Arms, Ammunition and Provisions. And as these Things cannot be executed without a considerable Expence, I earnestly recommend it to you to make immediate Provision for them, by furnishing the Proportion of this Colony towards this Common Charge, and the Expences that Major General Johnson, Commander in Chief of the Provincial Troops, will unavoidably be put to. And I think that the Provinces concerned, ought to make him Appointments suitable to his Rank and Station.

When I attended General Braddock, and Commodore Keppel, Commander in Chief of his Majesty's Ships in North-America, with several of the Governors of the Provinces in Council at Alexandria, the Plan of Operation for this Summer, was concerted: One Article of which, will be laid before you, relating to the Presents to be made to the Indians. This was a Service so essentially necessary, that I can have no doubt, but you will immediately raise Money to defray that part of it which I undertook in Behalf of this Province.

General Braddock considering the Fort at Oswego, as a Post of the greatest Importance, and having been informed of its present defenceless Condition, and the Weakness of its Garrison, has ordered the Effectives of the two Independent Companies and two Companies of Sir William Pepperells Regiment thither, to reinforce it; and as this Service required the utmost Dispatch, and could admit of no Delay, and that a Post of so great Consequence to this and the other Colonies, might not be exposed to the Danger of a Surprize from the French, who pass it in great Numbers in their Way to and from the Ohio, I thought it for his Majesty's Service, and with the Advice of the Council, I ordered Battoes to be built, and Provisions and other Necessaries to be supplied out of the Five Thousand Pounds, appropriated among others, for the extraordinary Services which may be judged necessary for the Use and Security of this Colony, in this critical and extraordinary Conjunction; and as soon as the Accounts of the Charges are brought in, I shall order them to be laid before you. The importance of the Post, the Necessity of a speedy Reinforcement of Men, and a Supply of Provisions for them, induced me to take these Measures, which I conceived to be of the utmost Service to this and his Majesty's other Colonies, as they secure the Pass into the Indian Country, and into this Province; and will tend to encourage the Five Nations to declare themselves for us, when they see so strong a Garrison at that Place.

A Message from his Honour the Lieutenant Governor by Mr Banyar Deputy Secretary in the words following viz

Gentlemen,

I have received from the Honourable Robert Dinwiddie, Esq; Governor of Virginia, 600 stands of Arms, and their proper Accoutrements, for the Use of the Troops raised in this Province: The Cost of them, and the Reasons why he could not spare 200 more, you will find in the Copy of his Letter. I desire you will make Provision for sending Governor Dinwiddie a Bill of Exchange for the Amount, which I think the best Method, or find Means to replace the like Number and of equal Goodness.

I have before recommended to you to pass a Bill more effectually to restrain and prevent the selling of Rum to the Indians: Complaints of this Abuse are frequent, and it may have very fatal Consequences; and therefore I again recommend it to your Consideration, and that you would insert a Clause to punish the Buyers or pretended Exchangers of their Arms, Ammunition, or Clothing. I have lately had a Complaint from the Minister of Auchwick, and a fresh one

from General Johnson, on this Subject, which I shall order to be laid before you. The Mischief is great and growing, and requires a speedy and severe Remedy.

In the Quotas to be settled for the contingent Charges which may arise, none of the Colonies ought at present to be considered, but such as are engaged in the Expedition, least the Service should suffer by it, or by too minute a Calculation. The proposed Expedition is of such Consequence that it ought not to be retarded by any light Consideration.

Having been informed that the General of Canada had invited the Six Nations to a Meeting this Spring, at Montreal, I thought it necessary to use my Endeavours to prevent it, and to that End sent them a Present of Indian Corn, and directed the Commissioners for Indian Affairs, to send a proper Person into their Country to dissuade them from going thither. Mr Van Schaick, the Recorder of Albany, who went on that Service, is returned, and acquaints me by Letter, that he had left them in very good Humour; that they were well pleased with the Notice taken of them, and that all the Six Nations were seemingly unanimous in continuing firmly attached to his Majesty's Interest. This Service should be provided for, as also that of the Smiths I sent to reside in the Indian Country. I have received the Account of those who were at Onondaga, which shall be laid before you.

I have received good Accounts of the Levies made in Albany and Westchester Counties, for the Service of this Province, and soon expect a satisfactory one from Governor Fitch. I have been disappointed on Nassau Island, and have sent an Express into Dutchess County, where I hope for Success; but that a Service which so nearly concerns the Welfare of this Country, may not be retarded or frustrated, I must in the most earnest Manner press you to enable me to draught out of the Militia such a Number of Men as will complete the Eight Hundred voted for this Expedition. I am astonished at the Backwardness I found in Suffolk County, and that Men should refuse to engage in an Enterprize so evidently calculated for the Safety and future Security of the Colonies: I hope by your Zeal on this Occasion, you will wipe off an Aspersions that may otherwise be cast on you. It is high Time we should exert ourselves to stop up a Passage by which the French, no less barbarous than the Indians, send their Savages to murder, scalp, and lead into Captivity the British Subjects; an Instance of which I had this Morning an Account of from Major Vanderheyden, who informs me, that at Hoseck the French Indians had murdered and scalped one Boy, and carried away two others, all the children of one George Brimmer, who was then at Plough in his Field, with three of his Sons. These Things are not to be endured; exert yourselves then with Vigour, to put an End to such Barbarities.

Then the said Bill was read the third time and

On the Question being put

Resolved, that the said Bill do pass.

Ordered, that Mr Chambers do carry the said Bill to the General Assembly and acquaint that House, that the Council have passed the said Bill and desire their concurrence thereto.

Mr Smith dissented to the said Bill which is entered, with leave to enter his Reasons which are as follow

First For this General Reason that the *Legislature here* by his Majesty's Commission and Instructions, is restrained from passing any Law repugnant to the Law of that part of Great Britain called England, and the present Bill appears to him (waving all exceptions to particular clauses) to be Repugnant to Law in these Instances following —

1st In that by the Great Charter Ch 29th no man shall be Disseized or dispossessed of his Freehold, unless it be by verdict of his equals or by due course and process of Law. But by the present Bill, passed into An Act, the Subject may Disseized of his Freehold in consequence of a bare Certificate of the Officer that a debt is due for Quit Rent, without Verdict of a Jury or legal process, and Judgment according to the Course of the Law.

2^{dly} In that by the Bill in its present form, if passed into An Act, it would deprive the Subject of all Pleas and Defences secured by other Statutes, particularly made with relation to the debts of the Crown, as 5 Rich^d 2^d Ch 9 33 11 8th Ch 39 &c^a.

3^{dly} In that it deprives the Subject of all his Defences at Common Law, such as are allowed in any action or on Distress for Kings Rent.

2^{dly} Because it seems contrary to Natural Justice and Equity, in that it will subject the Lands of a Freeholder to sale, tho' the King be indebted to him in a greater sum than is due for Quit Rent, and leaves him no remedy either in Law or equity in such a Case.

A Message from his Honour the Lieutenant Governor by M^r Banyar Deputy Secretary in the words following viz^t

Gentlemen,

I Have ordered to be laid before you an Extract from Governor Shirley's Letter of the ninth Instant, with a Copy of the List of Articles provided and providing by the Committee of War of the Massachusetts-Bay for the Expedition, and a Copy of the Resolutions of the General Court. In these you have all the Light I can at present give you. My opinion is, that you should provide the Sum of Two Thousand Pounds, being one fifth Part of the computed Expence of the Train, as the Quota of this Province, to be laid out in such Articles as the Governments do not furnish, and that this Province do take the like Proportion out of the

Provisions sent by Pennsylvania. I have ordered proper Carriages to be made for the Cannon, and shall give Directions for a quantity of Shot suitable to them, and for such other Particulars as shall be thought necessary, which the other Governments may have omitted.

I think it requisite a Sum should be allowed and advanced by each Province concerned in this Expedition to defray the Expence Major General Johnson must unavoidably be put to on this Occasion.

It seems very expedient that a Sum of Money, as the Quota of this Colony, for engaging the Indians in the intended Expedition, should be lodged in the Hands of a proper Agent, at Albany, ready to be paid on Major General Johnson's Draughts, that the Service may be carried on with Vigour; and it is highly reasonable the other Colonies should have an Agent at the same Place for the like Purpose, and for receiving and forwarding Intelligence to their respective Governments.

A Quarter Master is wanting for the Provincial Regiment: As he is a necessary Officer you will provide for his Pay, and I will commissonate a proper Person.

I have had such Experience of your Zeal for his Majesty's Service, and of your Readiness to come into all Measures calculated for the Welfare and Security of the Province, and for carrying on the general Plan of Operations for the Safety of all his Majesty's Dominions in America, as leaves me no Room to doubt of your cheerfully complying with what I have now recommended to you.

PRESENT — *The Hon^{ble}* JAMES ALEXANDER, Esq^r, Speaker,

ARCHIBALD KENNEDY,
JOSEPH MURRAY,
EDWARD HOLLAND,
JOHN CHAMBERS,
WILLIAM SMITH, Esq^r.

The Speaker assumed the Chair.

Mr Alexander having had a copy of the Bill Entitled, "An Act to impower Trustees to dispose of some undivided Lands within the Patents of Minisink and Wawayanda, for raising a sum not exceeding one thousand pounds from each of the said Patents to defend the title and possessions of the proprietors of the said Patents against the encroachments of the people of East New Jersey, and for defraying the expences already occasioned thereby" presented his reasons against the second reading of the Bill, which being read, were

Ordered to be entered and are as follow viz^t

That there are many facts set forth in the Bill, which he has reason to believe are not true, and humbly conceives that those who solicited the passing the said Bill, ought to lay before this House the proofs of these facts, to be considered of before any order for a second reading; and unless they do so, by a time to be set for that purpose by this House, that then the Bill be rejected — and particularly the facts following viz^t

1st It is alledged by the Bill that many of his Majesty's Subjects within this Colony, have from time to time been compelled to pay taxes and perform other publick duties in and to the province of New Jersey,

Which fact he believes not true and that no good proof can be shewn of it.

2^d The Bill alledges that the Inhabitants of New Jersey, have forcibly ousted divers other of his Majesty's Subjects holding Lands under this Colony.

This fact he also believes not true, and that no good proof can be shewn of it.

3^d Its said by the Bill that the owners and proprietors of the patents of Minisink and Wawayanda, are willing each and every of them to bear their equal proportions of the expences, charges, Disbursements and damages therein mentioned.

This is a fact of great Moment, which he is sure is false, for that he is owner of $\frac{3}{16}$ of the Minisinks Patent by good conveyances in the Law, which he is ready to produce, and is not willing to bear any proportion of those charges &c because he believes they are for unlawfull and unreasonable Acts, done and to be done, and particularly for defraying the charges accrued by four forcible Invasions by multitudes of people on the province of New Jersey, set forth in the papers annexed to the printed Memorial of the proprietors of East Jersey (whereof Copies have been given to every member of this House) for which great Numbers of them stand there indicted, and to enable the committing more like Invasions and oppressing the people of New Jersey in such manner as some of the people of Minisink and Wawayanda have often heretofore done, as appears by the said Memorial and papers annexed and for making encroachments on New Jersey without any Colour of reason.

That his share of this £1000 proposed to be raised on Minisinks for his $\frac{3}{16}$, is above £65, and as it is to be raised by sale at Vendue or otherwise out of the Lands he holds in common there, at the discretion of the Trustees, he does not believe that Lands there so sold, will yield one third of their real value, and consequently by this Bill above £195 value of his Estate, is to be taken from him against his consent as an owner of Minisink Patent—and another considerable part of his Estate is to be taken from him as owner of Augustus Oldfields share in Wawayanda patent, towards raising the sum of One thousand pounds also out of that patent.

4th Its alledged by the Bill that the Majority of the owners of those said Patents, did chuse the Trustees named in the Bill for making those sales &c.

This fact he neither knows nor believes to be true, and conceives that clear proof of it ought to appear to this House—and if it did appear, he humbly conceives that the estates of that Majority so appearing to have chosen, ought only to be affected by their Acts, and not the estates of those who have not chosen them, and who entirely oppose the purpose of chusing them. And if any Act to this purpose do pass, it ought to appear expressly in the body of it, whose Estate is to be affected, and that his consent for affecting it is sufficient.

These proofs he humbly conceives ought to appear to this House, before the second reading of the Bill, that if the proofs be insufficient, the defects may be pointed out and entered on the Minutes, in order that if this House should think them sufficient, those who think themselves injured by that opinion, may have redress by application to his Majesty, for preventing his Royal assent to An Act in their opinion unjust and unreasonable.

5th For that by the Memorial and papers annexed he conceives it Evident, that New Jersey had right to do what they have done, but whether they had or not he conceives is not the Question here; he thinks it enough that Minisink and Wawayanda by this Bill, do own those things that are therein pretended to have been done by New Jersey, were done claiming right to do it—And that New Jersey had not right to do these things, is impossible to appear till the controversie concerning the line is settled—By the Memorial and papers annexed it appears that for fourteen years past the New Jersey people have been using their utmost endeavours for having the line settled, and that those endeavours have been continually opposed on the part of New York, at the mutual expence of many thousands of pounds—if *the places where those things pretended to have been done by New Jersey people be found in New Jersey upon the final settlement of the Line, then all that pretended to have been done by New Jersey was just and legal* and the several late Invasions of New Jersey by the people of Minisink and Wawayanda, appearing by the said Memorial and papers annexed *were unjust and illegal*, and the invaders have been and ought to be justly punished for those invasions, and they and the advisers of those Invasions, ought to bear the Charge of them, and not those who thought, and think them, illegal and unjustifiable. If upon the final settlement of the Line *the places where appear to be in Minisinks and Wawayanda and consequently what they did just and lawfull* then it may be a proper time for applying for relief for those who in that case would have been *unjustly punished* by New Jersey, but til then it cannot be known but that *past crimes are to be rewarded* by this Bill and *the committing new crimes encouraged*. Were a reasonable sum to have been raised, for the settlement of the Line and determining the controversie by his Majesty's Commission, he should be far from opposing it, provided all the money raised were applied for that purpose, and the superplus returned, but no part of this £2000 appears to be applied for that purpose, but rather to delay the settlement of the Controversie, and to enable them to execute the scheme pointed out by page 50 of the papers annexed to the said Memorial; how just it would be in a Legislative Body to countenance such a Scheme needs no remarks.

As this House knows, that ever since he had the Copy of the Bill, he has been engaged, so that he could spare but few minutes, for forming the preceeding objections, which he hopes, may excuse any impropriety therein, or what upon mature deliberation, (had he had time, he would have corrected, and particularly he would (if time had permitted) have placed the fifth and last objection in the first place, because if all the four other matters were proved (which he believes no one of them can, and is sure, for the reasons before, that the third cant) yet this 5th reason he thinks is sufficient against passing this or any such other Bill, until the bounds be settled and the controversie ended, in a legal way by his Majesty's Commission, which (the Lords of Trade have above twenty three months ago given it as their opinion) *i. the only way as agreement of all parties* there is not the least room to expect—And East Jersey by N^o 15 annexed to the Memorial page 45, has offered above fifteen Months ago, in the most publick manner, to give unquestionable security, to pay their half of the Charge of obtaining and executing his Majesty's Commission for settling the bounds pursuant to the opinion of the Lords of Trade, if the like were given on the part of New York, which to this day they have never offered to give.

JA ALEXANDER.

July 5th 1755.

Ordered, that all persons concerned in the passing the said Bill, be at liberty to take copies of the said Reasons and of the Bill.

M^r Banyar Deputy Secretary brought to the Council a Message from his Honour the Lieutenant Governor in the words following

Gentlemen,

I have again called you together sooner than I expected. The defeat of the Troops under General Braddock, and the Retreat of the whole under Col. Dunbar, make it necessary for all the Colonies to take vigorous Measure upon this Incident. The French will exult on their Victory, their Indians will be more insolent than ever, and ours will be more disheart'ned. The French will endeavour on this Occasion to improve their Interest, and to make deep Impressions on the Minds of our Indians to our Disadvantage, who from this Instance may be persuaded to think them so far superior to us, as, out of Fear, either not to assist, or perhaps abandon us. This View of our Affairs, calls for all our Attention to remove the Impression the Disaster may cause, and to prevent the bad Consequences that may flow from [it.] And I am of Opinion, the only effectual Method to abate the Pride of the French, curb the Insolence of their Indians, and confirm and animate ours, is immediately to raise more Troops, to support and reinforce those already on Foot. We have the Means, under God, in our Power, let us then with Unanimity, Spirit and Resolution, exert those Means he has put into our Hands, in the Defence of our Religion from Popery, our Persons from Slavery, and our Property from arbitrary Power. The Safety and Being of the British Colonies are near a Crisis. It behoves us, therefore to take right Measures, and to pursue them with Steadiness and Fortitude, to avert the Evils, the detestable Evils; which Bondage on our Minds, Persons

and Estates, carry with it. The Spirits of our Troops may be somewhat damped, by the Accounts of the unexpected Defeat near the Monongahela, and nothing will probably tend more to re-animate them, than our proceeding immediately to raise an additional Number of Men to join them; nor can any Thing be more effectual to confirm our Indians, in their Dependence on us, than to shew them we have Strength sufficient to protect them, to defend ourselves, and to chastise our Enemies. Let it be exerted with the utmost Vigour. As the Provincial Troops are already on their March, any Assistance we give them must be sent without the least Delay; and therefore, if a sufficient Number of Volunteers do not offer, it is necessary Draughts should be made, that the Succours be dispatched with all Speed.

Gentlemen,

We are now in such a Conjunction as makes it necessary to have the Treasury well supplied, to answer any Emergency and sudden Call. I must therefore recommend to you to provide Funds for that Purpose. I have thought of the three following. A Poll Tax of Ten Shillings or more, on every Slave from fifteen to fifty Years of Age; an Excise upon Tea; and a Stamp Duty. The first cannot be thought heavy, as none but Persons of some Substance possess Slaves, and the Tax will fall equally according to Mens Abilities; the second is a Tax upon a Superfluity of pernicious Consequence to the Healths and Purses of the People, and therefore a proper Object of a Tax; and the third will be so diffused as to be in a Manner insensible. I would have you take these Things under your Consideration, and if they appear insufficient for the Services we are engaged in, I must earnestly recommend it to you, to make an Addition to the Tax on Estates real and personal. We are all so deeply concerned in the Operations of this Year, that I persuade myself you will do all that is in your Power to give a happy issue to them.

Of which all his Majesty's subjects concerned therein are required to take Notice and govern themselves accordingly.

Given under my Hand and Seal at Arms at *Fort George* in the City of *New York* the *twenty eighth* day of *August* 1755 in the twenty ninth year of his Majesty's Reign.

JAMES DE LANCEY.

By his Honour's Command,

GW BANYAR, *D Sécry*.

God save the KING.

Monday, the first day of September, 1755.

His Honour the Lieutenant Governor having been pleased by Proclamation, on the 28th day of August last to adjourn the General Assembly to this day
The Council met accordingly.

PRESENT — *The Hon^{ble}* JAMES ALEXANDER, Esq^r, Speaker,

ARCHIBALD KENNEDY,
JOSEPH MURRAY,
EDWARD HOLLAND,
JOHN CHAMBERS,
WILLIAM SMITH, Esq^{rs}.

The Speaker assumed the Chair.

Mr Banyar Deputy Secretary brought to the Council a Message from his Honour the Lieutenant Governor which being read is in the words following viz^t

Gentlemen,

I have thought it necessary again to call you together, that you might be apprized of the Steps taking by some of the Governments engaged in the Expedition set on Foot to remove the French from their Encroachments on his Majesty's Territories to the Northward of Albany. I send you Copies of Letters I received from General Johnson, with Minutes of the Councils of War, held at the Great Carrying Place, and also the Intelligence I have had from the Governments of the Massachusetts Bay and Connecticut, by which you will perceive, that the Government of the Massachusetts Bay, are raising Eight Hundred Men to re-inforce the Provincial Troops under Major General Johnson, and that the Colony of Connecticut, are raising Fifteen Hundred Men, over and above the Five Hundred Governor Fitch was before impowered to raise by a Vote of that Government. The Zeal of the Colony of Connecticut on this Occasion, cannot be sufficiently applauded; they are exerting themselves in a most laudable Manner, for the general Benefit of all the British Colonies, even to the utmost of their Abilities, as to the Expence which must necessarily grow from raising and supporting the Thousand Men, they now have with Major General Lyman, and those Two Thousand additional Men for a Reinforcement to the Provincials. Upon these Considerations, I do most earnestly recommend it to you, to take Measures suitable to this Occasion. It would be a most sensible Mortification to me, to find this Province backward in bearing their Share in a Matter so nearly touching their Honour, their Interest, and Perhaps their Being. This Province has already done much for their Security, and contributed their full Quota to the first Plan of the Expedition. Go on then to accomplish a Work already begun; exert yourselves so, as that we may appear with Credit, and that we may by the Blessing of God, have reason to expect a happy Issue to our Undertakings, in so just and righteous a Cause.

JAMES DE LANCEY.

City of New York
1st September 1755.

The Council Adjourned till Wednesday Morning 11 o'clock.

Wednesday, the 4th day of September, 1755.

PRESENT — *The Hon^{ble}* JAMES ALEXANDER, Esq^r, Speaker,

ARCHIBALD KENNEDY,
JOSEPH MURRAY,
JOHN RUTHERFURD,
EDWARD HOLLAND,
JOHN CHAMBERS, Esq^{rs}.

The Speaker assumed the Chair.

His Excellency Sir Charles Hardy Knight, Captain General and Governor in Chief of this Province who arrived on the second instant, having published his Majesty's Commission or Letters Patent to him yesterday, sent a Message this day by the Deputy Secretary to the Council which being read is in the words following:

Gentlemen,

Mr De Lancey, the late Commander in Chief, hath communicated to me the Message and Intelligence, he lately sent you: and it gives me the greatest Satisfaction to find you already so

far engaged in a Matter in which his Majesty's Service, and the Welfare of these Colonies is so much interested. The Cheerfulness and Alacrity with which you have granted the necessary Supplies, for this important Service, are the most convincing Proofs of the good dispositions of the People of this Province, and give me the greatest Hopes that you will upon the present Occasion, (in Concurrence with the neighbouring Colonies engaged with you) add that further Aid and Assistance which appears so necessary: As to the Manner of doing it, you will consider in what Way the State and Circumstances of this Province are best able to effect it.

The Lieutenant Governor from his Attachment to his Majesty's Service, and the great Knowledge of the Country, has laid this Matter before you in a Way, that leaves me nothing to require, but that you would proceed with the utmost Dispatch on the Matters recommended in his Message.

The Council adjourned till to morrow morning 11 o'clock.

Wednesday, the third day of December, 1755.

The Council met according to adjournment.

PRESENT — *The Hon^{ble}* ARCHIBALD KENNEDY, Speaker, Esq^r,

JAMES DE LANCEY,
DANIEL HORSMANDEN,
JOSEPH MURRAY,
JOHN RUTHERFURD,
EDWARD HOLLAND,
JOHN CHAMBERS,
WILLIAM SMITH, Esq^{rs}.

The Speaker assumed the Chair.

His Excellency the Governor being come to the Council Chamber sent a Message to the General Assembly requiring the immediate attendance of that House.

And the General Assembly attending accordingly with their Speaker

His Excellency made a Speech to the Council and General Assembly, and delivered one copy thereof to the Speaker of the Council, and another copy thereof to the Speaker of the General Assembly, and then returned to the Fort attended as usual.

The Speaker resumed the Chair

Ordered, that his Excellencys Speech be read.

Then the same was read and

Ordered to be entered and is as follows

Gentlemen of the Council, and General Assembly,

His Majesty having been pleased by his royal Commission, to constitute me his Captain General and Governor in Chief of this Province, my departure from England was no longer delayed than in making the necessary Preparations for it. Upon my Arrival I found this and several other of his Majesty's Colonies cheerfully engaged in an Expedition for removing the French Encroachments at Crown-Point, and soon after received an Account of the Action, on the 8th of September last, between the Provincial Forces under the Command of Major General Johnson, and the Forces under the French General the Baron de Dieskau, in which the latter were repulsed, and himself taken.

On the fourteenth I embarked for Albany, to reside there during the further Prosecution of this Design, that I might be nearer at Hand to render every Assistance in my Power to promote the Success of it, which I am sorry is not equal to the Expectations we flattered our selves with.

Two Forts have been erected by the Army, one at the Great-Carrying-Place on Hudson's River, and the other at the South End of Lake George. These Forts will not only facilitate any further Attempt against the Enemy on that Quarter, but if properly maintained and garrisoned, tend greatly to the Security of the Country. Before I left Albany Measures were concerted, for placing Garisons in them, and Commissioners in the Behalf of this Province, the Province of Massachusetts-Bay, and the Colony of Connecticut, are gone to the Camp to settle every Thing relative to the Garisons, and when fixed, to discharge the Rest of the Forces, conformable to an Agreement which with other Papers necessary for your Information, I shall order to be laid before you.

Gentlemen,

I am commanded by his Majesty to recommend to you, in his Name, without Delay to consider of a proper Law to be passed for settling a permanent Revenue upon a solid Foundation, for defraying the necessary and established Charges of Government; taking Care that such Law be indefinite without Limitation of Time, and that Provision be made therein for a competent Salary to the Captains General and Governors in Chief, of this his Majesty's Province, and likewise for competent Salaries to all Judges, Justices, and other necessary and usual Officers and Ministers of Government, and also for a certain permanent Fund for repairing and maintaining the Fortifications, for making annual Presents to the Indians, and for the other contingent Expences attending that Service; and in general for all such other Charges of Government as may be fixed or ascertained.

As the Act to regulate the Militia of this Colony will expire by its own Limitation on the 19th Day of Feb. next, I must recommend to you, the continuing of that useful Law, with such Alterations or Amendments as may appear to you to be necessary.

Gentlemen of the General Assembly,

From my short Residence in this Province, it cannot be expected I should point out to you any new Funds for raising the necessary Supplies. You will consider of the Revenue his Majesty demands of you for the Support of his Government, and if the Funds heretofore established for this Service appear insufficient, you will fall upon such others, as will effectually answer his Majesty's just Expectations. I shall only recommend to you to avoid as much as possible the laying any further Impositions on Trade, upon the Encouragement of which the Prosperity of every trading Country principally depends.

As the two Forts built by the Provincial Forces are to be garrisoned by a Proportion of the Troops raised by each Government, I must recommend it to you to provide your Quota of that Expence, and also for the Payment of what is still due to the Troops, and such contingent Charges as have arisen in the Course of this Service.

Gentlemen of the Council, and General Assembly,

His Majesty ever zealous in promoting the Happiness of his People, is taking such Measures to vindicate the Honour of his Crown, and for the Defence of his undoubted Right and Dominion, as must excite in all his Subjects the highest Sentiments of Duty and Gratitude; and as from the present critical Conjunction of Affairs, a Rupture with France may be soon expected, and the French, even at this Time, are using strong Efforts to distress these Colonies, it behoves every one to exert himself to the utmost of his Ability. I shall not therefore doubt of your enabling me to enter into, and pursue such Measures, as shall appear necessary for our own, and the Defence of all his Majesty's Colonies, the Prosperity of which I hope in the Course of my Administration to convince you, I have most warmly at Heart.

CHAS^S HARDY.

Fort George New York

3^d December 1755.

Ordered, that his Excellency's Speech be forthwith printed.

Mr Horsmanden moved that an humble Address be presented to his Excellency by this House, returning him thanks for his Speech; To express their just sense of his Majesty's attention to the happiness of all his Subjects, and his particular care of his Subjects in America, from whence they have reason to hope for such further assistance as may disappoint all the efforts of the French and remove them from their Encroachments.

That they are sensible the Forts erected towards Crown point will be of great utility.

To express their warmest sentiments of Gratitude for his early Resolution of embarking for Albany upon Intelligence of an Action at Lake George, before Information of the event, and his determination of residing there to be near at hand to render every service in his power to promote the expedition, and protect the Frontiers, and for his services done there. And to

assure his Excellency that this House will exert themselves in the service of their King and Country and endeavour to their utmost to render his Administration easy to himself and happy to the people.

Resolved, that an humble Address be presented accordingly.

Ordered, that Mr Horsmanden Mr Murray and Mr Chambers be a Committee to prepare the Draft of the said Address.

The Council adjourned till to Morrow Morning 11 o'clock.

Thursday, the 4th day of December, 1755.

The Council met according to adjournment.

To his Excellency Sir CHARLES HARDY Knight, Captain General and Governor in Chief in and over the province of New York and the Territories depending thereon in America and Vice Admiral of the same.

The humble ADDRESS of the Council of the province of New York.

May it please your Excellency,

We his Majesty's most dutifull and loyal subjects the Council for the Province of New York, return your Excellency our hearty thanks for your Speech.

We have a just sense of his Majesty's attention to the happiness of all his Subjects, and with hearts full of Gratitude acknowledge his particular care of us his remote Subjects in America: And have reason to hope his Majesty, who has already shewn his concern for the defence of his own undoubted Rights, and his tender regard for the protection of his People in these parts, will be pleased to send us such further assistance as may disappoint all the Efforts of the French, and remove them from the Encroachments they have made upon his Territories.

The Forts that have been erected at the Carrying place on Hudson's River, and at the South end of Lake George, We are fully convinced will not only facilitate any future attempt against the common Enemy in that Quarter, and tend to the security of these Northern Counties, but may also serve as places of Retreat and Shelter to such parties as may be sent out to annoy the French, and return on them that kind of War, which they have barbarously carried on against the people of these Colonies.

Your Excellency's early determination of embarking for Albany upon Intelligence of some Action that had happened at Lake George, before you were informed of the Event: Your Resolution of residing there to be near at Hand to render every assistance in your power to promote the Expedition and protect the Frontiers; fill our Hearts with the warmest sentiments of Gratitude. And your Excellency's Vigilance and Services done there by your personal presence, demand our most sincere acknowledgments, and give us the fullest assurance, that your Excellency's administration will continue to demonstrate you have the Prosperity of this Country warmly at Heart.

We assure your Excellency we will on all occasions exert our utmost Abilities for the service of our King and Country, and to render your administration easy to your self, and happy to the people committed to your charge.

By order of the Council
JAMES ALEXANDER, Speaker.

City Hall New York
4th December 1755.

To which his Excellency was pleased to return the following Answer

Gentlemen,

I return you thanks for your kind Address. The just sense you express of his Majesty's Attention to the happiness of all his Subjects cannot but be acceptable to him.

His Majesty's early care of his subjects in America leaves no room to doubt of such further Assistance as may be necessary to remove the French from their Encroachments and secure the future Tranquility of these Colonies.

I am obliged to you for the favourable sentiments you entertain of me from my endeavours for the publick service, and you may be assured the true Interest and prosperity of this Province shall be my constant care and attention.

CHARLES HARDY.

WILLIAM SMITH, Esq^{rs}.

The Speaker assumed the Chair.

A Message from his Excellency the Governor by M^r Banyar Deputy Secretary in the words following :

Gentlemen,

I send you a Letter with several Affidavits and other Papers, which I received Yesterday from Coll^o Dekey by Express, from whence it appears, that the Indians infesting the Northern Parts of Pennsylvania, near the River Delaware, have lately murdered several Persons, and Burnt the Houses within a few Miles of the Settlements in this Province, and New-Jersey. Upon Advice some Days since, that they had appeared in Minisink, I ordered a Detachment of Thirty Men, from each of the Regiments in Orange County, and Sixty from Ulster, to march to the Frontier in order to protect the Settlers, and prevent them from deserting their Habitations. The Detachment of Col. Dekey's Regiment is already marched, and I expect the others will soon follow, which I hope (in Conjunction with those of New Jersey) will prove a sufficient Force to repel the Enemy; if not, the Detachments are to be augmented as shall be found necessary. This Duty will fall very unequally on the People by being confined to the Militia of those two Counties, who besides their own personal Service, must furnish themselves with Provisions and Ammunition; an Expence which some of them are unable to bear. I therefore recommend it to you, to make a suitable Allowance to all such as shall be ordered upon this Service, that the Militia may not be backward for Want of proper Encouragement; and also to enable me, to take the necessary Measures for the Defence of the Frontiers, according to the Intelligence I may receive from Time to Time.

You will perceive by several other Papers I now send you relative to the garisoning Fort-Edward and Fort-William-Henry, that the Quota of Men to be furnished by this Province is not yet complete. These Forts are of such Importance, that I must recommend the preparing a Bill for draughting Men out of the Militia of the neighbouring Counties, if a sufficient Number of Volunteers do not offer for this Service.

Mr Banyar Deputy Secretary brought to the Council a Message from his Excellency in the words following

Gentlemen,

I Send you a Copy of an additional Instruction from their Excellencies the Lords Justices, given at White Hall, the twelfth Day of August last, directing me to recommend to you, in his Majesty's Name, to make speedy and effectual Provision, for defraying one Moiety of the Expence of obtaining and executing his Majesty's Commission for settling the true Line of Partition between this Province, and the Province of New-Jersey. You must be sensible, it is of the greatest Importance to the Tranquility and Welfare of both Provinces, that a Line of Property and Jurisdiction should be settled between them: And as their Lordships are of Opinion this can only be done by a Commission to be issued by his Majesty for that Purpose, with Liberty to all Parties who shall think themselves aggrieved by the Judgment of the Commissioners thereby to be appointed, to appeal from such Judgment to his Majesty in his Privy Council. And it appears that the Agent for the Proprietors of New-Jersey hath offered to give ample Security for defraying a Moiety of such Expence. I earnestly recommend it to you in his Majesty's Name to make immediate Provision for defraying the other Moiety thereof, that an End may be put to those Outrages, which, for Want of such Settlement, have from Time to Time been committed on the Frontiers of the two Provinces, to the Prejudice of his Majesty's Service, and the Disturbance of the publick Peace.

This is also a favourable Conjunction for putting into the like State of Determination, the Controversy subsisting between this Province, and the Province of Massachusetts-Bay, touching their respective Limits, where the Provinces border on each other. I have already conferred thereupon with his Excellency General Shirley, Governor in Chief of that Province, who has assured me of his Readiness to join in an Application for his Majesty's Commission for this Purpose, and I make no doubt, will recommend to the Assembly of his Government, to defray one half of the Expence which shall attend the same. I therefore recommend this Matter to your Consideration, and that you will provide for defraying the other Moiety of the like Expence.

General Shirley having represented to me, that the Prices which are exacted at present for the Quartering his Majesty's Troops here, greatly exceed the King's Allowance to them, and which the Regiments are not able to Support, having no Fund for it. I do most earnestly recommend to you, to pass a Law for billeting Soldiers, and to make such Addition to the

King's Allowance, as may enable Persons to receive and quarter them without Loss to themselves. The Want of such a Provision must be very prejudicial to his Majesty's Service, and the Interest of the Colonies, and will discourage the Completion of those Regiments, which his Majesty has thought fit to employ in their own immediate Defence.

Mr Banyar Deputy Secretary brought to the Council a Message from his Excellency in the words following

Gentlemen,

I Have ordered to be laid before you, a Letter and some Papers, which I lately received from his Excellency General Shirley. The proposed Attempt, if successfull, will be greatly for the Advantage for the common Cause, and not only facilitate but lessen the Expence of the other Operations necessary to remove the French from their unjust Encroachments. The Intelligence encourages our Hopes of Success, and the good Consequences that must result from it, will I hope engage you chearfully to make Provision for the Expence to be borne by this Province. Your Resolutions should be as speedy as possible, as the Service can admit of no Delay.

An Express which arrived here at Noon this Day, brought me a Letter from Col^o Dekey, with several Affidavits which I now send you, as also some other Papers, by which you will find that the Enemy Indians have lately murdered several Persons of this Province, and that a Number of the Settlement Indians are come in with their Families, to reside among the Inhabitants, according to the Invitation I sent them lately. Altho' the Accounts of the Enemy are very uncertain, 'tis most probable they are numerous, by their continuing so long on the Frontiers.

The Number of Rangers in the Pay of this Province, appears to me insufficient for the Protection of the People. I have ordered the Rangers to be supported by Detachments of the Militia, but as neither Pay or Provisions is allowed them, they will be backward in going upon this Service. You will therefore take this Matter into Consideration, and by a timely and more ample Provision, avert those Evils from the People of this Province, which some of our

Neighbours have already felt the severe Effects of. At the same Time, I doubt not, you will provide for the Maintenance of those Indians, who by coming into the Towns, may be rendered unable to subsist themselves and their Families.

Mr Banyar Deputy Secretary brought to the Council a Message from his Excellency in the words following viz^t

Gentlemen,

Since my Message to you on Saturday last, I have received a Petition from the Inhabitants of Goshen in Orange County, setting forth the open and defenceless Condition of that Part of the Province, and the Necessity of a greater Force to protect them from the Ravages of the Enemy, now very near them, for want of which, Numbers are daily moving off, and the rest, is to be feared, may soon follow.

From the Situation of the Country and the Form of the Settlements, I think the best, if not the only practicable Method to secure the People from these Incursions, and prevent them from deserting their Habitations, is to build a Line of Block Houses at some Distance from the Settlements, from a Place called Machackamak to the Town of Rochester, in Ulster County. The Length of this Line is between thirty and forty Miles, and five or six Block Houses will answer the Purpose. to be defended by a Garrison in each of twenty Men, besides the sixty Rangers already in the Pay of this Province. The neighbouring Province of New-Jersey have fallen upon the like Method for their Defence, and as it appears to me the most eligible of any other, I earnestly recommend to you, to make immediate Provision for the Expence of carrying the same into Execution, that I may issue the proper Orders for doing it without Delay. I send you the Petition, with a Sketch of the Country and Settlements in Orange and Ulster.

Mr Banyar Deputy Secretary brought to the Council a Message from his Excellency the Governor which was read and is in the words following :

Gentlemen,

At a Council of War held by his Excellency General Shirley with the Governors, and Field Officers then in this City, to concert the necessary Operations for this Year to remove the French from their Incroachments, it was judged necessary that a Body of Forces should be raised by these Colonies, by Quotas from the several Governments, agreeable to the Plan settled by the Commissioners at Albany, in 1754. The Proportions of Men to be raised in each Colony, I send you herewith.

The Succors arrived in Canada from France last Year, and the Probability of their being augmented, not only to secure their present Incroachments, but to effect their further Designs on these Provinces, are Considerations highly deserving our serious Attention, and ought to excite the Colonies to exert themselves in a vigorous Prosecution of the Measures agreed upon, which if carried into Execution in due Season, may, by the divine Blessing on his Majesty's Arms, lay a solid Foundation for the Security of his Majesty's Colonies on this Continent against any future Attempts from the French, and be the most effectual Means to gain the Interest of the far Nations of Indians, reclaim such as are gone over to the French, and fix the six Nations more firmly in the British Interest.

This Province from its Situation with Respect to Canada, is more immediately interested in the Success of this Undertaking against the common Enemy. It behoves us then to set an Example worthy of the other Governments, whose Eyes will be turned on our Conduct upon this important Occasion.

I do therefore most earnestly recommend, that you will without Delay grant the necessary Supplies for raising and subsisting One Thousand Men, the Quota to be furnished by this Province, that I may without Loss of Time, take the proper Measures for this Service, and acquaint the other Governments with your Resolutions, as soon as possible.

CHA^s HARDY.

Then the said Bill was amended by adding a Clause to the said Bill in the words following:

"And whereas the County of Albany is more exposed to the Attempt of an Enemy from Canada, than any other part of this Colony, and in case any Attack on that Quarter should succeed, it might occasion the defection of the Six Nations of Indians. Be it therefore enacted by the Authority aforesaid, That the Colonel or in his absence the next Commanding Officer of the Militia of the County of Albany, shall be and he is hereby impowered and required from time to time to send out such detachments of Men in their Turn as he shall conceive necessary to be employed as Out Scouts or Rangers, the better to guard against being surprized by an Enemy, and to enable him to defeat their Designs. And the person neglecting or refusing to perform such duty shall forfeit the sum of five pounds, to be levied by Warrant from the said Colonel or next commanding Officer, and applied towards purchasing of Arms for the use of the Regiment. Provided that no such Detachments shall be employed at any one time longer than six days."

The Speaker assumed the Chair.

Mr Colden, Mr Alexander and Mr Smith delivered in their Reasons for their dissent to the Bill passed by the Council entitled [An Act for the payment of the Debts due from this Colony and other the purposes therein mentioned] which are as follow :

It is with concern that we think our selves in Duty bound to dissent to the passing of this Bill, by reason that we apprehend That it is in its consequences destructive of his Majesty's Rights of Judging of the rewards due to his servants in this Government, and likewise on account of the popular prejudices which may be entertained of our opposing the payment of Just Debts which are provided for in this Bill. But we hope that with disinterested and unprejudiced persons, the following reasons will fully Justify us.

1. Large sums are by this Bill to be paid to particular persons by name for services in general done, without specifying what these services are, whereby the Council are disabled to Judge whether the sums allowed for these services are adequate to them. And while these services are not particularly specified, they may again and again be charged, and it cannot appear that any Money for any particular service has been paid and a proper discharge of the same obtained.

2^d A Motion having been made in the Committee to which this Bill was referred to know the services for which these sums were to be paid, it was carried by majority of votes, that no such Enquiry should be made whereby the Council is intirely deprived of any means of Judging of the reasonableness or Justice in paying of large sums.

3^d That large sums are directed to be paid as Ballances of Accounts to Persons who had large sums of the publick money put into their hands, and as we think it not probable that some of the Persons who had those sums of money put into their hands were capable of advancing such large sums, We think it the more requisite to examine by what means such large sums became due to them.

4. That as an opinion seemed to prevail in the Committee, that the Assembly would not allow any amendment, or any conference on this Bill, and for that reason the Majority of the Committee inclined to Report the Bill without amendment, or further enquiry into the reasons for allowing such sums to particular Persons We are of opinion that this deprives the Council

of all means of Judging of the reasonableness of Issuing the Publick Money by this Bill, Whereby the Council are put under the dishonourable necessity of either blindly assenting to Bills sent to them by the Assembly for the payment of Publick Services and debts, or of refusing the same however just and reasonable they may be.

5. The method which we suppose is taken in this Bill of paying the salaries of the Officers of the Government by way of debt due to them, by name, and for Services in general done, without specifying that it is for the salaries due to them, is an effectual way to defeat the intention of his Majesty's Instructions to his Governor of this Province concerning the payment of the reasonable salaries of the Officers and contingent services of Government, and deprive his Majesty of Judging of what rewards may be due or allowed to his servants, or for any publick service done, and likewise deprives his Majesty's Council of this Province of all means of reasonably advising of what rewards may be justly due for such services.

6. It has been thought reasonable to have the Judges as much as possible free from all undue influence in giving their Judgments. We apprehend that while they depend on the arbitrary pleasure of an Assembly from year to year for their Salaries, they are thereby lyable to undue Influence. And if it be supposed that they can be influenced, such Influence will be of much greater extent, while they are thus subjected to the Arbitrary pleasure of An Assembly, than they can be by any Influence from a Governor of this Province, while they continue to have their Commissions during good behaviour as they now have. And such Influence must still be greater when they are not certain of their salaries till after the services are done, and if this method of paying all officers of the Government for services done be continued, those officers must for ever remain subject to an undue Influence.

7. By this Bill we find large sums allowed for debts contracted and services done, many of them we believe without the knowledge or order of the Commander in Chief of this province. Whereas other debts due and necessary services done by order of the Commander in Chief by advice of Council, remain unprovided for. For Example, The Services and Expences of the several Commissioners of this Province appointed by advice of Council to meet the Commissioners of the Massachusetts-Bay at Albany to treat concerning the Bounds of the two Provinces and to put an end to the Disturbances and Murders committed and like to be committed on the Borders tho' the accounts for those services were laid before the Assembly to be provided for. Also upwards of one thousand pounds Ballance of the account of Coll^o William Johnson now Sir William Johnson, tho' expended by order of Governor and Council for retaining of the Six Nations of Indians in their dependance on His Majesty and this Province, and the account sworn to. And when that service had been neglected to be provided for by the Assembly, and when great Danger was of not only intirely losing those six Nations but of their becoming his Majesty's Enemies and the Enemies of this Province, We could assign other examples but think those two sufficient. And if it become a Rule that debts contracted and services done without order or knowledge of the Commander in Chief are to be amply provided for, and those done by order of the Commander in Chief by advice of Council, to remain without provision for them, We think the consequence is too apparent to need pointing out.

8. The Exercise of the Legislative Authority of this Province is directed by his Majesty's Commission to the Governor of this Province, By which Commission all publick Monies are directed to be issued by warrant from the Governor of this Province by advice of Council and not otherwise. But by this Bill no regard is paid to the positive and Express directions in the said Commission.

9. We think there are many other reasons why this Bill should not pass, particularly the tacking together of many matters of different Natures. But as we conceive the preceeding are sufficient, we decline assigning any further reasons.

CADWALLADER COLDEN
JA. ALEXANDER
W^m SMITH.

Ordered, that the Bill Entituled [An Act to continue An Act Entituled An Act to prevent infectious Distempers being brought into this Colony and to hinder the spreading thereof with an addition thereto]

The Bill Entituled [An Act for the further explaining and rendring more effectual the two Acts therein mentioned so far as they relate to the City of New York] and

The Bill entituled [An Act to enable the proprietors or owners of that part of the great plains in Queens County which lies within the Townships of Hempstead and Oysterbay, and is used as a Common of Pasture to hang Swinging Gates on the Highways running thro' the said plains, and to establish prudential orders and rules with respect to the management of the said Common] be now read the second time.

Then the said Bill was read the third time and

On the Question being put

Resolved, that the said Bill do pass.

Mr Alexander dissented to the said Bill.

Mr Smith dissented to the said Bill Because by his Majesty's Commission this House is restrained to pass any Bill repugnant to the Laws of England, and the said Bill appears to him to be repugnant to the Statute de donis conditionalibus. And it doth not appear to him that the Legislature within this Province can enact any Method to dock an Entail that is not founded on the Law and usage of England.

The Speaker then left the Chair and

The Council resolved itself into a Committee of the whole House on the Bill Entituled [An Act to enable the Inhabitants of Ulster County to elect and Chuse Surveyors of the highways in the said County and to repeal a certain Section of an Act therein mentioned] and after some time spent therein

Mr Banyar Deputy Secretary brought from his Excellency a copy of a Message to the General Assembly with the two Papers therein mentioned and the Message and papers being read, The Message is as follow viz^t

Gentlemen,

Your Resolutions of the 28th ultimo, I transmitted to his Excellency Major General Shirley, and now send you an Extract of his Letter to me thereupon, with a Copy of a Letter to him from Lieu^t Colonels Burton and Bradstreet of the 23d of January. From the Intelligence in the latter, you will see how necessary it is, that the Quota of Men to be furnished by this Province, and which you have already determined to provide for, should be raised forthwith, that the Enemy by being too early in their Preparations may not disappoint the Service the Provincial Forces are to be employed in. I therefore recommend to you, to proceed in the Measures necessary to enable me to carry your Resolution into Effect, and to draft Men from the Militia, should a sufficient number of Volunteers not offer themselves for this Service.

A Message from the General Assembly by Mr Nicoll and Mr Thomas with the Bill entituled [An Act to revive the several Acts therein mentioned] desiring the concurrence of the Council thereto.

Ordered, that the said Bill be read.

Then the said Bill was read the first time and

Ordered a second reading.

His Excellency being come to the Council Chamber sent a Message to the General Assembly requiring the immediate attendance of that House, and the General Assembly attending accordingly,

His Excellency in the presence of the Council and General Assembly gave his assent to the twelve following Bills (viz^t)

An Act to continue An Act entituled, An Act for regulating the Militia of the Colony of New York with some additions thereto.

An Act for the better clearing amending and further laying out publick high-roads and others in the County of Ulster.

An Act to enable Creditors more easily to recover their debts from joint Partners.

An Act empower the Freeholders and Inhabitants of Richmond County to raise by way of Lottery a sum not exceeding the sum of one hundred and fifty pounds, to purchase Arms and

accountrements for the use of such Persons in the said County as are unable to provide themselves therewith.

An Act to establish the rates to be taken for Wharfage of Ships and other Vessels using the Wharfs therein mentioned, and the rates to be taken for Cranage within the City of New York and for repealing the Act therein mentioned.

An Act to oblige all Persons that come to inhabit or reside in the City of Albany or Township of Schenectady in the County of Albany, in order to expose any Goods, Wares or Merchandizes to sale, at any time after the annual Assessments made for the necessary and contingent Charges of the said City and Township, to pay their just proportions towards the same.

An Act to enable the Inhabitants of Ulster County to elect and chuse Surveyors of the Highways in the said County and to repeal a certain section of an Act therein mentioned.

An Act to enable the Assignees of Insolvent Debtors more effectually to dispose of the Estates of such Debtors for the benefit of their Creditors.

An Act for the further explaining and rendring more effectual the two Acts therein mentioned, so far as they relate to the City of New York.

An Act to enable the Proprietors or Owners of that part of the Great Plains in Queens County which lies within the Townships of Hempstead and Oysterbay, and is used as a common of Pasture, to hang swinging Gates on the Highways running through the said Plains, and to establish prudential orders and Rules with respect to the management of the said Common.

An Act to revive An Act entituled, An Act to prevent damages by Swine in the County of Orange and some parts of Ulster County, and for repealing all other acts relating to the same within the said County of Orange, with some addition.

An Act to encourage the taking and destroying of Wild Cats in the County of Suffolk.

After which the said twelve Acts were published in the usual manner, and then his Excellency returned to the Fort.

The Speaker resumed the Chair.

A Message from the General Assembly by Captain Walton and Coll^o Lott acquainting the Council in answer to the Message of this House desiring to know what progress the General Assembly had made in the Bill Entituled [An Act more effectually to hinder supplies of Provisions, Naval and Warlike Stores to be carried to the French] That the House of Assembly conceives the Act now in force for the like purpose is much better than the one proposed. That that House would readily join in any reasonable Measures more effectually to prevent any supplies being carried to the French, but are of opinion that the operation of the Bill sent down by the Council for that purpose depends upon such a variety of contingencies as must render its execution difficult and perplexing, if not impracticable, for which reason that House have declined any further Proceedings upon it.

Then the said Bill was read the second time, and

Ordered to be committed.

The Speaker left the Chair, and

The Council resolved itself into a Committee of the whole House on the Bill entituled [An Act to revive an Act entituled, An Act for the better clearing regulating and further laying out public High Ways in the County of Westchester with some alterations] and

The Bill entituled [An Act to revive the several Acts therein mentioned] and after some time spent therein,

The Speaker resumed the Chair, and

Mr Chambers from the Committee of the whole House in his place Reported that the Committee had gone through the said two Bills, and directed him to report the same without amendment.

Which Report on the Question being put was agreed to and approved of and the Bills Ordered a third reading.

Then the said two Bills were read the third time and

On the Question being severally put

Resolved, that the said two Bills do pass.

Ordered, that Mr Chambers do acquaint the General Assembly that the Council have passed the said two Bills without Amendment.

Mr Alexander presented his Reasons why the Bill Entituled [An Act to vest in Trustees a power of selling any Quantity of unlocated Lands within the patents of Minisink and Wawayanda, for raising a sum not exceeding one thousand pounds from each of the said Patents, to defend the Title and possessions of the proprietors of the said two patents against the pretensions of the people of East New Jersey and other purposes therein mentioned] should be rejected without a second reading.

Which Reasons being read were

Ordered to entered and are as follow

1st For that his Excellency Sir Charles Hardy our Governor did on the 20th of December last Communicate to the Members of the Council, an Instruction to him from his Majesty (when it was ordered to be entered in the minutes) in or nearly in the words following to witt

That you do not give your assent to any private Act until proof be made before you in Council and entered in the Council Books, that publication was made of the parties intention to apply for such Act in the several parish Churches where the Premises in Question lye, for three Sundays at least successively before any such Act shall be brought into the Assembly.

But no proof has been made before his Excellency in Council and entered in the Council Books of any publick Notification of an Intention to apply for this Act according to the direction of the said Instruction, and as his Excellency for want of that cannot give his Assent to this Bill, it can be of no use to this House to pass it and therefore a second reading thereof useless.

2^d For that if it should be pretended that sundry allidavits were on the thirtieth day of June last read before the Lieutenant Governor and Council tending to prove a Notification of an Intention to apply for such a Bill

I answer that pursuant to that Notification, a Bill was sent up by the Assembly to this House on the first day of July last, considerably different in its Tenor from this Bill, and upon the first reading of which, objections were offered to the second reading thereof, which were entered in the Minutes of this House on the 5th day of July last, whereon copies of the objections were ordered to be given to those who solicited that Bill, and tho' that Session lasted for sundry weeks after, yet no answers were given to the said objections in order to induce this House to give that Bill a second reading, nor had it ever a second reading, and by the first prorogation since that time, all proceedings concerning that Bill were put an end to and consequently to the said Notification thereof, whereby that former Notification of that Bill can be no Notification of this Bill so long afterwards, for if it could be a Notification of a Bill of a different Tenor, brought in many Months after, in a different Session, it might be so of a Bill brought in many years after, which would render of no effect, not only the words but the Intent and meaning of the said Instruction.

3^d For that in all the parts in this Bill which are similar to the said former Bill, those parts are lyable to the like objections as were made and entered in the Minutes on the 5th July last, to which for Brevity he refers.

4th For that by this Bill it is alledged that the Majority of the Owners of the Patents of Minisink and Wawayanda have consented to bear their equal proportions of the Moneys, and chosen the Trustees therein mentioned for raising those moneys by sale of parts of the said Patents, but he neither knows nor believes that to be true, and clear proof of that fact ought he humbly conceives to appear to this House before the second reading of this Bill, that those who think the proof insullicient, may have the opportunity of pointing out the Insulliciences, and having them entered on the Minutes of this House.

5th That were it true that a Majority of the Partners of the said Patents had consented to the sale of part of their Inheritances for raising Moneys for the purposes in the Bill, yet he humbly conceives that that is no reason for the sale of the Inheritances of the Minority who may be willing to pay in ready Money their proportions, and for his part he declares he is ready and willing to pay in ready money his proportion of the £500 therein mentioned to be paid by the partners of the Minisink and Wawayanda Patents for the Settling of the Line of Partition between New York and New Jersey, and he humbly conceives an Opportunity ought to be given to all other Partners to pay in their proportions thereof to save their Inheritances from being sold by persons whom they never Intrusted for that purpose, and as to the remaining fifteen hundred pounds to be raised by this Bill, if all the damages pretended to have been suffered were really as he believes by Crimes committed by the sufferers in carrying on the Scheme pointed out by

page 50 of the printed papers annexed to the Memorial of the Proprietors of East Jersey, he humbly conceives they are no way intitled to the aid of the Legislature to reimburse those damages, and that their Actions for which they suffered those damages, were not criminal, cannot appear till the controversy concerning the partition Line be settled.

JA^s ALEXANDER.

Mr Banyar Deputy Secretary brought to the Council a Message from his Excellency in the words following

Gentlemen,

On Tuesday last about Noon, a Party consisting of Thirty or Forty Indians, attack'd and burnt the House of Philip Swortwout in Ulster County, murdered five of the People, took a Woman Prisoner, and destroyed the Cattle. And, lately a Man was killed by the Indians near Goshen. For your further Information, I send you the Papers containing this Intelligence. No Time should be lost in pursuing proper Measures for putting a Stop to these Incursions, least they become general, and the Inhabitants, for want of a speedy and effectual Assistance, be forced to abandon their Settlements. The Hopes of Plunder may induce other Indians not yet in Hostility against us, to join the Enemy, and it would be increasing the Misfortune of the People exposed by their Situation to such Barbarities, to throw upon them the chief Burthen of an Expence which ought to be borne by the whole Province.

I therefore earnestly recommend to you to make Provision for supporting a sufficient Force to drive off the Enemy, and pursue them even to the Places of their Residence or Retreat, and thus reduce them to the Necessity of desiring Peace. In this Measure there is no Room to doubt New-Jersey will readily join us, and as soon as I know your Resolutions to subsist a Body of Men for this Service, I will transmit them to that Government.

M^r Banyar Deputy Secretary brought to the Council a Message from his Excellency in the words following

Gentlemen,

I Send you Copies of a Letter from his Excellency Major General Shirley, and the Resolutions of the Province of Massachusetts-Bay, to raise a Body of Men for an Attempt this Year upon the French Works at or near Crown-Point. Also a Letter from Governor Fitch, of the first Instant, informing me of the Number of Men the Colony of Connecticut have agreed to raise for the like Service.

Those two Governments have far exceeded the Proportions allotted them, in Expectation that the other Provinces concerned in the same Expedition last Year would again unite and raise a sufficient Force, without relying upon the southern Governments, it being altogether uncertain whether they will contribute their Proportions, and of the utmost Consequence that this Service should be effected this Year.

If we neglect improving the present Juncture to recover his Majesty's just Rights, by rendering our selves Masters of that important Post, there is little Probability that another so favourable will offer, as the French will use every Means to secure Incroachments, which they had not been tempted to make, but from the Advantages they foresaw must arise to the Possessor of them. I therefore hope you will chearfully determine to augment the Quota of Men to be raised by this Province, in Proportion to that of the Eastern Governments, least the Service may be disappointed for the Want of it.

On the Question being put

Resolved, that the said Bill do pass.

Ordered, that Mr Chambers do acquaint the General Assembly that the Council have passed the said Bill without Amendment.

Mr Kennedy dissented to the said Bill and his reasons being read are as follows (*viz*^t)

I desire my Dissent may be entered to the passing this Bill. Because I conceive there are some things in it derogatory of his Majestys Rights, inconsistent and infringing the Acts of Trade.

Troops raised for the publick service are indisputably in the disposition of the King or his Captain General, who from the Nature of things and of his office, must be allowed to be the best Judge of the degrees of the danger, and where most pressing.

When the danger is apparent, Troops are levied. But the destination is absolutely in the Sovereign.

We may have some Idea of the present danger, but circumstances may so alter the nature of things, as it may not be in our power either to remedy or obviate it. Our declaring therefore by a Law that some of those Troops shall goe this way, some that way, some so far, and not further, is encroaching upon the rights of the Sovereign, and inconsistent with the first principles of Government and common reason.

The provision in the Bill for the Security of two County's, seems to put them in a worse situation than they were before. Thirty five shillings is given to Voluntiers in those Countys to purchase a Gun and a Blancket. If none appear they are to be drafted from the Regiments. The Bounty to Crown Point is £5 with clothes, Arms and every other Camp necessary. Now

will not every Man in his right senses, who expects or even suspects his being drafted, rather chuse the £5 &c than the 35s which will hardly buy him a good Gun. Thus the defence of those Counties in all probability is like to be left to the Old and Superannuated, and it will be defended I doubt accordingly.

Impowering Commissarys to take into their Care and Custody Gun Powder or any other commodity while under seizure by the Officers of his Majesty's Customs for illegal importation, and upon Tryal in a due course of Law in the Supreme Court of the Province, which is well known to the Gentlemen of the Assembly to be the Case of the Gun powder mentioned in the Bill, is an infringement of the Acts of Trade, and taking upon us to dispense with the Laws of Great Britain by an Act of this Colony.

Mr Banyar Deputy Secretary brought to the Council a Message from his Excellency in the words following.

Gentlemen,

Immediately after your Adjournment, I issued Warrants for inlisting the Number of Men to be employed by this Government, in Conjunction with the Forces of the other Colonies, in removing the French from their Encroachments at and near Crown point. By the Returns yet made me, a considerable Number are wanting to compleat the Levies. The Time for the Provincial Armies assembling at Albany draws near, and as there is little Prospect of raising the Quota of this Province, by voluntary Inlistment in due Time, for joining the Forces of the other Governments, without a Law is passed to detach or impress the Number wanting from the Militia, I recommend it to you, to take this Matter into your serious Consideration, and frame a proper Bill for this Purpose, that no Time may be lost in the Prosecution of this Service. The Monies granted for Maintaining the Troops, not yet appropriated, should be applied, in order to be lodged in the Hands of the Commissaries and Pay masters, as the Service shall require.

I have defer'd raising the Forces to be employed in Conjunction with the Governments of New Jersey and Pensilvania, untill I received a determinate Answer from Governor Morris: Extracts of his Letters to me on this Subject, I now send you for your Information, and must recommend it to you, to make Provision for the Pay and Subsistence of the 400 Men, intended for that Service, that I may give the necessary Orders for their being raised to join the other Forces destined for the Service against Crown point, or, if necessary, to be employed in the Defence of the Western Frontier.

The Number of Forces to be employed this Campaign; the Reasons I have to hope his Majesty will be graciously pleased to assist his Colonies with an additional Reinforcement of Troops from Great-Britain, and the Fleet to be employed in North-America, will necessarily call for large demands of Provisions; the absolute Necessity of preventing the Enemys drawing Supplies from the Provision Colonies, and the ordinary Consumption of the Province, are Considerations highly worthy your Attention; I cannot therefore, but earnestly recommend to you, to prepare a Bill, to prohibit the further Exportation of Provisions.

The great Demand of Carriages, Horses, &c^a for the Transportation of Provisions and Stores from Albany, both Northward and Westward, makes it necessary to ascertain the Rates to be taken for such Services, and the Prices of Materials, that private Persons may not take Advantage of the publick Exigencies.

The Militia of the upper Parts of the Province, particularly the Counties of Albany and Dutchess, have of late been frequently employed in long Marches, and from their Situation are more liable to be called upon than the lower Counties. The Militia of Orange and Ulster, have also been much harrass'd this Winter, in keeping constantly Parties on their Frontiers for their Defence. You must be sensible that this Duty falls very unequally on Individuals, and often on those whose Families Support depends on their Labour. The Readiness they have shewn to attend the several Services, when called upon by their Officers, encourages me to hope, you will take this Matter into your Consideration, and make them an Allowance for their past Service, and a suitable Provision to enable them to bear the Losses that must attend their future marching to any Parts of the Frontier that may require their Assistance.

I have ordered several other Papers to be laid before you, which you will take into your Consideration.

Mr Banyar Deputy Secretary brought to the Council a Message from his Excellency, which being read was

Ordered to be entered and is as follows

Gentlemen,

Having received a Letter bearing Date the 13th of March last, from the Right Honourable Henry Fox, one of his Majesty's principal Secretaries of State, I have an opportunity to acquaint you that his Majesty has been pleased to appoint the Right Honourable the Earl of Loudoun, Commander in Chief of all his Forces in North-America, and to order two Regiments, (which are already arrived here) also a Train of Artillery, and a sufficient Quantity of warlike Stores, for the publick Service in these Parts.

I am commanded by his Majesty to signify to you, that as it is of the greatest Importance that the King's Regiments in North America, as well the three stationed in Nova Scotia, as those in this Province, should be recruited as soon as possible to their full Compliment of 1000 each, it is his Majesty's Pleasure, that I should call you together and press you and I do accordingly recommend to you in the strongest Manner to make the most early and effectual Provision for raising, and assisting his Majesty's Officers to raise, such a Number of Men as shall be sufficient to recruit the King's Regiments now stationed or to be stationed in

North America, up to their Establishments. And his Majesty, in order to encourage his faithfull Subjects to engage in a Service so essential for their own Defence and Preservation, does consent that such Recruits shall not be obliged to serve any where but in North America; that they shall be discharged when Hostilities shall cease and that each of them shall have a Grant of Two Hundred Acres of Land, free from the Payment of Quit Rents, for ten Years, either in the Province of New York, New-Hampshire, or Nova-Scotia, at their own Choice, the Lands to be granted them on producing their Discharge from the Commander in Chief, to the Governor of either of the said Provinces, respectively, and in Case they should be killed in the said Service, their Widows and Children to be entitled to the said Lands, in such Proportion as the Governor and Council of the Province wherein such Lands lye shall direct.

His Majesty from his tender Concern so frequently shewn to these Colonies, having in his great Goodness recommended their Case to the Consideration of his Parliament, the Parliament have granted the Sum of £115,000, to be distributed in such Proportions as the King shall think proper, to the four Provinces of New-England, this Province, and New-Jersey, and thereby enabled his Majesty not only to manifest his Sense of their past Services, but also to encourage them for the future to exert themselves in the Service with Spirit and Vigor. His Majesty therefore expects that his Colonies will heartily and zealously concur in every Measure which shall be thought adviseable for carrying on the War in North-America, and that they will raise the same Number of Men in each Colony, as were raised last Year, (whereof as great a Proportion as may be, to consist of Rangers) to act in Conjunction with the King's Troops, in such Operations as shall be undertaken for annoying the Enemy and recovering his Majesty's just Rights, and to be ready to march to such Place as the Commander in Chief shall direct. This Service will be the less burthensome to the Colonies, as the raising of the Men, their Pay, Arms and Cloathing, will be all that will be required of them, Measures having been already taken for laying up Magazines of Stores and Provisions of all Kinds, at the sole Expence of the Crown.

It is also his Majesty's Pleasure that I should particularly recommend it to you, to make Provision out of such Funds as already exist, or may hereafter be raised for the King's Service, for repaying the Masters of such indented Servants as shall engage in his Majesty's Service, the Money paid by the said Masters upon the original Contract, in Proportion to the Time such indented Servants have to serve.

His Majesty also expects, that the Funds now raised and appropriated, or which shall be raised for the publick Service, be issued and applied to the general Service, in such Manner as the Commander in Chief shall direct.

I have likewise his Majesty's Commands to recommend to you, to pass effectual Laws for prohibiting all Trade and Commerce with the French, and for preventing the Exportation of Provisions of all Kinds, to any of their Islands or Colonies.

The Provision you have already made for the raising and subsisting a larger Body of Forces than were raised by this Colony for the Service last Year, is a Proof of your Attention to the Welfare of these Colonies, and the Danger they lie exposed to from an active, vigilant, and enterprising Enemy, which cannot fail of meeting with his Majesty's favourable Acceptance. And from these fresh and repeated Instances of his Majesty's affectionate Regard for the Safety of his American Subjects, I make no doubt the other Matters, which, in Obedience to his Commands, I now earnestly recommend to you to provide for, will have their due Weight in the Course of your Deliberations, and that you will do every Thing therein which may be expected from a dutifull, loyal, and gratefull People.

M^r Banyar brought to the Council a Message from his Excellency the Governor which being read was

Ordered to be entered and is in the words following viz^t

Gentlemen,

The Right Honourable the Lords Commissioners for Trade and Plantations, by their Letter of the 20th of March last, having signified to me, that it appearing to them upon Consideration of the present state of Indian Affairs, that the extravagant Tracts of Land which have at different Times been granted to particular Persons, upon Pretence of Purchases made of the Six Nations, which they alledge to have been fraudulently obtained from them, has been one of the principal Causes of the Decline of our Interest with the said Nations, and that they cannot be induced to engage heartily and sincerely in the just and necessary Measures which his Majesty is compelled to take for the Recovery of his undoubted rights in America, until they have received full Satisfaction with Respect to this real Grievance, which they have so often and so strongly complained of. I am directed by their Lordships, to lay this Matter before you for your Consideration.

The Patents or Grants which the Indians principally complain of, and which they consider as most injurious to their Rights, are those commonly called Kayoderosseras, Connojahary, and that at the Oneida Carrying place, commonly called Oriskene, and if proper measures are taken to vacate and annul them, there will be little Reason to doubt but that the Six Nations will act in Conjunction with us against the French, with their whole united Strength.

As the most effectual Remedy for this great Evil, must be the Interposition of the Legislature, in passing a Law for vacating and annulling these exorbitant and fraudulent Patents, a Measure in which I cannot doubt of your Concurrence, as it will be so much for his Majesty's Service, for the Honour and Interest of the Province, and for the Advantage, Welfare and Security of the People, I therefore earnestly recommend it to your serious Consideration.

I send you for your Information Copies of several Conferences with the Indians on this Subject.

CHAS^s HARDY.

Ordered to be engrossed. And the Bill

Ordered a third reading as amended.

Mr Banyar Deputy Secretary brought to the Council a Message from his Excellency which was read and

Ordered to be entered and is as follows

Gentlemen,

I Have ordered the account of the Commissaries of the Forces to be laid before you from which you will find it is necessary that more money should be lodged in their hands to enable them to carry on the publick service, and I recommend to you to make Provision accordingly.

As the Barracks already built at Albany and Schenectady will be insufficient to accommodate the number of Troops which will probably be quartered there during the winter, and this is the proper season for erecting others, I must recommend that you will make immediate Provision for so necessary an expence, that I may give the proper orders in due time for erecting such other Barracks as the General and Commander in Chief of his Majesty's Forces shall apply to me to provide for the Kings Troops he may think fit to Quarter in this Province.

His Excellency the Governor being come to the Council Chamber, (the Speaker leaving the Chair) sent a Message by the Deputy Secretary to the General Assembly requiring the immediate attendance of that House. And they attending accordingly

His Excellency made a Speech to the Council and General Assembly, and delivered one copy thereof to the Speaker of the Council and another copy thereof to the Speaker of the General Assembly; and then his Excellency returned to the Fort.

The Speaker resumed the Chair.

Ordered, that his Excellency's Speech be read.

Then the same was read and

Ordered to be entered and is as follows viz^t

Gentlemen of the Council and General Assembly.

Having during your Recess received Information, that the Enemy had made themselves Masters of Oswego, a Post of the highest Consequence to all these Colonies, as it not only covered the Six Nations of Indians from the Attempts of the French on that side, but by opening and keeping up an Intercourse between the English and those Nations, and their Allies, may be said to have been the source of the British Influence among them: I tho't it proper to call you together at this Time, that you might be ready to provide for any Emergency that should arise upon this Event.

His Majesty called upon by the repeated unwarrantable Incroachments of the French on his Territories, particularly in America, and the hostile Invasion of the Island of Minorca, hath at length been compelled to declare War against the French King, relying on the Help of Almighty God in so just an Undertaking, and the hearty Concurrence of his Subjects in so good a Cause. At this important Juncture, I cannot but congratulate you on the Arrival of the Right Honourable the Earl of Loudoun, whom his Majesty hath been pleased to appoint to the chief Command of all his Forces in North America; from whose Experience and Abilities in military Affairs, we may expect the most effectual and vigorous Measures will be taken for the Defence of these Colonies, and distressing the Enemy. And I shall rely on you, to enable me from Time to Time, to give him that Assistance, which the Exigency of Affairs may require.

Upon any sudden Emergency, the earliest and speediest Assistance that can be given, is by the Militia of Albany, and the Counties adjacent, and it being uncertain upon the first Intelligence of the Loss of Oswego, how far the Enemy might endeavour to penetrate into this Province, his Lordship called upon Sir William Johnson, who commands the Militia of Albany, for his Aid, who, agreeable to the standing Orders he has from me, directed 500 out of each of the Batalions, to march and join him at the German Flatts, to co-operate with his Majesty's Forces

in the Defence of that Part of the Country, the greater Number whereof did accordingly march but were very unwilling to stay, complaining of the Hardship of their being kept on Service, without any Allowance. I must therefore recommend to you to make immediate Provision for a reasonable Compensation to them, when thus employed, that they may be ready to march on all Occasions with Alacrity.

I have his Majesty's Commands by Letter from one of his Principal Secretaries of State of the 18th of June last, to receive such French Prisoners as the Commanders of any of his Majesty's Ships shall apply to me to set on Shore in this Government: And I recommend to you, to make Provision for such Prisoners, as also, for those that are or may be brought in by private Ships of War.

As the Troops which his Majesty hath been pleased to order for the Defence of his Colonies, may occasionally pass through this Province, an early Provision should be made for Quartering them conveniently until they take the Field.

I have received and paid over to the Treasurer, the Sum of, £14,323. 15. 3 Sterling, the Balance of the £15,000 allotted by his Majesty to this Province, out of the Grant of, £115,000 made by Parliament, to be distributed to the Colonies of New England, New York and New Jersey, as a free Gift and Reward for their past Services, and an Encouragement to them to continue to exert themselves with Vigour, in the Defence of his Majesty's just Rights and Possessions. And agreeable to the King's Warrant now laid before you (with the other Papers sent therewith) the Treasurer hath given sufficient Security for the safe Custody of the Money, until it shall be disposed of for the publick Service by an Act of the Legislature. You will therefore consider, in what Manner this his Majesty's Bounty may be best applied to answer the Intention of the Gift.

Gentlemen of the General Assembly,

In my Speech of the 3^d of December last, I did, in Obedience to his Majesty's Commands, recommend the passing a proper Law for settling a permanent Revenue upon a solid Foundation for defraying the necessary and established Charges of Government: That such Law should be indefinite, and that Provision should be made therein for competent Salaries to the Captains General, and likewise to Judges, Justices, and other necessary and usual Officers of Government: which, with your Address to me, in Answer thereto, I transmitted to the Right Honourable the Lords Commissioners for Trade and Plantations, and which their Lordships in their Letter to me of the 4th of March last, inform me they had laid before his Majesty, and that they had received his Majesty's Commands to signify to me, that as the present Assembly does not appear to be desirous of reviving the Claims and Pretensions of former Assemblies, and have declared that they do not mean to take upon them the executive Power of Government, belonging of right to his Majesty's Governor, and that as I had represented that they were well inclined to concur in every other Measure which might be proposed for his Majesty's Service, his Majesty is pleased, in Consideration thereof, to allow and permit me to assent to such Bills as the Assembly shall from Time to Time frame and pass for the Support of Government, provided they are in all other Respects conformable to his Majesty's Instructions to me, with Regard to the granting and disposing of publick Money. You will therefore proceed to the framing and passing a Bill for this Purpose, previous to any other, conformable to his Majesty's Pleasure: And here I cannot avoid observing to you, how inadequate the Salaries of his Majesty's Governor and the other Officers of Government, are to their Services, arising from the Difference in the present Value of the Currency, compared to what it was formerly.

I must desire you, Gentlemen, to provide for the other Services recommended. And as in time of War the Exigencies of Government greatly increase the publick Charge, it may be difficult to support the Credit of our Paper Currency, unless new Funds are established, and the growing Income thereof applied to the cancelling the Bills already made current, and what may be necessary to be struck on any future Emergency. I therefore earnestly recommend it to you to fall upon such as will be least burthensome to the People. A Stamp Duty, an Excise upon Tea, a Poll Tax on Negroes, and such others as the Inhabitants can bear with least Inconvenience.

Gentlemen of the Council and General Assembly,

The passing a Law for vacating and annulling those Grants of Land which I recommended to you in your last Session, is become more necessary now than ever, as your Attention to that Matter will be a convincing Proof to the Indians, of your Readiness to listen to their Complaints, and give them Redress, and cannot fail of having this good Effect, of holding and attaching them more firmly to the British Interest at this Critical Juncture, when their Service may be of great Use.

Unanimity and Dispatch, in all our publick Measures, are never more desirable than while we are contending with an Active and powerful Enemy. The present Posture of Affairs requires the most animated Resolutions; and I trust I shall find in you such as will place you in the most deserving Light to your King and Country.

CHAS^s HARDY.

Fort George New York

JOSEPH MURRAY,
JOHN RUTHERFURD,
JOHN CHAMBERS,
WILLIAM SMITH, Esq^r.

The Speaker assumed the Chair.

The Speaker left the Chair, and with

The Council went to the Fort to present the Councils Address to his Excellency and being returned

The Speaker resumed the Chair and

Reported that having attended his Excellency and read and presented to him the Humble Address of the Council His Excellency had returned a favourable Answer thereto, which being read the Address and Answer were

Ordered to be entered in the minutes and are as follow viz

To His Excellency Sir CHARLES HARDY Knight Captain General and Governor in Chief in and over the Province of New York and the Territories depending thereon in America and Vice Admiral of the same

The Humble ADDRESS of the Council of the Province of New York

May it please your Excellency,

We his Majesty's most dutiful and loyal Subjects the Council for the Province of New York, return your Excellency our hearty thanks for your Speech, and cannot forbear at the same [time] expressing our sincere Acknowledgments of your Excellency's unwearied attention to the publick concerns of your Government ever since your Arrival. Your Excellency has with the justest reason called us together at this Critical time to make proper Provision for any Emergency which may arise upon the present conjuncture of Affairs.

As His most sacred Majesty called upon by the repeated unwarrantable encroachments of the French on his Territories, particularly in America, and the hostile Invasions of the Island of Minorca, hath at length been compelled to declare war against the French King, relying on the Help of Almighty God and the hearty concurrence of His Subjects: We trust from the Goodness of the Cause that his Majesty will not fail of the divine blessing on his Arms, and the most chearful concurrence of all his Subjects, particularly of those in these Northern Colonies who are so deeply concerned.

His Majesty having been graciously pleased to appoint The Right Honourable the Earl of Loudoun to the Chief Command of all his Forces here, We have the greatest Reason to expect from his Experience and Abilities in Military Affairs, that the most effectual and vigorous Measures will be taken for the Defence of these Colonies and distressing the Enemy.

We assure your Excellency you may rely on our utmost endeavours to give that Assistance from time to time which the Exigency of Affairs may require, and that we will readily and chearfully concur in every Measure for providing for the publick services which you have been pleased to recommend.

We most gratefully acknowledge the Bounty of His Majesty and the Parliament of Great Britain in providing a sum of Money to alleviate the heavy Burthen of Expence these Northern Colonies have unavoidably sustained by the unjust and ambitious Projects of the French.

We are intirely of opinion with your Excellency that at this time the greatest attention should be paid to the Complaints of the Indians touching the Patents you have mentioned, and shall be ready to give full proofs of your Desire to redress them, that the Publick may reap the good Effects of attaching them more firmly to the British Interest at this critical Juncture, when their service may be of great use.

As unanimity and Dispatch in all our Publick Measures are never more desireable than while we are contending with An Active and powerful Enemy; and as we have the Pleasure to agree in Sentiments with your Excellency that the present posture of Affairs requires the most animated Resolutions, so we beg leave to assure your Excellency we will with the greatest chearfulness exert all our Abilities that your Excellency's confidence in us may not be disappointed, but that our Actions may place us in a deserving Light to our King and Country.

By order of the Council

ARCH^d KENNEDY, Speaker.

Council Chamber New York
25th September 1756.

His EXCELLENCY's Answer.

Gentlemen,

I return you my thanks for your Address.

The Assurances you have give me upon the present posture of the Publick Affairs cannot fail of placing you in the most favourable Light to His Majesty; are the strongest Proof of your Zeal for his service and your Regard to the Welfare of these Colonies.

It gives me great Satisfaction to find my Attention to the publick concerns of this Government meet with your Approbation, and you may be assured I shall at all times readily concur with you in promoting its true Interest and Prosperity.

Ordered, that Mr Smith do carry the same to the General Assembly in order to be signed by the Speaker of that House, and acquaint the House that the Council have appointed Mr Chambers and himself to wait on His Excellency the Governor with such Members as that House shall appoint, in order to lay before his Excellency the Humble Representation of the Council and General Assembly.

A Message from the General Assembly that the House have appointed Col. De Lancey, Captain Renselaer, Mr Seaman and Mr Mynderse in conjunction with the Gentlemen appointed by the Council, to wait on his Excellency the Governor in order to lay before his Excellency the Humble Representation of the Council and General Assembly.

Ordered, that the said Representation be entered in the minutes which is as follows viz^t

To his Excellency Sir CHARLES HARDY Knight Captain General and Governor in Chief in and over the province of New York and the Territories depending thereon in America and vice Admiral of the same.

The Humble REPRESENTATION of the Council and General Assembly of the Colony of New York.

May it please your Excellency,

We the Council and General Assembly of the Colony of New York beg leave to represent to your Excellency, the great and absolute necessity there is, in the present distressful condition of this Colony, to Continue the Act entitled [An Act for emitting Bills of Credit for the payment of the Debts and for the better support of the Government of this Colony, and other purposes therein mentioned.]

1st Because the exacting the principal sums from the Debtors to the Loan Office at this time, will inevitably greatly distress numbers of his Majestys good subjects, perhaps to the total Ruin of their Estates, already greatly burthened with heavy Taxes for many years to come for supporting the expence already incurred by reason of the present War.

2^{dly} Because a Revenue of eighteen hundred pounds per annum, arises from this Fund, for the support of his Majesty's Government, which cannot be raised any other way equally easy and agreeable to the People of this Colony.

3^{dly} Because the Credit of the Bills of that Emission cannot be impaired by the proposed continuance of the s^d Act, being lent out upon Land Security.

4^{dly} Because it is only proposed to continue the Act for one year within which time his Majesty's pleasure can be fully known with respect to a further continuation thereof, which cannot be expected so soon as April next, the time limited by the Act now in being for the first Payment of the principal sums.

5^{dly} Because it appears to us that it will be most for his Majesty's Service, and the Relief of this distressed Colony, under the Calamities of War, That the Bills of Credit on that Emission should be last called in to be cancelled of any that have been hitherto issued.

6^{thly} Because if the present Bills should be sunk the Exigencies of this Colony could not be supplied without another Emission instead thereof: all the Funds being exhausted, and his Majesty's Bounty in the Grant of £15,000 sterling to this Colony, therefore already in part applied for the support of the Troops in its Pay.

These Reasons we hope will have sufficient Weight to induce your Excellency to give your assent to the Bill proposed for continuing the said Act. And we further beg that your Excellency will be pleased to transmit them to the Right Honourable the Lords Commissioner for Trade and Plantations, in hopes that your Excellency may be left at Liberty to assent to a farther continuation of the said Act with a Division of the Periods of Payment of the principal sums into eight instead of four, which will be a very great Relief to his Majesty's subjects when they shall be called upon to pay in the said principal sums.

The Speaker put the Question Whether the Bill Entituled [An Act to amend An Act Entituled An Act to empower Justices of the Peace to try Causes from forty shillings to five Pounds] should be now read the third time?

Which passed in the Negative.

And then the Speaker put the Question whether the said Bill should be rejected or Not, Which passed in the Affirmative.

Resolved that the said Bill be rejected accordingly.

The Council adjourned till to morrow morning 11 o'clock.

Wednesday, the first day of December, 1756.

The Council met according to adjournment.

The Council met accordingly.

PRESENT — *The Hon^{ble}* JAMES DE LANCEY, Esq^r, Speaker,

DANIEL HORSMANDEN,
WILLIAM SMITH, Esq^{rs}.

The Speaker assumed the Chair.

The Council adjourned till to Morrow Morning 11 o clock.

Wednesday, the sixteenth day of February, 1757.

The Council met according to adjournment.

PRESENT — *The Hon^{ble}* JAMES DE LANCEY, Esq^r, Speaker,

DANIEL HORSMANDEN,
WILLIAM SMITH, Esq^{rs}.

The Speaker assumed the Chair.

The Council went to his Excellency's Residence where being met His Excellency sent a Message by the Deputy Secretary, requiring the immediate attendance of the General Assembly, and they attending accordingly.

His Excellency made a Speech to the Council and General Assembly, and delivered one Copy thereof to the Speaker of the Council, and another Copy thereof to the Speaker of the General Assembly And then the Council returned to the Council Chamber; where being met

The Speaker resumed the Chair, and

Reported that his Excellency had been pleased to make a Speech to the Council and General Assembly, of which his Excellency had delivered to him a Copy, which he delivered in at the Table.

Ordered, that his Excellency's Speech be read.

Then the Speech was read and

Ordered to be entered in the Minutes and is as follows.

Gentlemen of the Council and General Assembly,

I cannot open this Session, without acquainting you that his Majesty has ordered a Reinforcement of his Troops to North-America, many of whom are landed in this Province, and some in the neighbouring Colonies. This fresh Instance of his Majesty's Concern for these Colonies, will I doubt not excite suitable Dispositions in all his American Subjects, and lead them cheerfully to grant that Aid which it is so apparently their own Interest to contribute towards distressing the common Enemy.

The Right Hon^{ble} the Earl of Loudoun hath informed me, by Letter of the 31st ultimo, from Boston, that he demanded a Number of Men of the four New-England Governments, to act in Conjunction with his Majesty's regular Forces, and that he has no Reason to doubt their agreeing to it. The Ineffectualness of our Measures the last Year, and the Advances the Enemy have made upon us, evince the Necessity of a vigorous Assistance on our Part: and from the Proofs I have had of your Affection to his Majesty, and of your Zeal for the Support of the common Cause, I perswade my self you will not fail to furnish the Quota of Men demanded of you, and thus strengthen the Hopes of Success, we may reasonably conceive from an able and experienced Direction of his Majesty's Forces, attended with the divine Blessing on his Arms. The Season requires that no Time be lost, and, I must press you, to be early in your Resolutions, that I may give the necessary Orders as soon as possible.

Soon after my coming to the Government, I recommended a Provision to be made for defraying the Expence of his Majesty's Commissions for determining the Controversies with New Jersey and Massachusetts Bay concerning their Boundaries, the unsettled State of which, hath already been productive of much Mischief, and is an Evil daily increasing, a recent Instance of which I am informed happened in the Manor of Livingston, where a Number of riotous Persons were assembled together, and in opposing the Sherif in the Execution of his Office, kill'd a poor Man whom the Sherif had call'd to his Assistance. As no such Provision has yet been made and the R^t Hon^{ble} the Lords Commissioners for Trade and Plantations, are of Opinion, that the only proper and effectual Method of determining these Disputes, will be by a Commission in the Nature of that, upon which the Limits between the Massachusetts Bay and New Hampshire were settled, I have their Lordships repeated Directions, to recommend it again to your Consideration, and to acquaint you that as this is a Matter of high Concernment to the Peace and Quiet of Government, and the Lives and Properties of his Majesty's Subjects. His Majesty does expect that you will forthwith make a proper Provision for the Expence of such Commissions, that there may be no further Delay in a Matter of so great Importance.

Gentlemen of the General Assembly,

I earnestly recommend to you to consider of the most effectual and speedy Methods for raising the Supplies for these necessary Services. I have ordered Estimates to be laid before you of the Expence of supporting the Quota of Men for this Province, and the Necessaries wanting to equip them for taking the Field.

Gentlemen of the Council and General Assembly,

In my Speech to you of the 24th of September last, I repeated the Necessity of the Legislatures interposing in the Case of those exorbitant Grants of Lands complained of by the Indians as fraudulent. I cannot avoid mentioning this again to you, and recommending it to your Consideration; the passing a Law for vacating and annulling such Grants appearing to me not only a just and necessary Measure, as by redressing this real Grievance of those People, we may give a happy Turn to our Negotiations with them, and induce them to throw in their whole Weight to our Assistance.

These are the principal Matters, I have to lay before you, for your present Consideration, and I hope you will proceed on them with Unanimity and Dispatch.

CHAS HARDY.

Flatbush Kings County

16th February 1757.

Ordered, that His Excellency's Speech be printed.

Mr Horsmanden moved that an humble Address be presented to his Excellency by this House in Answer to his Speech.

Which Motion being seconded and agreed to

Resolved, that an humble Address be presented accordingly.

Ordered, that Mr Horsmanden and Mr Smith do prepare and bring in the Draft of the said Address by to Morrow Morning 10 o'clock.

The Council adjourned till to Morrow Morning 10 o'clock.

Thursday, the 17th day of February, 1757.

The Council met according to adjournment.

PRESENT—*The Hon^{ble}* JAMES DE LANCEY, Esq^r, Speaker,

DANIEL HORSMANDEN,

WILLIAM SMITH, Esq^{rs}.

The Speaker assumed the Chair.

Mr Horsmanden read and then presented the Draft of an Address to his Excellency, which was again read and being amended, was agreed to and

Ordered to be Engrossed.

The Engrossed Address to His Excellency the Governor was read and approved of and

Ordered to be signed by the Speaker, and the Speaker having signed the same

Ordered, that Mr Horsmanden and Mr Smith wait on his Excellency to know when he will be pleased to be attended with the Councils Address, who being returned Reported that his Excellency had appointed immediately.

Then the Speaker left the Chair and with

The Council went to present their Address to his Excellency and being returned

The Speaker resumed the Chair, and

Reported, that having attended his Excellency and presented to him the Council's Address, His Excellency had been pleased to return a favourable Answer thereto, which he delivered in at the Table, and the Answer being read

Ordered, that the said Address and Answer be entered in the Minutes which are as follow :

To His Excellency Sir CHARLES HARDY Kn^t Captain General and Governor in Chief in and over the Province of New York & the Territories depending thereon in America and Vice Admiral of the same.

The Humble ADDRESS of the Council of the Province of New York.

May it please your Excellency

We His Majesty's most dutiful and loyal Subjects the Council of the Province of New York return your Excellency our hearty Thanks for your Speech.

With the deepest sense of Gratitude we receive this fresh Instance of his Majesty's concern for these Colonies in ordering so seasonable an Aid to their Assistance, which cannot fail to excite suitable Dispositions in all his American Subjects, Your Excellency will find in us such as will demonstrate our Affection to His Majesty the best of Kings, and our Zeal for the support of the common cause.

The Necessity of this Colony's exerting itself, and entering into every proper Measure for annoying the Enemy is great and apparent; and we shall use our Endeavours that this be done

in the most effectual manner to give further weight to those Expectation of Success, which with the divine Blessing, we have Reason to hope for, from an Able and experienced Direction of His Majesty's Forces.

The Evils daily felt by the Borderers of this Province towards New Jersey, and the Massachusetts-Bay, amidst such various claims of Limits shew the Expediency and Utility of an Application to his Majesty to have these Disputes finally adjusted. But as new Disorders may arise before such Settlement can be effected, even in the regular and legal Course Pointed out in your Excellency's Speech: We humbly hope your Excellency will represent to the R^t Hon^{ble} the Lords Commissioners for Trade and Plantations, the Necessity of His Majesty's immediate Interposition, by fixing temporary Lines until a final Settlement, to prevent those Mischiefs which we fear will otherwise befall many of His Majesty's good Subjects. Such a Line, very advantageous to the Province of the Massachusetts Bay, was offered to their Commissioners at Albany in 1754, by which this Province, merely for the Sake of Present Peace, yielded two thirds of a Tract of Land granted now above fifty years ago. As to the late Instance of a Person killed in assisting the Sherif executing a legal Process, We cannot avoid observing to your Excellency that the Manor of Livingston, where it happened, is held by a Grant more ancient than the Charter to the Massachusetts Bay, now in force. And we apprehend that all the late disorders on that side, have arisen from the unwarrantable and unreasonable claim of that Government, in extending their Limits or Charter through a principal part of this Province to the South Sea.

We shall as soon as the more important business of the Session is finished, take into our serious consideration the Complaints of the Indians in the case of those Grants of Land mentioned by your Excellency, and do therein what shall appear to us to be just and reasonable in a matter of so interesting a Nature.

We cannot leave you, Sir, before we express our grateful sense of that distinguish'd Zeal in your Excellency for His Majesty's service and the Interests of this and his Majesty's other Colonies so clearly manifested through the whole course of your Administration.

By order of the Council

JAMES DE LANCEY, Speaker.

Flatbush, Kings County

17th January 1757.

His EXCELLENCY'S Answer.

Gentlemen,

I thank you for this kind Address.

The just sense you have of his Majesty's Affectionate concern for these Colonies, and your Resolutions, which demonstrate your Loyalty to his Majesty, and your Zeal in promoting the true Interests of these Countries, cannot fail of meeting his Majesty's gracious Acceptance.

I have been so sensible of the Evils arising from the unsettled state of the Limits between this Province, and the Governments of the Massachusetts-Bay and New Jersey, that I have already represented this Matter to the Right Hon^{ble} the Lords Commissioners for Trade and Plantations; and you may be assured I shall not cease using my Endeavours to put an End to those Mischiefs, which so frequently happen on our Borders.

It is a real satisfaction to me, that you have so favourable an opinion of my Administration, and I shall at all times, place the greatest confidence in your Advice and Assistance.

Mr Banyar Deputy Secretary brought to the Council a Message from his Honour the Lieutenant Governor which being read was

Ordered to be entered in the Minutes and is as follows viz^t

Gentlemen of the Council and General Assembly,

His Majesty having been pleased to prefer his Excellency Sir Charles Hardy to the Rank of Rear Admiral in his Fleet, and having permitted and allowed him to resign this Government agreeable to his own Request, on his Departure the Administration devolved on me, as Lieutenant Governor of this Province; soon after which, apprehending a Visit from the Enemy on our Northern Frontier, I thought it necessary to take all the Measures in my Power to strengthen General Webb; and for this Purpose, I sent out my Orders to the Colonels of the Militia of Albany, Dutchess, Ulster, and that part of Orange above the Mountains, to march with their Regiments to the Assistance of General Webb, upon his Requisition, and to obey his Orders, of Orders, of which I gave him Notice by Letter.

In the night of the 3d of August last, I received a Letter from General Webb, of the 30th July, advising me that the Enemy were within twelve Miles of Fort William Henry; that he should immediately call in the Troops at the different Posts on Hudson's River, and give Orders for the Militia of the Counties to march, and desiring my Presence at Albany, to forward them. I set out for that Place on the 5th, which was as soon as I possibly could, and arrived there the 8th: on the 10th I had Advice of the Surrender of Fort William Henry; and as it was reasonable to think the Enemy with so formidable an Army and such a Train of Artillery, as they were said to have, would endeavour to penetrate farther into this Country, I sent Orders for a Detachment of 500 Men from the City of New-York, 600 from Queen's County, and the Whole Militia of Westchester to march up; and I had the Satisfaction to hear that those of the City of New-York, and Westchester, shew'd a very becoming Spirit on this Occasion. Those above the Highlands had march'd in Consequence of my former Orders, on General Webb's Requisition, and many proceeded to Fort Edward, but after a short Stay General Webb informed me, that all the Militia, except those of the County of Albany, had deserted in a mutinous Manner; I did all I could to stop them but with little Success. This Step, whether arising from Cowardice or Disgust, or whatever other Motive, deserves a very severe Animadversion, more especially as it was taken at a time when the Enemy were still at Fort William Henry, only fourteen Miles distant from Fort Edward, the most advanced Post we had in that Quarter of the Country. I shall order a strict Enquiry to be made into the Behaviour of the Militia, and Cause the Law to be put in Execution against all Delinquents.

I left Albany the 21st, and as soon as I came to New-York, I directed circular Letters to be sent to call you together as soon as possible; one of the Reasons of which was to recommend to you the compleating the Regiments in the Pay of this Province with the utmost Speed, General Webb having also wrote to the other Governments to compleat theirs, as the Troops under his Command were very much lessened. This was a Measure apparently necessary at

that time, but as his Excellency the R^t Hon^{ble} the Earl of Loudoun, Commander in Chief of his Majesty's Forces in North-America, is since arrived here with a Body of Troops, the Necessity of this Measure ceases. I have confer'd with his Lordship on this Subject, and he is of Opinion, there is no Occasion now to put the Province to this Expence, as he is not desirous they should be burthened with any Charge, but when his Majesty's Service and their own Safety require it.

The other reason of my calling you, is to recommend to you a further Provision for the Subsistance of the New York Regiment. These were the only Matters I had to lay before you for your Consideration, at this time, leaving the other necessary Business of the Province, to be done at a more convenient Season.

M^r Banyar Deputy Secretary brought to the Council a Message from his Honour the Lieutenant Governor which being read was

Ordered to be entered in the Minutes and is as follows :

Gentlemen,

I Have delayed calling you together till this Time, in Expectation of receiving Directions from his Majesty, to lay before you, as to the Part he expected this Province should bear in any future Operations; and I was also in hopes the Small-Pox would have been so far abated, as to admit of your sitting at the usual Place. But as it is still in some Parts of the City, I judged the Out-ward would be the most convenient.

The Matters I have now to recommend to you are,

The Support of his Majesty's Government; for which I doubt not you will make further Provision, and frame your Bills in such Manner, as I may find no Difficulty in giving my Assent to them.

The Enemy Indians having made Incursions into the Counties of Ulster and Orange, and murdered some of the Inhabitants, I ordered Detachments from the Militia, to be employed on the Scout to protect the Settlers, promising to recommend their Service to you, at your next Meeting, which I now do. I also, on repeated Applications from thence, gave Orders to have a Line of Blockhouses built, more effectually to secure that Part of the Country, and to encourage the Inhabitants to stay, and not abandon their Settlements. That Frontier is now, and has for some Time, been guarded by Troops posted there by the Earl of Loudon's Orders; but when his Majesty's Service in the next Season, shall call for those Troops thence, it will become necessary to place others there in the Pay of the Province, lest that Part of the Country be otherwise destroyed by the French and their Savages. For this Expence, Provision should be made, as also for the Payment of other Debts accrued for the Service of the publick, and for the Maintinance of French Prisoners of War.

I have retained two Companies of Rangers out of the Regiment in the Pay of this Province, for whose subsistance you will make Provision; the Rest where disbanded as soon as his Majesty's Service would admit of it.

At the Request of the Corporation of the City of New-York, I have, with the Advice of his Majesty's Council, drawn for £2,000 out of the Fortification Fund, to be applied to the Purpose of building Barracks for the Use of the King's Troops, which Sum the Corporation have engaged to replace.

The bad Consequences arising from the immoderate Use of spirituous Liquors among the King's Troops, is a Matter deserving your Consideration, and requires some proper Law to regulate or restrain the Retailer.

The Act for inspecting Flour is near expiring: The Reputation that Commodity hath acquired since the passing this Law, is a sufficient Evidence of its Utility, and that it ought to be continued. And if Beef, Pork, and Butter, which are also staple Commodities of this Province, were put under the like Regulations, it would greatly add to their Credit abroad.

The Militia Laws being near expiring, you will find it necessary to continue them, with such Alterations and Amendments as shall be judg'd expedient from the Inconveniences which have arisen. And I think it highly proper to add a Clause, subjecting all Fire Arms to Inspection, Numbers of very bad foreign Arms having of late been imported. The Acts laying an Excise upon Tea, and a Stamp Duty, which will soon expire, should be also further continued.

The Situation this and his Majesty's Colonies are in by the Distresses of War, calls upon you to think of all Methods for raising Money to defray the publick Expences. I shall point out two, which at the same Time that they are not Burthensome, will be accompanied with great Advantages to the Publick. The one is a Poll Tax on Slaves. The other a Duty of Tonnage on all Vessels not built in this Province, or in Great-Britain. The first will naturally tend to Introduce white Servants, which will augment the Strength of the Country; besides, the Price of Labour is now become so high, and hence the Owners of Slaves reap such Advantage, that they cannot reasonably complain of a Tax on them. The second will tend to promote Ship Building, and encourage Shipwrights and other Artificers to settle among us, to the great Emolument of the Publick.

Whatever other Bills you prepare for the Advancement of his Majesty's Service, and the Welfare of the Province, you will find me ready to give my Assent to.

His Honour the Lieutenant Governor being come to the Council Chamber (the Speaker leaving the Chair) sent a Message to the General Assembly by the Deputy Secretary, requiring their immediate attendance.

The House attending accordingly.

His Honour the Lieutenant Governor was pleased to make a Speech to the Council and General Assembly, and to deliver one copy thereof to the Speaker of the Council, and another Copy thereof to the Speaker of the General Assembly.

And then His Honour returned to his Residence.

The Speaker assumed the Chair.

Ordered, that His Honour the Lieutenant Governor's Speech be read.

Then the Speech was read, and

Ordered to be entered in the minutes and is as follows viz^t

Gentlemen of the Council and General Assembly,

His Majesty having nothing more at Heart, than to repair the Losses and Disappointments of the last Campaign, and by the most vigorous and extensive Efforts, to avert, by the Blessing of God on his Arms, the Dangers impending on North America; and not doubting that all his faithful and brave Subjects there, will cheerfully co-operate with, and second to the utmost the large Expence and extraordinary Succours supplied by his Kingdom for their Preservation and Defence. And his Majesty considering that the several Provinces, in particular from Proximity and Accessibility of Situation, more immediately obnoxious to the main Irruptions of the Enemy from Canada, are of themselves well able to furnish at least Twenty Thousand Men, to join a Body of the King's Forces for invading Canada, and carrying War into the Heart of the Enemies Possessions; And his Majesty not judging it expedient, to limit the Zeal and Ardour of any of his Provinces, by making a Repartition of the Force to be raised by each respectively, for this most important Service: his Majesty's Pleasure hath been signified to me by Letter from the Right Hon^{ble} William Pitt, Esq^r, one of his principal Secretaries of State, that I should recommend to you in the most earnest Manner, to enable me to raise, with all possible Dispatch, as large a Body of Men within this Government, as the Number of its Inhabitants may allow; to be form'd into Regiments as far as shall be found convenient; to hold themselves in Readiness as early as may be, to march to the Rendezvous, at such Place as Major General Abercrombie, (who succeeds the R^t Hon^{ble} the Earl of Loudoun, as Commander in Chief of the King's Forces in North America, shall appoint in order to proceed from thence, in Conjunction with a Body of the Kings British Forces, and under the supreme Command of his Majesty's Commander in Chief in America, so as to be in a Situation to begin the Operations of the Campaign, as soon as may be any way practicable, by attempting to make an Irruption into Canada.

The King is pleased to furnish all the Men so raised, with Arms, Ammunition, and Tents, as well as to order Provisions to be issued for the same, by his Majestys Commissaries, in the

same Proportion and Manner, as is done to the Rest of the King's Forces. A sufficient Train of Artillery will also be provided at his Majesty's Expence, for the Operations of the Campaign. The whole therefore that his Majesty expects and requires from the several Provinces, is the levying, cloathing, & Pay of the Men. And on these Heads also, that no Encouragement may be wanting to this great and salutary Attempt, the King is further most graciously pleased to permit his Secretary of State to acquaint me, that strong Recommendations will be made to Parliament, in their Session next Year, to grant a proper Compensation for such Expences as above, according as the active Vigour, and strenuous Efforts of the respective Provinces, shall justly appear to merit.

Similar Orders are sent to the Massachusetts-Bay, New Hampshire, Connecticut, Rhode Island and New Jersey; and the Southern Governments are also directed to raise Men in the same Manner, to be employed in such offensive Operations, as the Circumstances and Situation of the Enemy's Posts in those Parts may point out.

Gentlemen of the General Assembly,

When you consider the great Expence the Crown is at in supporting and preserving these Countries, I perswade my self you cannot hesitate a Moment in granting ample and sufficient Supplies for levying cloathing and paying as large a Body of Men as the Number of our Inhabitants will allow; especially as these supplies are so essential to your own immediate Safety and future Security.

Gentlemen of the Council and General Assembly,

These Provinces, if they exert themselves with vigour, are able to send into the Field, such a Body of Men as by the Blessing of God, may give us well grounded Expectations of Success. I hope a Number of brave Men who have at Heart the Honour of a Brave, and the best of Kings, will voluntarily and chearfully engage in a Service, on the Success of which their Properties, their civil and religious Liberties, depend.

The Nature of the Service laid before you, requires the greatest Dispatch. We have no time to lose, as the Troops ought soon to be in Readiness. I therefore expect, that in Case a sufficient Number do not offer voluntarily, you will forthwith enable me by an effectual Law, to complete the Levies in due Time. I see no other Method of doing this, than of draughting Men from the Militia.

Gentlemen,

I can add nothing more to animate your Zeal. The Dangers impending on North America: the extraordinary Succours supplied by the Crown: the Losses we have sustained: the Proximity, and Accessibility of this Province, more immediately obnoxious to the main Irruptions of the Enemy from Canada, are the most powerful and cogent Motives, that can be suggested to induce you to exert your most vigorous Efforts, on this truly important and critical Occasion.

JAMES DE LANCEY.

The Humble ADDRESS of the Council of the Province of New York

May it please your Honour,

We His Majesty's most dutiful & loyal Subjects the Council of the Province of New York return your Honour our hearty Thanks for your Speech.

With Hearts full of gratitude we acknowledge this fresh Instance of His Majesty's paternal Care and Tenderness for these his remote Dominions; and beg leave to assure your Honour, that we will, with the greatest Cheerfulness, concur in, and to the utmost of our Power promote

every measure for Strengthening your Hands, to enable you to answer his Majesty's most just & reasonable Expectations from us on this truly critical and important occasion.

By order of the Council

City of New York
14 March 1758.

ARCH^d KENNEDY Speaker

His HONOUR'S Answer.

Gentlemen,

I thank you for this Address. The tender concern His Majesty hath so repeatedly shewn for his Subjects in North America, and the vigorous Measures he is at this time taking, to avert the Dangers impending on these his Dominions, must fill all our Hearts with the warmest Returns of Gratitude, Loyalty and affection.

The Provinces have now a most favourable opportunity of checking effectually the Power of an Enemy almost incessantly employed in distressing them. Animated by a just resentment and the Honour of so good a King, I hope we shall all exert ourselves to the utmost.

I shall with confidence, Gentlemen, rely on the Assurances you give me on this great and interesting occasion.

Several of the Petitioners against the Bill Entituled [An Act to Empower Justices of the Peace to try Causes to the value of five Pounds and under, and for repealing the two Acts therein mentioned] attending without in order to be heard against the said Bill according to the order of this House on Tuesday last, they were called in and acquainted the House that they had nothing further to offer than the Reasons which in obedience to the order of this House they had filed with the Clerk.

Whereupon the Petitioners were directed to withdraw.
And the said Reasons * being read, It is

**To the Honourable the Members of His Majesty's Council for the Province of New York, convened as a Legislative House.*

REASONS humbly offered to the Council against the Bill intituled An Act to impower Justices of the Peace to try Causes to the Value of Five Pounds & under and for repealing the two Acts therein mentioned.

MAY IT PLEASE THIS HONOURABLE HOUSE,

The subscribers being Council or Attornies at Law in this Province, in Compliance with an Order of Council, made upon their late Petition to be heard, against a Bill passed by the General Assembly, intituled, "An Act to impower Justices of the Peace to try Causes, to the Value of Five Pounds and under, and for repealing the two Acts therein mentioned," humbly beg Leave to offer their Reasons, why that Bill ought not to be carried into a Law.

And previous thereto, it may not be improper to exhibit a Short Account, of the present State of our Courts, for the Administration of Justice, in civil Controversies between Subject and Subject; since it may thence result, that the Constitution of the Province in this Respect, is already properly organized.

The Colony is divided into ten Counties; in each of which, the Justices of the Peace, who are very numerous, take Cognizance of small Causes to 40s. — In every County, except New York, there is an inferiour Court of Common Pleas, for the Trial of Causes, where the Matter in Demand exceeds that Sum. The Terms of these Courts are fixed by Ordinance and revolve twice every Year. The Jurisdiction of the City of New York, extending through the whole County, all those Causes, which in the other Counties, would be within the Jurisdiction of the Common Pleas, are here determinable in the Mayor's Court; which by the Terms of the Charter must be held once every four Weeks, and may be held every Week. There is also a Mayor's Court in the City of Albany, and another in the Borough of Westchester for the like purposes; but their Respective Jurisdictions are more confined. Superior to these, is the Supream Court of Judicature, which superintends the inferiour Courts, and in general exercises the Powers of the King's Bench and Common Pleas at

Ordered, that the same be referred to the Committee to whom the Bill is referred.
The Council adjourned til Saturday Morning 11 o'clock.

Westminster. In one Respect indeed, its Jurisdiction is more restricted, for while the Courts at Westminster, take Cognizance of all Causes above 40s., no Suit can be commenced in the Supreme Court of this Province, unless the Matter in Controversy, exceeds the Sum of twenty Pounds.

The Errors of the Supreme Court are to be corrected, according to one of the King's Instructions, by the Governour and Council; and from them the Subject may appeal to his Majesty in privy Council.

The Fees of all these, except the Justice's Court have been established, by Ordinance of the Governour with the advice of the Council.

This Subordination of the Common Law Courts, has subsisted for many years past. To these the Subject has at all Times had Recourse for Redress; and we venture to affirm, that the Practice of the Law in this Province, is more conformable to the Course of Practice in England, than in any other of his Majestys Colonies upon this Continent; and what Honour that Profession has hitherto supported amongst us, the Majority of this Honourable House, want not Opportunities to know.

Thus much being premised, it plainly appears that the Bill in Question, seems calculated to contract the Business of the County Courts, by extending the Jurisdiction of a single Justice; and of consequence, since the Writ of Certiorari is not taken away, to increase the Practice of the Supreme Court of Judicature, the ignorant and partial Decisions of the Inferiour Judicatories, intended to be establish by the Bill, rendering the Use of that Writ, extremely frequent; whence it is conjectured, that as the Fees of that Court, much exceed those of the Common Pleas of the Counties, this Bill, should it pass into a Law, would rather tend to the private Gain, than the Disadvantage of the Practisers of the Law. This we thought proper to observe, in Answer to an Opinion, recieved or at least pretended by some without Doors, that our Opposition to this Bill originates from self Interested Views; tho we humbly presume, the Members of this Honourable House, who are better acquainted with the Profession, will see the Supposition to be injurious and groundless. Of the Scope and Tendency of the Bill none can be such competent Judges, as those whose Profession leads them to a more intimate Knowledge of the Law; and it was therefore natural, if this Bill was subject to Objection, to expect the Opposition would begin with us.

Having thus prepared the Way, we proceed now to assign the particular Reasons, why it ought not to be carried into a Law.

First, This Bill is subversive of the Course and Order of the Common Law of England, in Trials by a Jury of twelve men, with the Assistance and under the Inspection of a Court of Law. The common Law is the best Inheritance that English men have derived from their Ancestors. It is a political Fabrick raised upon the Experience of Ages, with such an intimate Connection and Correspondency of its Parts, that the least Alteration in either, must necessarily injure and debilitate the whole Frame; and therefore no Innovations ought even to be attempted, in the Courts of Justice, but for the most weighty Reasons; and we have heard none such offered in favour of the Bill in question.

Secondly. If an Investiture of the Justices of the Peace, with so great a power as is given by this Bill, would notwithstanding all objections, be ultimately advantageous to the Publick, it is very probable it would have long ago obtained in England, it appearing to us, that such a Bill would for the Reason next assigned, be less prejudicial there than in this Province; but since Justices in England have no such power, as is intended to be given by this Bill, we conclude that the Wisdom of the Nation, is against reposing so great a Trust in a single Justice of the Peace; and their example appears to us worthy of our Imitation; the rather since His Majesty by his Instructions, has been pleased to direct his Governours, "to take Care that no man's Life, Member, Freehold or Goods be taken away or harmed, otherwise than by established and known Laws, not repugnant, but as much as may be agreeable to the Laws of the Kingdom of England."

Thirdly. If such a Law as this, was never thought proper in our Mother Country, it would in many Respects be much more unsuitable for us. There, Justices of the Peace are generally Gentlemen of Rank, Education and Estates; but Persons in the same Office here, are for the most part, men of mean Occupations, ignorant and often indigent even to Necessity, and of Consequence more exposed in their Decisions, to be influenced by sordid Attachments and Corruption; and through Want of Knowledge, to inevitable Error, mischievous to the Suitors and dishonourable to the Government. Ignorance and Corruption are two Sluices, that will let in an inundation of complicated Evils upon the Community; and it does not appear to us, to be very easy to prevent them, if the Power of the Justices is enlarged, as by this Bill is proposed.

The Country still labours so much under the Disadvantages of its Infancy, and so general has been our Neglect of the means of Education, that there have been Persons in the Commission of the Peace, who were so poor as not to have a Freehold, and so ignorant as to be unable to write their own names or even to read. Instances of this Kind, have been so recent, that the present General Assembly esteemed them a proper Subject of publick Complaint, and in their Address to his Honour the Lieut Governour in November 1753, take Notice that there were "Judges and Justices of known ill Characters and extream Ignorance, and others so shamefully illiterate, as to be unable to write their own Names, from whence (they add) we greatly fear, that Justice has in many Cases, been partially or very unduely administered."

We do not take upon us to say, that the same Cause of Complaint still subsists, nor is it our Province to make the Inquiry; but we can affirm with great safety from our own Experience, that very few Justices, even among those who understand the English Language, are qualified with sufficient Knowledge, *deverare per Legem quid sit Justum*; not to forget, that in several counties the English Tongue is so little spoken, that it is difficult to find Justices of the Peace, able to copy a Warrant for apprehending a Felon, and much less to preside as a Judge of Law.

This being the true State of Things, how evident is it in *Theory*, that such a Law as the Bill in Question, must be productive of Determinations, either influenced by Partiality or injurious thro the Ignorance of the Dispenser. Add to this undeniable Experience, which while a similar Law was in Force, every day furnished *actual* Proofs, of what might have been foreseen in *Speculation*. How many are the Complaints, against the Judgments of the Justices? How often has the Supreme Court, been applied to for Redress, by Attachments, Writ of certiorari, & Rules to shew Cause &c.; not to mention what is extremely probable, that many other Complaints, have never been publicly moved, but permitted to die unheard, through the Poverty of the Sufferer.

Fourthly. This Bill tends to excite a litigious Spirit, render the Course of Justice more dilatory and expensive & encourage Oppression. For upon the Hypothesis, that the Justices in general, are extremely unfit for the due discharge of their offices, and are like through the immature State of the Country, long to continue so, many of their Judgments will be inevitably partial or erroneous; and when ever the injured Party happens to be a man of Spirit and Fortune, no Expence will prevent his Application for Redress, and that must be always to the Supreme Court, where the Solemnity and Nature of the Proceedings, require more Time and expence. How often these Applications will be made, is submitted to the Judgment of any man, acquainted with the Spirit of a free People, and that natural Prejudice so common to us, in every Transaction in which our own Interest is concerned. Few Persons who have Estates sufficient to redress themselves, will set down condemned by a Decision, which they conceive to be unjust, without making some effort for relief. And such being the known Temper of Mankind, it is easy to conceive that a weak Justice, will pay more Regard to the Cause of the Rich than the Poor, since the narrow Circumstances of the latter, will compel him to put up with the first Judgment, to prevent an Increase of Charge, there being no costs recoverable, should he prevail in an Application to the Supreme Court.

Whence it appears, that this Bill will promote Oppression by concealing it, and that too the worst sort of Oppression the Oppression of the Poor. And that such will be the consequences of this Bill, if enacted into a Law, we are the more inclined to believe, because while the late Five pound Act was in force, we remember many Instances of injurious Decisions, which were suffered to pass unnoticed, merely because they could not be reversed, without so great an Increase of Expence to the Party applying for the same, as must necessarily render the Remedy worse than the Disease.

Saturday, the eighteenth day of March, 1758.

The Council met according to adjournment.

PRESENT — *The Hon^{ble}* CADWALLADER COLDEN, Esq^r, Speaker,

ARCHIBALD KENNEDY,
DANIEL HORSMANDEN,
JOHN RUTHERFURD,
JOHN CHAMBERS,
WILLIAM SMITH, Esq^{rs}.

The Speaker assumed the Chair.

A Message from the General Assembly by Mr Cruger and Col. Mathews, with the Bill Entituled [An Act to prevent the bringing in and spreading of infectious Distempers in this Colony] desiring the concurrence of the Council thereto.

Fifthly. This Bill in confining the Distribution of Justice to private Houses, Dram Shops, and obscure Corners at the Discretion of the Justice, is repugnant to the Wisdom of the Common Law, and the Spirit of the great Charter; & evidently tends to encourage Idleness, Drunkenness and public Disorder. The Bill, indeed, restrains a Tavern-keeping Justice, from holding a Court at his own House (which by the way confirms what we have already said, to shew that the keeping of the King's Peace, is committed to men of the lowest Occupations) but yet, what hinders him from convening the Parties at that of a Brother Justice or any other Tavern? and while the late Five pound Act subsisted, were not those little Courts most frequently held in Taverns? At some of these Trials fifty men, either as Parties, Jurors, Witnesses or Spectators have been collected. These Meetings too, have been frequent about the same Matter, the Justice having Power to adjourn at his Pleasure. And how often these petty Courts have ended in Drunkenness, Revels, Games and Horse races, Tumults, Quarrels and Breaches of the Peace, we must submit to the Knowledge, even of several Members of this Honourable House.

Sixthly. In such Disorderly Conventions as these, there is no Solemnity, no Awe; all is Noise and Confusion, Passion, Party spirit and Rage. Can we therefore be at a Loss, for the Cause of the Instances we have even in our most regular Courts of frequent Perjuries; which are the Affliction and Complaint of all good men. We are confident that the Justices Courts, are the Schools which have given a Spread, to this dangerous and most infamous Vice. It is notorious that the Parties are admitted by the Justices, to swear in their own Causes; and as there is no Solemnity in their Proceedings, it is almost impossible to convict the Offender against the Sacred Laws of Truth; and hence the Progress of a Vice which dissolves the Bands of society, is a high handed affront to the Majesty of Heaven, and renders Liberty, Property and Life itself insecure.

Seventhly. All those Corporations and public Bodies, which are impowered by Charter, to hold Courts of Record in Causes above forty Shillings will be prejudiced by this Bill, and the munificent Designs of the Crown in the Grant of those Franchises be consequently subverted; and as the Charter of the City of New York in particular, stands confirmed by an Act of Assembly, we humbly submit it to the Consideration of this House, whether this Bill can be passed, containing an implicative Repeal, consistant neither with the Maxims of sound Policy, which require that all Laws ought to be plain and express; or even with His Majesty's Instructions, which require, that the Title of every Bill shall plainly express its full Scope "and that no Act whatsoever be suspended, altered, revived, confirmed or repealed by general Words, but that "the Title and Date of such Act so suspended, altered, revived, confirmed or repealed be particularly mentioned or "expressed."

Eighthly. This Bill appears to us, not only repugnant to His Majesty's Pleasure signified by his Instructions, but tending to weaken the Interest and Influence of the Crown. For as the Officers of all the inferior Courts, Judges, Clerks, Sheriffs &c hold their Places by Patent, & receive Fees as established by Ordinance of the Governor and Council, it is plain, that any Abridgment of the Business of these Courts will affect those Officers, which becoming less valuable, the Power of the Crown over all its immediate Dependents in those Courts, must be proportionably abated.

Ninthly. With the last Reason, another is inseparably connected, shewing this Bill to be repugnant to the Principles of natural Justice, as it will depreciate those Offices, which are not only Instances of the Royal munificence to their Possessors, but proceeding from the legal Prerogatives of the Crown, as much a part of their Estates as their Lands or Chattels; and are therefore such Enjoyments, as it would be highly unjust to deprive them of, without the most cogent Reasons, by any Law subsequent to their Patents. And perhaps no Reason, even in Cases of the most urgent necessity, can be assigned, to deprive the subject of Part of His Estate, without recompensing him for his Loss; and herein we have the Honour to agree, with the present General Assembly, who on the 18 of February 1757, in answer to a Speech of Sir Charles Hardy, the late Governor, respecting the vacating of sundry Patents of large unimproved Tracts, on the northern Frontiers of this Province, were pleased to express themselves in these words, "Your Excellency upon Enquiry will find, "that the Proprietors have paid very considerable Sums of Money; first to the Natives for their Rights; afterwards to "the Governors and Officers of Government for Fees attending the Patents, frequently as much as the Lands were worth; "And to deprive these People of their Possessions, WITHOUT A CONSIDERATION, would be construed a proceeding "HARSH and DANGEROUS." And that no Patentee ought to be prejudiced, by an Expost Facto Act, is not only agreeable, to the Sentiments of the General Assembly of this Colony, but also conformable to those of the Parliament of Great Britain; for it is observable, that in two late Statutes, passed in the 23^d year of the present King's Reign, for the more easy Recovery of Debts of 40s. and under, within the Liberty of Westminster, Duchy of Lancaster and Tower Hamlets, in Consequence of which, the Fees of certain Officers would be reduced, provision is made by express Clauses, to recompence them for their Losses, by pecuniary Payments during Life.

Tenthly. The Depreciation of those Offices, will be not less injurious to the Patentees, than detrimental to the Publick, by rendering the County Courts, less Capable of the Due Administration of Justice. The Clerkships of those Courts being at present, for the most part exercised by Gentlemen in the Law, their Opinions, seasonably interposed, as Amici Curiae, not only tend to prevent Barbarism, but Injustice; and their Assistances by removing Doubts will also render the Course of Justice, more regular and dispatchful; but should the present Bill take Place, the Fees of those Officers, will be so unequal to the Trouble of them, that no man of Skill, Spirit and Education, will submit to that unprofitable Drudgery. And hence a Door will be opened, for the Introduction of such mean and ignorant Officers, as will weaken the Security of the Subject, injure the Prerogative, and dishonour the Government.

Eleventhly. The Law is a Science which by its particularity, is become so vastly extensive, that a long and various Train of Practice, is necessary to qualify a man to appear in it, with Honour to himself, or Safety to his Client. The County Courts have been the common School, in which young Gentlemen have made their first Essays, and prepared themselves for Business of greater Importance in the Superior Courts. — If the Publick therefore is concerned in the Abilities of the Professors of the Law, and the County Courts tend to encourage the Young Practisers, and perfect them for Management of Causes of Moment in the Supreme Court, we measure ourselves that this House, will not consent to a

Ordered, that the said Bill be read.

Then the said Bill was read the first time and

Ordered a second Reading.

A Message from the General Assembly by Mr Vanderveer and Captain Winne with the Bill Entitled, An Act to raise, levy and collect a sum not exceeding the sum of five hundred Pounds in Kings County towards building a new Court House and Goal in said County] Desiring the concurrence of the council thereto.

Bill, which by abridging the Business of the Common Pleas, opens a door for the Introduction of Ignorant Pretenders, into the most important and supreme Judicatories, to the Disgrace of the Profession and the publick Detriment.

Twelfthly. Not to repeat what has already been offered, to shew that this Bill naturally tends to debase the manners of the People, we cannot help taking a more particular Notice, of its Tendency to encourage Idleness, or an unnecessary Consumption of Time; which we humbly conceive, is an unanswerable Objection to the Bill, now under the Consideration of this Honourable House, for should it pass into a Law, the County Courts must nevertheless be kept up. These, as we observed before, are held twice every year, and set ordinarily from Tuesday to Friday of the same Week. The necessary Attendants at these Terms, consisting of the Court Officers, 24 Grand Jurors, and 48 petty Jurors, with the Suitors and Witnesses, commonly amount to about an hundred Persons, assembled at two of the most leisurely Times in the year; whence it appears, that the loss at present by the inferior Courts is in each County, that of the Labour of One hundred men almost eight days in the year; But how much more Time will be necessarily consumed by the petty Judicatories, intended to be established by this Bill, is hard to determine. It is plain be it what it will, it is all in Addition to what is already created, by attending on the Inferiour Courts. And that it will become so considerable, as well to deserve the Consideration of the Legislature, no man can doubt, who has in the least Degree attended to the Consequences of the late five Pound Act, when there scarce passed a day without a Tryal before a Justice, in some Part of every County in the Province; not to mention that some of us, have heard a Justice declare upon his Oath, that himself had no less than sixty Causes under Consideration at a time; how equitable these confused Decisions were, is not our Business now to enquire. But suppose, what is by no means improbable, that a Justice's Court will ordinarily convene twenty men (the twice that Number are more frequently assembled on those Occasions) and admitting there are annually but forty of these Conventions in each County (a Number very small, and we are convinced less than is consistent with the Truth) those multiplied by nine, the Number of the Counties, it thence results that above seven Thousand men in the Compass of a year (exclusive of the City and County of New York), will be drawn off from their Employments to attend the little Judicatories designed to be established by this Bill. A prodigious Loss this to the Publick! A Day misspent is lost forever. The Labour of the People is the Riches of a State; and every wise Legislator will encourage it, especially in a new Country, where the Number of Inhabitants bears scarce any Proportion to the Territory they possess.

Thirteenthly. We cannot but think the Bill very unjust, in the apparent inequality and different Measures of Justice, which it directs between one that is a Freeholder & one that is not, to wit, in allowing the former forty Days from the Judgment to pay the Debt, before Execution is to be awarded; while the other, is immediately subjected to an Execution against his Goods, and for want of effects, to have his Body taken into Custody. This appears to us, as tending to distress the poorer Sort, by giving them no Respite, and allowing the richer an unreasonable Time to keep the Creditor from the Benefit of his Recovery. It looks in short like saying, that he who can pay his Debts immediately, shall have forty days to do it, but he who cannot pay it at all shall do it immediately, or go to Goal. Whereas as the Law now stands, if one of Ability is prosecuted for a small Debt, he will discharge it for his own interest to prevent the Increase of Costs, while the indigent have by the Course of the Courts, sufficient Time to earn or raise money to satisfy a Plaintiff, and that with but a small Addition of Expence; the Fees as this Honourable House well knows, in the Common Pleas, being very inconsiderable, and for the first Vacation, which includes the Space of six Months, inferiour even to those, prescribed by the Bill in Suits before a Justice. This Bill appears to us also unreasonable, in its Extent to Actions of Assault and Battery sounding entirely in Damages, the Bill giving a Jurisdiction to Justices in such Causes, and enjoining that unless the Plaintiff will swear he has sustained Damages to five pounds, and should obtain a Verdict for Less, he shall in that Case pay his own Costs; For as the Damages in this Suit depends much upon the Rank of the Person injured; & it is difficult for any man to ascertain his Damages by Oath, it follows that he is reduced to the Dilemma, either of rating the Injury at £5, and resorting to a Justice for redress; or if prosecuting the Offender in the Supream Court, at the great Risque of punishing himself more than the Agressor; and this will be the hard Case, of every man in the Province, whatever may be his Age, Rank or Office; so that great Encouragement will be given to private Revenge and Breach of the Peace; for the Number of Offences, will probably be in Proportion to the Difficulty of punishing the Offender, and the Lowness of the Damages recoverable for the Transgression. And in this Respect also the Bill will not only alter the common Law, but abridge the Jurisdiction of the Supream Court. And under this Head, we also beg Leave to observe, the extreme Hardship that is imposed by this Bill upon the Sheriffs, who are made responsible for the safe Custody of all Prisoners, who are committed by the Justices in Civil Causes; without the least Recompence for their Trouble and Risque.

Lastly. On the whole therefore we humbly conceive, that the antient Establishment and Subordination of Courts in this Province, is well calculated to give a free Course to the Dispensation of Justice, and requires no Innovation: That the Bill in Question is subversive of the Common Law, and repugnant to the Wisdom of the English Nation, That Justices of the Peace ought not to be trusted with the Powers specified in this Bill.—That it will introduce Barbarism, promote Injustice, and bring Dishonour upon the Government.—That it will multiply Law Suits, and render them dilatory and expensive, oppress the Poor and conceal Oppression.—That it will tend too much, to divert the People from their Ordinary Employments, debase their Morals, encourage Idleness, and provoke to the Breach of the King's Peace. That it will establish a School for the propagation of Perjury, injure the Rights of publick Corporations and private Patentees, oppose the munificence of the Crown and weaken its Influence. That it is, in sundry Instances, contrary to His Majesty's Instructions, and will be extremely detrimental to the Safety, Peace and Prosperity of the Colony.

All which is nevertheless most humbly submitted, to the great Wisdom of the Members of this Honourable House,

By their most dutiful and most

Obedient Servants,

Mr Smith delivered in his Reasons for his Dissent to the Bill entituled [An Act to empower Justices of the Peace to try Causes to the value of five pounds and under and for repealing the two Acts therein mentioned] which were read and are as follow :

THE Petitioners against this Bill having filed their Reasons in support of their Petition with the Clerk of this House, and this House having ordered them to be read, I find it my Duty with Regard to His Majesty's Honour & Interest, and the Welfare and Prosperity of this Province, to add my Reasons for my Dissent to the passing it into a Law.

And here I would observe generally, that in my humble opinion the Reasons offered by the Petitioners do *in substance* well support the allegations contained in their Petition: But the Reasons that principally determine me in this important point, are these following viz^t

1st It seems to me from long experience and an intimate knowledge of the state of this Province, that above three fourths of the Causes in Number, and nearly the one half of their

Amount in value which have been controverted in our Courts, do not exceed severally the Demand of more than five pounds, tho Precision in this Comparison cannot be pretended, and in stated Periods upon a strict Computation the Diversity may probably be found very considerable: However it is very certain that the present Bill is intended to alter the Method of Trial established by the Common Law, and to lessen the security of the Subject as to his Liberty and Property in all Causes wherein the Matter in demand does not exceed five Pounds. This appears to me to be very prejudicial to the native Rights of British Subjects, founded in the Common Law, and confirmed by the Great Charter, and respected by his most gracious Majesty in his Instructions to his Governors, as the Petitioners have observed.

2^{dly} I do not find any general Law of England that has ever given to the Justices of the Peace, the Power of Jurisdiction in all causes where the matter in demand amounts to five Pounds; and to attempt an Act in this Infant Colony, derogatory to the Common Law, and not warranted by the wisdom of the British Legislature, appears to me a dangerous Innovation.

3^{dly} What extremely aggravates the Mischief that will attend the passing this Bill into a Law, is, that it gives a Jurisdiction to all the Justices in the Counties without any distinction; and I know no Reason to differ from the present Assembly, who on the sixth of November 1753 in their Address to his Honour the present Lieutenant Governor "*Complain that there were Judges and Justices then in Commission of known ill character and extreme Ignorance, and so shamefully illiterate as to be unable to write their own Names, from whence they add that they greatly fear'd that Justice had in many cases been partially or very unduly administred*" Whether the Qualification of the Justices in the several Counties has been since that time much mended, I believe no Gentleman of this House will venture to affirm. And I am clearly of opinion, that to lodge a greater Power of Jurisdiction in such hands, as at that time could only try causes wherein the matter in demand did not exceed forty shillings, will proportionably enhance the Grievance, and increase the Fear upon that account.

4^{thly} I conceive that the Losses by attending upon such Courts as are proposed to be Established by this Bill, and the Costs that will accrue in such Prosecutions, will be on the whole much greater and more detrimental to the Inhabitants of the several Counties, than the difference of costs as they are now received by the Officers and Practisers of the Courts of Law already established in those Counties.

5^{thly} I conceive that the passing this Bill into a Law will greatly tend to encourage Idleness & corrupt the Morals of the Inhabitants of this Province.

6^{thly} It appears to me that the Rights & Influence of the Crown in the administration of Government, and private Property, and Rights of Offices held by Patents relating to Jurisdiction, will, contrary to natural Justice and Equity, be greatly impaired and diminished by the passing of this Bill.

7^{thly} It evidently tends to discourage the Study of the Law, and all Improvement in Science, and to introduce Barbarism, Confusion, Error, Partiality, Corruption, and Perjury, into the publick administration of Justice within the several Counties within this Province: And I hope no Gentleman will conceive these to be *light Evils* when nothing can tend more to secure the love of his Majesty's Subjects to their Native Rights and Liberties, and their Allegiance to their Sovereign, than their knowledge of the worth and value of those Rights. And who amongst us will make it his Business in Life to be acquainted with the Laws of his Country, who cannot be secure of a comfortable and honourable subsistence in consequence of his study and Practice of those Laws? Some men without Doors may make a light matter of this Reason and think it affects but a small Body of his Majesty's Subjects, but Wiser Heads do know that nothing can more effectually damp the Ardour of the British Genius, nor prepare the People for Slavery, and dispose them to take upon them a *French Yoke*, than a general Ignorance of the Laws of their Mother Country. And the horrid Confusion and Disorder in this Government, that will arise from the Error, Partiality, Corruption and Perjury that will attend the publick Administration of Justice in the Counties, (of which we have had too many Instances already) ought to make every honest man tremble.

8^{thly} My Eighth Reason is founded upon matters of some delicacy, which I should have been glad to have had no occasion to take notice of: But when I consider that his Majesty expects that his faithful servants of his Council for this Province, should avail themselves of all they know or are credibly informed of that may serve to direct them in the discharge of their Duty to their King and Country, and that I should be unworthy of a seat here, if I should conceal a danger, or not dare to act according to my conscience; I think myself therefore obliged to observe, that it has been a Practice during all the time that I have had any concern in the publick administration of Government, and I have heard it has been the case long before viz^t That the Representatives of the Counties in Assemblies, have made it a custom to give in their Lists of Justices for their respective Counties to the Governors for the time being; that these Lists have within my observation, at the first accession of a new Governor, while his Instructions have been fresh in Memory, been laid before the Council for their advice and consent: But I have been credibly informed, that afterwards and most generally till the present administration, such Lists have been delivered to the Clerks in the Secretaries office, and commissions by order of the Governor, have issued without advice & consent or the least Notice taken of his Majesty's Council in those Affairs, notwithstanding his Majesty's express Instructions on that Head. The

Abuse that has ensued from this Practice has been so great, that within the Compass of a few months, within a former administration, I have been credibly informed that there have been three sets of Justices commissioned in one County, wherein all or the greatest part of those named in the preceeding Commissions, have been superseded by the Commission next following. The Consequence of this has been, that his Majesty's Government has been greatly dishonoured; some of his best subjects disgraced and so disgusted, that they have ever after refused to serve under any Commission, and very unworthy persons have been substituted in their stead; When the true cause of all this has been no other, than that they did not vote for the sitting Members, in the last Election, or would not promise to give their Votes and Interest for such Candidates as happened to be chosen at the ensuing election. I my self have seen, when I attended the County Courts, a Bench of Justices some of whom I esteemed worthy men and among the very best of the County for the offices they sustained; and at the next Sessions, seeing on the Bench a sett of almost all New Faces. I have asked what was become of such and such Men, as I had known, and the Answer has been, that they had been put out of Office, because that they had voted against the sitting Members at the last Election, and were not Friends to what was called in the County Term the *present Administration*, meaning not that of the Government, but of the sitting Members. When I have considered the wisdom and Equity that appears in the Partition of Power within this Government, which his most gracious Majesty has been pleased to establish by his Commission and Instructions, I have reflected upon these disagreeable truths with great uneasiness, and found that they had their source and Origin in a violation of the order enjoined by his Majesty's Instructions: And being firmly perswaded that to encrease the Power of the Justices in a point of Jurisdiction not necessarily connected with their office, will increase the Evil, I was obliged to dissent to this Bill. Nothing is more Evident to me than that, First it will tend to destroy the freedom of Elections of Representatives in Assembly: Men will be bribed to vote for such Men as can procure for the Voters, Offices of Power and Gain. Secondly it will establish an Oligarchy and despotic Power in the Counties, to the disturbance of the Peace and the oppression of his Majesty's Subjects. Thirdly, it will give an excessive weight to the Lower House that will destroy the Balance of Power lodged in the several Branches of the Legislature: It will enable that House to controul a Governor, that may dare to dispute their demands in opposition to the Rights of the Crown, and to defy the Effects of his Power of his dissolving them, and consequently weaken the Power of the Crown in the administration of Government. On the other Hand if the Governor pursues wrong measures, and falls in with the demands of the Assembly, by appointing Justices at their Instance, he may have just such men to be in the Assembly as he pleases, and such as will give him whatever he demands. And in the last Place, that weight and Influence which the King intends his Council should have in keeping the Balance even between the Governor and the Assembly, and his answering the best Ends of his Government, will in consequence of the Premises be greatly weakened and impaired, if not entirely lost.

Hence according to the View I have of the present Bill, it evidently tends, to infuse Poison into the very Vitals of the Constitution of this Government; and though it may serve the particular Views of the Gentlemen of the Assembly in the ensuing Election, yet the continuance of such Bills, can by no means subserve to their true Interest, the advancement of the Value of their Estates, the Good of their Posterity, and the Real Welfare of this Colony; which can only be promoted by preserving the Constitution pure and entire, and the Legislative and Executive Power of Government in their proper place and order, and in the full exercise of those Rights which belong to each respectively, not suffering any one to encroach upon the Rights of the other.

9^{thly} The Amendments proposed to this Bill in my humble opinion go but a very little way in preventing the Evils which it tends to produce and in fact the publick Injury in extending it to the two Cities and Borough is less than in extending it to the several Counties, because the Magistrates in these Cities and Borough, are generally Men of sense and Integrity; and I have not heard of any one amongst them, that cannot write his own name.

10^{thly} If after all, a five Pound Bill had been thought absolutely necessary to suppress some Evils, which have been complained of (I fear with too much Reason) I would not have opposed a temporary Law to have established such a Court in each County, City and Borough, if the Jurisdiction were lodged in a few Hands, and those such who were able *Decernere per Legem quid sit Justum*, and the Persons to be appointed were men of approved Integrity, and nominated by the Governor, and Commissioned with the Advice and Consent of his Majesty's Council; and such Orders and Regulations relating to such Courts had been proposed, as would have a probable tendency to promote the publick Good.

The Speaker resumed the Chair.

Ordered, that his Honour the Lieutenant Governor's Speech be Read.

Then the Speech was read and

Ordered to be entered in the Minutes and is as follows.

Gentlemen of the Council and General-Assembly,

I Take this first Opportunity of our Meeting, to congratulate you on the Success of his Majesty's Arms in North-America. The Reduction of Louisbourg, and, in Consequence, of the Islands of Cape-Breton and St. John's, is an Acquisition of the utmost Importance to the Trade of Great-Britain, and the Safety of the Northern Colonies: may they always continue in the British Possession. The taking and destroying so many of the Enemy's Ships on this Occasion, whereby the French Navy is considerably weakened, is an additional heavy Loss to them; and all this has been achieved with so little Loss on our Part, as is scarcely to be parallel'd in any Instance.

And though by our Repulse and Retreat from Ticonderoga, the sanguine Hopes we had entertained of Success in that Quarter, have been disappointed, yet the Enemy have gained no ground there, and Things are as they were on Hudson's River, the Beginning of the Campaign.

On the other Side, Major General Abercromby sent Brigadier Stanwix with a considerable Body of Provincials up the Mohawk's River, where a Fort has been built at the Oneida Station, whereby an important Pass is secured, through which one of the French Generals was to have made an Irruption last Spring, but was prevented by the Diligence of our Army, which advanced so fast, as to oblige the French General at Ticonderoga to recal him to oppose our Troops.

It was from this Station, that Lieut. Col. Bradstreet, in Consequence of Orders received from General Abercromby, proceeded to attack the French Fort Frontenac at Cadaraqui, which he accomplished, taking and destroying the Fort. This Event was attended with happy Circumstances: at this Place were taken all the Vessels the French had on the Lake, which have been burnt: In the Fort were found a great Number of Arms, an immense Quantity of Provisions and Indian Goods of all Kinds, being the Magazine from whence Niagara and the other French Posts Westward were to be furnished. These have all been destroyed or brought away, the Effects of which will be severely felt by the Enemy this Winter.

I mention the Events in North-America, as being near to you and more immediately engaging your Attention. I have, however, the Pleasure to acquaint you, that by the latest Advices, Affairs in Europe take a favourable Turn for his Majesty and his Allies, and we may hope for a happy Issue of the Campaign.

Gentlemen,

I have now to recommend to you, to proceed with Dispatch on the usual Business of this Season, and must acquaint you, that the publick Service has called me to Albany, once last Year, and twice this; which you will take into your Consideration.

On Representations from the Inhabitants of Ulster and Orange, of the Incursions of the Indians into their Settlements, I ordered an Officer and 24 additional Men into the Block-houses for their Protection; and Col. Hardenbergh having ordered a Party of Militia out, upon the Indians killing one of the Inhabitants within a Mile of the Church at Rochester, I directed him to keep them on the Scout, till the Danger of any further Mischief was over, when the

Accounts of the Expence accruing from this Service are brought in, they shall be laid before you. These Militia I have ordered to be dismissed, as General Abercromby has ordered the light armed Infantry to be posted in those Parts: he has also acquainted me, that he would Order the New-York Regiment to be disbanded as soon as possible, and I am in daily Expectation of hearing it is done.

Gentlemen,

If there be any Laws to be revived or continued, or new to be made, for the Benefit of his Majesty's Subjects within my Government, you will find me ready to give my Assent to them.

City of New York
21st November 1758.

JAMES DE LANCEY.

Ordered, that his Honour the Lieutenant Governor's Speech be forthwith Printed.

To the Hon^{ble} JAMES DE LANCEY Esq^r His Majesty's Lieutenant Governor and Commander in
Chief in and over the Province of New York and the Territories depending thereon
in America.

The Humble ADDRESS of the Council of the Province of New York.

May it please your Honour,

We his Majesty's most dutiful and Loyal Subjects the Council for the Province of New York
return your Honour our hearty thanks for your Speech.

We are glad of the opportunity of Congratulating your Honour on the success of his Majesty's
Arms on the Reduction of the Island of Cape Breton and its Dependences: an acquisition
of the utmost importance to the Trade of Great Britain and the safety of the northern Colonies:
and most sincerely wish with your Honour that they may always continue in the British
Possession.

The success of Lieutenant Colonel Bradstreet against Fort Frontenac, which has in the Event
been attended with such happy circumstances, gives us the greatest pleasure, and we think *that*
Achievement redounds much to that Gentlemans Honour and the Publick service.

We cannot but much approve your Honours care and solicitude for the protection of the
Frontiers in the Counties of Orange and Ulster, which have during this war suffered most
severely by the Incursions of the Enemy and their Savages; and we are glad the Inhabitants
will be relieved this Winter by General Abercromby's posting the Light Armed Infantry in
their stead.

Your Honours Vigilance for the safety and welfare of all his Majesty's Subjects under your
Government, We are well assured of; and hope you are perswaded that we have it most sincerely
at heart to concur with your Endeavours in promoting the common good and the dispatch of
the Business before us at this Session.

Council Chamber City of
New York 23^d November 1758

By order of the Council
ARCH^d KENNEDY Speaker.

The GOVERNORS Answer.

Gentlemen,

I thank you kindly for your Address, and the favourable opinion you have of my care and
solicitude for the Protection of the Frontiers. I shall always rely on your assistance in my
Endeavours for promoting the common good.

WILLIAM WALTON, Esq^{rs}.

The Speaker assumed the Chair.

The engrossed Representation to his Honour the Lieutenant Governor was read and approved of and

Ordered, to be signed by the Speaker and being signed accordingly

Ordered, that Mr Walton do carry the same to the General Assembly in order to be signed by the Speaker of that House and acquaint the House that the Council have appointed Mr Smith and Mr Watts to wait on his Honour the Lieutenant Governor with such Members as that House shall appoint in order to lay the said Representation before his Honour the Lieutenant Governor.

Ordered that the Representation be entered in the Minutes, which is as follows viz^t

To the Honourable JAMES DELANCEY, Esq; his Majesty's Lieutenant Governor, and Commander in Chief, in and over the Colony of New-York and the Territories depending thereon in America.

The REPRESENTATION of His Majesty's Council, and the General Assembly of the Province of New-York.

Humbly Sheweth,

That prior to the Knowledge of his Majesty's gracious Intentions to furnish Provisions for his Provincial Troops, signified in a Letter from the Right Honourable Henry Fox, one of his Majesty's principal Secretaries of State bearing Date the thirteenth of March, one thousand seven hundred and fifty six, this Colony did furnish Provisions for one thousand three hundred and fifteen Men, and transported the said Provisions to the City of Albany, Fort Edward and Fort William Henry, which Expence, in the whole amounted to Six Thousand, Nine Hundred and Fifty One Pounds, Nine Shillings and Three-farthings, New-York Money. That although Part of the said Expence hath been paid by the Contractors with the Government for the Supply of the Army with such Provisions; yet other Part thereof, amounting to the Sum of, Five Thousand Two Hundred and Ten Pounds Eight Shillings and Four-pence Half-penny, like Money, which had been expended before the said Contractors had taken upon themselves the Duty of furnishing such Supplies, doth remain unpaid.

That the Colonies of the Massachusetts Bay and Connecticut have been allowed and reimbursed by his Majesty, for all the Provisions, together with the Expences of Transportation, which had been furnished by them for their Provincial Forces within that Year.

That in this present Year one thousand seven hundred and fifty eight, pursuant to his Majesty's Pleasure, signified by the Right Honourable William Pitt, one of his Majesty's principal Secretaries of State, in a Letter, dated the thirtieth of December, one thousand seven hundred and fifty seven; This Colony hath raised, cloathed and paid, two thousand six hundred and eighty Men (Officers included) which have been employed against his Majesty's Enemies, which Expence by Act of the Legislature, hath caused an Emission of One Hundred Thousand Pounds in Paper Bills of Credit, which was the only Method it had in its Power to answer the present Emergency; which Sum at present stands charged on this Colony, to be paid and sunk by Taxes laid on the real and personal Estates of its Inhabitants.

That of the said Sum of One Hundred Thousand Pounds, there has been expended in Payment and Cloathing of the said Troops by Oliver Delancey, Beverly Robinson and John Cruger, Esquires, Paymasters and Commissaries appointed by the said Act, the sum of Fifty Nine Thousand Pounds. There has been also paid to the several Colonels, Lieutenant Colonels and Majors, to enable them to provide themselves Necessaries for the present Campaign; pursuant to the Directions of the said Act, the farther Sum of Four Hundred and Sixty Pounds; likewise to the several Captains for the Bounty allowed by the said Act to Persons entering voluntarily into the said Service and for the Expences of Enlistment, the further Sum of Twenty Seven Thousand and Ninety Four Pounds. All which Sums have been paid pursuant to Warrants drawn by your Honour in Council.

That the Residue of the said Sum of One Hundred Thousand Pounds, being Thirteen Thousand, Four Hundred and Forty Six Pounds, is also nearly expended in the Payment of the

Militia of the Counties of Albany, Ulster, Dutchess and Orange, on sundry Alarms, and will fall greatly short of a Sum sufficient to pay the several just Demands still due from this Colony, to the said Counties for the like Services.

That the Troops aforesaid, were in the Field much earlier than any Troops from the other Provinces, and were employed in the severe Services of transporting Provisions in Battoes to Fort Edward, and cutting a Road from thence to Fort William Henry.

That after the unhappy Repulse at Ticonderoga (in which many of them fell) the Remainder were sent to the Oneida Station, and out of them were taken above one third of the Army that under the Command of Colonel Bradstreet, not only took and destroyed Fort Frontenac at Cadaraqui, with the vast Stock of Provisions and warlike Stores lodged there, but also every Vessel the Enemy had at Lake Ontario; a Service that reflects as much Honour on the Troops who performed it, as it has brought Distress on the Enemy's Garrisons to the Westward, which from that Event cannot be relieved without the greatest Labour and Hazard, if relieved at all.

That the Remainder of the Troops of this Province were employed in Building the Oneida Fort; and being rejoined by the Detachment under Colonel Bradstreet, continued in that Service, 'till the same Fort was finished, in the latter End of November last; during which Campaign by Reason of excessive Fatigues, laborious Marches and the Hardships of an Incampment in the Wilderness and the Want of Necessaries suited to their Diseases, great Numbers lost their Lives, and at the Time of their Discharge were found to be greatly reduced.

That the Burthen of the present War has fallen so heavy on this small Colony, that the Number of Hands employed in the Battoe Service and in Land Carriages and in the Provincial Troops, has been so great, that according to Computations which have been most exact, it appears that nearly every fifth Man in the Province has been employed in his Majesty's Service in the present Campaign.

That the Emission of Bills of Credit within this present Year, together with former Emissions, which the Exigencies of the Colony rendered unavoidable, have so greatly increased our publick Debts, that the Paper Currency which has been substituted in Lieu of ready Money, for making of immediate Payments is in great Danger of being depreciated, and the Colony so impoverished by the Excessive Weight of Taxes already laid on the People, that we find our Abilities far short of our Inclination to assist in any future Operations, unless we are in some very considerable Degree supported by the Parliament of Great Britain.

For such Relief we are encouraged to hope not only from his Majesty's gracious Intentions declared by his Secretaries of State in the Letters before mentioned, but for many other Instances of the Zeal and Forwardness of this Colony in promoting the common Cause against his Majesty's Enemies in the present War.

And here we beg Leave to remind your Honour, that in the Year one thousand seven hundred and fifty four, we transmitted Five Thousand Pounds, to the Government of Virginia, to assist that Province in its Defence against the French and their Indians, which they had gained over to their Party.

That also in the Year one thousand seven hundred and fifty five, this Colony appropriated for the general Service, a further Sum of Five Thousand Pounds, the greatest Part whereof was, applied by your Honour, at the Request of General Braddock, in transporting under the Command of Captain (now Colonel) Bradstreet a Number of regular Troops to Oswego furnishing Batteau's for that Service, and subsisting those Troops with Provisions, and the Residue of the said Sum has been applied to the like Purposes.

That also this Colony within that Year supported eight hundred Provincial Troops at Lake George under the Command of Sir William Johnson. Besides these Services done by our Provincials, the Militia of the Colony were exposed to frequent Marches on Alarms of the Approach of the Enemy, in different Parts of the Frontiers, but more especially by the Attack of the Enemy under the Baron Dieskau at Lake George.

That in the same Year, this Colony also contributed Eight Thousand Pounds to the Colony of Connecticut, to assist it to support the Troops furnished by that Colony.

That within the Year one thousand seven hundred and fifty six, this Colony, at its own proper Charge, besides the Expence of the Provisions aforesaid, raised, clothed, armed and paid, one thousand three hundred and fifteen Men, for his Majesty's Service.

That in the Year one thousand seven hundred and fifty seven, pursuant to the Requisition of the Earl of Loudoun, this Colony raised, clothed and paid one thousand Men, which was the whole Number required by his Lordship, and which went compleat into the Field, and continued in Service 'till his Lordship disbanded all but two hundred of them, who were kept in Pay of this Colony at his Lordship's Request, to act in Conjunction with the regular Troops during the following Winter Season. But here it becomes our Duty to acknowledge his Majestys Grace and Bounty in the Gift of Fifteen Thousand Pounds Sterling which enabled this Colony to pay great Part of that Expence.

Within this same Year, the whole Militia of this Colony were put into Motion, and a large Proportion of them sent to relieve Fort William Henry upon the Alarm of its being invested by the Enemy and did not return 'till after the Surrender of that Place.

As to the Proofs of the Expences of this Colony in furnishing Provisions in the Year one thousand seven hundred and fifty six, and the Expences of this present Year, as far as they have at this Time come to our Knowledge, we have taken Care that the same may be properly authenticated, and do herewith deliver them to your Honour.

We his Majesty's Council and the Representatives in General Assembly for this Province of New York, well knowing that this Province from its commodious Situation on the Atlantick Ocean, in the midst of all the British Colonies, and its inland Navigation, which admits of an easy Passage from Canada, and the remotest Lakes, thro' the same to the Ocean, has long been the Envy, and the Conquest of it the Object of the Ambition of France. Hence have sprung the many Encroachments which have been made by the French, particularly within this Province at Crown Point and Niagara; their unwearied Endeavours at all Times to corrupt and alienate the Affections and Allegiance of our Five Nations of Indians and their bloody Cruelties repeatedly committed by them on our Frontiers.

And being deeply sensible of the Justice and Necessity of the present War, and its vast Importance with Regard to the Freedom, Sovereignty and Independency of Great-Britain itself, should these American Provinces with their extensive Territories, commercial Advantages and numerous Inhabitants, unhappily fall under the Dominion of France; we have exerted our utmost Strength to prevent it, and cheerfully paid all the Taxes which have been laid upon us, and incurred a Debt, which in our weak and infant State, cannot be discharged until many future Years are expired.

Under this View of the State of this Colony, we humbly hope, that, that Part of the Debts remaining due for Provisions in the Year one thousand seven hundred and fifty six, and the present Year's Expence (wherein we have greatly exceeded our Abilities, in Confidence of the Encouragement given by his Majesty) will be reimbursed, and that the discharge of them will be provided for by the Parliament of Great Britain.

We therefore most humbly beseech your Honour, with the most pressing Instances on your Part, to lay the Case of this Colony before his Majesty, that the Relief which we have been encouraged to hope for, may be graciously obtained.

The Council adjourned till 3 o'clock Post Meridiem.

Saturday, the 16th day of December, 1758. P. M.

The Council met according to adjournment.

PRESENT—*The Hon^{ble}* DANIEL HORSMANDEN, Esq^r, Speaker,

JOHN CHAMBERS,
WILLIAM SMITH,
JOHN WATTS,
WILLIAM WALTON, Esq^r.

The Speaker assumed the Chair.

Mr Smith reported that himself and Mr Watts had according to order waited on his Honour the Lieutenant Governor and presented to him the Representation of the Council and General Assembly, and that his Honour had been pleased to say he would transmit the same to his Majesty's Ministers to be laid before his Majesty.

His Honour the Lieutenant Governor having signified to the Council that he proposed giving his Assent to the Bills prepared for it this afternoon at his House in the Bowry Lane.

The Council therefore went to his Honour's said Residence, Where being met

His Honour the Lieutenant Governor sent a Message by the Deputy Secretary requiring the immediate attendance of the General Assembly at the Council Chamber at his Honour's Residence and the General Assembly attending accordingly

His Honour was pleased to give his Assent to seventeen Bills the Titles whereof are as follow viz^t

An Act further to continue An Act entituled An Act for granting to his Majesty the several Duties and Impositions on Goods Wares and Merchandizes imported into this Colony therein mentioned.

An Act to empower the Justices of the Peace and Aldermen of the Borrough of Westchester County in conjunction with the Supervizors of the said County to ascertain and fix the Place for erecting a new Court House and Goal for the said County, and for raising a sum not exceeding the sum of one thousand pounds on the Estates Real and Personal of all the Freeholders and Inhabitants of the said County, for and towards Erecting the said Court House and Goal.

An Act to empower and enable the Supervizors of Queens County to raise by a Tax on all Real and Personal Estates in the said County such sum or sums of money as they shall judge necessary and expedient for Relieving such parts of the said County as are burthened with the Quartering his Majestys Regular Troops.

An Act to restrain the feeding and burning the Grass and Cutting the Timber on certain Beaches and Islands therein mentioned.

After which the said Acts were published and his Honour the Lieutenant Governor, the Council and the General Assembly being returned into the Council Chamber, His Honour addressing himself to the Speaker of the General Assembly, said

Mr Speaker and Gentlemen of the Assembly,

I intend now to dissolve this General Assembly, not from any distaste of their Proceedings On the contrary I take this Publick Occasion of thanking them, and declaring that I think they have done a Great deal for the service of their King and of their Country, and that you merit the approbation and thanks of your constituents. But as his Majesty's Commands for the operations of the ensuing year against the Enemy, are not yet come over, and probably will not arrive here till near the time when this Assembly must expire by the Limitation of the Septennial Act, in which event, if this Asembly could not during their Continuance go through the Business then to be recommended to them, the Publick service would be delayed and perhaps disappointed.

I have therefore thought fit to dissolve this General Assembly and I do by and with the Advice and Consent of his Majestys Council DISSOLVE this present General Assembly, and they are DISSOLVED accordingly. And I shall immediately seal Writts calling a new one to meet as soon as the Law allows.

His Honour then returned to his Residence.

The Speaker assumed the Chair.

Ordered, that his Honour the Lieutenant Governor Speech be read. And being read accordingly it was

Ordered to be entered in the minutes and is as follows.

Gentlemen of the Council and General Assembly,

I take this Opportunity of our first Meeting to congratulate you on the Success of his Majesty's Forces under the Command of Brigadier General Forbes, who after many Difficulties and Disappointments, oblig'd the Enemy to abandon and destroy Fort Duquesne. An Event which restores a large and extensive Territory to his Majesty's Subjection, and will reestablish and strengthen the British credit in those Parts.

I thought it proper you should meet at this Time, being in daily Expectation of receiving his Majesty's Commands with Regard to the Operations against the Enemy next Season. As these are not yet come, I shall recommend to you, some few Things which appear to me to be for the publick Utility, and to merit your Consideration.

In all trading Places, which are difficult of Access, as this Port is, it is expedient that the Pilots and their Pilotage be regulated by Law. This is now more especially necessary, when his Majesty's Service must lead many of his own Ships, as well as others taken up for his Use, to this Port. You will therefore revive the Law for this Purpose, which expired the first of last Month, with any Additions that may be judged needful.

The Act for impressing Horses, Carriages, &c. to carry on his Majesty's Service in this Province, should be revised and modell'd in such Manner as to make it effectual, and at the same Time to guard against any abuses.

When the Labour of every Subject is so valuable to the publick as it now is, the Liberty of their Persons becomes more immediately the Object of the Legislature. In this View, I recommend to you the preparing a Bill for preventing frivolous and vexatious Arrests, or any other that may answer so salutary an End.

Gentlemen of the General Assembly,

Some Expences have accrued the last Year, for the necessary Defence of the Counties of Ulster and Orange against the Incursions of the Indians, which should be provided for, as also any other Debts of the Government.

Gentlemen of the Council and General Assembly,

Nothing can be a stronger Proof of the Wisdom of a Legislature than providing for the future Security and Prosperity of their Country. I therefore recommend it to you seriously to consider of some Plan, for forming under proper Regulations, strong Settlements on the Frontiers. We have rich and very valuable Lands on the Borders of this Province, and should avail ourselves of the Advantages which may offer at the End of the War, to promote and encourage such Settlements as may be a Barrier to us against the Enemy. We may rely on his Majesty's Countenancing, any well concerted Measure for this Purpose, and have Reason to hope for his royal Aid and Assistance to carry it into Execution. We have severely felt in the Beginning of this War the Effects of former Inattention. Lay therefore, the Foundations of future Security now, when these are fresh in your Memories, to prevent the like evil Effects hereafter.

Gentlemen,

These are the Matters that have occurred to me, as fitting to be recommended to you. Any Bills you shall prepare, will have their due Weight with me, as I can have no Motive to influence my Conduct, but the Duty I owe to the King, and the Service of the Country.

New York 1st February 1759.

JAMES DE LANCEY.

Ordered, that his Honours Speech be forthwith printed.

Mr Chambers then moved that an humble address might be presented by this House to his Honour the Lieutenant Governor in Answer to his Speech.

Which Motion being seconded and agreed to

Resolved, that an humble Address be presented to his Honour accordingly.

Ordered, that Mr Horsmanden Mr Chambers and Mr Watts be a Committee to propose a draft of the said Address and that they do prepare and bring in the same to Morrow Afternoon.

The Council adjourned til to Morrow Afternoon 4 o'clock.

Friday, the 2^d day of February, 1759. P. M.

The Council met according to adjournment.

PRESENT—*The Hon^{ble}* ARCHIBALD KENNEDY, Esq^r, Speaker,

JOHN CHAMBERS,
WILLIAM SMITH,
JOHN WATTS,
WILLIAM WALTON, Esq^r.

The Speaker assumed the Chair.

Mr Chambers from the Committee appointed to prepare the draft of an Address to his Honour the Lieutenant Governor reported that the Committee had prepared a draft thereof which he read in his Place and then delivered the same in at the Table, where it was again read, and being agreed to was

Ordered to be Engrossed.

The Engrossed Address to his Honour the Lieutenant Governor was read and approved of.

Ordered, that the Speaker sign the said engrossed Address.

And the Speaker having signed the said Address

Ordered, that Mr Chambers and Mr Watts do wait on his Honour the Lieutenant Governor and desire to know when he will be pleased to be attended with the humble Address of the Council.

The said Gentlemen being returned Reported that they had waited on his Honour with the said Message and that he had been pleased to say he would receive the Council's Address to Morrow at 12 o'clock at the City Hall.

The Council adjourned till to Morrow twelve o'clock.

Saturday, the third day of February, 1759.

The Speaker and the Gentlemen of the Council retired into another Room to present their Address to his Honour the Lieutenant Governor and being returned

The Speaker resumed the Chair and

Reported that having with the Council attended his Honour the Lieutenant Governor and read and presented to him the Councils Address His Honour had been pleased to return a favourable answer thereto which being read

Ordered, that the said Address and Answer be entered in the Minutes which are as follow.

To the Hon^{ble} JAMES DE LANCEY Esquire his Majesty's Lieutenant Governor and Commander in Chief in and over the Province of New York and the Territories depending thereon in America.

The humble ADDRESS of the Council of the Province of New York.

May it please your Honour,

We his Majesty's most Dutiful and Loyal Subjects the Council of this Province of New York return your Honour our thanks, for your Speech, and heartily rejoice with you on the success of his Majesty's Forces, under the Command of Brigadier General Forbes, at Fort Duquesne, which restores so extensive & valuable a part of his Majesty's Territories (most unjustly Encroach'd upon by the French in the time of profound Peace) and which we doubt not will reestablish the British Credit and Influence in those parts.

We beg leave to assure your Honour, our Endeavours shall not be wanting to forward the several matters recommended in your Speech, and particularly that important concern of

preparing to make strong Settlements on our Frontiers when the war shall End, a matter highly worthy of the Attention of the Legislature, and we doubt not of his Majesty's Gracious Aid in so Salutary a Measure for the Safety and Prosperity of these Colonies.

City of New York
2^d of February 1759.

By order of the Council,
ARCH^d KENNEDY, Speaker.

His Honour THE LIEUTENANT GOV^{rs} Answer.

Gentlemen,

I thank you for this Address and the Assurances you give me of your forwarding the several Matters recommended to you, especially that important one which so nearly concerns the future Prosperity of this Country.

WILLIAM SMITH,

JOHN WATTS,

WILLIAM WALTON.

The Speaker assumed the Chair.

Mr Banyar Deputy Secretary brought to the Council a Message from his Honour the Lieutenant Governor which was read and

Ordered to be entered in the Minutes and is as follows.

Gentlemen,

I have now the Pleasure to acquaint you, that I have received the Commands of our most gracious King, ever attentive to the Wellfare and lasting Prosperity of all his Subjects, relative

to the Operations of the approaching Campaign, by Letter bearing Date the 9th of December, from the Right Honourable Mr Secretary Pitt, signifying that his Majesty having nothing so much at Heart as to improve the great and important Advantages gained last Campaign, as well as to repair the Disappointment at Tionderoga, and by the most vigorous and extensive Efforts to avert, by the Blessing of God, on his Arms, all Dangers which may threaten North America, from any future Irruptions of the French. And that the King not doubting that all his faithful and brave Subjects here, will cheerfully co-operate with and second to the utmost, the large Expence and extraordinary Succours supplied by Great-Britain for their Preservation and Defence: And his Majesty considering that the several Provinces in particular from Proximity and Accessibility of Situation, more immediately obnoxious to the main Irruptions of the Enemy from Canada, are of themselves well able to furnish, at least twenty thousand Men, to join a Body of the British Forces for invading Canada, and carrying War into the Heart of the Enemy's Possessions: And his Majesty not judging it expedient to limit the Zeal and Ardour of any of his Provinces, by making a Repartition of the Force to be raised by each respectively for this most important Service: It is his Majesty's Pleasure that I should forthwith use my utmost Endeavours and Influence with you, to raise with all possible Dispatch within this Government, as large a Body of Men as you did the last Year, and even as many more as the Number of its Inhabitants may allow; to be formed into Regiments, and to hold themselves in Readiness as early as may be, to march to the Rendezvous which his Majesty's Commander in Chief in North-America shall appoint, in order to proceed from thence in Conjunction with a Body of the King's British Forces and under the supreme Command of his Majesty's Commander in Chief in America, so as to be in a Situation, to begin the Operations of the Campaign as soon as possible, by attempting to make an Irruption into Canada, in such Way and according to such Circumstances as his Majesty's Commander in Chief shall judge most effectual; And the better to facilitate this important Service, the King is pleased to leave it to me to issue Commissions to such Gentlemen of this Province as I shall judge from their Weight and Credit with the People, and their Zeal for the publick Service, may be best disposed and able to quicken and effectuate it; the whole Forces, when joined, to be under a due Subordination to his Majesty's Commander in Chief: And all Officers as high as Colonels, inclusive, for their Encouragement, are to have rank according to their several respective Commissions, agreeable to the Regulations contained in his Majesty's Warrant of the 30th of December, 1757.

The King is also pleased to furnish all the Men so raised, with Arms, Ammunition and Tents, as well as to order Provisions to be issued to them by his Majesty's Commissaries, in the same Proportion and Manner, as is done to the rest of the King's Forces. A sufficient Train of Artillery will be provided for the Operations of the Campaign. Boats and Vessels necessary for the Transportation of the Army on this Expedition, will also be provided at the King's Charge. The whole therefore that his Majesty expects, and requires from the several Provinces, is the levying, cloathing and paying of the Men: And on those Heads also, that no Encouragement may be wanting to this great and salutary Attempt, the King is further most graciously pleased to permit the Right Honourable Mr. Secretary Pitt to acquaint me, that strong Recommendations will be made to Parliament, in their Session next Year, to grant a proper Compensation for such Expences as above, according as the active Vigour and strenuous Efforts of the respective Provinces, shall justly appear to merit.

I am also to inform you, that similar Orders are sent by the same Conveyance, to New-Hampshire, Massachusetts Bay, Rhode Island, Connecticut and New Jersey. The Southern Governments are also directed to raise Men in the same Manner, to be employed in such offensive Operations, as the Circumstances and Situation of the Enemies Posts in those Parts may point out, which it is hoped, will oblige them to divide their Attention and Forces, as will render the several Attempts more easy and successful.

Gentlemen,

This is what I had to lay before you by his Majesty's Command; and can any Thing animate your Zeal, on this important Occasion more than the Consideration that the large Expence and extraordinary Succours of your Mother Country have nothing else for their Object, than to avert all Dangers that may threaten you from any future Attempts of the French? You will therefore, with Alacrity second, to the utmost, Measures calculated for your own Defence and Preservation.

The King is carrying on a War in Europe to maintain the protestant Religion, and defend the common Cause of Liberty and Independency. In which he is cheerfully and vigourously supported by the united Voice of his People, manifested in the Addresses of the Lords and Commons. Let the same Spirit which actuates them, animate you, that we may proceed with the utmost Application and Dispatch in this urgent and decisive Crisis: I do therefore, most earnestly recommend to you, that you will immediately set about this necessary Work, and come to speedy and vigorous Resolutions, that there may be no delay on our Parts, and that the Forces of this Province may be ready to attend his Majesty's Commander in Chief, whenever he shall begin his Operations.

The Success of his Majesty's Arms by the Blessing of God in the Reduction of the strong Fortress of Louisburgh, under the Conduct of his Excellency General Amherst, I look upon as a happy Presage, by the same divine Blessing of future Success under his Direction: may you then, and the other Northern Colonies, so strengthen his Hands, as to enable him to remove the Enemy at such a Distance, that we may never hereafter dread their Attempts or cruel Irruptions.

Gentlemen,

I am sensible of your Loyalty and Duty to his Majesty, and am persuaded you will give Proofs thereof at this Crisis.

I send you a Copy of General Amherst's Letter to me, of the 16th Instant.

City of New York
19th February 1759.

JOHN CHAMBERS,
WILLIAM SMITH,
WILLIAM WALTON,
JOSIAH MARTIN.

The Speaker assumed the Chair.

Mr Banyar Deputy Secretary brought to the Council a Message from his Honour the Lieutenant Governor and the Message and the Extract of the Letter therein referred to, being read, It is

Ordered, that the said Message be entered in the Minutes which is in these words following

Gentlemen,

Having on the 14th Instant, received a Letter from his Excellency General Amherst, bearing Date the 8th, relating to the King's immediate Service, and which could not admit of any Delay, I resolved to call you together as soon as possible, though at an unusual, and perhaps inconvenient Season of the Year.

I herewith send you an Extract of the Generals Letter, whereby you will perceive that the Contractors Agent not being able to supply the Sums of Money necessary to answer the large Demands made for carrying on his Majesty's Service, the General was compelled in this Situation, that his Operations and the Success of his Majesty's Arms might not be retarded, to apply for a Loan of one hundred and fifty thousand pounds, New York Currency, in Bills of the Province, redeemable in twelve Months after their Date, by the Moneys arising from Bills of Exchange to be drawn by Mr Mortier, Deputy Pay-Master General.

As the Distress the Service is in for want of Money, and the Incapacity of the Contractors Agents to remove the same, sufficiently evinces and warrants the Necessity of the Generals having Recourse to this Method, so was it a sufficient Reason for my calling you together so suddenly: And I did it in a full Assurance, that you would cheerfully embrace this Opportunity of giving a fresh Proof of your Loyalty to the King and Zeal for his Service.

I am so fully persuaded of your readily coming into the Loan proposed, and in such a Manner, as no Advantage be taken of these pressing Wants which call for the speediest Supply, that I think it needless to urge any other Arguments to induce you to it.

JAMES DE LANCEY.

Mr Banyar Deputy Secretary brought to the Council a Message from his Honour the Lieutenant Governor, which being read. It is

Ordered, that the said Message be entered in the Minutes which is as follows

Gentlemen,

His Excellency Major General Amherst, having made several very important and valuable Acquisitions from the Enemy, and being determined to take such Measures as shall effectually ensure the Advantages of this Campaign by building Forts in proper Places, and thereby putting it out of the Enemy's Power to regain any of their late Losses; and foreseeing that it was more than probable, that such of the Provincial Forces, as are by their Legislatures provided for only to the first of November, could not be discharged soon enough to be at their respective Homes by that Time, without quitting the essential Works they were employed in, hath for these Reasons, made a general Application to such of the Colonies as had provided for the Pay of their Troops only to that Time, to make a further Provision for them.

In Consequence of this Application, I have called you together now, principally for this Purpose.

The General's Proposal is so reasonable, his Measures so well calculated for his Majesty's Service, the present Safety, and lasting Security of this and the other Colonies, that I cannot, in

Duty to the King, and in Regard to your future Prosperity, omit most earnestly recommending it to you, that you would immediately enable me to comply with the General's Request, by making Provision for the Pay of the Troops for one Month longer, and for a Supply of such Necessaries for the Men, as the Season may require, to encourage them to continue in the Service with Alacrity.

I need not tell you that this demands Dispatch.

Gentlemen,

You must be sensible, that the Enemy have had but very small Supplies of provisions this year from France, and that most of the Men in Canada having been in Arms this Summer, their Crops must have suffered greatly. In this pressing Situation, it cannot be doubted but that they will use their utmost Efforts to repossess themselves of their strong Holds, if it were only with a Prospect of getting subsistence from our Magazines: but if they know that there are respectable Forts to oppose them, and find that the Works are completed, they must lay aside all such Attempts as fruitless and vain.

The General has wrote to me that he would be sorry to expose the Troops to any unavoidable Hardships, and that he will not keep them a Moment longer than the abovementioned Services absolutely require, and I can depend on it he will not.

Gentlemen,

This Province has given many instances of its Zeal for his Majesty's Service: You will add this fresh one, more especially, as the Interest of these Countries is so nearly concerned in this Measure, and it would be unbecoming you to shew the least Backwardness on this Occasion.

I am to acquaint you, that the General has ordered Forty Thousand Pounds Sterling, to be paid into the Treasury in discharge of so much of the Loan, and I am to assure you from him that the Residue shall be punctually repaid within the Time limited.

The General Assembly having by Proclamation on the 18th day of October last been adjourned from the first day of November (to which day they stood adjourned) until Tuesday the fourth day of December Instant to meet at the House of Teunis Somerendyck in the Outward of the City of New York.

The Council met accordingly.

PRESENT — *The Hon^{ble}* ARCHIBALD KENNEDY, Esq^r, Speaker

DANIEL HORSMANDEN,
JOHN CHAMBERS,
JOHN WATTS,
WILLIAM WALTON, Esq^{rs}.

The Speaker assumed the Chair.

The Council adjourned till Thursday next 3 o'clock P^t Meridiem.

Thursday, the sixth day of December, 1759.

The Council met according to adjournment.

PRESENT — *The Hon^{ble}* ARCHIBALD KENNEDY, Esq^r, Speaker,

DANIEL HORSMANDEN,
JOHN CHAMBERS,
JOHN WATTS,
WILLIAM WALTON, Esq^{rs}.

The Speaker assumed the Chair.

His Honour the Lieutenant Governor having signified to the Council that he proposed to make a Speech to the Council and Assembly this Afternoon at his Residence, the Council therefore proceeded thither accordingly, where being met, His Honour the Lieutenant Governor sent a Message by the Deputy Secretary requiring the immediate attendance of the General Assembly and they attending accordingly.

His Honour was then pleased to make a speech to the Council and General Assembly and to deliver one copy thereof to the Speaker of the Council and another copy to the Speaker of the General Assembly And then the Council returned to the council chamber, where being met

The Speaker resumed the Chair and

Reported that his Honour the Lieutenant Governor had been pleased to make a Speech to the Council and General Assembly, of which his Honour had delivered to him a Copy, which he delivered in at the Table.

Ordered, that his Honour the Lieutenant Governors Speech be read.

And the Speech being read

Ordered, that the same be entered in the Minutes which is as follows

Gentlemen of the Council and General Assembly,

It is with the highest Satisfaction I take this Opportunity to congratulate you on the many great Successes of his Majesty's Arms this Year, both in Europe and America.

The signal and memorable Victory obtained over the French Army near Minden: The Defeat of the French Fleet on the Coast of Algarve: The Conquest of Guadalupe: The driving the French from their strong holds at Ticonderoga, and Crown Point, whence these Countries have been so greatly annoyed, and effectually securing the Possession of them: The Defeat of their Army coming to the Relief of Niagara, and the Reduction of the Fort at that important Pass: And lastly, the glorious Victory gained by General Wolfe over the Enemy on the Plains of Abraham near Quebec, with the Surrender of that City, the Metropolis of Canada; are Events which add fresh Lustre to the Reign of the best of Kings; redound highly in the Glory of his Majesty's Arms, disappoint the intended Insult of the Enemy on his Kingdom and Dominions, and open to these Colonies a favourable Prospect of future Security.

On my transmitting to his Excellency General Amherst a Copy of the Act, granting, in the most disinterested Manner, a Loan of £150,000 for carrying on his Majesty's Service, he desired me to signify to you the true Sense he has of your Loyalty to the King and your Zeal for his Service, in so readily and cheerfully contributing towards it, by your Compliance with his Request, and that he will not fail to represent your Conduct on this Occasion to his Majesty's Ministers, in that just Light it deserves.

Gentlemen of the General Assembly,

I must recommend to you the making Provision for the Support of the Officers of the Government: Amongst these, for another Judge of the Supreme Court; an Officer whom the Course of Justice obliged me to appoint. At the same Time you will, agreeable to your Resolution at the last Meeting, provide for the further Pay of the Regiment raised in this Province, and for the Encouragement voted the Men for continuing in the Service, beyond the Time at first intended.

Gentlemen of the Council and General Assembly,

The Stamp Duty may be regulated in such a Manner as to produce annually a much larger Sum than it does at present, without any heavy Burthen on the Subject: This merits your Consideration: as does also, the excessive Consumption of spirituous Liquors, of which the Publick may justly avail itself by an Augmentation of the Excise. And here it may be proper to point out to you, a Defect in the Act against private Lotteries, for though the Law be sufficient to restrain them in this Government, yet it seems to fall short of the End proposed, as it leaves this, a Mart for the Lotteries set on Foot in other Provinces.

The Laws necessary to be continued or revived, or any others which you shall frame for his Majesty's Service and the Benefit of the Province, will meet with my ready Assent.

City of New York

JAMES DE LANCEY.

6th of December 1759.

Ordered, that his Honour the Lieutenant Governors Speech be forthwith printed.

Mr Horsmanden then moved that the Council should present an Humble Address to his Honour to return him their Heartly thanks for his Speech, and to join in congratulation, for the many great and signal Successes of his Majesty's Arms this year both in Europe and America.

To Express their Satisfaction touching the favourable Impressions His Excellency General Amherst has conceived of the Legislature for their ready Compliance with his Request of a Loan of £150,000 necessary at that critical conjuncture for advancing his Majesty's Service.

And to assure his Honour of the Councils ready Concurrence on all Occasions, with every Measure for advancing his Majesty's Service and the Interest and Prosperity of the Province.

Which motion being seconded and agreed to

Resolved, that an humble Address be presented to his Honour the Lieutenant Governor accordingly.

Ordered, that Mr Horsmanden Mr Chambers and Mr Watts be a Committee to prepare a Draft of the said Address and that they do prepare and bring in the same to morrow afternoon.

The Council adjourned till to Morrow Afternoon 3 o'clock.

JOHN CHAMBERS,

WILLIAM SMITH,

JOHN WATTS, Esq^r.

The Speaker assumed the Chair.

M^r Banyar Deputy Secretary brought to the House a Message from his Honour the Lieutenant Governor which being read was

Ordered to be entered in the Minutes and is as follows

Gentlemen,

It was with the highest Satisfaction, I took the Opportunity at our last Meeting, in December, 1759, to congratulate you, on the many and great Successes of his Majesty's Arms by Sea and Land, both in Europe and America, during the Course of that Year.

I do now again with equal Pleasure, congratulate you on the further Success of his Majesty's Arms at Sea in that ever memorable Year, an Account of which had not reached us when we were last together; I mean the glorious Victory gained by his Majesty's Fleet under Sir Edward Hawke, over the French Fleet on the Coast of France, whereby that grand Armament destined to convoy the Troops designed for an Attempt on Great Britain or Ireland, was destroyed or dispersed and the Enemies Projects to invade his Majesty's Kingdoms totally disappointed and defeated.

On the 20th of last Month, I had the Honour of a Letter from the Right Hon. Mr. Secretary Pitt, bearing Date, the seventh of January, one thousand seven hundred and sixty, signifying that his Majesty, having nothing so much at Heart, as to improve the great and important Advantages gained the last Campaign in North-America, and not doubting that all his faithful and brave Subjects there will continue most cheerfully to co-operate with, and second to the utmost, the large Expences and extraordinary Succours supplied by Great-Britain for their Preservation and future Security by compleating the Reduction of all Canada; and that his Majesty not judging it expedient to limit the Zeal and Ardour of any of his Provinces, by making a Repartition of the Forces to be raised by each respectively for this most important Service; it is the King's Pleasure that I do forthwith use my utmost Endeavours and Influence to induce you to raise, with all possible Dispatch, within this Government, at least as large a Body of Men as you did for the last Campaign, and even as many more as the Number of its Inhabitants may allow, to be formed into Regiments, and to hold themselves in Readyness as early as may be, to march to the Rendezvous at Albany, or such other Place as his Majesty's Commander in Chief in America shall appoint, in order to proceed from thence, in Conjunction with a Body of the Kings British Forces and under the supreme Command of his Majesty's said Commander in Chief in America, so as to be in a Situation to begin the Operations of the Campaign, as soon as shall be any Way practicable by an irruption into Canada, in order to reduce Montreal and all other Posts belonging to the French, in those Parts, and further to annoy the Enemy in such Manner, as his Majesty's Commander in Chief shall from his Knowledge of the Countries through which the War is to be carried on and from emergent Circumstances, judge to be practicable. And the better to facilitate that important Service, his Majesty is pleased to leave it to me, to issue Commissions to such Gentlemen of this Province, as I shall judge from their Weight and Credit with the People, and their Zeal for the Publick Service may be best disposed and able to quicken and effectuate the speedy Levying the greatest Number of Men, and all Officers of the Provincial Forces as high as Colonels inclusive are to have Rank according to their several respective Commissions, agreeably to the Regulations contained in his Majesty's Warrant of the 30th December, 1757.

The King is further pleased to furnish all the Men so raised with Arms Ammunition and Tents, as well as to order Provisions to be issued to them by his Majesty's Commissaries in the same Proportion and Manner as is done to the Rest of the King's Forces.

A sufficient Train of Artillery will also be provided at his Majesty's Expence for the Operations of the Campaign.

Boats and Vessels necessary for the Transportation of the Army on this Expedition will also be provided at the Kings Charge.

The whole therefore, that his Majesty expects and requires from the several Provinces, is, the Levying, Cloathing and Pay of the Men, and on these Heads also, that no Encouragement may be wanting to this great and salutary Attempt, the King is farther most graciously pleased to permit the Right Honourable M^r Secretary Pitt to acquaint me that strong Recommendations will be made to Parliament in their Session next Year, to grant proper Compensation for such

Expences as above, according as the active Vigour and strenuous Efforts of the respective Provinces shall justly appear to merit.

I am also to inform you, that similar Orders are sent to New-Hampshire, Massachusetts-bay, Rhode Island, Connecticut and New Jersey. The Southern Governments are also directed to raise Men in the same Manner, to be employed in such offensive Operation as the Circumstances and Situation of the Enemy's Posts in those Parts may point out; which it is hoped will oblige them so to divide their Attention and Forces, as may render the several Attempts more easy and successful.

Gentlemen,

I have now lay'd before you, what his Majesty expects from this Province. The Confidence the King places in his brave and faithful Subjects here, the large Expence and extraordinary Succours supplied by our Mother Country, his Majesty's most gracious Intentions that strong Recommendations shall be made to Parliament next Year to grant a proper Compensation for the Expences of these Provinces according as their active Vigour and strenuous Efforts respectively shall justly appear to merit; and lastly, the many and signal Successes which have reduced Canada within narrow Bounds and may be considered as happy Omens with the divine Blessing of future Success are such strong and cogent Motives that it seems unnecessary for me to add any Thing to them to animate your Zeal and excite you to the fulfilling of his Majesty's just Expectations from you on this great Occasion; the completing the Reduction of all Canada.

Gentlemen,

You must be so fully sensible that the Safety and Welfare of America and of this Province in Particular, are so nearly concerned in this Event, that I cannot entertain the least doubt, but that you will proceed with the utmost Application and Dispatch in this promising and decisive Crisis and by speedy and vigorous Resolutions enable me to have the Troops of this Province in Readiness to attend the Commander in Chief as early as it shall be practicable for him to begin his operations.

This is what I most earnestly recommend to you as being for the Honour, Credit and Advantage of the Province and what I have Reason to look for from your Loyalty and Zeal for the King's Service and your Regard for the lasting Peace and Prosperity of North America

Gentlemen,

I send you a Copy of his Excellency Governor Pownall's Letter to me setting forth, the Terrible Waste made by Fire in the Town of Boston, on the 20th of March last, whereby upwards of Two Hundred Families were turned out of Doors; the greatest Part of whom are by this Misfortune rendered incapable of subsisting themselves without the charitable Assistance of others.

I am perswaded your Hearts will be touched with Pity for the unhappy Sufferers, and that you will readily contribute to their Relief. Their Distresses are so great as to call for publick Succour from their fellow subjects. I earnestly recommend their deplorable Case to your Compassion.

I also recommend the making Provision for discharging the several Demands on the Province and am to acquaint you that the whole of the £150,000 lent last Year by this Province, for carrying on his Majesty's Service, is, by his Excellency General Amherst's Order, repaid into the Treasury.

ORIGINAL ARTICLES

THE EFFECT OF VITAMIN C ON THE BLOOD SUGAR LEVEL

BY
J. H. HARRIS, M.D.
AND
J. H. HARRIS, JR., M.D.

From the Department of Medicine, University of California, Los Angeles, California.

The effect of vitamin C on the blood sugar level has been studied by a number of investigators. In 1928, Harris and Harris¹ reported that the administration of large doses of vitamin C to normal subjects resulted in a decrease in the blood sugar level. This effect was more pronounced in subjects who were fasting than in those who had eaten a meal. In 1930, Harris and Harris² reported that the administration of large doses of vitamin C to subjects with diabetes mellitus resulted in a decrease in the blood sugar level. This effect was more pronounced in subjects who were fasting than in those who had eaten a meal.

The purpose of the present study was to determine the effect of vitamin C on the blood sugar level in normal subjects and in subjects with diabetes mellitus. The study was conducted in two parts. In the first part, the effect of vitamin C on the blood sugar level was studied in normal subjects. In the second part, the effect of vitamin C on the blood sugar level was studied in subjects with diabetes mellitus.

The subjects in the first part of the study were 10 normal subjects. The subjects in the second part of the study were 10 subjects with diabetes mellitus. The subjects in the first part of the study were given a fasting blood sugar test. The subjects in the second part of the study were given a fasting blood sugar test and a blood sugar test after a meal.

The results of the study are shown in the following table. The table shows the blood sugar level before and after the administration of vitamin C. The table also shows the effect of a meal on the blood sugar level in subjects with diabetes mellitus.

The results of the study show that the administration of large doses of vitamin C to normal subjects results in a decrease in the blood sugar level. This effect is more pronounced in subjects who are fasting than in those who have eaten a meal. The results also show that the administration of large doses of vitamin C to subjects with diabetes mellitus results in a decrease in the blood sugar level. This effect is more pronounced in subjects who are fasting than in those who have eaten a meal.

The Speaker resumed the Chair.

Ordered, that His Honour the Presidents Speech be read.

Then the Speech was read and

Ordered to be entered in the Minutes and is as follows.

Gentlemen of the Council and General Assembly,

You have had time to feel the heavy Loss this Province hath sustained by the Death of the Lieutenant Governor—a Gentleman, whose extensive Accomplishments, qualified him in a superior Degree, for the Duties of his Station.

Sensible of my own Inability, I should with the greatest Reluctance have assumed the Reins of Government at my advanced Age, had I not reposed an intire Confidence in your Readiness to advise and support me in every Measure for the publick Good, and that all Deficiencies on my Part would be made up by your Assistance.

I am happy in congratulating you on the glorious Success of his Majesty's Arms, under the Conduct of his Excellency General Amherst, which has compleated the Conquest of the whole Country of Canada. It does the highest Honour to the General's Reputation, that he has put a Period to an Enterprize of such Moment, with so little Effusion of human Blood: and the Clemency with which he has on this Occasion treated the vanquished, furnishes a striking Proof of the different Disposition of the two Nations. The French for many years past, meditating the Ruin of these Colonies, have not scrupled to encourage in the Savages their Allies, a Spirit of the most brutal Inhumanity. No sooner had the English recovered an Influence over their Indians, than they made it their principal Care to restrain them from every Act of Cruelty, generously imploying that Authority to the Preservation of the French, which in their Hands, had been used to such destructive purposes towards the Subjects of the British Nation.

Freed from the Calamities which so lately surrounded us, we have now before us the pleasing Prospect of enjoying in full Security, our religious and civil Rights. With the deepest Sense of the divine Goodness, great must be the Duty we owe to the best of Kings, by whose paternal Care and Munificence, such eminent Advantages have been procured for his People, while we have every Motive that can inspire us with Sentiments of Love and Gratitude to our Mother Country, whose Treasure, and the Blood of whose Heroes, have been so liberally expended in this Contest. We can indeed reflect with Satisfaction, that our utmost Endeavours have been exerted on all Occasions for the Advancement of the common Cause, But great as our Efforts have been compared to our Abilities, without the powerfull Aids we have received, they must have proved ineffectual even for our Defence.

Gentlemen of the General Assembly,

At present I have nothing in particular to recommend to you, but a Provision for the Support of his Majesty's Government.

Gentlemen of the Council and General Assembly,

I have every Inducement that can excite a Lover of his Country, to study and promote its Prosperity. And it will give me the greatest Pleasure to concur with you, in whatever may be thought necessary for this End, as far as is consistent with the Powers devolved on me by this casual Accession to the Administration.

Fort George New York
22 October 1760.

CADWALLADER COLDEN.

Ordered, that His Honour the President's Speech be forthwith printed.

Mr Horsmanden then moved that an humble Address might be presented by this House to his Honour the President in answer to his Speech.

Which motion being seconded and agreed to

Resolved, that an humble Address be presented by this House accordingly.

Ordered, that Mr Horsmanden Mr Chambers and Mr Smith be and they are hereby appointed a Committee to prepare the draft of the said Address, and that they lay the same before this House with all convenient speed.

The Council adjourned till Monday morning 11 o Clock

Monday, the 27th day of October, 1760. A. M.

PRESENT— *The Hon^{ble}* ARCHIBALD KENNEDY, Esq^r, Speaker,

DANIEL HORSMANDEN,
JOHN CHAMBERS,
WILLIAM SMITH,
JOHN WATTS, Esq^r.

The Speaker assumed the Chair.

Mr Horsmanden from the Committee appointed to prepare the draft of an humble Address to his honour the President, Reported that the Committee had prepared a draft of the said Address, which he read in his place, and then delivered the same in at the Table, where the same was again read, and being amended was agreed to and

Ordered to be engrossed.

The Engrossed Address to his Honour the President was read and approved of

Ordered, that the Speaker do sign the said Address who having signed the same.

Ordered, that Mr Chambers and Mr Smith do wait on his Honour the President, and desire to know when he will be pleased to be attended by this House with their Address.

The said Gentlemen being returned, reported that they had waited on his Honour the President, and delivered the said Message, and that he was pleased to say he would receive the Councils Address to morrow morning at 11 o clock in the Council Chamber in Fort George.

The Council adjourned till to Morrow Morning 11 o clock.

Tuesday, the 28th day of October, 1760. A. M.

The Council met according to adjournment.

PRESENT — *The Hon^{ble}* ARCHIBALD KENNEDY, Esquire, Speaker,

DANIEL HORSMANDEN,
JOHN CHAMBERS,
WILLIAM SMITH,
JOHN WATTS, Esq^r.

The Speaker assumed the Chair.

The Speaker left the Chair and with

The Council went to Fort George to present the Humble Address of this House to his Honour the President, and being returned.

The Speaker resumed the Chair and

Reported that having with the Council, attended his Honour the President, and read and presented to him the humble Address of this House.

His Honour had been pleased to return a favourable Answer thereto, which he delivered in at the Table where the same was read.

Ordered, that the said Address and Answer be entered in the Minutes of this House which are as follow

To the Hon^{ble} CADWALLADER COLDEN Esquire President of his Majesty's Council, and Commander in Chief of the Province of New York and the Territories depending thereon in America.

The Humble ADDRESS of the Council of the Province of New York.

May it please your Honour

We His Majesty's most dutiful and Loyal Subjects, the Council for the Province of New York, return you our hearty thanks for your Speech.

Under a deep Resentment of the loss the Publick has sustained, by the Death of the Late Lieutenant Governor, we cannot but concur with your Honour in paying that Tribute to his Memory which his Merit so justly deserved.

Diffident as you are Sir of your own abilities, yet from your long experience, and intimate acquaintance with Publick Business; we are well perswaded of your Sufficiency for the discharge of the Duties of the important Station you have the Honour to sustain: And the Assistance you are pleased to expect from us, we esteem no more than our bounden duty to his Majesty and the Publick Weal of the Province, to which we shall always most Chearfully contribute.

Warmed with a grateful sense of the Divine Godness to Great Britain, and these Colonies, we return your Honour our hearty congratulations, on the most Glorious Success of his Majesty's Arms. His Excellency General Amherst has indeed compleated the Conquest of the whole Country of Canada. An Event in its Nature of the utmost Importance, and from Difficulties seemingly insuperable, till of Late rather the object of our wishes than Expectation.

It gives us the highest pleasure, that an Enterprise of such moment, has been effected with so little Effusion of human Blood. Herein the General has done honour to Great Britain and poured shame upon our Enemies, who on their part have conducted this War, in many instances, with the most brutal Inhumanity, And at the same time have had the Insolence to attribute those Cruelties to the Savages, which were effected by their own Instigation. The General has now given an incontestible Proof to our Enemies, that the Savage Disposition of the Indian Natives, is capable of Restraint The Clemency shewn towards a vanquish'd People considering their Demerits must ever redound to the Honour of his Majesty's Arms, and, transmit that Glory to Posterity, which we trust will never be eclipsed.

After the dire Calamities so lately surrounding us, there opens to us the most pleasing Prospect of enjoying our Religious and Civil Rights, in full security. Melancholy was our case through a series of sad events, from the commencement of the War til the Reduction of Louisburg, at which period our desponding hopes reviv'd and were afterwards reanimated by the glorious acquisition of the Capital of Canada.

With most grateful hearts we acknowledge the Divine favour in the Happy turn of our Affairs, professing our unalienable duty to the best of Kings for his Paternal Care and

Munificence, who by the wisdom of his Councils, has been the Instrument in the Hands of Providence, whereby such eminent advantages have been acquired, not only to his American, but European Subjects. Advantages inestimable, considered in all possible views. May his Majesty's Virtues, His Crown and Dominions, be transmitted to his Royal Posterity, till time shall be no more.

We feel every motive that can inspire us with sentiments of Love and Gratitude to our Mother Country, whose Treasures have been so liberally expended in this Contest, and the Blood of whose Heroes have been nobly shed in this most Just and interesting Cause.

That we have exerted our utmost strength under the weakness of our Infant State for the advancement of the Common Cause, we reflect upon with great Satisfaction. But it is very Evident that our utmost Endeavours would have proved ineffectual even for our own defence, without the powerfull aid which his Majesty has been graciously pleased to afford.

Happy will the Condition of these Colonies be if the advantages acquired by the present War are retained at the Conclusion of it. Dangerous and precarious must their Situation be, if in the Event they again Fall into the hands of such an enterprising perfidious Enemy.

Convinced, Sir, of your regard for this Country, we doubt not you will make its prosperity your Study, and we beg leave to assure you, that nothing shall be wanting on our Part, conducive to this End, or to your own ease in the Course of your Administration.

By order of the Council
ARCH KENNEDY Speaker.

Council Chamber
New York 28th October 1760.

His Honour the PRESIDENTS Answer.

Gentlemen,

I Return you my Thanks for this obliging Address, and the opinion you entertain of my Regard for this Country.

The Conduct of his Majestys Council, has on all occasions been such as must approve them to our gracious Sovereign.

While I am so happy as to retain your favourable Sentiments I flatter myself that with the assistance I shall always rely on having from you, my administration will contribute to his Majesty's Service, and the Prosperity of the Province, which cannot fail of making it perfectly agreeable and easy to my self.
